Municipal—Reports.

No. 214. Read the following letter from A. MACGREGOR, Esq., President of the Municipal Commission, Tellicherry, to the Honorable D. F. CARMICHAEL, Acting Chief Secretary to Government, Fort St. George, dated Calicut, 12th December 1874, No. 19 :—

I have the honor to forward the accompanying report and statements, received from the Vice-President of the Tellicherry Municipality, on the working of the Towns Improvement Act in Tellicherry during the year 1873-74.

2. The total amount collected during the year from all sources was Rupees 17,796-5-5, or Rupees 18,065-9-7 including the opening balance. The expenditure was Rupees 15,050-1-11, leaving an unexpended balance of Rupees 3,015-7-8 at the close of the year.

3. It will be seen from the Demand, Collection and Balance Statement, that, with the exception of Rupees 127-7-6, the whole demand for the year has been realized. The outstanding balance has also been nearly cleared off since the close of the year.

4. *Grant* I.—Under this head Rupees 5,991-11-0 were spent, of which Rupees 1,695-1-7 for New Works, and Rupees 4,304-9-5 for Repairs. The new works undertaken during the year were the construction of a latrine, bridging certain sluices, and completing the chuttrum and the school commenced last year. The principal roads were also maintained in good repair.

5. *Grant* II.—Under Education Rupees 1,815-14-10 were spent for the following purposes :—

	Rs.	A.	P.
Normal School	117	11	9
Salary Grants to Moplah Schools	207	8	0
Result Grants	1,290	12	0
Inspection Charges	191	15	1
Contingencies	8	0	0

6. *Grant* III.—Under this head Rupees 5,240-0-2 were spent.

The Commissioners are in charge of the Civil Dispensary. Its total receipts amounted to Rupees 1,608-8-5, and its charges to Rupees 2,058-2-10, leaving a deficit balance of Rupees 449-9-5 to be met from Municipal Funds. In addition to the above, the Commissioners have incurred an expenditure of Rupees 219-10-8 in treating small-pox patients.

7. *Vaccination.*—Rupees 273 were spent under this head; 938 cases were successfully vaccinated during the year under review.

8. *Registration.*—Rupees 324 were spent on the pay of Registrar of Births and Deaths. The results are given in the statement enclosed.

9. *Conservancy.*—Rupees 2,365-8-8 were expended under this head. The town was kept clean.

10. *Grant* IV.—Under this head only a sum of Rupees 24-4-0 were spent in planting avenues.

11. *Grant* V.—Under this head Rupees 1,968-3-11 were spent, including Miscellaneous charges.

12. The Commissioners bring forward again a proposal, started in the time the Budget was submitted, for abolishing all payment below a rupee. It is alleged that out of 1,749 ratepayers 1,300 are for the most part widows, or persons suffering from natural infirmities. This is such an extraordinary statement as to be to my mind incredible: before accepting it I would await the further tabulation of the Census returns. Further, it is proposed to exempt from House-tax, in excess of 100 Rupees, eight individuals. I can see nothing to justify such an extraordinary proceeding. Owing to the very limited building sites, and growing commercial prosperity of Tellicherry, house and land property within the Municipality have recently increased enormously in value, and the owners are in the position of monopolists, who can have no difficulty in obtaining from their tenants the house-tax imposed on so much of their property as is in the occupation of tenants.

13. It is true that for mere income or profession-tax in Municipalities a limit was fixed; but the case of houses and lands is different, as municipal expenditure must vary in direct ratio with the extent of such property.

14. They also propose to modify the assessments so as to exclude fractions and generally simplify the bills. I do not think that this principle could be formally admitted; and it is difficult to see where it is to end. I fail to see that the chances of fraud would be diminished.

15. The Commissioners propose that Government should, in addition to one-fourth of the salary of the medical subordinate, contribute one-fourth of the salary of the menials, and one-fourth of the medicines. This has not been proposed in any other Municipality. In regard to medicines, I presume that such as are required for public servants will be paid for, and that the payment of one-fourth of the salary of the Hospital Assistant does not include gratuitous medicine supply.

Public servants are seldom in-patients, and therefore no tax on the medical establishment. Considering that the services of the Civil Surgeon are given gratuitously, I am not disposed to advocate the proposal.

