Total Grant I	1,34,470	1,30,924
8. Payment for Inspection	4,208	4,997
9. Local Fund Schools	2,395	7,192
10. Purchase of books	1,262	2,323
11. Commission for selling books	.....	7
12. Results grants	1,932	939
Total Grant II	9,797	15,458
13. Hospitals and Dispensaries	947	1,200
14. Vaccine Establishment	2,395	2,440
15. Medical Practitioners	.....	480
16. Sanitary Establishments, cleansing tanks and wells	2,885	6,005
17. Choultries, Establishment, etc.	72	70
18 Bungalow do.	468	365
19. Contribution to Municipalities	2,450	2,400
Total Grant III	9,216	12,960
20. Establishments at the Presidency and in the Collector's and Local Fund Board's Offices and Contingencies	2,242	2,282
21. Debit balance of Bungalow Fund	48	.....
Total Grant IV	2,290	2,282
22. Miscellaneous Debt Account	2,741	4,932
Total expenditure	1,58,514	1,66,556
23. Balance	80,124	93,566
Grand Total	2,38,638	2,60,122

3. Receipts.—The Local Fund assets including an opening balance of Rupees 80,124 were Rupees 2,60,122. The actual receipts were Rupees 1,79,998 or Rupees 21,928 more than in 1872-73.

4. The increase in the Surplus Pound Fund was due to a larger amount having been transferred to Local Funds than in 1872-73.

5. A sum of Rupees 23,480 was specially allotted from the accumulated surplus of the Village Service Fund of the district in G. O., Financial Department, dated 11th July 1873, No. 973, to meet the cost of the proposed elementary schools, which had been struck out of the Budget because of the disallowance of the House-tax.

6. The Road and Land-cess receipts decreased owing to uncollected arrears.

7. The sum shown against House-tax was the arrear from the previous year.

8. School fees increased owing to the establishment of new schools during the latter part of the year.

9. Fees in Travellers' Bungalows decreased because a smaller number of travellers used them.

10. Expenditure, Grant I., Public Works.—The allotments for Public Works according to the Registers kept in this office were:—

New Works.

	Rs.	
Communications by Public Works Department	73,409	
Do. by Other Agency	2,558	
Educational by Public Works Department	6,000	
Sanitary and Miscellaneous do.	3,973	
		85,940

Repairs.

	Rs.

Communications by Public Works Department	57,064	57,064
Do. by Other Agency	3,222	3,222
Sanitary and Miscellaneous by Public Works Department...	85	85
Do. do. by Other Agency	2,054	2,054
	62,425	62,425
Total ...	97,486	97,366

Proceedings of the Madras Government, Financial Department,
5th April 1875.

12. The total expenditure according to the Controller which is only Rupees 120 less than that of the President and Accountant-General, was 63·60 per cent. on the allotment sanctioned which is a slight advance over the previous year when only 57·79 per cent. of the sanctioned allotment was utilized.

13. The short outlay by the Public Works Department appears to be due as respects new works of communications chiefly to no portion of the allotment of Rupees 5,000 for the Trunk Road No. 17 between Ayalur and the Nundicanama Ghaut having been utilized, and to only Rupees 6,055 out of an allotment of Rupees 21,000 for the road from the Rampur Pass to the Nundicanama Ghaut having been expended.

14. The President mentions that only Rupees 1,806, out of an allotment of Rupees 5,000 provided in the budget, were spent in making village street improvements, and that "the short expenditure was due partly to the inability of the Tahsildars to carry out their improvements without the aid of a special Maistry, and partly to the dilatoriness of the officers of Public Works Department in furnishing the necessary advances. For instance, the cheques indented for in December and January were not received till the end of March when it was found impracticable to utilize the money."

15. A sum of Rupees 6,000 was allotted in the Budget for constructing school houses for the five Middle-class Schools, and another sum of Rupees 2,500 for constructing a Dispensary and Dead-house at Nundial, but both the allotments were left unutilized. No explanation is given to show that any special causes operated in preventing the expenditure of the various allotments, but the President says, "in my former report, the delay on the part of Public Works officers in carrying out new works was commented on, and the Board and Government having called for an explanation, the subject will be disposed of separately, and there is, therefore, no occasion to discuss the cause of their delay in the present report."

16. The expenditure on establishment was as follows:—

	President and Accountant-General.	Controller.
	Rs.	Rs.
Public Works Department Supervision...	27,002	22,894
Petty Establishment	4,401	3,675
Total ...	31,403	26,569

17. The Controller's charge for supervision is 24·89 per cent. on the expenditure on works supervised by the Public Works Department.

18. One hundred and thirty-one and-a-half miles of road were maintained in good order, thirty-five completed, and seventeen in progress. The President quotes remarks by the Acting District Engineer and of the Deputy-Collector of Nundial and Peapalli on the general condition of some of the more important roads. Captain Taylor's remarks show that very little indeed of the Kurnool and Cumbum road was in good order. The Gazupalli Choultry commenced three years previously, and a small Choultry at Atmakur were in progress. Avenues were maintained. There were 9,698 trees.

