Municipal—Establishment.

No. 202. Read the following letter from H. S. THOMAS, Esq., President of the Municipal Commissions, Tanjore District, to the Hon. W. HUDLESTON Chief Secretary to Government, Fort St. George, dated Vallam, 8th March 1875, No. 41 :—

I have the honor to request that Government will be pleased to sanction the entertainment of two Clerks—one in my office, and another in that of the Treasury Deputy Collector—for doing the business connected with the Municipalities in this district.

2. There are no less than five Municipalities in this district, and the work entailed on my office in connection with the examination of the budgets and the annual statements, the carrying on of the ordinary correspondence, and the preparation of such statements as may be called for by Government, the Sanitary Commissioner, or other officers, is very heavy. At present, this work is done by one of the clerks of the regular establishment in addition to his own duties, but as the municipal work in itself alone forms sufficient occupation for a clerk of ordinary qualifications there is no doubt he is overworked, and further delay in the disposal of municipal matters is to some extent unavoidable. The regular establishment itself is hardworked owing to the constant increase of work which has taken place of late years.

3. It is necessary that the Treasury Deputy Collector should also be allowed a clerk for the above reasons. The returns that have to be furnished to the Accountant-General, in connection with Municipalities, have multiplied latterly, and I beg to enclose, for perusal, copy of a letter from the Treasury Deputy Collector on the subject.

4. I would recommend that the salary of the clerk for my office may be fixed at Rupees 30 per mensem, and that for the Treasury Deputy Collector at Rupees 25. The cost of this establishment will be debited in equal proportions to all the Municipalities. Each of the Municipalities will, therefore, have to pay about 11 Rupees per mensem, and this the Municipal Commissioners are willing to do and have to be provided in their budgets for 1875-76.

5. I beg that Government in consideration of the urgent necessity for the establishment will be pleased to accord their early sanction to my proposal.

From P. SESHAGIRI ROW, Deputy Collector, to H. S. THOMAS, Esq., President of the Municipal Commissions, Tanjore District, dated Tanjore, 12th September 1874, No. 1315.

I have the honor to bring to your notice that, up to the close of the last official year, the Accountant-General required only a simple memorandum from you showing the remittances made by the Municipalities into the Treasury, and this was prepared in this office from similar memoranda received from the different Vice-Presidents. In addition to this, this office was obliged, during the past official year, to furnish the Accountant-General detailed accounts of receipts and disbursements of the five Municipalities with remarks for discrepancies between them and the Treasury accounts for 1871-72 and 1872-73. In the current official year the Accountant-General called for a similar annual return for 1873-74, which was prepared and submitted to you on the 20th ultimo. He now wants similar returns for every month from April last. To prepare monthly the account-particulars of receipts and charges of the five Municipalities with remarks for the difference and to submit the same in due time, I hope, you will admit, is a heavy task

upon this office. You will also observe that when such a task is undertaken by this office it will of course have to carry on correspondence relating thereto with the Accountant-General, Vice-Presidents, and Tahsildars, both before the completion of the accounts and after the result of the examination is received from the Accountant-General. The work in this office is already heavy, and it will be difficult to do the additional work without additional aid, and therefore request you will kindly consider the matter and arrange to allow this office an efficient clerk on a salary of Rupees 35 per mensem, the charge being distributed equally over the five Municipalities.

2. It being a known fact, I need scarcely mention that since the revision of the Treasury and Accounts Establishment the work has increased manifold.
