**Local Funds—Education.**

No. 96. Read the following Proceedings of the Board of Revenue, dated 2nd December 1874, No. 3483 :—

Read the following letter from E. B. POWELL, Esq., Director of Public Instruction, to the Hon. D. F. CARMICHAEL, Acting Chief Secretary to Government, Fort Saint George, dated Madras, 22nd October 1874, No. 1974 :—

I HAVE the honor to submit two letters, with enclosures, from the Collector of North Arcot, Nos. 869 and 904, of the 3rd and the 14th instant, respectively.

2. I see no objection to the Local Fund Boards establishing the proposed schools, provided the institutions are made lower class ones and the study of English is omitted. I think, however, that the remuneration of the teachers should be given partly in the shape of Salaries and partly in that of Results Grants.

ENCLOSURE No. 1.

From W. S. WHITESIDE, Esq., President of the Local Fund Boards, North Arcot, to Lieut.-Colonel R. M. MACDONALD, Acting Director of Public Instruction, dated Palmanair, 3rd October 1874, No. 869.

WITH reference to G. O., Financial Department, dated 5th March 1874, No. 362, directing to report as to the course which the Local Fund Boards propose to adopt for the development of Elementary Education, I have the honor to report that the Local Fund Board of the Chittoor Circle propose to open forty-six permanent Local Fund Schools, exclusive of those already proposed

and sanctioned in the current year's Budget, distributing the number among the several taluqs and divisions in proportion with the present state of education therein, as specified in the margin. According to the revised list, prepared with reference to the Resolutions of the Local Fund Board on the subject, the aggregate cost of these forty-six schools amounts to Rupees 10,920. These schools, the Acting Inspector

states, will yield about 3,000 Rupees per annum from school fees, thus making the net amount to be provided for them, Rupees 7,920. The Local Fund Board, on the suggestion of the above-named officer, propose to take Rupees 3,000 from the usual allotment of Rupees 8,000 for Results Grant, as most, if not all, of them have hitherto been aided from the above source. As ten of these are Middle Class Schools and are at present entirely paid from Provincial Funds, they desire to move Government to relieve them by a grant from Provincial Fund of Rupees 2,000, which request, I think, is reasonable. The additional charge, which will fall on the Local Fund Board, will therefore be Rupees 2,920. To lose no time in carrying into effect the scheme now proposed, provision for these forty-six schools has been made in the Budget for the next official year, now under preparation, and I therefore request you will forward the proposal, with your own recommendation, for the approval and early sanction of Government.

2. A copy of the Resolution of the Local Fund Board of the Chittoor Circle on the subject, together with a list of schools proposed, is herewith sent.

ENCLOSURE No. 2.—Minutes of Proceedings of the Local Fund Board of the Chittoor Circle, dated Monday the 28th September 1874.

*Proceedings of the Madras Government, Financial Department,  
6th February 1875.*

ENCLOSURE No. 3.—List of Schools entered in the Local Fund Budget of the Chittoor Circle for 1874-75, and those newly proposed for 1875-76.

ENCLOSURE No. 4.

From W. S. WHITESIDE, Esq., President of the Local Fund Boards, North Arcot, to Lieut., Colonel R. M. MACDONALD, Acting Director of Public Instruction, dated Palmanair, 14th October 1874, No. 904.

In continuation of my letter, dated 3rd instant, No. 869, I have the honor to forward copy of a letter from the Vice-President of the Local Fund Board of the Vellore Circle, reporting, with reference to G. O., dated 5th March 1874, No. 362, on the course which it is proposed to adopt for the development of Elementary Education. You will observe that the Local Fund Board propose to open thirty-nine Salary Schools in addition to the four already provided for in the current year's Budget. The establishment of these schools has been estimated to cost Rupees 773 per month, or Rupees 9,276 per annum. How it is proposed to meet this cost, is explained in detail by the Vice-President, and it is therefore unnecessary for me to set it forth again in this letter. As the opening of these schools will be the means of extending Elementary Education among the rural population of the Circle, I beg to request that you will be so good as to submit the proposal contained in the Vice-President's letter, with your own recommendation, to Government for their early sanction.

