Proceedings of the Madras Government, Financial Department, 9th August 1875.

Local Funds—Establishment.

No. 51. Read the following Proceedings of the Board of Revenue, dated 24th July 1875, No. 2062:—

Read the following letter from L. CONWAY-GORDON, Esq., Controller of Public Works Accounts, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Madras, 27th May 1875, No. 988:—

I HAVE the honor to acknowledge the receipt of a copy of the Minutes of the Proceedings of the Board of Revenue, Miscellaneous No. 3,483, dated 27th April 1875, requesting a report on the cause of the low charge for supervision in the Nellore Circle, and in reply to inform you that, in general terms, the cause is as follows.

2. The Nellore Local Fund Circle happens to include the Public Works Department East Coast Canal Range, the apportionment of the establishment of which, in accordance with the orders of Government in the Financial Department, No. 221, dated 17th February 1873, had to be carried out exceptionally.

3. The exceptional method of dividing the expenditure on the establishment of this one range naturally caused the total charge for establishment in the Nellore Circle to bear a proportion to the total charge for expenditure different to the proportion found in other Circles in which the establishment charges of all the Public Works Ranges therein included were divided in the ordinary and general way.

THE Board observe that the cost of the East Coast Canal Range Establishment for 1873-74 should have been excluded before the distribution of the general establishment charges amongst the Funds and Circles was made. A redistribution now, however, will involve much labor, while the gain to the other Funds and Circles will be very little. The Board are, therefore, of opinion that the debits already made may be allowed to remain undisturbed.