19. The principal works in progress were—

	Rs.
1. Road from Rampur Pass to Nundicanama Ghaut	6,055
2. Do. from Maddikarra to Tuggalee...	5,470
3. Do. from Tadicherla to the Cuddapah frontier	11,955
4. Widening road on the Nundicanama Ghaut	233
5. Formation of Gooty, Asperry, and Raichore Road... ...	451
6. Constructing a Choultry at Guzupally	496

20. The expenditure under Grant I. was Rupees 1,30,924.

21. Grant II., Education.—The Inspecting staff consisted of two Deputy-Inspectors and four Inspecting Schoolmasters as in the previous year, and cost the Local Fund Rupees 4,997, of which, Rupees 350 were recovered from the Kurnool and Cumbum Municipalities. They examined for results grants sixty-five schools with 606 pupils against 118 schools with 1,201 pupils in the preceding year (when there were fewer Local Fund Schools) and passed Rupees 938 in Results grants and they attended to 138 Local Fund Schools, of which five were old Middle-class Schools and the remaining 133 Elementary Schools established during the year.

22. It was proposed in the Budget to open 163 new Elementary Schools exclusive of the five old Middle-class Schools. Government at first disallowed the proposal, but afterwards sanctioned it and allotted the requisite money from the Village Service Fund as already noticed above. Only 133 of the new schools were opened before the end of the year.

23. The attendance at and the cost of the schools is shown below :—

Schools.	Attendance of Pupils.	Cost.				
		Salaries of Masters.	Servants.	Rent, furniture, maps and books.	Sundries.	Total.
	No.	Rs.	Rs.	Rs.	Rs.	Rs.
5 Middle-class Schools..	182	2,464	271	272	60	3,067
133 Elementary Schools...	3,023	4,088	...	...	36	*4,124
Total...	3,205	6,552	271	272	96	7,191

24. Of the two schools at Narnur and Veldurti noticed in paragraph 24 of the Board's review of the Local Fund Report for 1872-73, the Circle Board have, in consequence of the unsatisfactory condition of the latter school, resolved upon closing it from 1st January 1875.

25. The expenditure under Grant II. was Rupees 15,458.

26. Grant III., Sanitation, etc.—The Local Fund Board maintain a Dispensary at Nundial, and contribute to the Kurnool and Cumbum Municipalities for the Dispensaries at those places. The charges of the Nundial Dispensary including the pay of the Hospital Assistant amounted to Rupees 1,200. Relief was given to twenty-five in-patients and 4,048 out-patients, against twenty-three in-patients and 3,072 out-patients in the previous year.

* Embraces the charges of only 125 schools.

27. The vaccine staff was of the same strength as in the previous year, viz., one Superintendent and eleven Vaccinators. Three thousand one hundred and seventy-nine persons were operated upon against 2,127 in the previous year, at a cost of 12 Annas and 3 Pies per case (the cost per case in the previous year was 1 Rupee and 2 Annas) and 85·40 per cent. of the cases were successful against 81·28 in the preceding year.

28. Rupees 480 were spent out of an allotment of Rupees 1,000 in the Budget for Medical practitioners, in paying the salaries, &c., of two 2nd Class Hospital Assistants, but Government have since ordered their services to be dispensed with.

Vide G. O., Financial Department, dated 4th December 1873, No. 1,765.

29. Rupees 6,004 were spent on Sanitation as follows :—

	Rs.
Cleansing tanks and wells	1,545
Sanitary arrangements at fairs and festivals	611
Scavengering of villages and towns	3,848
	6,004

30. The establishment attached to the four Travellers' Bungalows cost Rupees 365. Rupees 85 were spent in repairing the bungalows at Veldurti and Peapalli. Two hundred and forty-one travellers used the bungalows.

31. The expenditure under Grant III. amounted to Rupees 12,960.

32. Grant IV., Miscellaneous.—The cost of Controlling Establishment and Contingencies amounted to Rupees 2,282.

33. Balance.—The outlay and balance were Rupees 1,66,556 and Rupees 93,566 respectively. The increase in the balance seems to be due chiefly to delay on Public Works, but in part to difficulties in arranging for education.

34. Local Fund Board Meetings.—The Local Fund Board held eighteen meetings during the year, and the average attendance of members was five, of whom four were official and one non-official.

(A true Extract.)

(Signed) H. E. STOKES,
Acting Secretary.

No. 50. Order thereon, 5th April 1875, No. 731.

The papers above recorded call for no remark as the complaints regarding delay on the part of the Public Works Officers have been dealt with separately, and a special report on the Local Fund Schools has been called for in G.O., dated 25th June 1874, No. 1063. The Board of Revenue will be requested to expedite the submission of the latter.

G.O. dated 1st December 1874, No. 2002.

Revenue Board Office,
Madras,
22nd February 1875.

(Signed) H. E. STOKES,
Acting Secretary.

KISTAMBETTIPALLI, 25th September 1874.

No. 369.

From J. HOPE, Esq.,
President, Local Fund Board, Kurnool.

To J. GROSE, Esq.,
Secretary to the Board of Revenue.

I HAVE the honor to forward the usual report on the administration of Local Funds for 1873-74, as approved by the Local Board, with explanatory statements.

2. RECEIPTS.—The total receipts of the year from all sources of income was Rs 1,79,998 against Rupees 1,56,291 in the previous year as shown below :—

	1873-74. Rs.
Allotment from General Revenue	62,129
Land-cess	1,10,842
House-tax	859
School fees	819
Contributions from Municipalities	350
Miscellaneous	1,783
Miscellaneous debt account	3,216
Total ...	1,79,998

which added to the balance at the beginning of the year raises the amount available for expenditure to Rupees 2,60,122.