ENCLOSURE No. 5.

From E. L. PEARSE, Esq., Vice-President of the Local Fund Boards, Vellore Circle, to W. S. WHITESIDE, Esq., President of the Local Fund Boards, North Arcot, dated Vellore, 13th July 1874, No. 175.

WITH reference to your foot-note on G. O., dated 5th March 1874, No. 362, directing to submit a brief report showing the course which it is proposed to adopt for the development of Elementary Education in the absence of house-tax and the system of unions, I have the honor to submit the following report.

2. The Local Fund Board of this Circle propose to open Salary Schools for the present in the thirty-nine important places as shown in the annexed list, besides the four places already provided for in the current year's Budget, with the number of Masters and the amount of pay, etc., set opposite to each in the list. The total outlay on these schools will amount to Rupees 773 per month, or Rupees 9,276 per annum. This is only a general plan proposed, and may be brought into action with necessary modifications in the course of years.

3. It is proposed to meet this sum as follows:

The Land-cess, which was hitherto levied at the rate of 9 Pies in the Rupee, being now increased to one Anna, Rupees 7,430 or thereabouts will accrue to the General Fund every year from the extra cess. Out of this amount, the Local Fund Board propose to utilize about Rupees 4,000 on education. The remaining Rupees 5,276 may be met thus. When these thirty-nine schools are set on foot, Rupees 1,500 can be spared from the usual allotment for Result Grants. The fees in the Salary Schools may be expected to amount to Rupees 2,340 per annum, at the rate of Rupees 60 per school on an average. There is then Rupees 1,436 to be provided for, and the Local Fund Board may perhaps be able to make up this deficiency, if not, Government may be requested to grant Rupees 1,500 per annum on the ground that these Salary Schools will supply the place of most of the Middle Class Result Schools which now receive grant from Provincial Funds. These schools, the Deputy Inspector states, claimed a grant of Rupees 2,700 in 1873-74, and the demand is likely to come up to Rupees 3,500 in the absence of the Salary Schools. The Government may therefore be inclined to contribute Rupees 1,500, which will be a saving from the Middle Class Results Schools.

*Proceedings of the Madras Government, Financial Department,  
6th February 1875.*

4. We have also to provide the Salary Schools with some furniture. This may be done once for all at a cost of about Rupees 60 per school. For this purpose we may reserve Rupees 2,500 from the one-third of the extra land-cess to be raised in the current year, as no portion of it is required to be spent on this scheme this year.

(True Copy.)

(Signed) W. S. WHITESIDE,  
President, Local Fund Board.

ENCLOSURE No. 6.—List of such places in the Vellore Circle as may be provided with Local Fund Salary Schools.

SUBMITTED for the orders of Government.

2. The letters from the President of the North Arcot Local Fund Boards, which are submitted by the Director of Public Instruction, purport to contain replies from the Chittoor and Vellore Local Fund Boards to G. O., Financial Department, dated 5th March 1874, No. 362. The replies are to the effect that the course which the Local Fund Boards propose to adopt for the development of Elementary Education is the establishment of Local Fund Schools in which the Masters shall be paid by fixed stipends.

3. The letters also submit, for the sanction of Government, schemes for establishing Local Fund Schools.

4. CHITTOOR.—Twelve schools with twenty-five Masters are entered in the current year's Budget. The Local Fund Board propose to establish forty-six more with eighty-five Masters costing Rupees 10,920, of which it is expected that Rupees 3,000 will be recovered in school fees.

5. It is believed by the Local Fund Board that on the establishment of these schools Rupees 3,000 will be saved in Results Grants, as "most, if not all, of them have been hitherto aided" by such grants.

6. Ten of the schools are said to be Middle Class Schools, and Government are asked on this account to contribute Rupees 2,000 from Provincial Funds.

