89-91		
Dated	8-7-	1874.

87/88

Not to be folded or roughly handled

Proceedings of the Madras Government, Financial Department,
8th July 1874.

Read the following papers :—

No. 89. From J. F. SNAITH, Esq., Acting Principal Assistant Collector in charge of the District, Vizagapatam, to the Hon. D. F. CARMICHAEL, Acting Chief Secretary to Government, Fort St. George, dated Vizagapatam, 2nd May 1874, No. 654 :—

I have the honor to forward the annual reports of the Municipalities of Vizagapatam, Bimlipatam, Vizianagram, and Palcondah for 1873-74, together with the annual accounts, Auditors' reports, and the statements showing the incidence of taxation prescribed in G.O., dated the 12th June 1873, No. 822.

2. VIZAGAPATAM.—The balance at the beginning of the year was Rupees 1,378-5-3, the receipts during the year amounted to Rupees 26,706-2-11, making in all a total of Rupees 28,084-8-2.

3. The expenditure was Rupees 23,921-7-4, leaving Rupees 4,163-0-10 in hand at the end of the year.

4. The receipts show a net increase of Rupees 2,236-2-11, which is explained in the Commissioners' report to be from the sale of the lands and market-tolls.

5. In expenditure there is a net decrease of Rupees 338-8-8 in the present as compared with the former year. The principal works executed are—

		Cost		
		RS.	A.	P.
1.	Sinking Wells at Waltair	431	4	0
2.	Rebuilding East Wing, Commercial Shed	472	6	6
3.	Constructing Bridge across Nullah at Allipuram ...	596	2	2
4.	Constructing Wall of Native Burial-ground	395	14	4
5.	Constructing Drains of 343 yards	371	9	4

The sanitation of the town has been much improved by works Nos. 1, 4, and 5.

6. The public health of the town has been good. In the number of deaths registered there is a decrease of 431. There has been no cholera, and fever was less prevalent than in the previous year. A general decrease appears under all heads except small-pox which prevailed to a great extent during last year. There were 204 deaths against eighteen in the previous year.

The usual staff of vaccinators have done good work, and vaccinated 1,264 persons, of which 1,232 cases proved successful. The number vaccinated in 1872-73 was 1,222. The Civil Surgeon's report on the Dispensary is enclosed.

7. With reference to the unsatisfactory state of the Native Burial-grounds in the suburban villages, and the Commissioners' suggestion to enclose them, inquiries will be made, and the necessary measures adopted.

8. BIMLIPATAM.—The year opened with a balance of Rupees 6-3-6. The receipts amounted to Rupees 10,320-14-11, making in all Rupees 10,327-2-5, or Rupees 927-2-5 in excess of the estimate. The Tolls realized 1,075 Rupees more than what was anticipated, and caused the increase. The decrease in other items calls for no remark.

9. The expenditure amounted to Rupees 10,012-6-4, against Rupees 9,400 the estimated amount. The increase in the expenditure occurs in New Works and Repairs, consisting of—

	Rs.	A.	P.	
1,937 yards of Drains, costing	2,157	11	0	and
Roads	1,642	12	2	and
Repairs to Roads	1,444	3	2.	
Drains	29	14	10,	
Buildings	46	10	11,	and
One Well...	27	0	0.	

10. The public health has, on the whole, been good. The number of births slightly increased, while that of deaths slightly decreased, being 273 and 232 against 267 and 286 in the previous year.

The Dispensary continues under private management, but was lately recommended to be made over to the Municipality. This has not yet been done. The Medical Officer's report will be sent as soon as received.

11. Vizianagram.—The opening balance of the year was Rupees 182-0-2, to which adding Rupees 13,073-3-8, the receipts realized during the year, the assets amounted to Rupees 13,255-3-10. This was Rupees 425-3-10 in excess of the estimated amount, and is due chiefly to the increased receipts from Tax on Vehicles and Tolls.

12. The available assets were fully utilized, leaving only a balance of 4 Pies. The increased expenditure is on Sanitary and Miscellaneous New Works. The principal works executed during the year are—

		Rs.	A.	P.
1.	Roads, costing...	1,161	6	2
2.	Under-ground Tunnels and Bridges ...	1,819	11	5
3.	Parapet Walls...	323	15	2
4.	Culverts and Drains	387	6	0

13. The public health has on the whole been good, notwithstanding an increase of eighty-three in the number of deaths. In births there has been an increase of 361, being 565 against 204 in the previous year.

14. Palcondah.—The balance brought forward was Rupees 2,474-14-6. The receipts amounted to Rupees 8,356-12-6, making a total of Rupees 10,831-11-0. The estimated receipts were Rupees 7,730. The increase was in Tolls which fetched Rupees 5,325, or Rupees 1,325 more than the amount anticipated.

15. The expenditure was Rupees 8,582-5-4, against Rupees 7,674 estimated. The increase occurs in Communications and Repairs. The expenditure incurred is—

	Rs.	A.	P.	
On Buildings...	844	1	2,	
On Roads	3,143	6	7,	and
On Drains	246	4	7,	

Proceedings of the Madras Government, Financial Department,
8th July 1874.

16. The public health has been good. The report* on the Civil Dispensary under the management of the Municipality is enclosed.

* The Commissioners' report and incidence of taxation will be sent as soon as they are received.

17. This Municipality has for sometime been working very unsatisfactorily, and, on the recommendation of the President, the Government were pleased in their Order, No. 1884, dated the 26th December 1873, to direct its abolition from the 1st April 1874, and its amalgamation with the Local Fund Circle of Vizagapatam.

18. In all Municipalities, except Palcondah, the Act has worked satisfactorily.

No. 90. From J. HARDEN, Esq., Chairman of the Bimlipatam Hospital Committee, to J. F. SNAITH, Esq., Acting Principal Assistant Collector in charge of the District, Vizagapatam, dated Bimlipatam, 5th May 1874.

In reply to your letter of the 30th ultimo, I have the honor to enclose a report of the Bimlipatam Hospital for the official year 1873-74.

2. With regard to the *bedding* complained of by the Dresser a new supply has been ordered, and I have also requested Mr. Xavier to have a more efficient staff of *servants*.

3. In consequence of the frequent illness of Mr. O'Flynn, who was in medical charge during the greater portion of the official year, the report is not so full as it otherwise might have been.

4. Trusting, however, that it will meet your requirements, I have, &c.

Annual Concise Report of the Bimlipatam Private Civil Dispensary and Hospital, for the Official Year ending 31st March 1874.

I assumed medical charge of the station on the 24th ultimo, being only eight days to the end of the official year. I, therefore, beg, herewith, to annex the record of the practice entered by third-class Hospital Assistant P. Sathanunthum, No. 936.

I. *Seasonal Phenomena.*—The rainfall I am informed has been on the average. The station has had the full benefit of both the monsoons.

II. *Necessaries of Life.*—The common necessaries of life since my arrival has been within the reach of the poorest. Rice and raggy, the staple food of the natives, are sold at the present day at sixteen and twenty-four seers per Rupee, respectively. Vegetables are scarce. Fish, &c., is very plentiful and cheap.

III. *General State of Public Health.*—The Municipal Sanitary report for the past year has reported the state of public health to have been good, no epidemics having occurred during the year.

IV. *Cholera.*—No admissions from cholera are recorded.

V. *Small-pox.*—From the Municipal returns four deaths have occurred from small-pox during the year out of a population of 8,829.

Three hundred and thirty cases were vaccinated, of which 305 were successful, twenty unsuccessful, and eight unknown.

VI. *Malarious Fevers.*—My experience of this class of disease at this station is very limited. A few cases of mild intermittent fever have come under my notice since my arrival, readily yielding to the usual treatment.

VII. *General Working of the Institution.*—Since taking charge of the station on the 24th ultimo, the number of out-patients has steadily increased daily. The natives of this town and of the surrounding villages fully appreciate the usefulness of this institution.

Seven deaths are returned amongst the in-patients—one was a European who suffered from hemiplegia for a considerable period, and is returned as having died from anasarca. The other six casualties are natives—one from pneumonia, one starvation, one general debility, one fracture, one tetanus, and one psoriasis (leprosy).

VIII. *Financial Condition and Funded Capital.*—This institution is self-supporting. The funds are in the hands of the Chairman, supervised by a Committee of six members.

BIMLIPATAM,
1st April 1874.

(Signed) J. C. XAVIER,
First-class Assistant Apothecary,
Temporary in Medical charge.

Record of Practice entered by third-class Hospital Assistant P. Sathanunthum.