3. The first item shows an increase of Rupees 26,492 as compared with the preceding year, which is due partly to the transfer of a grant from Village Service Fund sanctioned by Government in their Order, No. 973, dated 11th July 1873, for the establishment of Elementary Schools, and partly to the transfer of a larger amount from the Surplus Pound Fund than was transferred in 1872-73.

4. The land-cess on Inam and Government lands was as follows :—

	Rs.
Inams	46,429
Ryotwari	64,413
Total ...	1,10,842

which shows a decrease of Rupees 6,875 as compared with the receipts of the previous year.

5. As compared with the estimate, however, the actual collections show a decrease of Rupees 29,000 which was due to the arrears remaining uncollected at the end of the year, being larger than the previous year.

6. HOUSE-TAX.—The sum collected in the year under report was Rupees 859, being the arrears due at the close of the official year 1872-73.

7. FEES IN SCHOOLS.—The increase of Rupees 500 in this item was due to the fees collected from the newly established Elementary Schools during the latter part of the year.

8. EXPENDITURE.—Of the sum of Rupees 2,60,122, which was available for expenditure, Rupees 1,66,556 were spent during the year, leaving a balance of Rupees 93,566. The short expenditure was chiefly under Public Works and Education as will be shown hereafter.

9. Road Fund.—The sum realized during the year on account of Road Fund was Rupees 1,17,627 as particularized in the subjoined abstract :—

	Rs.
Two-thirds of collections of land-cess	73,955
Additional appropriation...	5,000
Allotments from Provincial Funds	30,150
Do. from Special Funds	7,052
Receipts from Public Works Department	567
Miscellaneous	103
Total ...	1,17,627

which added to the opening balance of the year, amounting to Rupees 75,063, raised the sum available for expenditure during the year to Rupees 1,92,690. Of this, Rupees 1,29,064 were spent as shown below :—

	Rs.
By Revenue Department	5,038
By Public Works Department	1,24,026
Total ...	1,29,064

10. The sum placed at the disposal of the Revenue Department was expended as usual—Rupees 986 in clearing jungles, and Rupees 1,806 in making village street improvements.

11. For village street improvements Rupees 5,000 was provided in the Budget, but the Board regret to state that only Rupees 1,806 were actually spent within the year. The short expenditure was due partly to the inability of the Tahsildars to carry out their improvements without the aid of a special Maistry, and partly to the dilatoriness of the officers of Public Works Department in furnishing the necessary advances. For instance, the cheques indented for in December and January were not received till the end of March when it was found impracticable to utilize the money.

12. Public Works Department.—The sum spent by this Department was Rupees 1,24,026 as detailed below :—

	Expenditure.	Allotment.
	Rs.	Rs.
Original Works...	33,836	74,289
Repairs	57,064	57,160
Establishment	31,091	33,560
Tools and plant...	2,035	1,270
Total ...	1,24,026	1,66,279

13. Original Works.—The sum allotted in the Budget for new works was Rupees 74,289, but the sum actually spent according to the advices sent by the Accountant-General was Rupees 33,836, or only 45 per cent. on the allotment. But according to the Progress Reports of the ranges, the expenditure was Rupees 34,652 as particularized below :—

	Allotment.	Expenditure.
	Rs.	Rs.
Kurnool Range	8,489	6,115
Nundial ,, ...	46,998	15,280
Cumbum ,, ...	18,802	13,257
Total ...	74,289	34,652

The District Engineer has been called upon to explain the difference, and I am informed by that officer that he has called upon the Range Officers to submit revised Progress Reports for the month of March. As soon as received, the information will be furnished to the Board.

14. In my former report the delay on the part of Public Works Officers in carrying out new works was commented on, and the Board and Government having called for an explanation, the subject will be disposed of separately, and there is, therefore, no occasion to discuss the cause of their delay in the present report.

15. The Local Fund Board, however, regret to observe that, for the money already spent, the work done on the Rampur Pass Road seems quite unsatisfactory. The road was begun in 1869, and, though a lakh and five-thousand rupees have been spent during the last six years, no part of it has yet been opened for traffic. The Deputy Collector, D. Timmapah, who frequently passes by this road, remarks as follows :—

"A distance of 16 miles on the road from Rampur Pass to Nandikanama Ghaut from the frontier of Pasupala in the Banaganapalli State to the town of Banaganapalli is frequently travelled over by me on my journey from Peapalli to Koilkuntla, and *vice versa*. I am sorry to find out that the only work done in these miles during a period of six years, since which it is commenced, is spreading of gravel in some parts on the 1st, 2nd, 3rd, 4th, 5th, and 16th miles, and digging of channels and the removing of mud in the whole of the remaining part up to the end of the last official year. In the year under review a small sum of money, namely, Rupees 442, seems to have been expended on this part of the road, and a quantity of mud was collected near Lothuvagu for forming false arches, and a quantity of stone collected on the 11th, 13th, and 14th miles."

16. The Executive Officer in charge of this range is a Supervisor, and the Board regret that the Government are not able to spare for this much-neglected district the services of a superior Engineer who can effectually control the large expenditure incurred on such important roads.

17. Repairs.—The allotment for repairs of roads was Rupees 57,160, and, as usual, nearly the whole of this amount was spent within the year.

18. The general condition of the more important roads may be inferred from the following extract from the report of Captain Taylor, the Acting District Engineer, who speaks of the high road between Kurnool and Cumbum, and writes as follows :—

"*Road from Kurnool to Cumbum*.

From Narnur to Orakal—one sea of mud; soil black cotton; repairs commenced in a small way on Mr. Fraser's plan.