16. The application for Government pecuniary assistance, in rebuilding the fishing village and procuring public grazing grounds for cattle, does not appear to me admissible with reference to the present relation of Government to Municipalities.

17. I regret much that the report has been so long delayed, and contains so much matter not pertaining to an annual report; but I have thought it necessary to notice the various points brought forward by the Commissioners.

From M. R. Ry. C. CANARAN, Vice-President of the Municipal Commission, Tellicherry, to A. MacGREGOR, Esq., President of the Municipal Commission, Tellicherry, dated Tellicherry, 30th November 1874, No. 21.

I have the honor to forward the annual report of the Tellicherry Municipality for the year 1873-74 together with the usual statements.

2. The number of Commissioners who sat on the Board since the last report was nine, the changes being only amongst the ex-officio members. The Commissioner Bavachi has left for Arabia since February last.

3. The number of meetings held during the year was thirty-three.

4. A synopsis of the fund for the year in question is given below :—

—	Assessment for the Year.	Collected within the Year.	Collected after the Year.	Remitted or struck off.	Balance.
	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.
The opening balance in the Treasury on the 31st March... ...	1,269 4 2	1,269 4 2	... ...	... ...	... ...
Arrears due from ratepayers on account of previous years ...	1,130 4 6	1,015 15 0	5 0 6	49 5 0	... ...
The assessed rates for the year...	6,386 15 0	6,161 3 0	99 9 6	117 12 6	8 6 0
The assessed tax for profession, &c., for the year	3,990 0 0	3,545 8 0	14 8 0	430 0 0	... ...
Tolls	2,918 15 0	2,918 15 0	... .	... ...	... ...
Rates on Vehicles, &c.	623 0 0	623 0 0	... ...	... ...	... ...
Dispensary Fund	1,608 8 5	1,608 8 5	... ...	... ...	... ...
Magisterial Fines, Pound Fund, &c.	863 4 0	863 4 0	... ...	... ...	... ...
Total ...	18,790 3 1	18,065 9 7	119 2 0	597 1 6	8 6 0

5. Rupee 0-13-8½ is the average payment per head of the population, viz., 20,438, the total demand for the year being Rupees 17,520-14-11.

6. Rupees 8,538-7-0 have been collected peaceably from the house, &c., rate and profession, &c., taxpayers, the total amount realized from them being Rupees 9,706-11-0 as shown above.

7. Forty-three demand notices had to be issued to delinquent ratepayers, but the property of none had to be attached. The number of taxpayers who paid through the intervention of the Magistracy was only twelve.

8. The fines levied by the Magistrate from offenders against the bye-laws were Rupees 28.

9. From the tax assessed for profession, &c., tax on 1,128 individuals, a remission of Rupees 265-8-0 to 225 men was found called for, and Rupees 164-8-0 have been struck off the register owing to deaths, emigration, &c., of the assessed persons, fifty-five in number.

10. The following is a synopsis of the expenditure :—

	RS. A. P.
1. New Works	1,695 1 7
2. Repairs	5,304 9 5
3. Conservancy...	2,365 3 8
4. Civil Dispensary	2,277 12 6
5. Education	1,815 14 10
Total ...	13,458 10 0

11. Under New Works Rupees 500 was the preliminary expenditure for a latrine at Chali, the fishmongers' quarters, and Rupees 272-0-6 for bridging certain sluices, and Rupees 923-1-1 to complete the chuttrum and the school building adverted to in their last year's report.

12. The expenditure under Repairs and Conservancy was Rupees 5,999-11-0, the estimated charges for the same being Rupees 7,940. The difference is accounted for by the want of funds. From the statements it will appear that the balance in hand was only Rupees 3,015-7-8, even that being received only at the close of the year.

