Proceedings of the Madras Government, Financial Department, 5th January 1875.

MUNICIPAL—MEDICAL.

No. 13. Read the following letter from J. H. MASTER, Esq., President of the Municipal Commissions, Bellary, to the Hon. D. F. CARMICHAEL, Acting Chief Secretary to Government, Fort St. George, dated Bellary, 3rd November 1874, No. 115 :—

With reference to the Proceedings of Government, dated 25th August last, No. 1424, I have the honor to forward, for sanction, a revised estimate, &c., for Rupees 20,000 for building a Dispensary with out-offices at Adoni.

2. The modifications in this estimate are the omission of four cottages, which the Commissioners are willing to forego, and the substitution of a flat roof for a tiled one, as good tiles are not procurable in this district.

3. The out-houses proposed to be built are specified in the report.

No. 14. ORDER THEREON, 5th January 1875, No. 15.

The intention of G.O., dated 25th August 1874, No. 1424, was to intimate to the Municipal Commissioners that the Government did not consider the Standard Plan to be suitable in any way to the town of Adoni.

2. A revised Standard Plan will be prepared by Mr. Chisholm in communication with the Surgeon-General and the Sanitary Commissioner, the Government being of opinion, on reconsideration, that the plan sanctioned in G.O., dated 8th October 1872, No. 1136, and G.O., dated 23rd November 1872, No. 1554, is defective on account of its inordinate expense.

(True Extract.)

I agree. The defects of the present plan should be carefully explained to Mr Chisholm. It appears that a rather good & well-adapted B of H for the purpose will be had for the cost of the present plan. In order to expedite and obviate delay if two months hence I shall not have heard that the best to the medical officer a hospital at a better cost — who has a case to hear the

Note.

The existing standard plan is based mainly on instructions issued in G.O. dated 30th Nov. 1871, No. 1780. The large space allotted to the Medical officer, however, attracted attention, and Doctors Balfour and Cornish were referred to. They replied in favor of the plan

in which a larger amount of accommodation is provided at a smaller outlay.) No. 1 Part VII

2. A revised standard plan will also be prepared by Mr. Chisholm in communication with the Surgeon General and the Sanitary Commissioners, the first being of opinion, on reconsideration, that the plan sanctioned in S.O. dated 8th October 1872, No. 1136, and S.O. dated 23rd November 1872, No. 1554 is defective on account of its immediate expense and appropriation of too much space (and plan, remarking,

"The seeming excess of space is owing to the circumstance that part of the proposed hospital accommodation is now to be allotted to several other buildings detached from the main block, which if added on to the main building would quite remove the present appearance of disproportion in the space allotments. Also, in all such institutions it is the out-patients that preponderate, and for them, to do them justice, the medical officer needs to have a fair amount of accommodation."

It is therefore again respectfully submitted that, as the new standard plan must be prepared by the same officers, it might be as well merely to ask for an alternative standard plan for localities which cannot afford anything so ambitious as the one previously adopted.

It is not ambitious and that the best is to the Medical officer, a Hospital Assistant or Apothecary, who has a house besides. In the revised plan more accommodation should be provided for in-patients, with a surgery and small room for the Medical officer.
