Not to be folded or roughly handled

No. 223. Read the following letter from A. WEDDERBURN, Esq., President of the Municipal Commission, Coimbatore, to the Honorable D. F. CARMICHAEL, Acting Chief Secretary to Government, Fort St. George, dated Coimbatore, 8th June 1874, No. 7 :—

I have the honor to submit the annual report of the Coimbatore Municipality for the year 1873-74.

2. The total collections during the year, including the opening balance of Rupees 74-14-2, and a loan from Government of Rupees 1,000,* amounted to Rupees 30,341-6-7, showing an actual decrease of Rupees 6,428-1-7, or a net decrease of Rupees 2,843-6-7.

* *Vide* G.O., 25th April 1873, No. 530.

3. The following are the principal items of actual decrease :—

	Rs.	A.	P.
1. Lands sold...	3,392	8	0
2. Lungerkhana	1,479	10	4
3. Tolls	700	0	0
4. Municipal Market Rent	322	1	4
5. Hospitals	163	1	11
6. Tax on Vehicles	127	12	0
7. Other items	243	0	0
Total ...	6,428	1	7

4. The decrease in the item "Lands sold" is owing to the absence of any sales in the year.

5. The fall in the second item "Lungerkhana" arises from a transfer of the surplus in favor of this institution to the Municipality in the preceding year.

6. The third and sixth items of "Tolls" and "Taxes on Vehicles" exhibit a decrease of Rupees 700 and Rupees 127-12-0, respectively, due to a falling off in cart traffic between Pothanore and Coimbatore consequent on the extension of the Railway to Mettapolliem, and to a decrease in the number of vehicles in the town.

7. The loss in the seventh item "Municipal Market Rent" of Rupees 322-1-4 is in consequence of a fall from the high rental of the previous year to what may be termed the natural level.

8. A smaller number of sales of medicines being effected during the year has caused a decrease of Rupees 163-1-11 in the fifth item "Hospital."

9. The item No. 7, amounting to Rupees 243, calls for no particular remark.

10. Under the head of "Expenses" there is a net decrease of Rs. 6,166-5-5 from the actual sum of Rupees 11,238-5-1.

11. In the item "Cost of Carts" there is an increase of Rupees 1,657-8-0, brought about chiefly by payments for straw and gram which were purchased in the previous year for the use of the conservancy bullocks and the comparatively high price of gram. Several conservancy carts also required thorough repair.

12. One of the items of increase in expense is on account of advances made to certain poor residents of the town to enable them to build their houses in the new pettah.

13. An additional number of street lights for the town has caused a larger expense of Rupees 715-10-7, under the head of "Lighting Contingencies."

14. The Office Establishment shows a nominal increase of Rupees 632-6-1, the pay of the Manager having been transferred from "Conservancy" to that of

"Office." A corresponding decrease with other fluctuations will be found under the said item.

15. The principal items of decrease in expense are the following :—

Sanitary and Miscellaneous, Rupees 4,747-8-2.

16. The construction of a slaughter-house, latrines, and alterations in the market, in 1872-73, were the cause of increased expense in that year.

17. In other items, also, the expenditure has been lower in the year under report than in the preceding one.

18. The Budget provision for the year was Rupees 26,256. The actual expenditure amounted to Rupees 31,736-6-4, showing an increase of Rupees 5,480.

19. *New Works, Communications.*—Under this head, the expenditure exceeded the Budget Estimate by Rupees 290, owing to the construction of new roads in the Fort and leading to it and other places.

20. A portion of the mud wall which surrounded the old Fort and impeded the free circulation of air was knocked down, and the material utilized in constructing a road between Trichinopoly road and the Fort itself. The road has proved of great public benefit.

21. *Communications, Repairs.*—Under this head an increase of Rupees 1,899 was incurred.

22. *Sanitary and Miscellaneous.*—Under this head the Budget Estimate was exceeded by Rupees 893, showing an actual increase expenditure of Rupees 1,338-2-11. The works marginally noted are those for which the excess expenditure was incurred.