	Rs.	A.	P.
Toll share from Local Fund Board credited 21st March 1874	2,764	11	0
Interest on the Funded Capital of the Dispensary from the Madras Bank credited 30th March 1874	361	1	2
Total ...	3,125	12	2

	Rs.	A.	P.
Salary for Hospital Assistant and Peons	540	0	0
Salary for menials	431	0	0
Extra servants to attend to small-pox patients	194	6	5
Diet for in-patients	517	14	2
,, small-pox patients	25	4	3
Cost for European Medicines	288	6	11
,, indigenous drugs, perishable articles, &c.	280	12	9
Total ...	2,277	12	6

13. Nevertheless, the Commissioners are glad to have to state that the Conservancy and Repairs works done during the year were as thorough and satisfactory as the funds at their disposal were capable of. By substituting a number of lads on half hire for the Conservancy works there has also been a reduction of expenditure.

14. The expenditure under Civil Dispensary is as detailed in the margin.

15. The Commissioners have nothing to record about the Hospital Assistant, the treatment he affords in the Dispensary being under the prescription of the Civil Surgeon

16. The result of the vaccination is satisfactory, the total number vaccinated being 1,154, of which 938 were successful.

17. There had been cases of small-pox in the town as it prevailed throughout the district. Eleven patients were admitted into the small-pox shed, eight of whom died, three recovering. With this exception the Commissioners are glad to have to state that the town was free from all epidemics.

18. The estimated charges under Education were Rupees 2,510, including Rupees 1,250 to cover the charges for two schools for girls and boys the Commissioners proposed to open. They regret they have not been able to open them although the building and the benches required for them have been got ready. But from the amount reserved for it the Commissioners have paid the Salary and Result Grants, viz., Rupees 207-8-0 and Rupees 250-8-0, respectively, for five Moplah Schools since opened. This amount was neither provided by them nor sanctioned by Government in the Budget, the proposal to open the schools not then having been before the Commissioners.

19. The amount paid for the Result Grants it will be seen is Rupees 1,290-12-0, though only Rupees 700 had been sanctioned for it in the Budget. This will be accounted for in the report of the Commissioners on Education.

	Rs.	A.	P.
Five Certificates for previous year passed and paid	316	0	0
Twelve Certificates for the year under review	974	12	0
Total ...	1,290	12	0

20. The registration of births and deaths in the town is well conducted, the number of births registered being 668 and deaths 489.

21. The year under review, the Commissioners are glad to submit, was on the whole a healthy one.

22. For reasons shown in their letter, No. 13, dated 22nd August 1874, which enclosed their Budget for the current year, the Commissioners requested the sanction of Government to exempt 1,000 and odd ratepayers from their rates, the rate each paying being a few annas in no case amounting to a rupee, and also to bring to the notice of Government the complaints of those whose individual rate exceeded Rupees 100. But no order having been received on the subject, they venture to request you will be good enough to avail yourself of this opportunity to bring the matter again prominently to the notice of Government.

23. The following is a matter of equal importance. The collection of municipal rates is made by the tax-collector and his peons, the latter carrying with them the receipts to be furnished to the ratepayers. The receipts contain rupees in full as well as annas and pies. The ratepayers for the most part are ignorant and illiterate, some of them also being women. From the nature of things that there is room for fraud is obvious. If the exemption recommended in the preceding paragraph be sanctioned the remaining number of the ratepayers will only be 736. Of these ratepayers thirty-two pay rates varying from 1 to 18 Rs. without fractions. Those that pay rates in whole rupees and fractions thereof are as classed in the margin. It is the desire of the Commissioners to afford protection to the latter ratepayers from fraud. They therefore propose to omit from the receipts of No. 1 Ratepayers the fractional items, and to raise to a uniform fraction of half a rupee the fractional rates of Nos. 2 and 3, and to one rupee that of No. 4. The net deficit by this arrangement will only be Rupees 14. But there will be no room for fraud as the fact will be known throughout the town and less confusion in the accounts. The Commissioners can of course make the proposed alterations, but they desire to do so with the approval of Government.

Particulars.	Number of persons.	Whole Rupees, Annas and Pies each class pay.			Total each class pay.			Under the proposed arrangement. Increase.			Deficit.

24. For treating public servants Government have lately resolved* to allow the Municipality one-fourth of the salaries of the Medical Staff attached to the Dispensary. The Commissioners consider they are entitled also to one-fourth of the salaries (Rupees 30 per mensem) of its other four servants with a corresponding share of the cost for the European and Native medicines annually consumed. They therefore request you will be good enough to submit their view for the favorable consideration of Government.