7. It appears that one of the schools is to be at Ranipett where there is a Middle Class School already, and that no Results Grants are to be paid within a radius of two miles of it. Another is to be at Chittoor, and it is proposed to withhold Results Grants in the case of the eleven pial schools which exist in the town or its suburbs.

8. Nothing is said as to the style of education which is to be given, or as to the rates of school fees to be levied.

9. In their Proceedings of the 17th October 1874, No. 3,017, the Board acquiesced in the establishment of the twelve schools entered in the current year's Budget on this system, but it is a different thing when they have to consider the system as applicable to forty-six schools and as making provision for developing Elementary Education in a circle with 159,239 boys between the ages of five and fifteen. The proposal that ten Middle Class Schools should be made Local Fund Schools is obviously inadmissible. "Most, if not all," of the schools are to

supersede schools already in existence which draw Results Grants. The Board are decidedly of opinion that much greater encouragement will be given to Elementary Education if the present schools are left as they are, permanence being secured by calling them Local Fund Schools and paying the Masters small fixed stipends. In a letter recorded with the Proceedings already alluded to, the President urged that if fixed stipends were given in this way the sum available for Results Grants would be diminished, and the Masters of schools who did not get fixed stipends would be discouraged and would not exert themselves to get Results Grants. If the Local Fund Board, instead of setting up a very limited number of schools with the Masters paid entirely by fixed salaries, select the Results Grants Schools which they think should be made permanent, and make them so by giving a part of their help in fixed stipends, they will be able to keep a much larger number of Masters teaching, and the others will not be any more discouraged than they would be by the establishment of the proposed schools.

10. VELLORE.—There are four schools with eight Masters in the current year's Budget, and the Local Fund Board have resolved to pay the Masters Rupees 10 and Rupees 7 in fixed stipends, and the remainder, Rupees 5 and Rupees 3, in Results Grants (Board's Proceedings, dated 17th October 1874, No. 3,017.) It is now proposed to establish thirty-nine more schools with seventy-six Masters costing Rupees 9,276 per annum, of which it is expected that Rupees 2,340 will be recovered in school fees. The Masters are to be paid entirely by fixed stipends.

11. It is believed that when the schools are established Rupees 1,500 can be spared from the allotment for Results Grants.

12. It is hoped that, if necessary, Government will contribute Rupees 1,500 per annum on the ground that the schools "will supply the place of most of the Middle Class Results Schools which now receive grants from Provincial Funds."

13. The remarks which have been made with regard to the Chittoor scheme apply for the most part to this. So far as the proposed schools supersede existing schools no great development of education can be expected. It is difficult to understand how the establishment of the schools will free Government from obligations with regard to Middle Class Schools. If it is proposed to make any of the Local Fund Schools Middle Class Schools, the proposal is inadmissible. If it is proposed to stop the grants to Middle Class Schools directly a Local Fund Lower Class School is established in the neighbourhood, education will be retarded not advanced. Forty-three schools with eighty-four Masters will do comparatively

little for education in a Circle containing 79,337 boys between ages five and fifteen. If the Rupees 6,936 which is proposed to spend on thirty-nine Local Fund Schools were spent in Results Grants (partly paid as fixed stipends) a much larger number of schools would be supported, and a much larger number of boys would be educated.

14. It is not clear why the Vellore Local Fund Board have given up the principle of paying Masters partly by fixed stipends and partly by Results Grants, which they have admitted, though only to a small extent, with regard to the four

schools in the current year's Budget a short time before this proposal was submitted.

(True Copies and Extract.)

(Signed) J. GROSE,  
Secretary.

No. 97. ORDER THEREON, 6th February 1875, No. 263.

The proposals will be remanded to the Local Fund Boards for revision, with reference to the remarks of the Board of Revenue and the Director of Public Instruction in the papers above recorded. From the Proceedings of Government, dated 7th January 1875, No. 20, it will be seen that it was with reluctance that the establishment of the schools therein referred to was sanctioned so far as the Chittoor Circle was concerned.

(True Extract.)