	Rs.	A.	P.
Latrines	376	12	0
Hospitals	341	6	4
Lungerkhana	125	9	0
Drains	111	9	6
Toll Gates	126	12	0
Sundry items	256	2	1
Total ...	1,338	2	11

23. *Dispensary.*—Under this head an increase of Rupees 436-5-8 over the Budget Estimate is shown; this increase is owing to the entertainment of an Apothecary on higher salary than that received by his predecessor, a Native Hospital Assistant.

24. There is also an increase over the Budget Estimate of Rupees 406-2-7 under the heads "Medicines and Supplies," "Diet of Patients," and "Sundries and Contingencies."

25. The cost of the various improvements effected in the Hospital, the construction of a "Dead-house," "Store-room," and "Kitchen," and the balance paid towards the lying-in ward after deducting Rupees 500, donation paid by Lady Hobart, amounted to Rupees 683.

26. Agreeably to the orders contained in G.O., dated 9th March 1874, No. 264, the following will show the progress in sanitary matters.

27. *Conservancy.*—The whole of the latrines in the town were repaired, tarred afresh, and strengthened. No new ones have been erected as the existing ones are found sufficient.

28. *Drainage.*—A portion of the large drain leading to the Periacolum tank has been paved. Others have been widened and deepened, and all kept in good order.

Culverts were built in different parts of the town to improve its drainage.

Proceedings of the Madras Government, Financial Department,
24th July 1874.

29. *Water supply.*—One well was purchased and existing ones deepened and cleaned wherever it was found necessary. The two large tanks near the Brahmin quarter of the town have been supplied with stone troughs for washing clothes, &c.; by this means the water which would otherwise be fouled is now kept pure and might be used for drinking purposes.

30. *Improvement in the disposal of Rubbish.*—Hitherto the rubbish collected in the town was conveyed to a spot near Mangally Ammen Covil in the west end, and there used for filling abandoned quarries. Now the greater portion of it is burnt near the various latrines, and the ashes used instead of dry-earth to deodorize the excreta. Ashes are found to answer far better than dry-earth, and the latrines have become almost inodorous. Ashes also possess the advantage of forming with the excreta a compost of much higher value as a manure, than that formed by dry-earth. The whole of the plants to which it has been applied have thriven wonderfully and seem to grow visibly under its influence.

31. *Hedges.*—The hedges in and about the town have been trimmed as occasion required.

32. Almost an acre of land around the slaughter-house has been enclosed as a garden of cocoanut and plantain trees. The offal collected in the slaughter-house is used as a manure instead of being as hitherto removed at some expense and needlessly wasted.

33. Cocoanut trees have been planted around the whole of the latrines, and it is hoped that they will in time prove not only a source of income but will hide the latrines themselves from view.

34. The following is an abstract of the births and deaths registered within municipal limits :—

	1872-73.	1873-74.	Difference.	
			Increase.	Decrease.
Births	653	700	47	...
Deaths	424	327	...	97

The principal cause of mortality was fever, being eighty-six out of a population of 36,201 or 2·37 per mille.

35. Annexed is a comparative table of the results of vaccination for the last two years :—

	Number vaccinated.	Number proved successful.
1872-73...	3,591	3,046
1873-74...	1,413	1,087

36. Agreeably to G.O., No. 822, of the 12th June 1873, a return showing the incidence of the various rates and taxes is attached.

37. The annual report of the Civil Dispensary for the year 1873 has already been submitted to Government.

38. The audit report of Mr. W. E. Shephard, of the Firm of Messrs. Stanes and Rouse, is herewith forwarded.

From W. E. SHEPHARD, Esq., Coimbatore, to A. WEDDERBURN, Esq., President of the Municipal Commission, Coimbatore, dated Coimbatore, 7th May 1874.

I have the honor to enclose, herewith, the annual balance sheet of the municipal accounts for the year 1873-74.

2. The accounts have all been duly checked and found quite correct and all in perfect order.

3. All the registers required by regulations have been kept, and the necessary vouchers to support the items of expenditure checked.

