MUNICIPAL—BRIDGES.

No. 99. Read the following letter from A. McC. WEBSTER, Esq., Acting President of the Municipal Commission, Mangalore, to the Honorable D. F. CARMICHAEL, Acting Chief Secretary to Government, Fort St. George, dated Mangalore, 17th December 1874, No. 210:—

In the letter which accompanied the revised Budget Estimates of this Municipality for the current year, the Commissioners brought to the notice of Government the dilapidated condition of an old masonry bridge on an important road leading to the Government Salt Kotaurs, and also proposed that Government should aid them in their undertaking to restore it, on the ground of the scantiness of their funds and the unquestionable usefulness of the road to the purchasers of salt from the Government Salt Depôts. This proposal received the assent of Government who were pleased to state, in their Order dated 17th September last, No. 1575, that half of the amount required for the work would be contributed from Provincial Funds on the receipt of a satisfactory plan and estimate.

2. The District Engineer has prepared the accompanying plan and estimate for the reconstruction of the bridge in question which has been approved by the Commissioners, and I am requested to apply to Government for a grant of half the amount. The Commissioners have resolved to entrust the execution of the work to the Public Works Department, and the District Engineer has been requested to make a commencement at once.

3. The Commissioners are tempted to trespass further on the liberality of Government, and to ask whether, under the circumstances, Government would be disposed to allow the bridge to be constructed by the Officer of the Department of Public Works without the extra charge of 15 per cent., which, as will be seen from the estimate, increases the cost by Rupees 800.

No. 100. ORDER THEREON, 13th January 1875, No. 60.

The plan and estimate are approved, and a grant of Rupees 3,050 will be provided in the Provincial Budget for 1875-76.
