CIRCULAR.

OOTACAMUND, 4TH JULY 1873.

Frequent representations having of late been made to Government by inhabitants residing in the Provinces that they have learnt that it is in contemplation to extend the Towns' Improvement Act III. of 1871 to their villages, and praying that it may not be so extended, the Governor in Council fears that rumours to this effect may be purposely set afloat by designing persons in view to extorting money on pretence of averting the extension of the Act. He resolves, therefore, to draw the attention of the Collectors of the several Districts to the subject in view to their taking steps personally, as opportunities offer, and through their Divisional Officers, to disabuse the people in their respective districts of the idea that any such step is contemplated.
