No. 65. Read the following letter from E. B. POWELL, Esq., M.A., C.S.I., Director of Public Instruction, to the Hon. D. F. CARMICHAEL, Acting Chief Secretary to Government, Fort St. George, dated Madras, 20th July 1874, No. 1230 :—

I have the honor to return the enclosures sent me with G.O., Financial Department, No. 1110, of the 3rd instant, and to make the following observations.

2. I have more than once stated that, where a Local Fund Board will really take trouble and look after a school, the union of the salary grant and result grant systems is, in my opinion, very desirable.

3. I consider, however, that the whole sum given to the teachers under the mixed arrangement should not exceed the result grant earned by the school. To secure this, the fixed salary should be small.

4. I also think that English should be entirely omitted in all lower-class schools under Local Fund Boards. I regard this point as one of the highest importance.

5. As to elementary normal schools, their cost will now have to be met from Provincial Funds; the Local Fund Board need not, therefore, take the subject up. A plan for establishing such schools is not yet ready. This, however, seems clear, that it will not answer to establish a school in each circle. Indeed, I am inclined to think that at first only a few districts should be provided with such schools. It is not advisable to plunge into operations on an extensive scale without having the light of experience as a guide.

No. 66. ORDER THEREON, 13th August 1874, No. 1337.

As recommended by the Board of Revenue, the Oossoor Local Fund Board may carry into immediate effect that portion of their scheme which relates to the introduction of the system of a combination of fixed stipends and result grants, this system having already been approved by Government, on the recommendation of the Director of Public Instruction, in the order reviewing the Oossoor Circle Budget for the current year.

2. The proposal of the Director of Public Instruction that the whole amount given to teachers should not exceed the result grant earned by the school should receive the attention of the Local Board.

3. The question of disallowing English instruction in schools of the kind is under consideration separately.

4. The Director of Public Instruction will be requested to expedite the submission of his proposals for the establishment of elementary normal schools.
