*Proceedings of the Madras Government, Financial Department,
29th April 1874.*

No. 333. Read the following Proceedings of the Board of Revenue, dated 21st April 1874, No. 2644 (Miscellaneous):—

Read the following letter from J. H. GARSTIN, Esq., President of the Local Fund Boards, South Arcot District, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Cuddalore, 8th April 1874, No. 26 :—

I have the honour to enclose a copy of Resolution, No. 11, of the Proceedings of the Cuddalore Local Fund Board, dated 20th March 1874, and to request that the sanction of Government may be obtained for the results-grant system of vaccination being tried in this Circle.

AT A MEETING of the Local Fund Board, Cuddalore Circle, held at Cuddalore, on the 20th March 1874.

Present :

J. H. Garstin, Esq., President.

C. Kough, Esq., Acting Head Assistant Collector.

J. Fortune, Esq.

G. E. Wiffen, Esq., Officer in charge of No. 1 Range.

M.R.Ry. P. Vardachariar, Treasury Deputy Collector.

„ Lakshmana Reddiar.

11. The Superintendent of Vaccination asks for four additional vaccinators in his letter, No. 142, dated 11th March, for the Cuddalore Circle. The President informs the Board that, learning from the Head Assistant Collector that small-pox was prevalent in the Tindivanam Taluq, he requested the Superintendent-General, on the 5th instant (six days before the Superintendent's letter was despatched), to send four men down from Madras, and that these men have arrived and are at work. The Board resolve to pass their salaries at 10 Rupees a-month each from the date of their entering on their offices, in anticipation of the sanction of Government, to whom application will be made. The Board also record their opinion that the system of vaccination as at present carried out is a failure. The returns for the month of February 1874 show 1668 successful cases out of 1682, only six unsuccessful and eight doubtful; while in by far the majority of all the villages in the district it is impossible to ascertain from the Village Officers when the vaccinator visited their villages. As a rule, they are ignorant of their ever going there.

The Board think, with the papers recorded in the Sanitary Commissioner's Proceedings for July and August 1873 before them, that as in Trichinopoly, so here, the results-grant system should be tried. An Inspector should be appointed on a fixed salary for each Taluq, and under him a staff of vaccinators should be employed on the results-grant principle. The President is requested to move Government to have the system tried in the Circle.
