No. 219. Read the following Proceedings of the Board of Revenue, dated 12th May 1874, No. 1,108 :—

Read the following letter from R. W. BARLOW, Esq., President of the Local Fund Boards, Chingleput District, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Sydapet, 31st March 1874, No. 27 :—

WITH reference to G. O., dated 5th January last, No. 10, Financial Department, I have the honour to forward copy of a report from the Vice-President of the Chingleput Circle. It will be observed that the Circle Board adhered to the scheme of so large a number of Unions, because "they fully believed that the last special grant would be continued from year to year, even if not enhanced so as to meet the actual educational requirements in the circle."

2. The other information called for in the Government Order under reference are given in the statement accompanying the above report.

ENCLOSURE No. 1.

From C. S. CROLE, Esq., Vice-President, to R. W. BARLOW, Esq., President of the Local Fund Boards, Chingleput Circle, dated Wallajahbad, 7th March 1874, No. 65.

I HAVE hereby the honour to report that the subject of Unions was discussed at length by this Circle Board at their last Meeting, as directed by G. O., dated 5th January 1874, No. 10. As regards the means of maintaining the proposed schools after the current year the Board have passed the following Resolution :—

"Read G. O., dated 5th January 1874, No. 10, calling for a report from this Circle Board as to their means of maintaining the Union Schools proposed to be established, etc.

"The Board resolve to submit to Government that they fully believed that the last special grant would be continued from year to year, even if not enhanced so as to meet the actual educational requirements in the circle."

2. Although the Government have, in G. O., dated 25th August 1873, No. 1,201, left the Board in doubt as to the renewal of educational grant from year to year the Board felt quite sure that this grant would not be withheld in consideration of the backward state of education in this circle, which, if the Union School system is to have a fair trial, absolutely requires as many schools as 53 distributed, as you are aware, over the whole circle. There have been quite lately several applications from the different parts of the circle for the establishment of Union Schools since the well-timed abolition of the unpopular House-tax. The Board consider it expedient to adhere to the same number, as primary education must remain at a stand-still, if, apprehending that the Government grants would not be repeated, they should withdraw from the scheme first proposed after ample consideration and repeated discussion.

3. The accompanying statement contains all the other information required in the Government Order under report, from which it will be seen that two Teachers are provided for in places where the expected attendance ranges from 50 to 100, and only one in places where it is expected to fall short of 50. The funds at the disposal of the Board are so limited that they have no other alternative but to look to Government for the renewal and continuance of the grant made in G. O., dated 11th July 1873, No. 971, which, I would respectfully bring to notice, has not conferred the benefit intended, as, for want of sanction by Government to the Board's scheme for its utilization, this circle has not been able to touch it, and it will accordingly lapse intact on the 31st of this month.