* G.O., No. 1213, Financial Department, dated 27th August 1873.

25. The Commissioners regret that they did not for some months derive any interest on Rupees 4,678-5-7 of the Funded Capital of the Civil Dispensary. Rupees 3,178-5-7 invested in the Madras Bank on four per cent. and Rupees 1,500 in the late five per cent. Government loan of 1857 the Commissioners resolved to lend out on enhanced interest to private persons on good security. But unfortunately none coming forward, as they, it is presumed, thought their transaction with the Municipality would make public their liabilities, the Commissioners have lately adopted measures to purchase a Government promissory note for Rupees 4,500.

26. On behalf of the townspeople the Commissioners venture to make two suggestions.

One a recapitulation of the suggestion in paragraph 25 of their report for 1871-72 for a pecuniary assistance from Government to reconstruct the wretched, irregular, and thickly numerous huts of the fishmongers at Chali in a systematic shape.

27. The second is that great hardship is now felt for want of a pasture ground for the numerous cattle in the town. There were formerly two in the vicinity of which one was long ago converted into gardens and the other lately into a coffee-curing depôt. The plain near the fort is for several reasons unsuited for the purpose, and if Government will therefore condescend to procure at their own cost or otherwise, as the Commissioners believe people will also subscribe for it, a pasture for these dumb animals, the public will regard it as a great boon.

From Mr. N. L. D'CRUZ, Auditor of the Municipal Accounts, Tellicherry, to M. R. Ry. C. CANARAN, Vice-President of the Municipal Commission, Tellicherry, dated Tellicherry, 29th April 1874.

ABSTRACT.—Submitting report of the accounts of the Tellicherry Municipality for the official year 1873-74.

No. 215.

ORDER THEREON, 27th January 1875, No. 158.

The receipts and expenditure of the Tellicherry Municipality for the year 1873-74 are compared with the estimates in the subjoined abstract:—

RECEIPTS.

Grant IV.—		
Miscellaneous Purposes ...	620	24
Grant V.—		
Establishment and Supervision	2,020	1,968
Refunds	...	2
Balance	...	3,015
Total ...	19,750	18,066

2. The receipts of the year exclusive of the opening balance fell short of the estimate by Rupees 1,953, owing to tolls having realized only Rupees 2,919 against an estimate of Rupees 4,000, while only Rupees 485 were received as a contribution from Local Funds against Rupees 1,900 estimated for. No explanation is offered, but it is presumed that the decrease is a result of the Government having declined to admit the Commissioners' claim to an increased share of the tolls or to a contribution for roads from Local Funds.

3. The expenditure of the year amounted to Rupees 15,051 against an estimate of Rupees 19,750, leaving an unutilized balance of Rupees 3,015, which is accounted for by the fact that the money was not received until the last month of the year. The President of the Local Fund Board will arrange for the Municipal share of the tolls being made over at an earlier date in future. The expenditure on Public Works calls for no particular remark, but it is observed that the outlay on repairs to roads is incorrectly entered in Statement II.-A. Even if the cost of establishment be included the amount would be Rupees 4,154, not Rupees 5,154.

4. The short expenditure under Education is explained to be owing to arrangements not having been completed for the opening of two schools within the year.

5. The increased attendance at the Dispensary is satisfactory, and indicates that the institution is regaining its popularity. The object of omitting the expenditure on account of small-pox patients from Statement I.-A is not very apparent.

6. Though the outlay on Conservancy was necessarily less than the Estimate, the Government are glad to learn that the work was done in as thorough and satisfactory a manner as the funds were capable of.

7. In the present report the Commissioners ask for orders on certain proposals which appear to have been made before in a letter never forwarded to Government by the President.

8. The Government agree with the President that further information should be awaited before accepting the statement referred to by him, that out of 1,749 ratepayers paying less than a rupee 1,300 are for the most part widows, or persons suffering from natural infirmities. The proposal to limit the house rate payable by one individual to Rupees 100 is inadmissible, and the importance of the object to be gained by modifying assessments so as to exclude fractions of half a rupee is not apparent to Government.