Acting Chief Secretary.

To the Board of Revenue, with enclosures returned.

Exd. T. O'Connor.

I cannot see the propriety of dealing with this matter as proposed in the draft G.O. viz to throw it back at these <sup>Synodical</sup> bewildered Boards without shewing distinctly the policy of Government. Can any more telling illustration of the confusion into which we have drifted be found, than the reflections to which these futile proposals of local officers and observations of the Board of Revenue and Director of Public Instruction suggest? We are without a policy and without

These proposals of the Board appear to be the establishment of a number of schools, most of which are to supersede existing schools, leaving results facts - nothing is proved by this. <sup>Now</sup> and the Board is to replace it then that these proposals <sup>are</sup> do <sup>and</sup> rectify the <sup>present</sup> for the

No. 3,483.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 2nd December 1874.  
 Read the following letter from E. B. POWELL, Esq., Director of Public Instruction, to the Hon. D. F. CARMICHAEL, Acting Chief Secretary to Government, Fort Saint George, dated Madras, 22nd October 1874, No. 1,974:—

I HAVE the honor to submit two letters, with enclosures, from the Collector of North Arcot, Nos. 869 and 904, of the 3rd and the 14th instant respectively.

2. I see no objection to the Local Fund Boards establishing the proposed schools, provided the institutions are made lower class ones and the study of English is omitted. I think, however, that the remuneration of the teachers should be given partly in the shape of Salaries and partly in that of Results Grants.

ENCLOSURE No. 1.

From W. S. WHITESIDE, Esq., President of the Local Fund Boards, North Arcot, to Lieut.-Colonel R. M. MACDONALD, Acting Director of Public Instruction, dated Palmanair, 3rd October 1874, No. 869.

WITH reference to G. O., Financial Department, dated 5th March 1874, No. 362, directing to report as to the course which the Local Fund Boards propose to adopt for the development of Elementary Education, I have the honor to report that the Local Fund Board of the Chittoor Circle propose to open forty-six permanent Local Fund Schools, exclusive of those already proposed

and sanctioned in the current year's Budget, distributing the number among the several taluqs and divisions in proportion with the present state of education therein, as specified in the margin. According to the revised list, prepared with reference to the Resolutions of the Local Fund Board on the subject, the aggregate cost of these forty-six schools amounts to Rupees 10,920. These schools, the Acting Inspector

states, will yield about 3,000 Rupees per annum from school fees, thus making the net amount to be provided for them, Rupees 7,920. The Local Fund Board, on the suggestion of the above-named officer, propose to take Rupees 3,000 from the usual allotment of Rupees 8,000 for Results Grant, as most, if not all, of them have hitherto been aided from the above source. As ten of these are Middle Class Schools and are at present entirely paid from Provincial Funds, they desire to move Government to relieve them by a grant from Provincial Fund of Rupees 2,000, which request, I think, is reasonable. The additional charge, which will fall on the Local Fund Board, will therefore be Rupees 2,920. To lose no time in carrying into effect the scheme now proposed, provision for these forty-six schools has been made in the Budget for the next official year, now under preparation, and I therefore request you will forward the proposal, with your own recommendation, for the approval and early sanction of Government.

2. A copy of the Resolution of the Local Fund Board of the Chittoor Circle on the subject, together with a list of schools proposed, is herewith sent.

ENCLOSURE No. 2.—Minutes of Proceedings of the Local Fund Board of the Chittoor Circle, dated Monday the 28th September 1874.

ENCLOSURE No. 3.—List of Schools entered in the Local Fund Budget of the Chittoor Circle for 1874-75, and those newly proposed for 1875-76.

ENCLOSURE No. 4.

From W. S. WHITESIDE, Esq., President of the Local Fund Boards, North Arcot, to Lieut. Colonel R. M. MACDONALD, Acting Director of Public Instruction, dated Palmanair, 14th October 1874, No. 904.

