No. 158. Proceedings of the Board of Revenue, dated 27th April 1875, No. 1052.

Read the following letter from R. W. BARLOW, Esq., President of the Local Fund Boards, Chingleput District, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Cheyoor, 3rd March 1875, No. 32 :—

WITH reference to the accompanying minute by the Vice-President of the Chingleput Circle, and the Resolution of the Local Fund Board thereon, dated 28th ultimo, I have the honor to forward, in duplicate, an indent for the supply of medicines and instruments for the "Circuit Dispensary" which the Board propose to organize.

2. The plan, if carried out, will enable the Hospital Assistant attached to the Sub-Collector to take up midwifery and other important cases from the villages around the Circuit Cutcherry, and seems a useful and practicable one. The Chingleput Board propose to allow the Hospital Assistant a special allowance of 15 per cent. on his salary while on circuit; he already draws batta from Government during such periods, but, as the scheme involves extra work, some remuneration may be allowed. The Vice-President did not vote on this point.

3. If the proposal meets with the approval of Government, the charge of Rupees 295, Rupees 175 according to indent and Rupees 120 for country medicines and contingencies, as well as the 15 per cent. special allowance, can be met from the General Reserve for 1875-76.

2. The Local Fund Board of the Chingleput Circle propose to employ the Hospital Assistant attached to the Sub-Collector's Office, when on circuit, in treating the sick in the villages in or near which the latter may be in camp. It is also proposed to give him a special allowance of 15 per cent. on his salary, furnishing him with the requisite supply of medicines, &c.

3. The Board think it better to have a separate Travelling Dresser as proposed by the Ellore Circle Board, in order that his services may be available throughout the year wherever required. This proposal is still under the consideration of Government as will be seen from their Order, Financial Department, dated 22nd February 1875, No. 399. But the Board would allow the Chingleput local Board to carry out the experiment, and to save time and in anticipation

of approval of Government resolve to forward the indent for supply. Early orders of Government are requested.

No. 159. From Surgeon-General E. G. BALFOUR, Surgeon-General, Indian Medical Department, to the Hon. D. F. CARMICHAEL, Officiating Chief Secretary to Government, Fort St. George, dated Fort St. George, 4th May 1875, No. 247.

In the Proceedings of the Board of Revenue, No. 1052, of 27th April 1875, a proposal is submitted to Government to utilize the services of the Sub-Collectorate Medical Officer in the treatment of the sick of the villages adjoining the Circuit Cutcherry, and to allow him an additional allowance of 15 per cent. of his salary for the same.

2. I beg to mention that it has always been the duty of Collectorate Medical Officers to afford such medical aid and to vaccinate, and extra remuneration does not seem to be required, but is forbidden by a Resolution of the Government of India, printed with the Proceedings of the Madras Government, Public Department, No. 930, of 5th September 1873.

No. 160. ORDER THEREON, 19th May 1875, No. 1098.

The Resolution quoted by the Surgeon-General is hardly applicable to the present proposal which is based on the supposition that the officer in question is to be entrusted with work extraneous to his proper duty and to be remunerated for the same, a principle which is clearly recognized in paragraph 11 of the Circular from the Comptroller-General to all Accountants-General, dated 6th April 1875, No. 199.

2. The Government, however, consider that the treatment of the sick in villages in which he may be in camp has always been a recognized portion of the work of a Medical Subordinate attached to the office of a district or divisional officer and must disallow the proposal on this ground.