9. The suggestion that Government should bear one-fourth of the cost of the whole of the Dispensary Establishment is also inadmissible. G.O., dated 27th August 1873, No. 1213, was not intended to apply to Dispensaries at which the whole of the salary of the Medical Officer in charge was already met from the General Revenues.

10. In G.O., dated 16th July 1874, No. 1176, it was decided that where Government contribute to the salary of the Medical Staff all servants of Government are entitled to treatment and medicines free of charge. This of course does not refer to medicines taken out on circuit or issued to Tahsildars and other Government servants for distribution.

Proceedings of the Madras Government, Financial Department,
27th January 1875.

11. The application for assistance from Provincial Funds towards rebuilding the fishing village and procuring public grazing grounds cannot be complied with.

Dr. Hyde Simpson

Pittah Simpson

In Final No 2656 of 74

To,

C. Canaran Esquire,
Vice President
of the Municipal Commission
Tellicherry.

Sir,

I have the honor to submit, for your information and for that of the President and Commissioners, the result of my auditing the accounts of the Tellicherry Municipality for the year ending 31st March 1874.

2. Having been timely advised to submit my report at an early date, I have diligently applied myself to the task and notwithstanding all my endeavours I have been able to complete the same only now.

3. I have carefully gone through all the bills that were issued, about 2884 in number, viz. of rate on houses, buildings and lands and of tax on arts, trades and professions, comparing the amount with the collections made, as certified by the tax-collector of each bill, which formed no less than 3040 items in the Collection Book (Journal) and I found that those collections were duly remitted to the Treasury under the proper head of account. There were a few clerical errors in some of the entries which were duly rectified

A. Mac Gregor Esquire,
President,
Tellicherry Municipality.

Sir,

I have the honor to forward the annual report of the Tellicherry Municipality for the year 1873-74 together with the usual statements.

2 The number of Commissioners who sat on the Board since the last report was 9 the changes being on the ex officio members. The Commissioner Bavachi has absented for about since February last.

3. The number of meetings held during the year was

4. A synopsis of the Fund for the year is given below.

	Assessment for the year			Collected within the year			Collected after the year			Balance		
The opening balance in the Treasury on the 31st March	1269	11	2	1269	11	2						
Arrears due from sale payers on account of previous years	1150	4	6	1013	15	"	5	"	6	46	8	"
The assessed rates for the year	6,386	15	"	6,181	3	"	99	9	6	11	"	"
The assessed tax for profession &c for the year	3,990	"	"	3543	8	"	14	8	"	436	"	"
Tolls	2,918	15	"	2,918	15	"	"	"	"	"	"	"
Rates on Vehicles &c	623	"	"	623	"	"	"	"	"	"	"	"
Dispensary Fund	1608	8	5	1608	8	5	"	"	"	"	"	"
Magisterial fines, Pound Fund &c	863	4	"	863	4	"	"	"	"	"	"	"
Total Rs	18790	3	1	18063	9	7	119	2	"	593	8	"

Ans. 9.

Rs. 13-8½ is the average payment per head of the 20,438 the total demand for the year being Rs. 7,520-11-11.

Rs. 8538-7-11 have been collected peaceably from the and Profession tax payers the total amount realized from 706-11-. as shown above.

43 demand notices had to be issued to delinquent the property of none had to be attached. The number who paid through the intercession of the magistracy

The fines levied by the Magistrate from offenders bye-laws were Rs. 28.

From the tax assessed for profession tax on a remission of Rs. 265-8- to 225 men was found Rs. 164-8- have been struck off the Register owing cation to of the assessed persons 55 in number.

The following is a synopsis of the expenditure

1. New works	1695	1	7
2. Repairs	5304	9	5
3. Conservancy	2365	3	8
4. Civil Dispensary	2277	12	6
5. Education	1815	14	10
Total	13458	10	-

Under new works Rs. 500 was the preliminary a latrine at Chali the fishmongers' quarters and for bridging certain sluices and Rs. 923-1-1 to com-

The expenditure under the repairs and conservan the estimated charges for the same being Rs. 7,940 is accounted for by the want of funds. From the will appear that the balance in hand was only

Rs

Toll share from Local Fund Board credited 21st March 1874 — 2764-11-13
Interest on the Funded capital of the Dispensary from the Madras Bank credited 30th March 1874 - 361-1-2
Total - 3125-12-2

Rs. 3015-7-8 even that being received only at the close

Nevertheless the Commissioners have to state that the conservancy and repairs works dur year were as thorough and satisfactory as the funds at were capable of. By substituting a number of bids for the conservancy works there has also been a reduction -ture.