From Orakal to 19th mile— do. do. do.

19th mile to Paniem 36th mile—road passes over hard soil, and should be in better order. The Tammararupalli Ghaut should be retraced; the gravel used requires sifting; road section very uneven: more broken stone or round pebbles required; should be brought into excellent order within the Maintenance Grants.

Paniem to Nundial—one sea of mud.

Nundial bund road—in excellent order.

Nundial branch road—in very bad order.

Ayalur to Gazulapalli—road in bad order; soil hard, and should be brought round from Maintenance Grant.

Gazulapalli to 67th mile—road is much improved; lots of broken stone collected, which Mr. Vardon has been directed to spread and bind with fine gravel; the catch drain is not continuous as it should be.

68th mile to Mettah—the surface is hard, but road much cut up; the drainage has been looked to; gravel wants sifting. An estimate for repairs for Rupees 17,000 submitted, and sanction solicited; the masonry works want attending to.

Mettah to Kristamsettipalli—road in fair order now, and will be in excellent order next year.

From Kristamsettipalli to Cumbum—road is in very fair condition, but not in nearly such good order as it was in 1869. The present Range Officer is, however, working great changes in its surface, and I make no doubt another year will see all straight and square again.

The branch line to Nellore—is in excellent order.

The road to Cuddapah—12 miles completed; is the very best in the district, and is the only comfortable line to travel over in the rainy season."

19. Of the Chittoor high road, the Deputy Collector of Nundial observes that "In the Sirwell portion of the line the work detailed below was executed :—

(1.) Earth formation has been made between Ayalur and Govindapalli (267th to 273rd mile), or a distance of about six miles, and also side channels opened.

(2.) Half a mile was gravelled in 262nd mile.

(3.) The bed of a vanka near Nallagatla (257th mile) was cut two feet deep where the road crosses and filled with broken metal and well rammed. Ordinary repairs were executed all along the road.

About Rupees 300 were laid out in gravelling portions of 1st and 2nd miles of Kalava branch road which is not in a satisfactory condition. The side channels were also cleared."

20. Properly speaking six miles of road between Ayalur and Chagalamarri ought to be omitted from the list of completed roads, as there is very little metal to be found on it. But a maintenance allowance is allotted every year and spent on it.

21. Of the roads in Patticonda Taluq, the Deputy Collector of Peapalli states that "all of them have undergone usual repairs here and there during the year under review, and are kept in good condition."

22. The subjoined is the statement showing the number of miles maintained, completed, and in progress :—

Ranges.	Number of Miles maintained and in good order.	Number of Miles completed.	Number of Miles in progress.
Kurnool			
Nundial			
Cumbum			

This information will be furnished when submitting the statement showing the particulars of expenditure. (*Vide* paragraph 13)

23. Endowment Fund.—There are no Endowment Funds in this district.

24. General Fund.—The balance at the beginning of the year was Rupees 5,060, and the receipts amounted to Rupees 67,372, making a total of Rupees 72,432. Of this, Rupees 42,492 were spent for the following purposes :—

	Rs.
Appropriation to Road Fund	5,000
Constructing Choultries	1,097
Repairs of Travellers' Bungalows	86
Public Works General Establishment	312
Avenues	2,054
Education	15,458
Dispensaries	1,200
Choultry Establishment	70
Vaccination	2,440
Medical Practitioners	480
Village Conservancy...	3,848
Sanitary arrangements for festivals	611
Cleansing tanks and wells	1,546
Bungalow establishment	365
Contributions to Municipalities	2,400
Advances recoverable	4,932
Share of General Establishment	593
Total ...	42,492

25. Public Works.—In 1871 a choultry for the use of native travellers at Gazulapalli, at the foot of Nallamalla hills, was sanctioned at an estimated cost of Rupees 2,000, and Rupees 1,292 was spent up to the year under report. The District Engineer has been asked to report why there should be so much delay (three years) in finishing the simple choultry. An estimate, amounting to Rupees 270 for constructing a choultry at Atmakur, Nandikotkur Taluq, was sanctioned for the use of travellers halting there. A sum of Rupees 104 was spent during the year, and the work is reported in progress.

26. Avenues.—Rupees 2,054 was spent on maintenance of avenues; trees of which are 9,698 in number.

27. Education.—There are five Middle-class Schools in the district in which both English and Telugu are taught.

The average number of scholars attending the several classes of Middle-class Schools is given below :—

Name of School.	Average Number of Boys attending				
	4th Class.	3rd Class.	2nd Class.	1st Class.	Total.
Nundial	6	7	12	18	43
Patticonda ...	...	6	7	22	35
Peapalli	...	5	16	27	48
Narnur	...	5	8	16	29
Veldurti	4	4	5	14	27
Total...	10	27	48	97	182

28. In their Proceedings of date the 23rd June 1874, No. 1,537, the Revenue Board, reviewing the last Local Fund Annual Report, remarked that the two schools at Narnur and Veldurti might be done away with; but, as they have shown signs of improvement, they have not been closed.

29. The school at Narnur was for a long time struggling against the influence of the old Village Schoolmaster who was not appointed; but, as the Master has since died, the opposition has been withdrawn, so that the number of boys has greatly increased. In July last the number was sixty-four, which induced the Board to recommend the appointment of an Assistant Master (*vide* letter to the Board, No. 315, dated 18th August 1874.)