I arrived here and joined the appointment, agreeably to orders by Surgeon-General, Indian Medical Department, dated 7th March 1873, on the 1st December 1873, and I reported myself to Mr. O'Flynn, who was then in charge of the town. I observe that no records of any kind were kept, excepting the Nominal Register and the Letter-book, and I was conducting my duties very satisfactorily up to the time of the illness of Mr. O'Flynn, whence I became more independent medical subordinate to have the sole charge of station, &c. From the time of holding charge up to the time of delivering over charge to Mr. John E. Xavier, I experienced no special cases or epidemic contagion, and the town enjoyed exceedingly good health, and there were no least outbreak of any contagious disease about the neighbouring villages of the town. When I had the charge of the station, I had only one case of severe bruise of the right leg and the left foot stoned. Subsequently I had three or four patients with ordinary complaints, and they have been discharged cured.

I am quite unable to give the full concise report for the year 1873-74, because I am not at all acquainted with the station, and having very short experience about the town, which had taken the services of four subordinates in this official year. Therefore the last subordinate in charge cannot give the full concise report of the station unless it is entered by each successive subordinate in the record.

This institution consists of two departments—the one is the shop for sale of liquors, &c., and the other is the dispensary. I have nothing at all to say about the shop, as I had nothing to do with the shop business.

Diets.—The European paupers are paid 8 Annas per day each, and the Native 2 Annas each; each sailor belonging to a non-subscribing ship will have to pay 5 Rupees per day, and of subscribing ship 1 Rupee a-day, and all the charges of medicines prescribed to them will be for gratis.

Bedding.—No sufficient supply of bedding, all became old, torn and worthless, and requires renovation.

Servants.—There are six servants, viz., one compounder, one peon, one cook, one ward cooly, one sweeper, and one waterwoman.

Amongst all these servants, I have much pleasure to exalt Pydiah, the compounder, who knows or possesses a very fair knowledge of the compounding business; as to the servants, I am not at all pleased with their duties and attendance, as they do not understand a bit about the hospital work.

BIMLIPATAM,
24th March 1874.

(Signed) P. SATHANUNTHUM, No. 936,
Hospital Assistant, in Medical charge station.

No. 91. ORDER THEREON, 8th July 1874, No. 1132.

The receipts and expenditure of the Vizagapatam Municipality for the year 1873-74 are compared with the Budget Estimates in the subjoined abstract:—

RECEIPTS.	Estimate.	Actuals.
	RS.	RS.
Opening Balance	290	1,378
Assignment by Government	30	40
House-tax	2,000	2,079
Tax on Arts	10,000	7,913

Office, &c.	3,768	3,792
Miscellaneous	376	399
Balance	500	4,163
Total ...	24,760	28,084

2. The receipts thus exceeded the estimates by Rupees 3,324, owing chiefly to the increase in Tolls, the Miscellaneous receipts, and the opening balance. The necessity of writing off as irrecoverable so large a sum as Rupees 2,586 due as arrears under "Tax on Arts" would seem to indicate bad management either in the assessment or collection of the tax. It is observed that the sale of reclaimed land realized Rupees 1,731, but the Commissioners do not state how far this amount has covered the cost of reclamation. The increase in the expenditure on New Works is satisfactorily explained. The educational operations of the Municipality evidently require the careful attention of the Commissioners. Rupees 549 is a small sum to be earned as results grants by schools, the inspection of which cost Rupees 744. The Government have read with much interest and satisfaction Dr. Whitton's report on the Dispensary and the health and conservancy of the town. Vaccination also appears to have progressed very fairly. It is observed that

the short expenditure on lighting was owing to no commencement having been made until up to the expiry of the first half of the year.

3. The expenditure on extra conservancy during the Mohorrum should appear under "Conservancy" and not under "Hospitals and Dispensaries."

5. In Bimlipatam the receipts exceeded the estimates by Rupees 927, the tolls having sold at auction for Rupees 1,075 above the estimate, and Rupees 675 above the amount realized for 1872-73. The receipts from the Tax on Arts, &c., fell short of the estimate by Rupees 138, owing to a continuation of the policy, approved by Government last year, of granting remissions freely on account of poverty. The recent abolition of that tax is reported to be regarded with satisfaction. The incidence of taxation of all kinds during the year was Rupees 1-2-8 per head, but excluding tolls it was only 5 Annas and 6 Pies. With reference to the remarks in paragraph 3 of the Vice-President's letter, the Government would point out that sea-borne trade is "through traffic."

6. The surplus revenue was devoted to New Works and Repairs, the expenditure on which calls for no special remark. The condition of the Dispensary is under consideration separately, and need not be alluded to here. The public health is said to have been good, and the drainage of the town effective. Three hundred and five successful vaccinations were obtained for an outlay of Rupees 140, and

the Commissioners consider the result not unsatisfactory on the whole. The births and deaths registered were 273 and 232 respectively, against 267 and 286 in the previous year. The figures are believed to be fairly correct. A decrease in the expenditure on Results Grants is attributed to an increase in the severity of the examinations which, the Commissioners think, is not to be regretted. The Auditor bears testimony to the satisfactory manner in which the Municipal accounts are kept. It must again be pointed out, however, that Drains and Buildings should not appear in Statement II.-A as a sub-head under "Communications."

Total ...	12,830	13,255

8. A slight increase under "Tolls" and the "Tax on Vehicles" brought the receipts of the Vizianagram Municipality up to Rupees 13,255 instead of Rupees 12,830 as estimated. The Demand, Collection and Balance Statement is satisfactory as showing no uncollected arrears with the exception of the amount on account of which it was reported last year that a suit was pending against the toll contractor for 1872-73.

9. As in the case of Bimlipatam the excess in the revenue was expended on Sanitary and Miscellaneous New Works. The educational operations of the Municipality are not alluded to in the report, but from the statements it appears that the expenditure on Results Grants amounted to Rupees 422 against Rupees 512 in the preceding year. It is presumed that the falling off was due to the severer examin-

ations reported in the case of Bimlipatam. Five hundred and thirteen persons were successfully vaccinated at an average cost of Rupees 0-3-9. Financially, therefore, the vaccine operations may be said to have been more successful than in Bimlipatam, but the percentage of persons vaccinated to the population was 2·5 in Vizianagram, and 3·5 in Bimlipatam. The registration returns showed an increase of 361 births and 83 deaths—a result which is probably due in great part to the returns having been more correctly kept than in the previous year. The Government must repeat the remark made in reviewing the report for 1872-73, that they would gladly have seen a larger expenditure in the lighting of the town. They observe, however, that the Commissioners consider that even the limited amount already expended has, together with the sanitary arrangements, greatly tended to the convenience and comfort of the inhabitants.

11. In forwarding the Palcondah Municipal statements and the report on the Dispensary, the President remarks that the Commissioners' report will be forwarded when received, but as the abolition of the Municipality has already been ordered on account of its unsatisfactory working, the Government do not consider it necessary to wait for the report before disposing of these papers. The Dispensary, which worked well during the year, will be kept up by the Local Fund Board. Vaccination appears to have progressed, the number of successful operations having increased by 332 without any additional outlay, the percentage of persons successfully vaccinated during the year to the population being 7·03.

12. It is satisfactory to observe, from the reports above reviewed, that the Palcondah Municipality is the only one in the District in which the working of the Act can be considered to have been unsuccessful.

Nos. 89–91.

Vizagapatam District Municipalities.—Orders passed on the Annual Reports of the Vizagapatam, Bimlipatam, Vizianagram, and Palcondah Municipalities for 1873-74.

Vizagapatam. May 2d. 1874.

No. 654.

From.

J. D. Smaith Esquire
Ag. Pl. asst Collector in charge
of the District

To

The Honorable H. S. Carmichael
Ag. Chief Secretary to the Government
of Fort Saint George

Octacammund.

Sir I have the honor to forward the Annual Reports of the Municipalities of Vizagapatam, Bimlipatam, Vizianagaram and Palcondah for 1873-74 together with the annual accounts, Auditors [illegible] and the Statements shewing the incidence of Taxation prescribed in G.O. dated 12th June 1873 No. 822.-

Vizagapatam (2) The balance at the beginning of the year was Rs 1378-5-3 the receipts during the year amounted to Rupees 26706-2-11 making in all a total of Rs 28084-8-2.

3. The expenditure was Rs 23921-7-4 leaving Rs 4163-1-10 in hand at the end of the year.

4. The Receipts show a net increase of Rs 2236-2-11 which is explained in the Commissioners' reports

to

to be from the sale of lands and market tolls.

5. In expenditure there is a net decrease of Rs 338: 8: 8 in the present as compared with the former year. The principal works executed are.

