Proceedings of the Madras Government, Financial Department,
20th February 1875.

Local Funds—Establishments.

No. 263. Read the following Proceedings of the Board of Revenue, dated 8th February 1875, No. 932 (Miscellaneous) :—

Read the following letter from H. S. THOMAS, Esq., President of the Local Fund Board, Tanjore, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Vallam, 21st October 1874, No. 330 :—

I have the honor to report that the Local Fund Board of the Tanjore Circle have sanctioned an estimate, as per margin, of Rupees 500 for a temporary Survey Establishment for six months, for employment in the 2nd Range of this district, for the purpose of drawing up a map of that range.

	Rs.
One Surveyor for six months, at Rs. 50 per mensem...	300
Four Lascars for six months, at Rs. 5 per mensem....	120
Sundries...	80
Total ...	500

2. A map of this kind will be exceedingly useful, and as the regular establishment of the Range Office cannot take up the extra work, it is necessary that the additional temporary establishment above mentioned should be entertained.

3. I request, therefore, that the Board of Revenue will be good enough to sanction the establishment, and place an allotment of Rupees 500 for this purpose, at the disposal of the Public Works Department, from the Road Fund Reserve of the Circle.

4. I enclose also a letter from the Superintending Engineer on the subject.

From Lieutenant-Colonel R. A. ROBERTS, R.E., Superintending Engineer, Tanjore, to H. S. THOMAS, Esq., President of the Local Fund Board, Tanjore, dated Tanjore, 27th August 1874, No. 804.

I have the honor to forward, for the sanction of the Local Fund Board, an estimate of Rupees 500 for a temporary survey establishment for six months for employment in the 2nd Range of this district, and to report as follows.

2. The Range Officer reports that a commencement has been made towards drawing up a map of the range, but that for the want of details such as surveys of roads, nothing is being done to continue the work, and to complete the map, as the ordinary establishment of the range is not available for such survey duties.

3. I need scarcely inform you that a complete range map would be most useful, as at present there is nothing of the kind that can be depended upon. If the establishment now asked for were sanctioned, the map could be completed with advantage.

4. I may mention that by a rough calculation the number of miles of road to be surveyed may be put down as 120, and it will occupy a Surveyor about six months to survey plot and fill in the map to a reduced scale.

Submitted for the orders of Government.

2. The President, at the instance of the Superintending Engineer, applies for a temporary establishment for six months costing Rupees 500 for employment in the 2nd Range of the district for the purpose of drawing up a map of that Range.

3. The Superintending Engineer reports that the range map is incomplete for want of details, such as surveys of roads, and that the ordinary establishment of the Range is not available to collect the necessary information and thus complete the map.

4. The Board observe that the application is unprecedented, and do not think that the charge is a proper one considering the immense amount paid for Department Public Works Supervision. The current year's estimate of this charge is—

	Rs.
Tanjore	20,870
Negapatam	21,340
Total ...	42,210

Nevertheless, if a map *is not* to be had in the usual way it is worth Rupees 500 to get one.

No. 264. ORDER THEREON, 20th February 1875, No. 390.

The Government do not consider that Local Funds should be called on to bear this charge in addition to the amount paid for Public Works Establishment.

2. It will be considered in the Public Works Department whether other arrangements cannot be made for the preparation of the map.