30. The school at Veldurti, after the date of the last report, showed some signs of improvement, but it has again fallen into its former unsatisfactory condition. Notice has been given that it will be closed by the 1st January next.

31. The Government in their Order, No. 973, dated 11th July 1873, sanctioned the establishment of 163 Village Elementary Schools at a cost of Rupees 23,480, and contributed a grant from the surplus balance of Village Service Fund. Of these, 133 schools were established before the end of the year, and the rest during the current year.

32. The number of boys, who received instruction in the schools established in the year under report, is as follows :—

Taluqs.	No. of Schools.	Average No. of Boys attending the several Classes.
Patticonda	10	388
Ramallakota	15	346
Nandikotkur	17	365
Nundial	25	554
Koilkuntla	24	520
Sirwell	12	322
Cumbum	13	259
Markapur	17	269
Total ...	133	3,023

33. Expenditure.—Rupees 15,458 were spent as detailed below :—

	Rs.
Cost of Inspection	
Middle-class Schools...	4,997
Elementary Schools	3,068
Results grants	4,125
Purchase of books	938
	2,330
Total ...	15,458

34. There are two Deputy Inspectors in the district and four Inspecting Schoolsmasters. The number of schools examined for results grants was 65 against 118 in the preceding year. The decrease is due to the opening of Local Fund Schools.

35. Results Grants.—The number of boys presented for examination during the year under report was 606, and the number passed 515 as shown below :—

Standard.	No. of Boys		No. of Pupils passed			
	Presented for Examination.	Passed.	In Reading alone.	In Reading and Writing alone.	In Reading, Writing, and Arithmetic.	Total.
I.	374	242	33	60	200	293
II.	158	106	16	39	75	130
III.	50	35	1	16	45	62
IV.	24	15	...	7	23	30
Total ...	606	398	50	122	343	515

36. Purchase of Books.—A sum of Rupees 2,330 was laid out in purchase of books for sale, and the sales during the year amount to Rupees 513. They will increase as the Local Fund Schoolmasters come to possess a sufficient stock for sale.

37. Dispensary.—The Dispensary at Nundial has worked satisfactorily. The charges, including the pay of the Hospital Assistant, amount to Rupees 968, and medicines Rupees 232. The number of in-door patients was 25 and of out-door patients 4,048. A copy of the Hospital Assistant's report is herewith sent.

38. Vaccination.—The cost of the establishment was Rupees 2,440, and the number of persons vaccinated was 3,179 against 2,127 in the previous year as shown below :—

	Rs.	
One Superintendent on	70	per month.
Four 1st-class Vaccinators at	18	do.
Seven 2nd-class do. at	10	do.
Number of persons vaccinated ..	3,179	
Do. of successful cases ...	2,815	

39. Medical Practitioners.—A sum of Rupees 1,000 was provided in the Budget on this account. Of this, Rupees 480 were paid for the salaries, etc., of two 2nd-class Hospital Assistants. But the Government have since ordered their services to be dispensed with (*Vide* Government Order, No. 1,765, dated 4th December 1873.)

40. Sanitation.—The total expenditure under this head was Rupees 6,004 as particularized below :—

	Rs.
Cleansing tanks and wells	1,545
Sanitary arrangements at fairs and festivals...	611
Scavengering of villages and towns	3,848
Total ...	6,004

41. Festivals.—As regards fairs and festivals, they were, as usual, attended by thousands of people, and the Board are glad to be able to report that no sickness occurred. The arrangements were superintended by Divisional Officers and Tahsildars.

42. Travellers' Bungalows.—The bungalows lie on the road from Kurnool to Gooty, and were taken over by the Local Board in 1872-73. The cost of their maintenance was Rupees 365, and repairs amounting to Rupees 85.

43. The bungalows were inspected by me and found to be in good condition, except the one at Tekur which required, and is now undergoing, repairs.

44. Contributions to Municipalities.—A sum of Rupees 2,400 was paid out of Local Funds to the Municipalities as shown below for the maintenance of Hospitals, viz. :—

	Rs.
Kurnool Municipalitiy	1,800
Cumbum do.	600
Total ...	2,400

45. The number of meetings held during the year was 18, and the average attendance of each class of Members is shown below :—

Official Members	4
Non-official Members	1
Total ...	5

Enclosure No. 1.

Annual Report of Public Civil Dispensary, Nundial, for the official year ending 31st March 1874.

The out and in door admissions during the period under report have been 4,043 and 25, respectively, with one death in the former and five deaths in the latter. The admissions compared with those of the past year are much larger as may be seen in the marginal statement, which, I think, bespeak of the manner in which the usefulness of the Dispensary is becoming known to the population, besides affording sufficient and satisfactory evidence of the estimation in which European medicine is held by them. Men, women, and children from villages at great distance from the town avail themselves of the Dispensary treatment, and show little or no reluctance whatever in taking medicine on the spot.

		1872-73.	1873-74.
Natives	Out	3,072	4,043
	In	20	25
	Died	3	...
Europeans, East Indians, etc.	Out	...	5
	In	...	...
	Died	...	...

Subjoined is a Memorandum showing the principal classes of diseases from which the admissions have occurred during the year 1873-74:—

Diseases.	Natives.				Europeans, East Indians, etc.	
	Out.		In.		Out.	
	Admitted.	Died.	Admitted.	Died.	Admitted.	Died.
Fevers	586	...	...	...	3	...
Rheumatisms	293	...	1	...	2	...
Bronchial and lung affections	140	...	2	...	...	...
Bowel-complaints	385	...	1	1	4	...
Skin affections	1,254	...	1	...	...	...
Wounds and injuries	285	...	16	...	1	...
Other diseases	1,100	1	4	4	3	...
Total ...	4,043	1	25	5	13	...

