No. 208. From the Hon. D. ARBUTHNOTT, President of the Municipal Commission, Mayaveram, to the Hon. D. F. CARMICHAEL, Acting Chief Secretary to Government, Fort St. George, dated Vallunno, 16th February 1874, No. 22.

I have the honour to submit the Budget Estimate showing the receipts and the expenditure of the Mayaveram Municipality for the year 1874-75 in the forms prescribed in G. O., dated 28th October 1871, No. 1646.

2. From Statement I. it will be observed that the gross receipts of the Municipality have been estimated at Rupees 15,200. Owing to the abolition of the professional-tax there has been a reduction in the income of the Municipality to the extent of Rupees 4,500. The Commissioners, finding that the expected income would be sufficient to cover the expenditure, propose to raise the rate of the house-tax from 4 to $7\frac{1}{2}$ per cent. and consequently this item shows an increase of Rupees 1,900 over last year's estimate. To make up for the deficiency in the assets the Commissioners have also reduced the expenditure under the heads of "New Works" and "Establishment." The other items of receipts call for no remark except the sum of Rupees 300 shown under the head of "Endowment." The Local Fund Board of the Negapatam Circle have agreed to pay annually to the Commissioners, for the maintenance of the Mayaveram Dispensary, the above-mentioned amount out of the income arising from the endowment of the Tranquebar Dispensary besides the original contribution out of their general funds of Rupees 300. The endowment will stand in the name of the Tranquebar Dispensary. The proposal has been accepted by the Commissioners and thus the long-pending dispute* has now been settled.

* *Vide* paragraph 12 of my annual report printed in G. O., dated 26th December 1873, No. 1885.

3. Under the head of "New Works" in Statement II. the only allotments requiring notice are the sums of Rupees 1,500 and Rupees 500 put down respectively for the construction of a school building and extending the present hospital. The accommodation of the present hospital building is already reported to Government quite insufficient and the Commissioners are anxious to provide a more commodious building.

No. 209. MINUTE by the Hon. W. ROBINSON, C.S.I., dated 13th April 1874.

I submit that there are serious objections to passing the Municipal Budget for Mayaveram as it stands.

2. The withdrawal of sanction to the continuance of the professional-tax has necessitated the proposal to nearly double—to raise from $4\frac{1}{2}$ per cent. to seven per cent.—the house-tax, which is a far more searching and general impost and presses much more heavily on the poorer classes than the other. Further serious retrenchments are caused under such important heads as "Public Works" (Rupees 3,364), "Vaccination," "Conservancy," &c., (Rupees 1,102), and "Supervision," &c.

3. I would submit that the professional-tax be retained subject to the modification passed for Vizagapatam and Mangalore and that enhancement of the house-tax be disallowed.

(Signed) W. ROBINSON.

No. 210. MINUTE by the Right Hon. the PRESIDENT, dated 17th April 1874.

I do not think that the amount of profession-tax here in question (Rupees 4,500) bears so large a proportion (not much more than one-fifth) to the estimated expenditure of the past year (Rupees 19,600) as constitutes a case for the exceptional continuance of the tax. In the very few cases where we have allowed a partial retention of that tax, the proportion of its produce to the general revenues has been much larger.

2. This Municipality spent last year, or rather expects to find that it has spent, Rupees 1,840, and this year it proposes to spend Rupees 1,520. But the Municipalities generally and habitually under-estimate their opening balances: and I have little doubt that the real income available for 1874-75 will be much more nearly equal to that for 1873-74 than appears in this Budget. Even were it otherwise I must strongly object to the retention of the profession-tax in this or any other case where its retention can be avoided. If only for the sake of distributive equity this would be most undesirable. I need not here repeat my determination to oppose to the utmost of my power anything like a general reversal of the policy of the Government in this respect, or my reasons for that determination.

(Signed) HOBART.

2. The estimated income for the year 1874-75 falls short of that for the current year by Rupees 4,400 owing partly to the abolition of the profession-tax and partly to the decrease in the opening balance. Remarks on Receipts.

Owing to the abolition of the Tax on Trades and Professions the Commissioners find it necessary to raise the house tax, which this year was levied at 4 per cent to 7½ per cent. this rate was sanctioned by Government in 1871-72 but was afterwards reduced on account of the Cyclone of that year.

The receipts are estimated at Rs 15200, as compared with Rs 13600 for 1873-74.

Remarks on Expenditure.

The Commissioners have done their utmost to reduce expenditure, but are unable to reduce the cost of the various establishments (excluding the educational) and necessary expenses below Rs 5670, leaving Rs 5530 to be decided between Public works and Education, of this Rs 1930 has been allotted to Education, and Rs 3600 for Public works.

Remarks

I do not think that the amount of Prospecting has exceeded (Rs 4500) Rupees in any case which appears to be a proportion (not much more than 1/5 th) to the estimated expenditure of the year (Rs 1900) as Rs. constituted, an exceptional case per the exceptional circumstances of the Prospecting case - In these few cases where we have allowed a partial reduction of that sum, the proportion of its fixation to the general receipts

this year it proposes to spend Rs 1520.
But both the Municipalities generally
& habitually under-estimate their
opening balances: and I am told
that the actual income available
for 1874-5 will be much more nearly
equal to that for 1873-4 than appears
in this Budget. Even where it
does not, I must strongly object to
the curtailment of the Municipal Commissioners

their or their
in any case where its ~~diminution~~
reduction can be avoided. If only
for the sake of distinctness & clearness, they
would be most undesirable. I need
not here repeat my determination to
oppose by the utmost of my power any thing
like a general reduction of
the powers of the Municipalities in this respect, or
my reasons for that determination.

I do not like to know what is the proportion
of this Municipality. Surely an expenditure
of even less than it ever possesses will be under

Receipts

Has sufficient - exceeded in the expenses & its own expenses on the one hand & its resources on the other.

I have perused the Draft. and I think the Municipality can manage in the current year without the Professional Tax.

The estimated income for the year 1874-75 falls short of that for the current year by Rs 4400 owing partly to the abolition of the Professional tax and partly to the decrease in the opening balance. The proposed increase of the rate on houses from 4 to 7½ per cent is approved under the circumstances reported.

The Commissioners propose to effect the necessary reductions in expenditure in the manner shown in the margin and the Govt have nothing to suggest in the way of amendment