	Cost Rs
1. Sinking wells at Waltair	431-4-0
2. Rebuilding East Wing Commercial Shed	472-6-6
3. Constructing bridge across Nalla at Allipuram	596-2-2
4. Constructing wall of Native Burial Ground	395-11-4
5. Constructing drains of 3413 Yards	371-9-4.

The sanitation of the town has been much improved by works Nos 1-4-5-

6. The public health of the town has been good - In the number of deaths registered, there is a decrease of 431 - There has been no Cholera and fever was less prevalent than in the previous year - A general decrease appears under all heads except Small pox which prevailed to a great extent during last Year.

There were 204 deaths against 1 Rid the previous year.

The usual staff of vaccinators have done good work, and vaccinated 1264 persons. of which 1232 cases proved Successful - The number vaccinated in 1872-73 was 1223 - The Civil Surgeon's report on the Dispensary is enclosed.

7. With reference to the question of Native Burial Ground in the Suburban villages the Commissioners suggestion to enclose them, enquiries will be made, and the necessary measures adopted -

Bimlipatam (8.) The year opened with a balance of Rs 6-3-6 - The receipts amounted to Rs 10,320-14-11, making in all Rupees 10,327-2-5 or Rs 927-2-5 in excess of the estimate - The tolls realized 1,075 Rs more than what was anticipated and caused the increase - The decrease in other items calls for no remarks -

9. The expenditure amounted to Rupees 10012: 6: 6 against Rs 9100 the estimated amount - The increase in the expenditure occurs in new works and Repairs consisting of

	Rs. As. P.
1937 Yards of Drains costing	2137: 11: 0
and Roads	1642: 12: 2
and Repairs to Roads	1444: 3: 2
Drains	29: 14-10
Buildings	46-10-11
and 1 well	27

The

10. The public health has, on the whole, been good. The number of births slightly increased, while that of deaths slightly decreased being 277 & 232 against 267 & 286 in the previous year.

The dispensary continues under private management, but was lately recommended to be made over to the Municipality. This has not yet been done. The medical officers reports will be sent as soon as received

11. The opening balance of the year was Rs 188 - 2, to which adding Rs 13073 - 3 - 8 the receipts realised during the year. The assets amounted to Rs 13255 - 3 - 10. This was Rs 125 : 3 : 10 in excess of the estimated amount and is due chiefly to the increased receipts from tax on vehicles and tolls.

Vavuniagaram.

12. The available assets were fully utilized leaving only a balance of 4 pies. The increased expenditure is on Sanitary and Miscellaneous New Works. The principal works executed during the year

year are.

1. Roads costing Rs 1161 - 6 - 2
2. Under Ground Sunnels and Bridges } 1819 - 11 - 5
3. Parapet walls . . . 323 - 16 - 2
4. Culverts & drains 387 - 6 - "

13. The Public health has on the whole been good, notwithstanding an increase of 83 in the number of deaths. In births there has been an increase of 361 being 565 against 204 in the previous year.

Talcondah. 14. The balance brought forward was Rs 2474 - 14 - 6 - The receipts amounted to Rs 8356 - 12 - 6 making a total of Rs 10831 - 11 - " - The estimated receipts were Rs 7730 - The increase was in tolls which fetched Rs 5326 or Rs 1326 more than the amount anticipated.

15 - The expenditure was Rs 8582 - 6 - 4 against Rs 7674 estimated - The increase occurs in communications and repairs - The Expenditure incurred is on -

Buildings	Rs 844 : 4 : 2	
Roads	" 3143 - 6 : 7

The

16. The public health has been good.
The Report on the Civil Dispensary
under the management of the Mu-
nicipality is enclosed.

17. This Municipality has for
some time been working very unsat-
isfactorily, and on the recommendation
of the President, the Government were
pleased in their order No 1884 dated
20th December 1873 to direct its abo-
lition from 1st April 1874, and its amal-
gamation with the Local Fund Circle
of Vizagapatam.

18. In all Municipalities, except
Palcondah, the assessment is
satisfactorily.

I have the honor to be
Sir
Your Most obedt Servt

Sgd Francis
Actg Asstt Collector
In charge of the District

x The Commissioners report and incidence of taxation will be sent as soon as they are received.

				2445 6 7	
			Net Increase	2236 2 11	

The causes of Increase & Decrease are specified below.

2. Assignments & Allotments by Government.

(a) Surplus Pound Fund.

Requires no particular remark.

3. Rates & Taxes.

(a) Rate on Houses &c.

Requires no particular remarks.

(b) Tax on Arts &c.

The assessed demand for the year, as shown in the Demand, Collection & Balance Statement was Rs 8570, of which the sums collected was Rupees 6966-8-8, leaving a balance of Rupees 1603-10-7, of which the sum of Rs 818, appertaining to rate-payers in impoverished circumstances, being remitted, there remains a balance of Rs 785-10-7, to be collected.

(c) Tax on Vehicles &c.

(d) Registration of Carts.

Several gentlemen and others having left the Station, has led to a decrease in these branches of collection.

(e) Tolls.

The difference is in consequence of the Tolls, which were realized in full of the demands not having fetched at Auction the amount anticipated at the time of framing the Estimate.

(f) Fees.

Requires no particular remark.

(g) Magisterial Fines.

The fines imposed on Trade Tax defaulters, having exceeded that anticipated, is the cause of the increase.

7. Miscellaneous.

The increase is consequent on a large sum having been realized by the sale of a spot of ground on the back part of the Town reclaimed by the Municipality and to the receipt of Sums on account of over-payment made

made to Civil Dispensary and to payment er-
-roneously made on account of Results Grants.

No II. Expenditure.

The following is an Abstract showing the estimated and actual Expenditure.

No	Heads.	Estimate for 1873-74 R	A	P	Actual for 1873-74 R	A	P	Increase R	A	P	Decrease R	A	P

											2422	11	10
					Net decrease.						338	8	8

The causes of Increase & Decrease are noted below.

1. New Works.

The increase is attributable to the construction of the undermentioned Works not anticipated at the time of preparing the Estimates.

A bridge was constructed across the road at the entrance of Alipur and this was great gain, since in the rainy season a

a Nullah there flowed with such rapidity as to prove a great hindrance to men, cattle and vehicles, who could not venture to cross for fear of being carried away.

Two new Wells have been provided at Wallair and Siccavanipallem, which have contributed much to the convenience and comfort of the people residing in those localities.

Two new roads measuring 600 yards were constructed in this year and which were felt to be a great convenience especially at a place called Dondaparti, where there were large boulders deeply imbedded, all which were either levelled or removed according to circumstances.

343 yards of cut-stone & drain have been constructed in different parts of the Town for drainage purposes.

2. Repairs.

Requires no particular remark, the difference being trifling.

3. Contribution to Local Funds.

This is a moiety of the cost of constructing a large Tunnel proposed by the Local Fund Board for improving the drainage

of

of the Town on the North side.

Education.

1. Training Schools.

This was not disbursed in the actual.

2. Results Grants.

This was not disbursed to the extent anticipated.

3. Contribution to Local Funds.

Requires no particular remark.

Sanitation & Medical Services.

The contribution to the Civil Dispensary having been not paid in arrears for 1871-72 & 1872-73, is the cause of the increase.

Miscellaneous Municipal purposes.

The charges for lighting the Town not having been incurred till November, added to the amount, under the head "4. Compensation to parties for lands &c." not having been incurred, as provided in the Estimate, occasioned the decrease.

Supervision & Management.

Requires no particular remark, the difference being trifling.

III. Sanitation.

There was a falling off of the water supply before the setting in of the

Rains

rains, when all the public wells, 72 in number, were thoroughly cleaned and deepened. Both the Monsoons were favorable this year resulting in a copious supply of water afterwards.