The deaths referred to in the above among the in-door were, one from diarrhœa of long standing, one from lung affection, and three from dropsical affections, and among the out-door was, one from tetanus. Many wretched creatures worn out by disease, when they no longer crawl, drag themselves to the Dispensary to die ; and of such as these have been four out of five deaths mentioned above, of course, admitted, although cure was hopeless, and the ratio of mortality rendered thus to some extent more than otherwise.

During the year there prevailed no epidemic diseases, except at the end of the official year when there occurred a good number of cases of small-pox ; some proving fatal.

Vaccination.—With regard to the operations of vaccination, I am sorry to observe that, although no pains have been spared by me to explain to the people at large about the prophylactic effects and beneficial results derivable from vaccination and every endeavour made to promptly vaccinate those that are willing, yet there were none forthcoming to be vaccinated. I believe that vaccination is held in great abhorrence by the villagers, and that the people of a certain village on one occasion jointly subscribed to bribe the Vaccinator to leave their village when he urged them to subject their children to vaccination.

If the fruitful results of vaccination are desired to be seen, it must, to a certain extent, form the bounden duty of every village head to accept the services of the Vaccinator, to interest himself in making a report of the number of visits the Vaccinator pays to his village, and to render him every help in presenting all the children in the village to be vaccinated.

No doubt, the people of this district are far behind those of the other districts, and do not understand the properties of vaccination. It is more on this account that every opportunity ought to be availed of by the taluq authorities to instruct the people about vaccination, and to set example, if possible, by first subjecting their taluq servants' children to the operation.

Further, there seems to be a laxity on the part of some of the Vaccinators, probably engendered from the indifference of the people with which they constantly meet in the performance of their duty ; and on this account, they sometimes miss the villages where people may be desirous of getting their children vaccinated.

Of the total number admitted among natives, 3,008 have been males and 1,035 females. The female patients, anxious as they were to obtain medical aid at the Dispensary, appeared to be deterred from feelings of delicacy to describe their symptoms and the nature of the diseases from which they were suffering. This was a great drawback which I experienced in the course of treatment in this class, and it may be remedied by a female nurse being employed in the Dispensary through whom questions of delicate nature can be put, and answers obtained. A nurse would be of great help also in carrying out measures of treatment which could not be performed by a man with equal acceptability both in sickness of general character as well as in case of confinement. In consequence I request the Board will be pleased to sanction a Sudra nurse for services in the Dispensary on a small sum of Rupees 3 or 4 a month.

The Dispensary Building.—The building used for the Dispensary at present is a rented one, and it is found to answer well enough as a Dispensary; but as a Hospital, the state of ventilation is not good, and needs improvements. There are three apartments in the building of equal dimensions, each 9 × 27 feet, with communication by doors to one another. There is a shed to the north of the building intended to accommodate patients of low caste; although such a distinction may not be commendable, yet its non-observance has been experienced to tell upon the popularity of the Institution.

In connection with the future Dispensary it is under consideration to submit a proposal as to the adoption of the present Taluq Cutcherry into the new Dispensary. Plans and sketches of the building are being prepared, and, as soon as they are ready, they will be forwarded together with the opinion of the Divisional Deputy Collector for the consideration of the Board.

The system of dieting the poor sick in Hospital has been introduced from the beginning of this (calendar) year, and the admissions since then have been nine, which, compared to the corresponding portions of the past two years, is as per margin. It is hoped that the poor sick will avail themselves more freely the benefits of in-treatment of the Institution.

1872,	1st quarter	6
1873,	do	
1874,	do.	9

Dead-house.—On representation to the Local Fund Board some time ago, the erection of a dead-house had been sanctioned, but a site for the future Dispensary being not as yet finally approved of, the matter has necessarily been left in suspense. It is desirable that a temporary shed for a dead-house may be erected on a small outlay of money at a suitable distance from the present Dispensary building, as it is practically difficult to examine dead bodies at present without a place of any kind. When called upon to perform this important duty, I am compelled on every occasion to obtain the loan of some tatties and to form an enclosure with them near the burial ground without the town. This operation, exposed as it is, is literally unpleasant to the public, and very trying to the performer.

I consequently beg that the Board will be pleased to take the matter into consideration and sanction the erection of the temporary shed, above mentioned, either supported on wooden posts or on mud walls. At all events, whatever may be the mode of construction, it is absolutely necessary that provision ought to be made for a dead-house without further loss of time.

Hospital Latrine.—A latrine for the use of Hospital inmates is still a desideratum. The present mode, after which this want is met, is very grievous. The sick, who are unable to move out of the Dispensary, are provided with earthen pans for the purpose, and these are immediately removed and cleansed. It is high time not to allow the Dispensary labor under such difficulties, and, therefore, earnestly beg that a shed for this purpose may also be erected in the proximity of the present building. There is a small piece of waste ground available for this purpose, which I am given to understand is owned by a private individual. It is hoped that arrangements may be made through the Revenue authorities for the occupation of the ground.

Hospital Servants.—Of the Hospital servants, I have to speak highly of the Compounder (Rajagopal Naidu), a painstaking and intelligent man. Ever since his entertainment, the institution in which cleanliness is so important has been well attended to, and thus rendered acceptable to the feeling of every inmate and its visitors. His qualifications from having been in a Hospital Assistant's capacity in the Irrigation and Canal Company formerly are much superior, and deserve of a higher pittance than is now allowed to him.