In continuation of my letter, dated 3rd instant, No. 869, I have the honor to forward copy of a letter from the Vice-President of the Local Fund Board of the Vellore Circle, reporting, with reference to G. O., dated 5th March 1874, No. 362, on the course which it is proposed to adopt for the development of Elementary Education. You will observe that the Local Fund Board propose to open thirty-nine Salary Schools in addition to the four already provided for in the current year's Budget. The establishment of these schools has been estimated to cost Rupees 773 per month, or Rupees 9,276 per annum. How it is proposed to meet this cost, is explained in detail by the Vice-President, and it is therefore unnecessary for me to set it forth again in this letter. As the opening of these schools will be the means of extending Elementary Education among the rural population of the Circle, I beg to request that you will be so good as to submit the proposal contained in the Vice-President's letter, with your own recommendation, to Government for their early sanction.

ENCLOSURE No. 5.

From E. L. PEARSE, Esq., Vice-President of the Local Fund Boards, Vellore Circle, to W. S. WHITESIDE, Esq., President of the Local Fund Boards, North Arcot, dated Vellore, 13th July 1874, No. 175.

With reference to your foot-note on G. O., dated 5th March 1874, No. 362, directing to submit a brief report showing the course which it is proposed to adopt for the development of Elementary Education in the absence of house-tax and the system of unions, I have the honor to submit the following report.

2. The Local Fund Board of this Circle propose to open Salary Schools for the present in the thirty-nine important places as shown in the annexed list, besides the four places already provided for in the current year's Budget, with the number of Masters and the amount of pay, etc., set opposite to each in the list. The total outlay on these schools will amount to Rupees 773 per month, or Rupees 9,276 per annum. This is only a general plan proposed, and may be brought into action with necessary modifications in the course of years.

3. It is proposed to meet this sum as follows:

The Land-cess, which was hitherto levied at the rate of 9 Pies in the Rupee, being now increased to one Anna, Rupees 7,430 or thereabouts will accrue to the General Fund every year from the extra cess. Out of this amount, the Local Fund Board propose to utilize about Rupees 4,000 on education. The remaining Rupees 5,276 may be met thus. When these thirty-nine schools are set on foot, Rupees 1,500 can be spared from the usual allotment for Result Grants. The fees in the Salary Schools may be expected to amount to Rupees 2,340 per annum, at the rate of Rupees 60 per school on an average. There is then Rupees 1,436 to be provided for, and the Local Fund Board may perhaps be able to make up this deficiency, if not, Government may be requested to grant Rupees 1,500 per annum on the ground that these Salary Schools will supply the place of most of the Middle Class Result Schools which now receive grant from Provincial Funds. These schools, the Deputy Inspector states, claimed a grant of Rupees 2,700 in 1873-74, and the demand is likely to come up to Rupees 3,500 in the absence of the Salary Schools. The Government may therefore be inclined to contribute Rupees 1,500, which will be a saving from the Middle Class Result Schools.

4. We have also to provide the Salary Schools with some furniture. This may be done once for all at a cost of about Rupees 60 per school. For this purpose we may reserve Rupees 2,500 from the one-third of the extra land-cess to be raised in the current year, as no portion of it is required to be spent on this scheme this year.

(True Copy.)

(Signed) W. S. WHITESIDE,  
President, Local Fund Board.

ENCLOSURE No. 6.—List of such places in the Vellore Circle as may be provided with Local Fund Salary Schools.

SUBMITTED for the orders of Government.

2. The letters from the President of the North Arcot Local Fund Boards, which are submitted by the Director of Public Instruction, purport to contain replies from the Chittoor and Vellore Local Fund Boards to G. O., Financial Department, dated 5th March 1874, No. 362. The replies are to the effect that the course which the Local Fund Boards propose to adopt for the development of Elementary Education is the establishment of Local Fund Schools in which the Masters shall be paid by fixed stipends.

3. The letters also submit, for the sanction of Government, schemes for establishing Local Fund Schools.

4. CHITTOOR.—Twelve schools with twenty-five Masters are entered in the current year's Budget. The Local Fund Board propose to establish forty-six more with eighty-five Masters costing Rupees 10,920, of which it is expected that Rupees 3,000 will be recovered in school fees.