A great quantity of Prickly Pear and wild Castor were removed in various parts of the Town. The drainage of the Town has been attended to. The excreta and other foul matter is removed twice a day and buried at a distance from the Town. The drains are daily flushed with fresh water. Surface drains measuring 343 yards in length have been constructed to improve the drainage. Hollows have been filled up and banks levelled at a cost of Rupees 108. Channels have been cut on both sides of the roads for drainage purposes. The work of reclaiming the Swamp, sanctioned in G.O. dated 25th January 1872, has been carried on this year by the Prisoners. 4425 Square yards of the land have been filled up. The small amount of work done is owing to the

land

land being for a period of three months under water and to the prevalence of Small Pox in the Town, which has kept the Prisoners from being sent to work for the past 2 months - A sum of Rs 41-6- was spent in providing 12 Latrines and an Extra Establishment of Sweepers, for keeping the Town clean during the Mahorrum festival - Referring to G.O. dated 26th May 1873 No 543, I beg to add that there is no Sanitary improvement carried out on any large scale in this Town -

IV. Vaccination -

The 2 Municipal Vaccinators have done good work and have been more successful this year in overcoming the prejudices of the lower classes - The number vaccinated by them in this year is 1264, of which 1232 cases have proved Successful -

V. Births & Deaths -

The number of Births registered in the year is Males 592 + Females 424, in all 1016, being 298 more than in the preceding year - The number of Deaths registered, is Males 591 + Females 389, in all 980, being 431 less than in the preceding year -

1872-73 - Vaccinated 1222 - 1264

	Males	Females
1872-73 - Small Pox.	18	4
" Cholera.	154	174
1873-74 - Small Pox.	204	186
" Cholera.	-	-
Decrease -	186	230

VI. Public Health -

Small Pox prevailed to a great extent during the year and the mortality under that head amounted to 204 persons - There has been no Cholera and less Fever than in last year - With this exception, the health of the Town has been good -

I would draw the attention of the President to the fact of the Burial Grounds of the Suburban villages, not being enclosed - The graves are seldom 3 feet deep and a body interred to day, is exhumed the next day by Jackals, decomposition of the under-ground parts follows and the air is thus tainted - In the year under review, 21 bodies of persons who died from Small Pox were thus exhumed - It would be a great improvement in a Sanitary point of

of wirs, if these burial grounds could be enclosed and measures adopted to ensure graves being not less than 4 feet deep - Persons who ordinarily burn their dead, do not do so with persons dying of Small Pox - This is practised among the lower orders of Hindues, hence the greatie necessity for adapting the Sanitary measures above suggested - The health of the Town's people can hardly be secured or considered safe with such surroundings -

A list of places bordering on Municipal limits where the grave yards are not enclosed is hereunder given -

1. Seppar ampatlem -
2. Nagarapatlem -
3. Chintalapatlem -
4. Mulkapuram -
5. Vencanapatlem -
6. Vallikunnetta -
7. Gollalapatlem -
8. Dibbanedapatlem -
9. Nabobpetta -
10. Cuncharipatlem -
11. Murripatlem -
12. Madanapatlem -
13. Jannathepetta
14. Thatichettupatlem -
15. Gavarapatlem -
16. Caparada -
17. Cattaar -
18. Pedda Wattair -
19. Wadapatlem -
20. Muralapatlem -
21. Sirrajipa[illegible]w -
22. Muddilapatlem -
23. Rasapatlem -
24. Nuccarimpatlem
25. Vencajipatlem -

VII. Civil Dispensary.

From the Civil Surgeon's Annual Report, copy herewith sent, it appears that the health of the Town during the year 1873 contrasts favorably with that of the previous year - Fevers, Bowel complaints and other diseases having been less prevalent and the number of deaths less than in the previous year - Small Pox is stated to have prevailed in a Sporadic form to a greater extent in 1873, than in the previous year -

The Report also notices the Sanitation of the Town which is stated to be looked to by the Commissioners as efficiently as it is possible to do in a large Native Town - the roads and thoroughfares being kept clean and bearing a favorable contrast with any other large Native Town -

It also refers to the operations of the Dispensary - During the past year 7241 out-patients were treated, of which 8 deaths have been recorded - Several cases of intermittent Fever came under treatment during

during the year — This is attributed to or has its origin in the extensive Swamp now being filled up - It notices also the building of a Dead House useful for Judicial Cases as also for the Hospital and that the Sum of Rupees 466-12-3, sanctioned by His Highness the Maha-Rajah of Vizianagrum was spent in the repairs of the entire Hospital building during the Calendar year - Dresser C. Appavoo's attention to his work and his kind demeanour to the sick and poor is also favorably reviewed -

VIII. The Working of the Act -

Alth' the work of prosecuting parties for the collection of the Profession Tax for 1873-74, was not resorted to, yet the diffiencly of collecting the same in other respects was as great in this as in any other year, the people paying the same with the greatest reluctance - They are very thankful for the abolition of this Tax by Government from this year -

The

The fines credited relate to Prosecutions made for the tax due for 1872-73 -

The House tax has been collected with comparative ease - collection by distress Warrants has not been resorted to and every effort made to avoid the same as much as possible -

A List of Commissioners as they stood on the 31st March 1874, is herewith appended -

Names	Professions
Officials

To
The President of Municipalities
Vizagapatam District.

Dear Sir,

I have to inform you that the Manager of the Palcondah Municipality arrived here last Saturday morning with the Books, vouchers of the Municipality under his charge, for my inspection.

I have carefully audited the Accounts for the official year ending 31st March 1874 and found them in order

The enclosed statement will show that, the year commenced with an

Opening balance of Rupees		2474. 14. 6
Receipts amounting to	" —	8356. 12. 6
making a total of	" —	10.831. 11. 0
Expenditure amounting to	" —	8582. 5. 4
leaves a balance in favor of the Municipality amounting to	" —	2249. 5. 8

In conclusion, I may add that, I completed my audit at about 10 o'clock yesterday morning and dismissed the Manager, who told me that he was under instructions to proceed to Vizagapatam at once.

I am
Dear Sir
Yours faithfully.
H. Shaw
Auditor

Annual Medical Report of the Civil Dispensary of Palembang for the Year 1873.

1 In submitting this Report, I beg to state, that during the past year, there have been 78 European and 3187 Native Out-Patients, treated at this Institution and that there have been only 6 deaths among the latter Class, which presented nothing of interest

2 The Climate and Seasons of the Station and surrounding villages during the year, have been pretty salubrious. The Summer was less severe, the periodical rains less abundant, with short duration and the so much less cold than in the preceding year, the State of Public health, consequently proportionately good. The number of Sick treated at the Dispensary was, in consequence, far less (484) than in the previous year

3 The town and its villages, have been visited during the year by the epidemic of Dengue, which however, committed no appreciable loss to human life, nor any serious mischief, nor any deviation from its usual features, that would be worth noticing. This was the first invasion of the disease into the Station.

4 The principal diseases or Classes of diseases, that prevailed during the year, have been, as those

Copy of the Annual Statement of the Civil Disbursements of Bimlipatam for the year 1873

Bimlipatam 3rd April 1873

To

The President of Municipalities Vizagapatam District

Dear Sir,

As requested in your No. 47 of 1st Instant, I have carefully examined the Books, & Vouchers of the Bimlipatam Municipality, for the official year ending 31st March 1874; and found them accurate, and in order.

The Receipts of this Municipality for the year 1873-74, together with the opening Balance of Rupees 6-3-6, amount to Rupees 10327-2-5; against an estimate of Rupees 9400

The Disbursements amount to Rupees 10.012-6-11; leaving a balance of Rupees 314-11-6. at the credit of the Municipality.

In conclusion, I may add that I was very pleased with the neat orderly manner, in which the Secretary, Mr. Payne, kept the Books & Vouchers.

I am Dear Sir Yours faithfully

Entd 27/4/74

To

The Ag. President

Municipal Commission Vizianagram,

Vizagapatam.

Sir,

I have the honor to submit the report on the working of the Municipal Commission Vizianagram, together with original statements of receipts and expenditure for the year ending on 31st March 1874, and duplicate statements left with auditor.

2. The balance in hand at the close of the last official year was Rs 182-4-2, and the receipts under all heads during the year are Rs 13,073-3-8, making a total of Rs 13,255-3-10 and the expenditure under all heads is Rs 13,255-3-6 leaving a balance of (4) four pies on the 31st march 1874, as certified by the Vizianagram Deputy Tahsildar's certificate herewith forwarded.

3. The number of municipal Commissioners in this municipality including the Inspector and Dy Inspector of Schools is 10, and the number of meetings held during the year is 27.

4. Tax on houses & lands— The demand under this head is Rs 1047-11-10, and the amount collected is Rs 1024-3-2 and the decrease amounting to Rs 23-8-8 was written off, on account of vacant houses &c.

5. Tax on arts &c.——The demand for the year just Closed was Rs 2,373-8-0, and the collections made are Rs 2,237. Rs 12-8-0 were refunded on appeal and Rs 124 were written off as irrecoverable by the Commissioners on account of certain persons being too poor to pay, and other traders having left the station.

6. Tolls— The Contract of tolls for the year under review is Rs 7,575, and interest of Rs 62-8-0 was levied from the Contractor on account of his failure in paying the monthly instalments in

time according to the conditions of his Contract, making a total Collection of Rs 7,627-8-0 under this head, or Rs 417-14-8 more than last year's toll Collections which were Rs 7209-9-4 only. A civil suit is still pending for Rs 1497-8-0, due by the Contractor of tolls for 1872-73 mentioned in Para 6 of my report for last year quoted in Govt Proceedings dated 30th July 1873.