With regard to Hospital Peon, Rasool Saib, I have to bring prominently to the notice of the Board his utter uselessness, being addicted to the use of bang and opium as mentioned in my last annual report. He is most filthy by habits, and seeks to sculk off from work, or to make a fine bed of the Hospital benches when a little out of sight. He is perfectly useless both physically and mentally, and absents himself, pleading illness or trivial excuse. I respectfully beg leave to draw the attention of the Board to dispense with the services of this man, and allow the entertainment of another man in his stead. The man's slothfulness has been repeatedly brought to the notice of the Deputy Collector of the Division. I was very lenient to the man, and allowed him ample opportunities to reform himself, but I am sorry to say to no purpose.

This man has been removed and another appointed. J. H.

The Hospital Sweeper, Unkaligadoo, behaved during the year fairly. His duties in the Dispensary being more than those that are expected of the Village Sweepers, I recommend him an increase of Rupee 1, raising his pay to Rupees 5 a month. The increase being liable to be withheld if he does not continue to give the same satisfaction.

(Signed) M. THUMMON SING,
2nd-class Hospital Assistant.

ENCLOSURE No. 2.

Notes on the Sanitary Condition of Nundial.

GENERAL DESCRIPTION OF THE TOWN AND STREETS.—The general conservancy of the cusbah town Nundial is not satisfactory; and, although the town is one of the largest of the out-stations of the district, yet its houses are not more clean than those of the surrounding villages. The houses are laid out without much attention to regularity, and, except those that side the main roads, are irregular and huddled together in clusters and the gaps, which, without any view or plan, happened to be left between these clusters, are formed into by-lanes; such lanes within a distance of a few yards present several turnings. With one or two exceptions the streets are narrow and deeply cut by flow of rain water. The by-lanes were found during inspection of the town lately filthy to a degree, and in some places obstructed by accumulations of refuse matter of every description; but by a representation then made to the local authorities, immediate action was taken as far as it lay in their power. The sides of the roads and lanes were cut and thrown in to fill up their hollow centres. There was very recently an accidental death of a boy aged about eighteen months by the wheel of a cart passing over his body. Though the cause of the accident was careless driving, yet probably the slope of about 18 or 20 inches in front of the threshold of the house on which the child was, I believe, seen seated, a few minutes before the accident, must have partly contributed to the catastrophe. This slope was probably produced either by the rain water cutting the road, year after year, to that depth, or the occupants of the house raising the ground in front of their house to that height; and, I think, the former view is more likely. I made a mention of the above accident to indicate what mishaps may probably occur to lives and persons on account of the illformed roads that have never been macadamized or laid out on any system.

DRAINAGE, NATURAL AND ARTIFICIAL.—There is no systematic drainage whatever, but the configuration of ground on which Nundial is situated is favorable for natural drainage. In wet weather most of the streets, owing to undulations and irregularities of ground, retain portions of rain water, varying from ½ foot to 1½ feet deep. The whole while it lasts gives the appearance of a series of cess-pools running into one another. A portion of surface drainage (rain water) unfortunately finds its way also into several large cess-pools situated in the midst of dwelling houses; and to add to their unpleasantness, the vicinity of these pools is resorted to by the surrounding population to answer calls of nature. These places emit noxious exhalations, and call loudly to be filled up without loss of time.

The sewerage of individual houses either finds its way into the streets, there to be absorbed by the soil, or dissipated by the heat of the sun. In some places the sewerage is allowed to run into holes made for the purpose, where it exists in a worse condition than elsewhere, but imperfectly concealed from view by flags of stone, or a few bits of bamboo and earth thrown over the mouths of the pit.

DRAINAGE OF WASTE WATER FROM THE PUBLIC WELLS.—There was no attempt whatever till of late made to provide for the drainage of waste water from the public wells, of which 20 in number exist in different parts of the town. The existence of these wells is marked either by unpleasant dirty pools of water, or miry surface all round, or some similar hollow spot close by, giving rise to percolation back into the well, besides contaminating the air all round. About January last, square pits of 1 yard deep and 4 × 4 feet wide have been dug at some distance from six or seven wells to receive the surplus water. Beyond this nothing has been done for the rest of the wells.

PUBLIC LATRINES.—During the year under report three public latrines for females have been constructed. Before the construction of these latrines, such spaces as are formed by the backing of a certain number of houses answered generally as privies without much privacy. Of the new latrines, one has been unfortunately built exactly in a similar spot described above, by immuring a portion of the ground at the entrances; the other sides of which, as already mentioned, are formed by the back walls of dwelling houses. This new privy is, no doubt, acceptable to the residents close by, inasmuch as their having to go to a distance to answer calls of nature is thereby avoided; but, in a sanitary point of view, I am sorry to say, its situation is unsatisfactory, and one should think it most repulsive to the feelings of decency, perhaps not so much to the villagers, a section of people not of most cleanly habits, accustomed to live pent up in the same house together with cattle, and dung heaps often ceding the best part of the house to the former.

There are to my knowledge thirteen localities resorted to by males and females situated amidst dwelling houses in various parts of the town which are, for want of public privies, used even to this day as privies by the people residing in their vicinities.

