No. 198. Read the following Proceedings of the Board of Revenue, dated 5th September 1874, No. 2507 :—

Read again Board's Proceedings, dated 21st February 1874, No. 392.

Read also the following letter from J. H. GARSTIN, Esq., President of the Local Fund Boards, South Arcot District, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Pondicherry, 12th August 1874, No. 72 :—

In forwarding, herewith, a revised estimate (to be returned), amounting to Rupees 8,630, for re-metalling the 106th and 107th miles of Trunk Road No. IX., together with a copy of a resolution of the Cuddalore Local Fund Board, passed thereon, I have the honor to request that the sanction of Government may be obtained for the same.

2. The work appears as Item No. 2 in Statement II. A., Part I., of the Cuddalore Budget for the current year, and an estimate of Rupees 4,110 was sanctioned by the Board, in their Proceedings, dated 21st February last, No. 392. The necessity for this revised estimate is fully shown in the accompanying copy of the Range Officer's letter,* and under the circumstances therein represented, I request that the original estimate be cancelled, and the revised one now submitted sanctioned instead. No further allotment of funds will be required this year, as the allotment of the full amount of the original estimate will hardly be worked out within the current official year, and the balance of the new estimate can be entered in the Budget for 1875-76.

* Dated 22nd July 1874, No. 232.

Enclosure No. 1.—Copy of Range Officer's letter.

Enclosure No. 2.—Extract from Proceedings of Local Fund Boards.

Enclosure No. 3.—Estimate.

The revised estimate for metalling the 106th and 107th miles of Trunk Road No. IX. (the Combaconum branch of the Southern Trunk Road) at a cost of Rupees 8,630 will be submitted for the sanction of Government.

2. It was originally estimated that the work would cost Rupees 4,110, but the difference is satisfactorily accounted for. The smaller sum provided gravel which could be obtained near at hand, but would be rapidly worn down. The larger sum provides laterite which will have to be obtained from a distance but will last a long time.