7. Registration of carts — The Estimate is Rs 350 and the amount Collected is Rs 357, being an increase over the Estimate of Rupees 7.

8. Tax on carriages & animals — The Estimate under this head is Rs 1,500, and the Collection is Rs 1647 being an increase over the Estimate of Rs 147, on account of additional horses &c belonging to H.H. the Maharajah.

9. The other receipts shown below will complete the receipts:-

Fees on distress warrants	Rs	8-8-0
Magisterial fines	"	8-8-0
Miscellaneous	"	88-5-8
Advances recovered	"	69-13-11
Total	"	175-3-7

10. The expenditure under all heads is specified below:-

	Rs as-ps
1. New Works	3,819-4-1
2. Repairs	1,905-0-11
3. Tools	52-7-6
4. Results grants and Inspecting Agency	640-7-2
5. Vaccination	120-11-3
6. Registration of Births and Deaths	268-4-0
7. Conservancy	3,765-15-2
8. Lighting	362-3-7
9. Office	1,733-11-1
10. Miscellaneous	587-2-9
Grand Total Expenditure	13,255-3-6

11. Works — New roads to the extent of 2293 yards have been made together with 3259 yards of road repaired. 3 ft light-d steps were constructed in the tank for the convenience of persons drawing water from the same. One bridge of 2 arches 9 feet span each, was built during the year and market

market parapet wall finished.

12. Sanitary works — The sanitary works that were completed during the year were the making of two underground Tunnels 133 yards in length of 6 and 4 feet span, to allow the water to escape freely from the town into the tank, together with 291 yards of brick arched Tunnels of 2, 3 and 4 feet vents. 716 yards of new rough stone drains were made and 1749 yards of rough stone drains repaired, and plastered with Chunam. One double latrine was built of rough stone and Chunam and the remaining latrines 15 in number were plastered with Chunam inside and outside, and the whole of the latrines have had brick seats built in them for the convenience of the persons using the same. The latrines are cleaned morning and evening. Several pits have been filled up, where stagnant water used to remain. Disinfecting powder and Carbolic acid were purchased and constantly used for the purpose of keeping the town free from un-pleasant smells.

13. Vaccination — 556 Persons have been vaccinated of which 94 were under 1 year of age and 462 above 1 year, and 84 of the former and 429 of the latter were successful. Taking into consideration the amount of expenditure under this head, each successful vaccination costs Rs 0-3-9.

14. Registration — 565 Births and 498 Deaths were registered during the official year showing an increase of 361 among Births and 83 in Deaths over those of last year. Out of 498 Deaths during the year, 26 were from small pox, 313 from fevers, 22 from bowel-complaints, 7 from accidents, and the rest 130 in number from all other causes. On the whole, the health of the town has been good.

15. Conservancy — The Conservancy Establishment maintained by the municipality consists of three

Rural Abul 22/74.

Serjeants or overseers; 3 maistries, 19 Scavengers, 68 women Sweepers and toties, together with 7 handies for the purpose of carrying away the Sweepings from the town.

16.— Lighting - 48 Lamp posts and lanterns are in use in this municipality in different parts of the town to show light to the inhabitants and travellers passing through the town, on dark nights only.

17. The tanks and wells in this municipality gave a good Supply of water during the year.

18. The Commissioners are of opinion that the works and repairs made during the year, and the measures adopted for the cleanliness and lighting of the town have greatly tended to the convenience and comfort of the inhabitants residing in the Town.

Vizianagram.
24th April 1874.

I have the honor to be
Sir,
Your most Obedt. Servt.
P Jagannatha Rao
Vice President municipal Commissr.
Vizianagram.

Rs 1989

Municipal Report for 1873-74.

69

With the small opening Balance of Rs 6.3.6 the income of this Municipality for the year 1873-4 amounted to Rs 10327.2.5 against an Estimate of Rs 9400. ——

2 —— The Profession tax again shows a falling off of Rs 138.6.6, caused by continuing the policy of the last 3 years of making the tax as light as possible to the poorer classes. Now that the tax is abolished it is fitt to record the satisfaction with which its abolition is regarded by the people. ——

3 —— The Tolls were farmed out as usual and realized by public Auction Rs 1075. in excess of the Estimates. And the crops turned out so fine that the contractor must still have netted a good profit. The income from this source is so much a matter of speculation that it is impossible to estimate it with accuracy. With regard to remarks of Government in order No 367 of 6th March, it is to be noted that Bimlipatam tolls do not form a bar on "through traffic", as is the case in such towns as Polcondah & Vizianagram, and therefore do not rightly come under the denomination of "octroi": here, produce arrives at its destination previous to shipment. ——

4 —— The excess in Receipts (by tolls) thus enabled us to increase the Work of cut Stone drainage and to put the roads into more thorough repair. With the exception of a couple of thatched houses we have had all huts removed from the two principal streets of the Town by payment to the owners of Rs 1077.10.6 as compensation; of this amount we have allotted Rs 702.8.2 to Roads (New Works) and Rs 375.2.4 to Roads (Repairs) We hope at no distant date to see none but tiled buildings in the Town (proper)

5 ___ The Registers of Births and Deaths shows a total of 273 of the former, or 30.93 per thousand of the population of 8827 and 232 of the latter, or 26.28 per thousand. These figures have a correct appearance. ___

6 ___ The Vaccination Returns exhibits 305 successful cases, which does not come up to the previous year; but it is to be borne in mind that the good result then carried at, was in a measure due to the comparative failures in 1870/71 - & 1871/72. On the whole the result is not unsatisfactory. We hear of little opposition to the system. We made the Vaccinator a Gratuity of Rs 20 for last year's work, and this amount figures in the accounts -

7 ___ The Education charge falls short of the Estimate by Rs 209.6.9 caused doubtless by severer examinations being held in the Pyal Schools, which is not to be regretted. The number of boys attending the Anglo Vernacular school is now steadily increasing; the attendance rose during the year from 31 to 52. We have continued the payment of Rs 15 monthly to the small Preparatory School for European and Eurasian boys and girls ___

8 ___ The Hospital remains under private management, and as this matter has been treated in separate communications, it is not necessary to enlarge upon it here. We are credibly informed that the number of in patients in the last 9 months does not exceed an average of 3 per month, and this in an institution that can easily make up 18 beds seems very poor work ___

9 ___ The incidence of taxation has been Rs 1.2.8 per head; or deducting the tolls - 5/6 per head. With the abolition of the Profession Tax, and not taking Tolls into account, the incidence for this present year will scarcely

amount to 2 annas per head. ___

10 ___ The drainage of the Town is effective: the public health is good: and the working of the Act is entirely satisfactory ___

G. Ripley
Vice - President

Bimlipatam
4th April 1874.

To The President of the Palcondah Municipality

Vizagapatam

Sir I have the honor to make my annual report on the working of the Palcondah Municipality for the past year.

2. The year opened with a balance of Rs 2474: 14: 6 and the arrears due amounted to Rs 636: 12: 4 - The total collections including arrears of preceding years were Rs 8356: 12: 6 making the total receipts Rs 10831: 11: 0.

3 The Budget estimate for the house tax was Rs 800, but this proved to be too high on the assessment being calculated on the rent values - The Demand was Rupees 539: 15: 9, and of this Rs 321: 10: 7 were actualy collected - The sum of Rupees 238: 4 - 4 remained due from the preceding year, and of this Rs 183: 3 - 6 was recovered, making the total collection under this head Rs 504: 14: 1 - A balance of Rs 232: 6 - 9 remains to be collected -

4. Profession Tax - The Budget Estimate

Estimate was Rs 1400, and the demand Rs 1160.
This was all collected, with the exception
of Rs 34- Rs 117-8-0 arrears for the pre-
ceding year were also brought to account.

5. The Tolls produced Rs 5325 against a
Budget Estimate of Rs 4000.

6. The Registration of vehicles produced
Rs 42: 12: 0, the demand being Rs 48: 12-0
The Budget Estimate was Rs 70- Rs 13: 12-0
arrears for preceding year were also collected
This calls for no remarks.

7. Rs 256-0-0 was the assessment
under the head of Registration of carts
Rs 246 were collected, as also Rs 23 4: due
for the preceding year. Rs 500 was the
Budget Estimate - The falling off is cal-
culated for by the inhabitants keeping
their bandies in other villages to avoid
the tax of Rs 4 per annum.