14. The expenditure under Civil D as detailed in the margin.

	Amount.		
Salary for Hospital Assistant and Peons	540	"	"
do for menials	431	"	"
Extra servants to attend to small-pox patients	194	6	5
Diet for in-patients	517	14	2
do for small-pox patients	25	4	3
Cost for European medicines	288	6	11
do for indigenous drugs Perishable articles &c	280	12	9
Total	2277	12	6

15. The Commissioners have nothing to record about the Hospital Assistant he affords in the Dispensary being under of the Civil Surgeon.

16. The result of the vacc satisfactory the total number vaccinated which 938 were successful.

17. There had been cases of small-pox in the Town as it prevailed throughout the District. 11 patients were admitted into the small-pox shed 8 of whom died. 3 recovering. With this exception the Commissioners are glad to have to state that the Town was free from all epidemics.

18 The estimated charges under education were Rupees 2510 including Rs 1250 to cover the charges for two s for girls and boys the Commissioners proposed to open. They regret they have not been able to open them although the building and benches required for them have been got ready. But from the moment

the Commissioners have paid the salary and result Rs 207-8-" and Rs 250-8-" respectively for 5 schools since opened. This amount was neither provided sanctioned by Government in the Budget the progress the schools not then having been before the Commis.

The amount paid for the result grants it will Rs 1290-12-" though only Rs 700-"-" had been it in the Budget. This will be accounted for of the Commissioners on Education.

The Registration of births and deaths in well conducted the number of births registered being deaths 489.

The year under review the Commissioners are mit was on the whole a healthy one.

For reasons shown in their letter No 13 1874 which enclosed their Budget for the ensuing year ioners requested the sanction of Government to exempt old rate payers from their rates the rate each paying annas in no case amounting to a rupee and also to notice of Government the complaints of those whose rate exceeded Rs 100. But no order having been the subject they venture to request you will be good at this opportunity to bring the matter again from notice of Government.

The following is a matter of equal importance collection of Municipal rates is made by the Tax collectors and his peons, the latter carrying with them the receipts ed to the rate-payers. The receipts contain Rupees in fi as annas and pies. The rate-payers for the most part and illeterate some of them also being women. From th things that there is room for fraud is obvious. If the e commended in the preceding para be sanctioned the remo ber of the rate-payers will Of these rate-payers 32 pa rying from 1 to 18 Rs wi Pose that pay rates in wi and fractions thereof are as the margin. It is the desir missioners to afford protection rate-payers from fraud. They pose to omit from the receipts rate-payers the fractional a raise to a uniform fraction rupee the fractional rates of and to one rupee that of net deficit by this arrangement be Rs 14. But there will for fraud as the fact will throughout the Town and in the Accounts. The Co can of course make the pro tions but they desire to do approval of Government.

24. For treating vants Government have to allow the Municipality

Particulars.	No of persons	Rate Rupees, Annas and Pies each class pays.	Under the proposed arrangement. Increase	Deficit

Registers of Births and Deaths
1873-74

In Vol. 1 No. 2656 of 74

1873-74

Felicitous Municipality

Sanitary Report for the year ending 31st March 1874.

Dispensary - The number of admissions into Hospital during the past year was 182 against 145 in the preceding year and the number of out-patients was 2470 against 2127 in 1872-73. There was thus an increase in the former of 37 and in the latter of 343 which would tend to shew that as a local institution the Dispensary is gaining in popularity as if the above number of in-patients about two-thirds were inhabitants of Kotyam or the adjoining taluq Thrumbroad and of the out-patients about seven eighths were residents within Municipal limits. Of the 182 in-patients 31 dieted themselves and were thus of very little expense to the Institution. No cases of infectious disease are now admitted into the Dispensary building such being accommodated in a shed erected by the Municipality in August 1873. In my last year's report I attributed the slight decrease in the number of Patients during 1872-73 to this cause viz. the reception of small pox patients into the