5. It is believed by the Local Fund Board that on the establishment of these schools Rupees 3,000 will be saved in Results Grants, as "most, if not all, of them have been hitherto aided" by such grants.

6. Ten of the schools are said to be Middle Class Schools, and Government are asked on this account to contribute Rupees 2,000 from Provincial Funds.

7. It appears that one of the schools is to be at Ranipett where there is a Middle Class School already, and that no Results Grants are to be paid within a radius of two miles of it. Another is to be at Chittoor, and it is proposed to withhold Results Grants in the case of the eleven pial schools which exist in the town or its suburbs.

8. Nothing is said as to the style of education which is to be given, or as to the rates of school fees to be levied.

9. In their Proceedings of the 17th October 1874, No. 3,017, the Board acquiesced in the establishment of the twelve schools entered in the current year's Budget on this system, but it is a different thing when they have to consider the system as applicable to forty-six schools and as making provision for developing Elementary Education in a circle with 159,239 boys between the ages of five and fifteen. The proposal that ten Middle Class Schools should be made Local Fund schools is obviously inadmissible. "Most, if not all," of the schools are to supersede schools already in existence which draw Results Grants. The Board are decidedly of opinion that much greater encouragement will be given to Elementary Education if the present schools are left as they are, permanence being secured by calling them Local Fund Schools and paying the Masters small fixed stipends. In a letter recorded with the Proceedings already alluded to, the President urged that if fixed stipends were given in this way the sum available for Results Grants would be diminished, and the Masters of schools who did not get fixed stipends would be discouraged and would not exert themselves to get Results Grants. If the Local Fund Board, instead of setting up a very limited number of schools with the Masters paid entirely by fixed salaries, select the Results Grants Schools which they think should be made permanent, and make them so by giving a part of their help in

fixed stipends, they will be able to keep a much larger number of Masters teaching, and the others will not be any more discouraged than they would be by the establishment of the proposed schools.

10. VELLORE.—There are four schools with eight Masters in the current year's Budget, and the Local Fund Board have resolved to pay the Masters Rupees 10 and Rupees 7 in fixed stipends, and the remainder, Rupees 5 and Rupees 3, in Results Grants (Board's Proceedings, dated 17th October 1874, No. 3,017.) It is now proposed to establish thirty-nine more schools with seventy-six Masters costing Rupees 9,276 per annum, of which it is expected that Rupees 2,340 will be recovered in school fees. The Masters are to be paid entirely by fixed stipends.

11. It is believed that when the schools are established Rupees 1,500 can be spared from the allotment for Results Grants.

12. It is hoped that, if necessary, Government will contribute Rupees 1,500 per annum on the ground that the schools "will supply the place of most of the Middle Class Results Schools which now receive grants from Provincial Funds."

13. The remarks which have been made with regard to the Chittoor scheme apply for the most part to this. So far as the proposed schools supersede existing schools no great development of education can be expected. It is difficult to understand how the establishment of the schools will free Government from obligations with regard to Middle Class Schools. If it is proposed to make any of the Local Fund Schools Middle Class Schools, the proposal is inadmissible. If it is proposed to stop the grants to Middle Class Schools directly a Local Fund Lower Class School is established in the neighbourhood, education will be retarded not advanced. Forty-three schools with eighty-four Masters will do comparatively

| Total...           | 6,936 |

little for education in a Circle containing 79,337 boys between ages five and fifteen. If the Rupees 6,936 which is proposed to spend on thirty-nine Local Fund Schools were spent in Results

Grants (partly paid as fixed stipends) a much larger number of schools would be supported, and a much larger number of boys would be educated.

14. It is not clear why the Vellore Local Fund Board have given up the principle of paying Masters partly by fixed stipends and partly by Results Grants, which they have admitted, though only to a small extent, with regard to the four schools in the current year's Budget a short time before this proposal was submitted.