8. Donations to Rs 300 was entered
in the Budget as the amount to be re-
ceived, but owing to one subscriber's
withdrawing, the actual demand
became Rs 300. Rs 150 have been col-
lected. The balance will be recovered

9. Miscellaneous. Rs 2-4-8 was
collected in the market before the fees
there

there were abolished and Rs 593-5-9
unexpended balance of money drawn for
repairs &c executed under Amani were
recredited in the accounts at the end
of the year. Rs 410 is still due from
the Local Funds.

10. Expenditure. New Works.
Rs 1526: 0: 0 was sanctioned in the Budget
under this head and Rs 1754: 9: 6
actually expended. Eight new Roads
were constructed - a flight of steps down
to the Venkatarauth Tank and four new
latrines built. All of the roads in
the town have now been made & gravelled.

11. Repairs. The Budget amount was
Rs 14.944 but the expenditure amounted to
Rs 24.82: 2: 0 as shewn by the accounts
The sum of Rs 593: 5: 9 belonging to
this head, and the preceding one
was not actually expended; and was
refunded at the end of this year.
This was owing to a considerable sum
which had been sanctioned and drawn
to complete certain necessary works
before the date on which the Municipality
was abolished not being expended by
that

for the previous 10 days. The total rain fall for the

that date - The excess of expenditure over the estimates under these two heads is due to the Commissioners being obliged to complete all desirable works, and to put everything in thorough repair before the funds of the Municipality were made over to the Local Fund Board.

12. Education - The cost of education for the year was Rs 599: 12: 0 against an estimate of Rs 485:- The excess is due to results grants due for 1872-73 having been paid during the year.

13. Medical - The Estimate was Rs 1279, and the actual expenditure Rs 1005: 15: 2.- The difference is due to a considerable saving in medical supplies and contingencies.

14. Vaccination - The Establishment was maintained at the sanctioned estimate of Rs 120

15. Conservancy - The Estimate amounted to Rs 1700, but the expenditure amounted to Rs 1086 only. The difference was caused by its having been the intention of the Commissioners to increase the Conservancy Establishment

establishment and raise their pay, when the Budget was prepared.

16. Miscellaneous - There was nothing expended under this head.

17. Supervision and Management was effected at a cost of Rs 1145: 7: 4 against an Estimate of Rs 1050

18. Rupees 377: 6: 0 were paid to the Treasury Deputy Collector in adjustment of the Salary of the Dresser in charge of the Hospital and Rs 14 were refunded to tax payers.

19. The total expenditure during the year amounted to Rs 8582: 5: 4 against actual collections amounting to Rupees 8356: 12: 6.- This was considerably greater than it would have been under normal circumstances, owing to the expected abolition of the Municipality. The amount of Rs 2249: 5: 8, the balance in the hands of the Commissioners was handed over to the Local Funds on the 1st Instant. A small sum Rs 268: 5: 2 only remains on the accounts as arrears for the past year. & Rs 15: 4: 10 for the year before = A considerable portion

for the previous loss. The total rain fall for the year

portion of this will have to be written off as irrecoverable-

20 The Sanitary condition of the town during the year, is stated by the Dresser in charge of the Hospital to have been satisfactory, and an improvement on the preceding one. There was no Cholera- The inhabitants suffered somewhat from Dingue and Small pox, but not to any serious extent. The vaccinators did their work satisfactorily, and the town was kept very clean: 194 Deaths out of a population of nearly 9000 were registered-

21. The Municipality ceased to exist on the 1st Instant and I think I may safely say that its abolition has given general satisfaction to the inhabitants who do not seem to appreciate the advantages they have derived from it- The town is now in excellent condition- All the new roads worth making have been made and the old ones placed in excellent

excellent repair, so that a very small yearly expenditure will suffice to keep this in order- The streets are very clean, and the Local Fund Board have made a liberal provision for a small conservancy establishment to keep them so-

I have the honor to be
Sir
Your Most obed Servt.

Camp Vizianagram
18th Feby 1874

W. Wilcox
a/ Vice President

for the previous loss. The total rain fall for the
- Year.

Annual Report of the Civil Dispensary Vizagapatam for the year 1873.

The seasons during the past year have proved most favorable. The North East monsoon, which fell so copiously in the previous October, was most favorable to both wet and dry crops, and the year opened with an abundant harvest in prospect, grain was consequently plentiful and cheap, and there was but little distress amongst the poor. The early months of the year were cool, but later on it became unusually hot, particularly in the months of May and June. Upto the beginning of July, hardly any rain fell and as the month of July was entered upon, grave speculations were rife, that from the want of rain, a season of scarcity was impending although late, the monsoon however burst in the early part of July. The showers fell heavy rather than continuously, and during the early part of August, upto the 24th the weather became hot and dry, so that probably two thirds of the young dry crops perished. but fortunately on the 24th of August, and after that date, rain fell abundantly, and continuously. In the month of October, 17.6 inches of rain fell, favorable showers also fell in the month of November, and December. From August, there was a plentiful supply of water in the tanks for wet cultivation and the season was also most favorable for the dry crops. The result is, that although there was a partial failure of the crops during the south west monsoon, the crops during the later portion of the year, both wet and dry more than compensated for the previous loss. The total rain fall for the

- year.

year. was 52.2 inches.

The health of the Town was during the year particularly good, in this respect the year under report, forms a strong Contrast with the preceding year. For whilst the year 1872 was Characterized by the presence of Cholera, fevers, severe bowel Complaints, and Dengue, and a total Mortality within Municipal limits from all Causes, of 1446, the year under report shews a total absence of Cholera a remarkably diminished number of Cases of fever, and bowel Complaints, and total of deaths from all Causes of 817 or 62 less than the previous year.

Small pox was however more frequent during the year, under report than during the previous year. but it has not occur as an Epidemic Sporadic Cases only occurring in different parts of the Town.

The death rate within Municipal limits shews a diminution in the year under report as Compared with the previous year. of the following numbers of Deaths from the different diseases. Cholera, 157. Fever 180. Bowel Complaints 15.

The only disease which showed an increase in the number was Small pox. and from this disease there was an increased Mortality over the previous year of 62 deaths.

Vaccination is Carried on by two Vaccinators employed by the Municipality according to the returns in the Municipal Office it appears that a total of 1296 Cases have been Vaccinated within Municipal limits and 1242 of these are reported to have been successful.

The Sanitation of the Town is Carried on under the direction of the Municipal Commissioners and I may add from personal observation, that this has been done as efficiently as it is possible practically to Carried out. In a large native Town there are always certain nuisances which it is impossible to mitigate, any improvement in this direction can only be looked to in the improved education and habits of the native Community. The roads however and public throughfares through the Town. Can be reached. and these, I am sure will bear a favorable Comparison. with any other large native town.

Amongst the works Carried out, or in progress are, a large tunnel Constructed to improve the drainage of the town on the North side, a road 520 yards long has been made at Downpoorly, where it was much required, and 16358 Square yards of wild Croton and prickly pear have been removed from various parts of the town. Two new wells at Vaitair and Soccanampalam have been provided.

There are 72 wells and 7 tanks within the Municipality, these were cleaned and deepened before the setting in of the Monsoon.

Surface drains measuring 4414 yds in length. have been Constructed to improve the drainage

The drains are flushes with fresh water, daily Excreta, and other nuisances matter are removed daily from the Town, and buried at a distance.

The work of reclaiming the swamp to the west of the Town. as Sanctioned in G.O. dated 23d January 1872 has been Carried out by two large gangs of Prisoners, averaging 50 prisoners each, this reclamation is effected by the prisoners Carrying sand from the hill to the north of the Town. and depositing it in the northern part of the swamp. 32458 Square yards have been filled up in this way, but such is the extent of the swamp, that it will be many years before much impression is made upon it. were a light tramway Constructed, the work would go on with Considerable rapidity.

During the past year there has been a total of 7126 Out patients admitted, which together with 115 Out patients remaining under treatment from the previous year made a total of 7241 Out patients treated during the year, amongst these 8 deaths have been recorded. but it is probable that many deaths occurring amongst these may not have been reported.

During the same period there have been 287 persons admitted as in patients. with 12 deaths. This is the largest number of admissions I can find on record, it is 5 in excess of the admissions during the previous year and 63 over the average admissions of the previous five years

The daily Average number of In patients has been during the year 18.5 and that of the Out Patients 61.75.

Of European, and East Indian patients there have been treated at the Dispensary during the year, as in and Out patients a total of 578 369 of whom were males and 205 females. Of the various native Castes there were 612 Christians of whom 259 were females, 1036 Brahmens, of whom 180 were females. 47 Rajapoots amongst whom were 9 Females. 3985 Natives, 1067 of whom were females. Mahomedans 720 of whom 209 were females and 439 Parias, of whom 152 were females.