Dispensary

Dispensary and the above increase in the number of applicants for medical treatment now that cases of infectious diseases are no longer admitted would seem to show the correctness of that opinion-

The principal diseases which occasioned admissions into Hospital were as usual- Ague, Ulcers, wounds, Syphilis, Rheumatism, dysentery and diarrhœa and those prevalent among the out-patients were ague, Syphilis, rheumatism, dysentery, diarrhœa worms, ulcers and wounds-

The Dispensary building is in good order and the accommodation ample for the requirements of the town-

Conservancy- Since last report another latrine has been erected in a part of the town in which it was much needed and a chattram for Native travellers with a latrine attached is almost completed-

I have nothing further to add under this head to the remarks made in my report for 1872-73-

Vaccination- The number of operations performed by the Municipal Vaccinator during the year was 1145 showing an increase of 307 in the previous years work- This is rather more satisfactory but much

still needs to be done in this direction as small-pox is still far too prevalent in this town-

Signed H. Hyde Surgeon.

Tellicherry Municipality.

Sanitary Report.

In Finl Ls 265

President's Office.

Cabinet 12th December 1874.

No. 19.

From.

A. MacGregor Esq:

President, Municipal Commission

Tellicherry.

To.

The Honble D. F. Carmichael

Ag: Chief Secretary to Government

Fort St. George.

Sir,

I have the honor to forward the accompanying Report and Statements, received from the Vice President of the Tellicherry Municipality on the working of the Town's Improvement Act in Tellicherry during the year 1873/74.

2. The total amount collected during the year, from all sources, was Rs 17,796-5-5, or Rs 18,065-9-7 including the opening balance. The expenditure was Rs 15050-1-11 leaving an unexpended balance of Rs 3015-7-8 at the close of the year.

3. It will be seen, from the Demand, Collection and Balance Statement, that with the exception of Rs 127-7-6, the whole demand for the year has been realized. The outstanding balance has also been

been nearly cleared off since the close of the year.

4. Under this head Rs 5,991-11-" was spent of which Rs 1695-1-7 for new works and Rs 4,304-9-5 for repairs. The new works under- taken during the year were the construction of a latrine, bridging certain sluices and completing the Chattram and the school com- menced last year. The principal roads were also maintained in good repair. Grant I.

5. Under Education Rs 1815-14-10 were spent for the following purposes. — Grant II

Normal School ——— 117-11-9
Salary grants to Anglah Schools } 207-8-"
Result grants ——— 1290-12-"
Inspection charges ——— 191-15-1
Contingencies ——— 8-"-"

6. Under this head Rs 5240-"-2 were spent. Grant III.

The Commissioners are in charge of the Civil Dispensary. Its total receipts amounted to Rs 1608-8-5 and its charges to Rs 2058-1-10, leaving a deficit balance of Rs 449-9-5, to be met from Municipal Funds. In addition to the above, the Commissioners have incurred an expenditure of Rs 219-10-8, in treating small-pox patients.

7.

Vaccination

7. Rupees 273-"-" were spent under this head - 938 cases were successfully vaccina- -ted during the year under review.

Registration

8. Rupees 324-"-" were spent on the pay of Registrar of Births and Deaths. The results are given in the Statement enclosed.

Conservancy

9. Rupees 2,365-3-8 were expended under this head. The town was kept clean.

Grant IV

10. Under this head only a sum of Rs 24-4-" were spent in planting avenues.

Grant V.

11. Under this head Rs ~~1968-3-11~~ 1968-3-11. were spent, including Miscellaneous Charges.

12. The Commissioners bring forward again a proposal, started in the time the Budget was submitted, for abolishing all payment below a Rupee. It is alleged that out of 1749 rate payers 1300 are, for the most part, widows or persons suffering from natural infirmities. This is such an extraordinary statement, as to to be, to my mind, incredible: before accepting it, I would await the further tabulation of the census returns. Further, it is proposed to exempt from House tax, in excess of 100 Rs, 8 individuals

individuals. I can see nothing to justify such an extraordinary proceeding. Owing to the very limited building sites and growing commercial prosperity of Telicherry, house and land property, within the Municipality, have recently in-creased enormously in value, and the owners are in the position of monopolists who can have no diffienlty in obtaining from their tenants the house tax imposed on as much of their property as is in the occupation of tenants

13. It is true that for mere income or profesion tax in Municipalities, a limit was fixed; but the case of houses and lands is different, as municipal expenditure must vary in direct ratio, with the extent of each property.

