Municipal—Medical.

No. 147. Read the following letter from Surgeon-General E. G. BALFOUR, Surgeon-General, Indian Medical Department, to the Honorable D. F. CARMICHAEL, Officiating Chief Secretary to Government, Fort St. George, dated Fort St. George, 2nd September 1875, No. 458:—

With reference to G.O., No. 1695, of 20th August 1875, I have the honor to mention that the Bimlipatam Indent was received into this office on the 2nd February, audited and passed on to the Depôt of Medical Stores on the following day (3rd February), and the Depôt despatched the consignment on the 14th ultimo.

2. According to the enclosed Circulars of my predecessor's time and my own, the indent should have been in this office on the 1st January.

No. 148. ORDER THEREON, 21st September 1875, No. 1866.

It appears from this explanation that the Indent for medicines required by the Bimlipatam Municipality which was passed on by the Surgeon-General to the Medical Stores on the 3rd February, was not complied with until the 14th August, or upwards of six months after date of transfer.

2. The Governor in Council considers the delay which has occurred to be wholly inexcusable, notwithstanding that the indent was not received by the Surgeon-General on the prescribed date, and he desires that the Surgeon-General will take effective measures to prevent the recurrence of similar gross neglect, and to ensure prompt compliance with all indents for medicine from Municipal and Local Fund Boards.

CIRCULAR.

MEMORANDUM.

With the view of diminishing work in the Medical Examiner's Office, the Inspector-General requests, that hereafter Annual Indents for Medical Stores from Civil Hospitals and Dispensaries and from Civil Departments generally may be submitted on the 1st January and for the Calendar year, instead of on the 1st April and for the Official year, as at present. To meet this arrangement, Civil Annual Indents dated the 1st April 1871 should only contain demands sufficient to cover the probable expenditure, calculated in the usual way, for nine instead of twelve months, and Administrative Medical Officers will be good enough to bear this in mind, in checking such Indents.