The prevailing diseases amongst those admitted as in patients with Hospital, have been as follows, Intermittent fever, from which disease 34 Cases were admitted Ulcers, 28 Rheumatism 21. of those treated as out patients. the prevailing diseases were as follows in order of the frequency Constipation 1212. Ulcers 1024, Scabies 764, Intermittent fevers 530 Dyspepsia 653 and Rheumatism 609.

During the year. under report. there were no Cases of Epidemic disease admitted into Hospital early in the year there were 12 Cases of Dengue. treated at the Hospital. the disease had

however ceased to be an Epidemic in the town. although cases of that disease were occasionally met with Amongst the population. Sporadic Cases of Small pox were also to be met with during the last months, but none of these applied for admission, although there is good accommodation available for them in a shed erected by the Municipal Commissioners. There is apparently an Idea amongst the Native Hindoo population that small pox is sent as punishment by one of their Gods, and that it is therefore either useful or useless to do any thing for persons affected. The town of Vizagapatam was altogether free from Cholera.

A total of 564 Cases of Intermittent fever came under treatment during the year. This shows a diminution of 207 Cases from the previous year. The Municipal Returns of the death rate from this disease. also show a partly similar diminution. I attribute the diminution to the fact that the population of the town, as a result of plentiful supplies of grain enjoyed good health, and were thus fortified against the attack of Malaria, which no doubt as in former years existed, and which at certain seasons of the year, proves most hostile to the health of the community.

The origin of this Malaria is to be found in the Gunsine swamp lying to the west of the town. This source of disease has been frequently brought to notice. and I have no hesitation in saying that unless something be done to it, it will continue an actual source of danger and disease to the population of the town. The reclamations which are being carried out, are very limited, and it will take many years, at the present rate before the danger can be removed.

There were but 12 deaths amongst the In patients during the year. 3 of these were from Diarrhoea, 2 from Intermittent fever, and 1 from each of the following diseases. Anaemia Tetanus, Epilepsia, Chronic Bronchitis, Dropsy

story of the wards, and General debility.

Under Class V. Injuries, there were 204 admissions during the year, amongst these were Incised wounds, 83. Contusions 84 Burns 25, Fractures 8. Of Surgical Operations there were 64 including 27 radical operations for Hydrocele Two cases of Craniotomy were performed. 9 tumors were removed, one of which was a rare case Enchondroma weighing two pounds removed from the breast of a female.

On the 21st October a female was admitted

In last report I brought to notice how several recommendations relative to the Hospital had been carried out, more particularly as to the provision of suitable Iron Cots, Clothing, bedding, and increased bathing accommodation.

There is now nothing left to be done as far the Comfort of the Patients and the efficiency of the Hospital is concerned

The Close of the year saw the Completion of the Dead house, which was so long in Contemplation. It is built in a concealed part, behind, and at a little distance from the Dispensary, and the approach to it is by newly made road, which does not come near the Dispensary buildings It will thus be of use, not only for Judicial Cases, but also for the Hospl.

The sum of Rupees 266-12-3 was sanctioned, and paid by His Highness the Maha Raja towards repairing, plastering, and white washing the Entire buildings, Several minor repairs &c. have been sanctioned and are being Carried out.

Seven meetings of the Members of the Dispensary Committee have been held during the year, and from the month of July, there have been held monthly.

The Dispensary is supported by the liberality of His Highness the Maha Raja of Vizianagram, Food Clothing, repairs, Servants perishable Articles, Country medicines, are all

paid for by him. European Medicine and pay of the Medical Subordinate are paid for by a Joint Contribution from the Local Fund Board, and the Municipal Commissioners.

22 of the patients have visited themselves during the year, they were not asked to do so, but did do, from preference. This Hospital being supported by the Munificence of His Highness the Maha Raja of Vizianagram a pauper

I think it undesirable to raise the Question with patients as to whether they should defray themselves whilst in Hospital.

In the financial statement which I have the honor to submit there appears amongst the receipts, Contributions amounting to Rs 1997-8-0. from the Local Fund Board for the years 1871/72. and 1872-73 and from April to December 1873 and a Contribution from the Municipality also appears, amounting to Rs 1866-10-8. for the years. 1871-72 and 1872-73 and from April to November 1873

The sum of Rs 2428-15-4 was received from the Maharaja during the year. The interest. The interest on Government Promissory notes for Rs 20,000 amounted to Rs 897. 8-0 Rs. 28. 2. 4 was derived from interest on bonds in the Government Savings bank and Rs 131. 11. 3. was derived from the sale of Medicine. The sum of Rs 35. 7. 4 was received from Government for visiting Magistrates Cases.

The above sums together. with 209-8-2 remaining from the previous year. makes a total of Rs 5255. 7.1

Amongst the disbursements appear visiting Magistrates Cases Rs 35. 7. 4 pay of servants Rs 432. Diet of sick in Hospl Rs 818, 3.9. Perishable Articles Rs 270. 5. 2. Country medicines Rs 45. 1-0 Clothing and petty repairs Rs 100 - 15-9. Cross

interest

Interest Rs 25-13-8. and Cost of European
medicines Rs 354-2-0. The large sum
of Rs 2757-0-11. was paid to Government
in adjustment of the amount drawn from
Provincial Funds on account of Salaries
of Dresser, and Peon, and Contingent Charges
during the years 1871/72 and 1872/73 also on
account of Medicines supplied in 1871/72
and 1872/73 and the salaries of Dresser and
Peon from April to December 1873. The last
item which appears is for service and receipt
stamps amounting to Rs 6-0-0. The total
Expenditure was Rs 4845-1-7. and the
balance carried forward to next years account
is Rs 610.5.6.

I have great pleasure in
reporting most favorably on the conduct
and Capabilities of 1st Class Hospl Asst
C Apparo No 359, who continues
to give me every satisfaction. He is kind
and attentive to the sick poor.

The rest of the Establishment
also give me every satisfaction.

Vizagapatam
1st January 1874.

1873-74.

Annual concise report of the Pulicat Private Civil Dispensary and Hospital for the Official year ending 31st March 1874.

I assumed Medical charge of the Station on the 24th ultimo, being only 8 days to the end of the Official year. I therefore beg herewith to annex the result of Practice entered by 3rd class Hospital Assistant P. Sathanathan No 936.

I. Seasonal phenomena.

The rainfall I am informed has been on the average - The Station has had the full benefit of both the Monsoons.

II. Necessaries of life.

The common necessaries of life since my arrival has been within the reach of the poorest - Rice and raggy the staple food of the Natives are sold at the present day at 16 and 24 Seers per Rupee respectively - Vegetables are scarce Fish &c is very plentiful and cheap -

III. General State of Public health.

The Municipal Sanitary Report for the past year has reported the State of Public health to have been good - 10 Epidemics having occured during the year -

IV. Cholera.

No admissions from Cholera are recorded -

V. Small pox -

From the Municipal Returns 4 deaths have occured from Small pox during the year out of a population of 8829 -

Three hundred & thirty cases were Vaccinated

Vaccinated of which 305 have succesful, 20 unsuccesful and 8 unknown.

VI. Malarious Fevers.

My experience of this class of disease at this Station is very limited. A few cases of mild intermittent fever have come under my notice since my arrival, readily yielding to the usual treatment.

VII General working of the Institution.

Since taking charge of the Station on the 24th ult. the number of out patients has steadily increased daily. The natives of this Town and of the surrounding villages fully appreciate the usefulness of this Institution.

Seven deaths are returned amongst the In-patients. one was a Chowpean who suffered from Hemiplegia for a considerable period & is returned as having died from Anasarca. The other six casualties are natives. 1 from Pneumonia. 1 Starvation. 1 Gunshot wound. 1 Fracture, 1 Tetanus and 1 Psoriasis (Leprosy).

VIII Financial Condition & Indent Captain.

This institution is self supporting. The funds are in the hands of the Chairman. Superviced by a Committee of six members.

John C. Comer.
1st Class Assist. Asst Surg.
New Jersey. In Medical charge.

1st April 1874

147

1873-74.

Record of Practice entered by 2nd Class Hosp: Assistant. P. Sathianathan.

I arrived here and joined the appointment agreeably to orders by Surgeon General: Ind: Medl. Depart dated 7th March 1873. on the 1st December 73, and I have reported myself to Dr. O'Flynn who was in charge of the Town at present. I observed no records of any kind been kept excepting the Admiral Register and the Letter Book, and I was conducting my duties very satisfactorily up to the time of illness of Dr. O'Flynn, whence I became more independent. Medl. Subordinate to have the sole charge of Station &c. From the time of holding charge up to the time delivering over charge to Dr. John C. Comer I experienced two special cases or Epidemic contagious and the town enjoined exceedingly a good health, and there were no least outbreak of any contagious disease about the neighbouring villages of the Town. When I had the charge of the Station. I had only one case of severe bruise of the right leg and the left foot Stoned. Subsequently I had three or four patients with ordinary complaints and they have been discharged cured.