14. They also propose to modify the apeyments so as to exclude fractions and generally simplify the Bills. I do not think that this principle could be formally admitted; and it is difficult to see where it is to end. I fail to see that the chances of fraud would be diminished.

15. The Commissioners propose that Government should, in addition to ¼ of the salary of the Medical Subordinate, contribute ¼ of the salary of the menials, and ¼ of the medicines. This has not been proposed in any other Municipality. In regard to medicines, I presume that such as are required for public servants will be paid for, and that the payment of ¼ of the salary of the Hospital Apistant does not include gratuitous medicine supply.

Public servants are seldom in-patients, and therefore no tax on the medical establishment. Considering that the services of the Civil Surgeon are given gratuitously, I am not disposed to advocate the proposal.

16. The application for Government pecuniary apistance in rebuilding the fishing village and procuring public grazing grounds for cattle, does not appear to me admissible with reference to the present relation of Government to Municipalities.

17. I regret much that the report has been so long delayed & contains so much matter not pertaining to an annual report; but I have thought it necessary to notice the various points brought forward by the Commissioners

I have the honr. to be,
Sir,
Your most obedt. servant
A Macfayden
President.

Financial Department.

The receipts of the year exclusive of the opening balance fell short of the estimates by Rs 1953 owing to tolls having realised only Rs 2919 against an Estimate of Rs 4000 while only Rs 485 were received as a contribution from Local Funds against which Rs 1900 were estimated for. No explanation is offered, but it is presumed that the decrease is a result of the Government having declined to admit Municipal claim to an increased share of the tolls or to a Contribution for roads from Local Funds.

The expenditure of the year amounted to Rs 15051 against an Estimate of Rs 19750 leaving an unutilized balance of Rs 3015 which is accounted for by the fact that the money was not received until the last month of the year. The President of the Local Fund Board will arrange for the Municipal share

share of the tolls being made over at an earlier date in future.

The expenditure on public Works calls for no particular remark but it is observed that the outlay on repairs to roads is incorrectly entered in Statement IIA, Even if the cost of establishment be included the amount would be Rs 4154 not Rs 5154.

The short expenditure under education is explained to be owing to arrangements not having been completed for the opening of two schools within the year.

The increased attendance at the Dispensary is satisfactory and indicates that the institution is regaining its popularity.—

The object of omitting the expenditure on account of small-pox patients from statement IA is not very apparent.

Though the outlay on Conservancy was unnecessarily less than

5 Hospital Schools appear to have been opened within another?

than the Estimate the Government are glad to learn that the work was done in as thorough and satisfactory a manner as the funds were capable of.

The in the present report the Commissioners ask for orders on certain proposals which appear to have been made before in a letter ~~not~~ never forwarded to Govt & the President.

The Govt agree with the proposal that further information should be awaited before accepting the statement opined by him, that out of 1769 rate payers paying less than a rupee 1300 are for the most part widows or persons suffering from natural infirmities. The proposal to limit the house rate payable by an individual to Rs 100 is inadmissible, and the important importance of the object to be gained by modifying assessments so as to exclude fractions of half a rupee

is not apparent to Govt.

I am to request that you should have the kindness to call the attention of the Surgeon Superintendent Dispensary to the matter & also inform me.- G.O. 527 August 1873 Horses was not intended to apply to dispensaries at which the whole cost of the salary of the Medical Officer in charge was already defrayed both from the General Revenues.

In G.O. 8/16th July 1874 to 1876 it was decided that when Govt contribute to the salary of the Medical staff all servants of Govt are entitled to treatment and medicines free of charge. This of course does not refer to medicines taken out on circuit or issued to Natives and other Govt servants for distribution.

An application for assistance from Municipal funds towards rebuilding the fishing village and providing public grazing ground cannot be complied with.
