Local Funds—Choultries.

No. 104. Read the following Proceedings of the Board of Revenue, dated 27th April 1875, No. 1053 :—

Read the following letter from W. S. FOSTER, Esq , President of the Local Fund Boards, Godavery District, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Cocanada, 20th March 1875, No. 19 :—

I HAVE the honor to bring to the notice of the Board of Revenue that the Ellore Circle Board passed a revised estimate for Rupees 11,300 for a choultry at Chettipetta at a Meeting held on the 26th February 1875.

2. The plan and estimates herewith forwarded were prepared by the District Engineer at the request of the Ellore Circle Board, the originally proposed estimate sanctioned in G. O., No. 1,315, of the 10th August last, being made for constructing the choultry according to the Native style.

3. The amount of the estimate in both cases is the same for reasons stated in the District Engineer's letter* (herein enclosed), No. 3,203, of the 14th January last.

* To be returned.

4. The District Engineer has been requested by the Vice-President, Ellore Circle Board, to report whether any provision is made in the estimate under reference to build the choultry on an elevated basement; if not, a supplemental estimate will be sent on receipt of a reply from him.

5. Under these circumstances, I request that the Board of Revenue will obtain sanction of Government to carry out the work according to the revised estimate with the budget allotment of 1875-76 for this choultry.

ENCLOSURE No. 1.

From Major J. BEATTY, R. E., District Engineer, Godavery District, to the Vice-President of the Local Fund Board, Ellore Circle, dated Dowlaishweram, 14th January 1875, No. 3,203.

As requested in your letter, No. 353, of 30th September 1874, I have the honor to send you, herewith, the revised estimate for a pucka choultry at Chettipetta. It amounts to Rs. 11,300.

1 Plan.
1 Revised abstract estimate.
1 Estimate for sinking well.
1 Specification for do.

I have been enabled to estimate for a pucka building at the same cost as it was originally proposed to build one of a cutcha pattern, by providing wells on the English system. Two wells on the Native system were to cost Rs. 1,030; by the English method they will, it is expected, be done for Rupees 400.
