Before sanctioning the proposed transfer, the Government desire to have fuller information regarding the grounds on which it is recommended that the school should be made a salaried institution under the Local Fund Board, rather than maintained as an aided school under its present managers. The report should further contain detailed information regarding the funds from which the school has hitherto been maintained, the population of the town, the number of pial schools in the place, the number of children on the rolls of the school, the curriculum of instruction, the average attendance, and the amount hitherto realized as fees.

I object to the transfer without fuller information. There must be a report on the School by the Inspectors of Schools. Further information is required as to the population of the town, the number of Aided Schools in the place, and why this School should not be converted into a Salaried Aided School, the number of children on the rolls, the curriculum of instruction, average attendance and amount realized hitherto as fees and

and the names of

The school is probably
a simple low class
village school - but
some futile smattering
of English as I gather,
to occupy the time of
both masters & children.
The charge of Rs: 420
a year is extravagant
for such an institution
and apparently the

a debt of Rs: 280 for

The President is
must be required
