Memo (10)

The plan in question is that approved in G.O. dated 16th 1872 and communicated to Superintending Engrs in G.O. dated 11th March 1872 No 1136 pub. dept.

It has not been generally adopted as country and appears to me of an ideal than a practical useful character.

Order of Council 25 Augt 1774
No 1424.

Note
No plan accompanies the Estimate as framed on the Standard Plan

The plan and estimate will be returned for modification as the Govr considers that a smaller and less expensive building could be erected for the requirements of a Town of the size of Adrii.

The modified estimate should not amount to more than £20,000.

No allusion is made in the draft of the size of the Medical Officers house as under recent orders a Warrant Officer who is usually a European or East Indian must be in charge of the Hospital.

The cost seems three Ex-
-orbitant. R. 1090 ten bed!
What are the "barber" cottages
for? and why is 56¼ Sub: feet
enough for a barber — when
a non-barber requires 85.? Why
does the Medical Dept. absorb
a space — 50 × by 15 — while the
sick get only 67 × 15 in the main
building — and that above the
Lock-. There is not a single bath room
or privy connected with the building —
The Med. Dept. cost about 9000 to know! J.D.

Under the rateable distribution principle now in
force the charges for supervision in this case will
be Rs 6000 or thereabouts - In drafts now in
circulation it is proposed to abandon this system and
as the Dispensary is a charitable institution a small
charge might be made as a special case. Local Fund Boards
have a special grant from Provincial Funds on account of extra
Government charges to can afford to pay a further per centage than
