Proceedings of the Madras Government, Financial Department,
8th May 1875.

Provincial Services.

No. 71. Read the following Proceedings of Government in the Public Works Department, dated 17th April 1875, No. 1078 :—

ABSTRACT.—Authority granted by the District Engineer for continuance of work to the Assistant Agent's bungalow at Koraput during the current official year, approved; Financial Department to arrange for replacing at the disposal of the Public Works Department in 1875-76 all funds under Provincial which lapsed at the end of last year, and a statement of requirements to be furnished to that department; the Special Executive Engineer and Assistant Agent congratulated on the discovery of limestone, and the District Engineer to forward specimens.

No. 72. ORDER THEREON, 8th May 1875, No. 1010.

The foregoing order appears to be based on the supposition that the assignment made annually for Public Works in the Provincial Services Budget is for works other than those for which funds may have been separately assigned during the preceding year.

2. This is not the case.

3. The assignment annually made is intended to embrace all works for which funds have been separately assigned, works which are in progress, and new works; and it rests entirely with the Public Works Department to distribute the assignment, and to allot to each work the funds which are likely to be utilized during the year.

4. The Financial Department has no funds at its disposal to assign for the Assistant Agent's bungalow at Koraput, or for any other work. Credit has been taken for all savings from last year in estimating the amount of Provincial Funds available for all Provincial Services in the current year, and distribution made accordingly in the Budget resolution.

Proceedings of the Madras Government, Public Works Department,
17th *April* 1875.

No. 452. Read the following letter from Major J. W. HINDLE, Officiating District Engineer, Vizagapatam, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Waltair, 18th March 1875, No. 2,427 :—

I HAVE the honor to submit herewith, for your information, copy of a letter received from the Executive Engineer of Jeypore Ghaut Range, and to request you will be good enough to have the sum of Rupees 2,900 surrendered in G. O., No. 656, dated 8th March 1875, from the grant of the dwelling-house for the Assistant Agent at Koraput replaced at my disposal in next year as required by Mr. Nordmann.

1 Copy of letter, No. 498, of 12th March 1875, from Mr. Nordmann.

2. I have authorized the Executive Engineer to continue the work after 1st April 1875 in anticipation of funds, agreeably to the orders contained in G. O., No. 131, of 18th March 1873.

From K. F. NORDMANN, Esq., Executive Engineer, on special duty, Jeypore, to Major J. W. HINDLE, Officiating District Engineer, Vizagapatam, dated Camp at Ittykavalsa, 12th March 1875, No. 498.

ADVERTING to my letter, No. 421, dated 27th January, in which I reported that only Rs. 2,500 could be spent this year out of the allotment of Rupees 5,400 for the Assistant Agent's bungalow at Koraput, I have the honor now to request that you will be so good as to ask the Government to allot the balance of the sanction, *viz.*, Rupees 2,900, in the next official year.

2. I take it for granted that I am authorized to continue the work after the 1st of April pending the formal re-allotment of funds. If this were not so, the workmen, procured from a distance, would have to be dismissed, and the current season's work would be prematurely at an end.

3. I am nearly ready to submit the final estimate for the buildings. I have all the quantities of work done and remaining to be done, lists of materials at site or under preparation, and every other requisite information for the preparation of the estimate, except the rates. These were not easy to be determined, considering the circumstances under which the work has been hitherto carried on ; but I am gradually arriving at the actual working rates, each week's experience helping me to determine them finally.

4. One circumstance that tends to delay the final calculation is the prospective change in the cost of chunam. This has been the most expensive item of all, as the lime has hitherto had to be brought to the work a distance of forty miles. I am glad to say that the Assistant Agent and I have now discovered limestone within four miles of Koraput, which will shortly make a great change in the cost of this item.

* * * *

No. 453. ORDER THEREON, 17th April 1875, No. 1,078.

CIVIL WORKS, No. 28.

THE District Engineer has rightly authorized the continuance of work to the Assistant Agent's bungalow at Koraput during the current official year. And the Financial Department will be requested to arrange for replacing at the disposal of the Public Works Department in this year all funds under Provincial which lapsed at the end of last year. A

statement of requirements will be submitted to that department when lists from District Engineers, due after 1st April, are received.

2. The Special Executive Engineer and the Assistant Agent are to be congratulated on the discovery of limestone which they have made. The District Engineer will be good enough to submit specimens.
