No. 13. Proceedings of the Board of Revenue, dated 6th July 1875, No. 1862:—

Read the following papers:—

From C. T. LONGLEY, Esq., President of the Local Fund Boards, Salem District, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated 30th April 1875, No. 875.

I HAVE the honor to forward, for the consideration and orders of Government, a resolution of the Local Fund Board, Salem Circle, under date the 19th March last. A copy of the Proceedings of the Sub-Committee, as well as that of the Minute by the President, on which the above resolution is based, is also submitted for the information of the Board of Revenue and Government.

2. On receipt of G.O., No. 1,971, dated 26th November 1874, transferring the management of vaccination to Local Fund Boards, and of the Inspector of Vaccination's letter, under date the 27th January 1875, asking the Local Fund Board to undertake the control over vaccination establishment, the Local Board appointed a Committee to consider and report the measures necessary in view to the Board assuming the vaccine management from the beginning of the year 1875-76. The Committee, in reply, forwarded the Proceedings indicated above, embodying their views and suggestions, for the approval of the Local Board.

3. The suggestions contained therein and approved by the Board are—

(1.) That there should be three grades of vaccinators on Rupees 15, 12, and 10, instead of, as provided in the Budget and sanctioned in G.O., No. 194, dated the 1st February 1875, one on a uniform pay of Rupees 10.

(2.) That, as there are at present four first-class vaccinators on Rupees 18 per mensem, and as their salaries cannot fairly be reduced or the vaccinators dispensed with, they should be allowed to remain on the present footing, and that the remaining thirteen vaccinators, including those that will be employed under the sanction conveyed in the Government Order above quoted, should all be placed in the third grade.

(3.) That, on each occasion of vacancy of a first-class vaccinator, the new arrangement should be brought into force by the promotion of one third-grade vaccinator to the first and two to the second grade.

(4.) That each vaccinator should complete a qualifying service of two years in a lower grade before he can claim promotion to a higher.

In addition to these it was adopted by the Board that there should be a separate Superintendent for the Salem Circle on Rupees 60 consolidated salary per mensem, though the Sub-Committee on vaccination suggested the employment of one Superintendent for the whole district at least as a trial.

4. The above proposals deviate from the plan provided for in the Budget and involve an excess expenditure of Rupees 400 over the amount sanctioned by Government, and I have the honor to request that the Board of Revenue will be pleased to obtain the sanction of Government for this excess sum and for the various proposals of the Board detailed above.

Vide statement attached.

5. The above-noted extra charge can be met from the General Reserve.

ENCLOSURE No. 1.—Extract from Proceedings of Local Fund Board.

ENCLOSURE No. 2.—Copy of Proceedings of Vaccination Sub-Committee.

ENCLOSURE No. 3.—President's Minute.

ENCLOSURE No. 4.—Statement.

From the same Officer, dated Salem, 3rd June 1875, No. 729.

IN continuation of my letter, No. 575, dated 30th April 1875, I have the honor to forward an extract from the Proceedings of the Local Fund Board, Salem Circle, dated 29th ultimo, and to request that the sanction of Government may be obtained for the payment of 70 Rupees to the Superintendent of Vaccination, Salem Circle, as a temporary measure, until he is removed to another district and a successor is appointed.

2. Prior to the transfer of the staff to the Local Fund Board the Vaccination Superintendent was drawing Rupees 70. In the Budget for the current year only Rupees 50 were provided; but in Proceedings under date the 19th March the Local Board resolved to pay him at Rupees 60 per mensem. The Board now, on reconsideration, are of opinion that it is hard that a servant who under Government was drawing Rupees 70 should, by the mere transfer of control, be compelled to accept a lower pay, and have, therefore, proposed to pay the present Superintendent Rupees 70 per mensem, which he has been drawing hitherto, until he is removed to another district, when his successor will be paid the sanctioned salary of Rupees 60 per mensem.

3. The extra charge can be met from the General Reserve.

ENCLOSURE No. 1.—Extract from Proceedings of Local Fund Board.

From the same Officer, dated Salem, 3rd June 1875, No. 730.

As requested in your official memorandum, No. 806, dated the 25th ultimo, I have the honor to forward, herewith, for the information of the Board, an English translation of the instructions regulating the work of the vaccinators in the Oossoor Circle, as also a copy of the form alluded to therein, and to state that the general plan of the Oossoor Board has been fully detailed in paragraphs 37 to 40 of the Vice-President's letter, No. 189, dated 18th September 1874, forwarded to the Board of Revenue with my letter, No. 1,005, dated 6th November 1874, disposed of in Board's Proceedings, No. 3,424, dated 26th November 1874.

2. In reference to the concluding part of the above memorandum, I beg to state that it is proposed to give no special allowance to the vaccinator for working on the Shevaroy Hills, which will now be attended to by the Salem vaccinator.

ENCLOSURE No. 1.—Copy of Instructions issued to Vaccinators.

ENCLOSURE No. 2.—Form of Statement of Villages under the charge of each Vaccinator.

THESE papers relate to a reorganization of the vaccine establishment proposed by the Local Fund Board of the Salem Circle, and will be submitted to Government through the Sanitary Commissioner.

2. It is intended to divide the Circle into seventeen ranges, in each of which a vaccinator is to be resident and each village in which he is to visit twice a year for a stated time. Rules are drawn up for securing the co-operation of the Village Officers and for returns of work being made under their attestation. The training of vaccinators is to be effected by attaching recruits to the experienced vaccinators for a time, after which they are to be examined by the Vaccine Superintendent.

3. The existing staff of eleven vaccinators, four on Rupees 18 and seven on Rupees 10, is to be increased to the number recently sanctioned, *viz.*, seventeen vaccinators; but the salaries have been re-arranged, and there are to be four on Rupees 15, six on Rupees 12, and seven on Rupees 10. This scale is to be gradually introduced as vacancies occur among the more highly-paid men now employed. The Budget sanction provides for a Superintendent on Rupees 50, but the Local Board propose to fix the salary at 60 Rupees, and to allow the present Superintendent to continue to receive, until transferred elsewhere, Rupees 70 as at present. The special allowance sanctioned for the vaccinator on the Shevaroy Hills is to be discontinued, and the allotments for contingencies and batta are reduced.

4. The financial effect of these proposals is to increase the charge for vaccination from Rupees 3,000 to Rupees 3,520. The excess can be met from the General Reserve in the current year.

5. The scheme appears to be well considered, and the Board recommend that it be sanctioned.

No. 13-A. From Surgeon-Major H. KING, M.B., A.M., Acting Sanitary Commissioner for Madras, to the Hon. D. F. CARMICHAEL, Officiating Chief Secretary to Government, Fort St. George, dated on tour, 20th July 1875, No. 1103.

I have the honor to forward Proceedings of the Board of Revenue, No. 1862, of 6th instant, with seven enclosures, received for transmission to Government.

2. It appears to me obviously undesirable that every Local Fund Circle should organize its Vaccination Department on a separate system of its own. I have in obedience to the orders of Government entered into communication with Local Fund Boards and Municipalities, with a view to ascertaining their

opinions as to the future organization of the Vaccination Department throughout the Presidency and the feasibility of utilizing it for other sanitary purposes: and I hope to be able, before long, to prepare a scheme for the sanction of Government. In the meantime, I think it will be better to make no change in the Salem District, and I may add that some of the proposed rules are in consistent with others which have already been experimentally sanctioned.

No. 14. ORDER THEREON, 4th August 1875, No. 1594.

The Governor in Council agrees with the Acting Sanitary Commissioner, and will await the scheme which he promises to submit for the working of the Vaccination Department throughout the Presidency.