4. I consider that the work has been done exceedingly well, and credit is due in a fair measure to the Head Clerk and his Assistant.

5. The former have been employed in the Commission for a period of nine years on a monthly salary of Rupees 35 without an increase, and the latter for a period of four or five years on a salary of Rupees 25. I am aware that there should be a stated salary for clerks, but in this case I humbly beg to express my opinion that they are both deserving of some consideration by the Committee.

6. You will note that there is a balance of Rupees 1,394-15-9, and this arises from a portion of the uncredited deposits having been expended.

No. 224. ORDER THEREON, 24th July 1874, No. 1220.

Proceedings of the Madras Government, Financial Department,
24th July 1874.

2. Though the receipts of the Coimbatore Municipality for 1873-74, including the opening balance, fell short of those for 1872-73 by Rupees 6,242, they exceeded the estimates by Rupees 3,220, of which, however, Rupees 2,395 were obtained by a loan of Rupees 1,000 from Government, and by borrowing Rupees 1,395 from the deposits. The latter method of obtaining money should be avoided in future as far as possible. The extension of the Railway to Metapolliem brought about a reduction of only seven per cent. in the income from tolls, although a reduction of twenty-five per cent. was anticipated when the budget was prepared. The railway, however, was open for half the year only. The Demand, Collection and Balance Statement is satisfactory, the uncollected arrears being very trifling.

3. A decrease in the expenditure as compared with the previous year was the natural result of more limited funds being available, but still the estimate was exceeded by Rupees 5,480, the items of excess being as shown in the margin. It is not explained in the report why the necessity for this increased expenditure was considered so emergent as to call for the utilization of a portion of the deposit money. The educational operations of the Municipality are not alluded to by the President, but it is observed that the full allotment of Rupees 1,250 was utilized, Rupees 1,000 being expended in results grants. The increase in the number of births and decrease in the number of deaths is satisfactory. No explanation is given of the large falling off in the number of people vaccinated as compared with the year 1872-73, but it is observed that the number was still somewhat higher than in 1871-72, the proportion of successful operations, however, being slightly lower. The working of the Act throughout the year appears to have been generally satisfactory.

Though the receipts of the Coimbatore Municipality for 1873-74, including the opening balances, fell short of those for 1872-73 by Rs 6,242, they exceeded the estimates by Rs 3,220 of which, however, Rs 2,395 were obtained by a loan of Rs 1,000 from Govt., and by borrowing Rs 1,395 from the deposits. The latter method of obtaining money should be avoided in future as far as possible. The extension of the Railway to Metapollium brought about a reduction of only 7 per cent in the income from tolls, although a reduction of 25 per cent was anticipated when the budget was prepared. The railway, however, was open for ~~about~~ half the year only. The demand, collection and balance statement is satisfactory, the uncollected arrears

arrears being very trifling.

A decrease in the expenditure as compared with the previous year was the natural result of more limited funds being available, but still the estimate was exceeded by Rs 5,480, the items of excess being as shown in the margin. It is not explained in the report why the necessity for the increased expenditure was considered so emergent as to call for the utilization of a portion of the Deposit money. The educational operations of the Municipality are not alluded to by the President but it is observed that the full allotment of Rs 1,250 was utilized, Rs 1,000 being expended in results grants

New Works		
	Communications	291
Repairs	Communications	1899
	Buildings	805
	Hospitals	892
	Vaccination	11
	Lighting	785
	Markets	165
	Establishment	744
	Advances recovered	1000

grants. The increase in the number of births, and decrease in the number of deaths is satisfactory. No explanation is given of the large falling off in the number of people vaccinated as compared with the year 1872-73, but it is observed that the number was still somewhat higher than in 1871-72, the proportion of successful operations, however, being slightly lower. ~~The attention of the Sanitary Commissioner is called to paras 27-30 of the report.~~ The working of the ~~Act~~ Conservancy ~~Commissioners~~ throughout the year appears to have been generally satisfactory.

I would like a brief note on the working of the Conservancy Act
