Note

The views expressed in submitting the Pennacondah Budget for 1874-75 were so different from those previously held, that the Govt resolved to return the Budget for revision at a meeting

meeting at which both the President and District Engineer should be present. In their above Proceedings the Board of Revenue remark that they have thought it best to print the original budget as revised by them along with the other budgets of the District, and ask Govt. to allow it to be acted on for the present as otherwise unavoidable delay will take place.

The startling proposal in the original budget was to transfer to general purposes a grant of Rs 10,000 specially given for roads in 1873-74. In revising the budget the Board of Revenue struck this sum out altogether, and the really important question when the revised budget comes up for consideration will be whether the grant of Rs 10,000 is to be given this year or not, and, if given, how it is to be employed. Under these circumstances it is submitted that the proposal of the Board

Board of Revenue may be accepted. It only goes a little further than the Orders already issued, viz:— "that all allotments which are mere repetitions of allotments ~~and there~~ we considered as
