Proceedings of the Madras Government, Financial Department,
4th February 1874.

No. 30. Read the following Proceedings of the Board of Revenue, dated 9th January 1874, No. 148 (Miscellaneous):—

Read the following letter from J. H. MASTER, Esq., Collector of Bellary, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Bellary, 31st October 1873, No. 383

The District Engineer has submitted the accompanying estimate, amounting to Rupees 22,270, together with a specification report, for improving the portion of the second-class district road from Bellary to Cuddapah (from 14th to 58th mile) in the Gooty Range.

2. The Gooty Local Fund Board in their Proceedings, No. 9, dated 15th September last (copy of which is herewith sent), approve of the estimate, and promise to provide for the work whenever funds are available.

3. An estimate for Rupees 43,000 is stated to have been submitted for the sanction of Government in July 1867, for the purpose of putting the whole length of the road in good order, but the same was ordered to be kept in abeyance in G.O., No. 2260, dated the 26th July 1867.

4. The District Engineer reports that the opening of the railway in this direction has not materially affected the traffic on this road, and that the maintenance allowance granted for it is insufficient to keep the same in good order.

5. I have the honour, therefore, to request that you will be good enough to obtain the sanction of Government for the estimate in question.

The estimate, amounting to Rupees 22,270, for improving the portion of the second-class road from Bellary to Cuddapah (from 14th to 58th mile), in the Gooty Range, is submitted for the sanction of Government.

2. The estimate comprises the following items:—

	Rs.
Earthwork	105
Metalling...	1,320
Gravelling	19,152
Rough stone revetment	47
Sundries and superintendence	1,646
Total ...	22,270

3. An estimate, amounting to Rupees 43,000, was submitted to Government for the improvement of the seventy-eight miles of the road in question, between Madrassy and Bondaldinny, but in their Order, dated 26th July 1867, No. 2260, Government directed that the estimate be held in abeyance, partly for want of funds, and partly to see what effect the opening of the railway in that direction would have on the traffic on the road. It now appears that the traffic has not materially been affected by the railway, and that the annual maintenance allowance for the road is insufficient to keep it in good order.

4. The Board note that provision for the work will be made whenever funds are available.
