Local Funds—Roads.

Read the following papers :—

No. 41. Proceedings of the Board of Revenue, dated 31st May 1875, No. 1461 :—

Read the following letters :—

From R. DAVIDSON, Esq., Acting President of the Local Fund Boards, Ganjam District, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Aska, 1st March 1875, S. No. 157.

With reference to G. O., dated 25th September 1871, No. 1,673, Revenue Department, directing the Local Fund Boards of every Circle to prepare an approximately complete sketch system of Local Fund Roads within it to be constructed or put in efficient repair for wheeled traffic, in communication with the Boards of adjoining Circles, and that a report with sketch-map showing the proposals be submitted for the general approval of Government, I have the honor to forward extracts from the Proceedings of the Local Fund Boards, Chetterpore and Chicacole Circles, dated 26th February 1875 and 12th October 1874, with sketch-map (to follow shortly) of the district for the approval of Government.

Enclosures Nos. 1 and 2.—Extracts from Proceedings of Local Fund Boards.

From the same officer, dated Rumbah, 4th May 1875, S. No. 240.

I have the honor to forward, herewith, the sketch-map of the Local Fund Roads in this district, called for in the Acting Sub-Secretary's Official Memorandum, dated 10th ultimo, No. 493.

Enclosure No. 1.—Sketch-map.

With this letter the President of the Local Fund Boards, Ganjam, submits resolutions of the Local Boards on the subject of the preparation of a scheme to regulate operations for the future extension of communications (G. O., Revenue Department, 25th September 1871, No. 1,673).

Road Fund.		Rs.
Annual income		81,050
Maintenance of existing roads...	44,470	
Supervision charge thereon ...	11,120	
		55,590
Tools and Plant		440
Other		1,790
Reserve		8,110
		65,930
Excess receipts		15,120
Add half reserve		4,060
		19,180
New Works		15,220
Supervision thereon		3,810
Tools and Plant		150
		19,180

2. *Chetterpore.*—The local Board enter into a calculation of the sum which will hereafter be available for road extension, and estimate the amount at Rupees 8,140 per annum. But this calculation is not quite correct, and as shown in the margin, the sum yearly available will be Rupees 12,000, besides at least half the reserve, the other half being retained for the repair of emergent and special damages. Incomplete works will be provided for from balances. Thus the local Board might have counted on being able to spend Rupees 15,220 per annum on new works, and their future up-keep.

3. The Circle is not ill-supplied with roads at present, as will be seen by the sketch-map. Only two roads are now in progress, and the balance of the estimates unspent at the end of the current year will be Rupees 45,500.

The local Board specify the following works as important :—

		Balance of Estimate.
		Rs.
(1.)	The Aska and Digupudi Road	36,000
(2.)	Reconstruction of the Trunk Road	1,23,000
(3.)	Bridging the first-mentioned road.	
(4.)	Bridge across the Korakori River on one of the roads now in progress.	

They expect to meet the cost of the third in part from the special grant of Rupees 20,000 for salt roads, and contemplate applying for a loan for the fourth. A number of short lines to connect the chief towns of Zemindaries with existing lines are also in contemplation.

4. Thus it is abundantly apparent that the surplus of the Road Fund can be, and will be, devoted for many years to come to works of undoubted importance, and well designed with reference to the requirements of the country.

5. *Chicacole.*—In this Circle the sum available is Rs. 5,850, not Rs. 4,140 as calculated by the Circle Board. Five works of no great magnitude are in progress, and the balance of the estimates will amount to Rupees 17,000 at the end of 1875-76. These estimates will, the Circle Board think, employ their available funds for seven years, and they think it unnecessary at present to make a longer forecast.

		Rs.
Annual income		52,990
Existing roads	33,480	
Supervision	8,370	
		41,850
Other		1,120
Reserve		5,300
		48,270
Excess		4,720
Add half reserve		2,650
		7,370
New Works		5,850
Supervision		1,460
Tools and Plant		60
		7,370

6. The Circle is even better laid out with roads than the Chetterpore Circle, and the Board see no necessity to discuss any of the remaining projects in the list of fifteen, which are selected as possible new works to be executed hereafter. There are some heavy bridge works on existing lines to which the local Board may be called upon to contribute hereafter; and their small resources are fully employed by the scheme of roads now existing and in progress.

No. 103.

No. 42. MEMORANDUM.

[Proceedings, Board of Revenue, dated 31st May 1875, No. 1461.]

The system of roads proposed by the Local Fund Boards, Ganjam, appears to have been well designed. After completing the roads now proposed, there will be but a small sum at the disposal of both Boards yearly for new works, which can well be expended in improving existing short tracks to serve as feeders to the main lines, and which will require little in the way of maintenance.

OOTACAMUND,
22*nd June* 1875.

(Signed) J. O. HASTED, Major, R.E.,
for *Offg. Chief Engineer.*

No. 43. ORDER THEREON, 8th July 1875, No. 1434.

The Governor in Council approves the scheme of roads proposed by the Local Fund Boards of the Chetterpore and Chicacole Circles in the Ganjam District, and concurs in the remarks made thereon by the Board of Revenue.

2. The fair claims of the Zemindaries which contribute to the fund must be kept in view.
