Yes: and we must have a full report of the proposed Educational arrangements & financial—so as to see what attendance may be expected—at what cost we shall be educating—and how many villages Schools will provide for.

Victoria has an average attendance of 400 each—5-3 expensive central schools. Cannot ever pretend to have a Spirit of this kind & can not attend & extend the general taxation over the whole of the school districts of Victoria

The Victoria school Board object & object to any limited number but this can never be passed during which we can defray 40 cts in $ 46 or 42 of education

year for elementary education (to
meet the deficiency caused by the
abolition of the home-tax) would be
join of in future in cases where
it had been clearly made out that
the Budget was not in a condition
to provide for the expenses. Perhaps
this cannot be used of Chancellors
but we ought to be clear on the
point.

If I understand the Irish
rights - he will not spend the

proposed amount, or any amount
at all, upon elementary
education in any local circle,
unless he could educate all, of the
particular, or with it
any large proportion, of the children
in the Circle - This seems simply
that we are not to aim
and ought never to have grains
at any primary instruction at all in
this country. For it is quite certain
that we must begin by educating a
small minority, - in the case of gradual
extension - I need hardly say that

compulsory upon the Irish people being [illegible]

already submitted, should be adhered to
The Board resolve to inform the Presid
accordingly.