I am quite unable to give the full concise report for the year 1873-74 because I am not at all acquainted with the Station and having very short experience about the Town which had taken the services of the subordinates in this official year. Therefore the last subordinate in charge cannot give the full concise report of the Station unless it is entered by each successive Subordinate in the record.

This Institution consists of two departments, the one is the shop for sale of Liquors &c and

and the other is the dispensary - I have nothing at all to say anything about the shop as I had nothing to do with the shop business.

Diets. The European Paupers are paid 8 annas per day each and the Native 2 annas each, each Sailor belonging to a non-subscribing ship will have to pay 5 Rupees per day and of subscribing ship 1 Rupee a day, and all the charges of medicines prescribed to them will be for gratis.

Bedding. No sufficient supply of Bedding all became old, torn and worthless and requires renovation.

Servants. There are Six servants namely 1 Compounder, 1 peon, 1 cook, 1 Ward cooly, 1 Sweeper, 1 Waterwoman.

Amongst all these servants, I have much pleasure to exalt Pydiah the Compounder who knows or professes very fair knowledge of the Compounding business, as to the servants I am not at all pleased with their duties and attendants as they do not understand a bit about the Hospital work.

Bimlipatam 5th May 1874

40 Fo

W Smith Esquire
Actg Principal A Asst Collector
Charge of the District
Vizagapatam

Sir

In reply to your letter of 30th ult. I have the Honor to enclose a Report of the Bimlipatam Hospital for the Official year 1873—74 — —

With regard to the Bedding complained of by the Dresser a new supply has been ordered and I have also requested Mr Cavier to have a more efficient Staff of Servants

In consequence of the frequent illness of Mr J. Flynn who was in Medical Charge during the greater portion of the Official year the Report is not so full as it otherwise might have been

Trusting however that it will meet your requirements.

I have the Honorable
Sir
Your Most Obt Servant
John Hardy
Chairman
Bimlipatam Hospl Committee

Rev. Shortt.

Financial Department

PROCEEDINGS of the MADRAS GOVERNMENT.

Read the following letters from the
Pres.t of the Mun.l Comm.rs, Vizagapatam No. 654
dy. 2nd May 1874
——— do ——— ——— do ——— dy. 6th ———

91 Order thereon dy. 8th July 1874 No. 1132

The receipts and expendi-
-ture of the Vizagapatam
Municipality for the year
1873-74 are compared with the
budget estimates in the sub-
-joined abstract:—

Receipts	Estimate Rs	Actuals Rs
Opening balance	290	1,378
Assignment by Govt.	30	40
House tax	2,000	2,079
Tax on Arts	10,000	7,913
Tax on Vehicles	2,400	2,091
Regn of carts	180	130
Tolls.	9,050	10,643
Fees	50	92
Fines	50	385
Miscellaneous.	710	3,333
Total	24,760	28,084

Expenditure

Expenditure		Estimate Rs	Actuals Rs.
Grant I.			
New Works	Communications		68
	Sanitary &c.	1,411	2,182
Repairs	Communications		2,895
	Sanitary &c.	3,891	934
Other items			85
Grant II.			
Training Schools.		404	"
Results grants		1,650	549
Inspection		678	744
Grant III.			
Dispensary		880	2,100
Vaccination		450	431
Regn of births &c.		390	403
Conservancy.		8,327	8,498
Grant IV.			
Lighting		1,355	556
Miscellaneous		680	285
Grant V.			
Office &c		3,768	3,792
Miscellaneous		376	399
		24,260	23921
Balance		500	4,163 ×
Total		24,760.	28084

The receipts thus exceeded the estimates by Rs. 3324 owing chiefly to the increase in Tolls, the miscellaneous

1578

miscellaneous receipts, and the opening balance. The necessity of writing off as irrecoverable so large a sum as Rs 2,586 due as arrears under "Tax on Arts" would seem to indicate bad management either in the assessment or collection of the tax. It is observed that the sale of reclaimed land realized Rs 1,731 but the Commissioners do not state how far this amount has covered the cost of reclamation. The increase in the expenditure on new works is satisfactorily explained. The educational operations of the Municipality evidently require the careful attention of the Commissioners. Rs 549 is a small sum to be earned

as

as results grants by schools, the inspection of which cost Rs 714.

The Govt have read with much interest and satisfaction Dr Whitton's report on the Dispensary and the health and conservancy of the town. Vaccination also appears to have progressed very fairly.

It is observed that the short expenditure on lighting was owing to no commencement having been made until up to the expiry of the first half of the year.

The expenditure on Extra Conservancy during the Inchcape season should appear under "Conservancy" and not under "Hospitals and Dispensaries".

Miscellaneous		150	
Balance		9,400	10,012
		"	315
Total		9,400	10,327

In Bunlipatam the receipts exceeded the estimates by Rs 927 the tolls having sold at auction for Rs 6075 above the estimate and Rs 675 above the amount realised for 1872-73. The receipts from the tax on Arts &c fell short of the Estimate by Rs 138 owing to the continuation of the policy, approved by Govt last year, of granting remissions freely on account of poverty. The recent abolition of that tax is reported to be regarded with satisfaction. The incidence of taxation of all kinds during the year was Rs 1-2-8 per head, but excluding tolls it was only

only 5 annas and 6 pies.

With reference to the remarks in para: 3 of the Vice President's letter, the Govt would point out that sea borne trade is "through traffic," [and that duties levied thereon are open, though perhaps in a minor degree, to the usual objections brought against transit duties as a source of income for ordinary municipal purposes.]

The surplus revenue was devoted to new Works and Repairs, the expenditure on which calls for no special remark. The condition of the Dispensary is under consideration separately and need not be alluded to here. The public health is said to have been

been good and the drainage of the town effective. Three hundred and five successful vaccinations were obtained for an outlay of Rs 140 and the Commissioners consider the result not unsatisfactory on the whole. The births and deaths registered were 273 and 232 respectively against 267 and 286 in the previous year. The figures are believed to be fairly correct. A decrease in the expenditure on Result fronts is attributed to an increase in the severity of the examinations which, the Commissioners think, is not to be regretted. The auditor bears testimony to the satisfactory manner in which the Municipal accounts are kept. It must again be pointed out, how- that Drains and Buildings

Buildings should not ap-
-pear in Statement II A
as a sub. head under "Commu-
-nications."

	Total	12,830	13,255

A slight increase under "tolls" and the "tax on vehicles" brought the receipts of the Vizianagram Municipality

Municipality up to Rs 13,255 instead of Rs 12,830 as estimated. The demand collection and balance statement is satisfactory as showing no uncollected arrears with the exception of the amount on account of which it was reported last year that a suit was pending against the toll contractor for 1872-73.

As in the case of Bimlipatam the excess in the revenue was expended on Sanitary and Miscellaneous new Works. The educational operations of the Municipality are not alluded to in the report, but from the statements it appears that the expenditure on Results grants amounted to Rs 422 against Rs 512 in the preceding year.

year. It is presumed that the falling off was due to the severer examinations reported in the case of Bimlipatam. Five hundred and thirteen persons were successfully vaccinated at an average cost of Rs 0-3-9. Financially, therefore, the vaccine operations may be said to have been more successful than in Bimlipatam, but the percentage of persons vaccinated to the population was 2·5 in Vizianagram and 3·5 in Bimlipatam. The registration returns showed an increase of 361 births and 83 deaths — a result which is probably due in great part to the returns having been more correctly kept than in the previous year. The Govt must repeat the remark made in reviewing the report for 1872-73, that they would gladly

gladly have seen a larger expenditure in the lighting of the town. They observe, however, that the Commissioners consider that even the limited amount already expended has, together with the sanitary arrangements, greatly tended to the convenience and comfort of the inhabitants.

In forwarding the Palcondah Municipal Statements and the report on the Dispensary, the President remarks that the Commissioners' report will be forwarded when received, but as the abolition of the Municipality has already been ordered on account of its unsatisfactory working, the Govt do not consider it necessary to wait for the report before disposing of these papers. The Dispensary, which worked well during the year will be kept up by the Local Fund Board. Vaccination appears to have progressed, the number of successful operations having increased by 332 without any additional outlay, the percentage of persons successfully vaccinated during

during the year to the population being 7·05.

It is satisfactory to observe from the reports above reviewed, that the Vizagapatam Municipality is the only one in the District in which the working of the Act can be considered to have been unsuccessful.
