Local Funds—Vaccination.

No. 152. Read the following Proceedings of the Board of Revenue, dated 29th October 1875, No. 3002:—

Read the following letter from H. KING, Esq., Acting Sanitary Commissioner for Madras, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Madras, 7th October 1875, No. 1,758:—

I HAVE the honor to forward for favorable consideration the enclosed letter from the Collector of Coimbatore, recommending an increased rate of allowance to volunteer vaccinators in certain localities.

ENCLOSURE No. 1.

From A. WEDDERBURN, Esq., President of the Local Fund Board, Coimbatore, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, through the Sanitary Commissioner, Madras, dated 5th October 1875, No. 49.

IN continuation of my letter of the 25th June 1875, No. 34, suggesting the payment of one anna to volunteer vaccinators of whom we have a supply in this district, which proposition has received the sanction of Government as an experiment for a year, I have the honor to submit, for the further consideration of the Board and Government, the advisability of allowing of a payment of double that amount in certain localities in this district.

G.O., No. 1,736 of 28th August 1875, received with Revenue Board's Miscellaneous No. 8,444, of 16th September 1875.

2. For instance, there is the notoriously feverish taluq of Collegal, where the villages are small, the distances to be travelled great, risks and expenses enhanced.

3. North Bhowany and the Talavady Division of Sattimungalum, above the ghaut, are in the same category.

4. I called on the Superintendent of Vaccination to inform me when the Talavady Division had been visited, as the Treasury Deputy Collector on tour there, wrote that a vaccinator had not been seen for years, and so it may be imagined the unprotected were many. The Superintendent of Vaccination could not positively inform me that Talavady had been visited.

5. Even in Cusbah Collegal, on a visit in June of 1871, I personally saw the streets literally full of children, in an efflorescence of small-pox, the mortality in that taluq of that year was 123.

6. The double rate of payment by results will, I think, be calculated to encourage the progress of vaccination, and when the cost of vaccination in some districts has reached Annas 9-6 per head, it must be admitted that 2 Annas is very moderate.

7. This being an essentially sanitary question, I submit the same through the Sanitary Commissioner.

P. S.—This subject was discussed and approved of at a meeting of the Board on the 2nd instant.

SUBMITTED for the orders of Government with reference to G.O., Financial Department, 28th August 1875, No. 1,736.
