Proceedings of the Board of Revenue, No. 2406, dated 17th November 1874 (through the Judicial Department).

MEMORANDUM.

The work planned and estimated for is not of a nature calling for criticism by the Chief Engineer. The preparation of such elaborate sections, especially as the longitudinal one, in easy ground is quite unnecessary; and should be put a stop to by the District Engineer. It is probably owing to the time wasted in this manner that so much of the official year has elapsed prior to submission of the estimate for work entered in the Budget long before its commencement.