The villagers, moreover, without the least mark of decency, deposit ordure in the cover of nights in front of their houses or thereabouts. The night soil deposited in these localities either remains to taint the air until desiccated by the sun or consumes by buffaloes, the filthy scavengers of the people. There are, I believe, a few privies within the private houses, and the existing few are formed of deep pits covered over with a slab of stone bored in the centre. The accumulation of excreta in these pits is allowed to rot for years together, until the pits get replete with excreta perhaps by the lapse of three or four years when it is conveyed to the fields.

MANURE-PITS.—I believe that before the Revenue authorities began to pay attention to the removal of these heaps from the neighbourhood of houses, this town as well as the surrounding villages were in a worse condition than now, owing to the putrifying condition in which they used to remain all the year. Whatever may be the comparative difference, there are even at present heaps of cowdung and daily sweepings by many ryots' houses; and, if this is objected to by the village authorities, they find a safer quarter within the court yard of the houses of the manure owner. But from energetic action on the part of authorities from time to time, such heaps only as come to the notice are forced to be removed, and number of heaps that are thus removed is infinitismally small and of no material benefit.

HAY AND CHOLUM STACKS.—There are again in many parts of the town a great number of hay and cholum stacks which, besides endangering the neighbouring houses in case of catching fire, harbour many venomous reptiles. Last year, about the months of March and April, not less than twenty of these had caught fire on various occasions and spread it to a great number of huts that adjoined them, and the occupants were necessarily rendered houseless. On this occasion there was a Boya who, in attempting to rescue his child from the suffocating smoke within his hut, hurt himself seriously. It is highly desirable that these ought to be removed to a respectable distance from the town.

The total area of ground that may be thus secured by their removal will certainly be very great, and will be found to answer many purposes, such as for public latrines, etc.

DUST-BINS.—During the latter part of the year, thirty-eight dust-bins have been constructed, and it is an improvement to facilitate the removal of sweepings more readily by the sweepers as well as to prevent the scattering of the sweepings about the street. The number of these now existing is comparatively small, and I think it ought to be increased, so as to allow at least two or three to a large street and one to every lane.

SLAUGHTER-HOUSE.—On respresentation to the taluq authorities the evils of butchering sheep within the compounds of living houses, a slaughter-house, or at least an enclosure of walls of about five-feet high, has been constructed on the outskirts of the town, but unfortunately at an inconvenient distance from the butchers' shops, owing to which, I fear, the butchering is even now carried on occasionally as heretofore; and to avoid this, arrangements shall have to be made to bring either the butchers' shops or the slaughter-house to a closer proximity than it now exists.

MARKET.—At present daily vendors of fruits, vegetables, etc, occupy the bazaar street and the open space of ground between the Civil Dispensary and the Police Station. This, the only main street which is narrow enough, is daily occupied by these people rendering a hindrance to the passage of carts and cattle, thereby endangering the people resorting to the market. The street and the open space are besides strewed over with refuse matter and kept constantly in a

state of nuisance. The main street in front of regular bazaars is also allowed to be occupied by some of these daily vendors who add to the crowd of customers that resort to the former. All this may be avoided if a suitable place be set apart where people can expose their articles for sale.

I have in view an open enclosure in the bazaar street, which, if bought up, will suit very well for a market. The enclosure in question is the property of a private individual, and I believe it is to be sold under an attachment of the Civil Court. This enclosure can be converted into a good market wherein bazaars of all kinds may be brought and suitably located, and a portion may conveniently be set apart even for fishermen who are now holding the sale of fish at the threshold of their houses.

To attend to the general conservancy of the town, there are seven sweepers, and of late a cart has been added to the establishment, considering the extensiveness of the town and the habitual indisposition of its inhabitants to attend to the cleanliness of their houses and their homes and their precincts. I think the present number ought to be increased, and ought to be placed under the superintendence of some officer permanently located in the station, who should allot daily work to them, and frequently inspect their work. Under such superintendence (which if it happens to be combined with some knowledge of hygiene so much the better) many little improvements, which, for want of timely notice being taken, render many parts of the town at present unsecurely and unwholesome, may be effected. Although it seems to be duty of every one, but nobody attends to the removal of carcasses of dogs, cats, and other animals, until they rot and force themselves to the notice of some official or other when its removal is ordered.

The Revenue authorities, to whom the conservancy of the town is at present entrusted, are prevented from superintending the works personally from being required to have the station on duty frequently and compelled to remain out for long intervals.

Although the town of Nundial is not behind Cumbum and Gooty in the total amount of population as may be seen from the marginal statement, yet it is in want of municipal institution.

	Population.
Nundial	9,468
Gooty	6,000
Cumbum	8,184

Ever since I joined the Dispensary at Nundial, I was impressed with the importance of the cleanliness of the town, to promote the general health of the population; and acting upon this idea, I took on all occasions to bring to the notice of the local authorities such points as required improvements in this direction. On all such occasions, I am glad to say, the defect pointed out was at once removed as far as it lay in their power. Every season brings with it a train of evils to the inhabitants. Thus, thrice a year diseases peculiar to the varying seasons affect humanity in addition to those that arise from the malarious influences which are perpetually at work in this district (for which it is so notorious), leading human life into complicated sufferings.

Such state of things appeared to me to call for the sanitary state of the dwellings of the inhabitants, of that of the streets and lanes, and of the town, in general, with peculiar urgency. In thus feeling it my duty to point out the existing wants and further improvements that may be effected, I fear, I may appear captious; but such is not my intention. I have made my remarks simply with a view to ventilate the subject, so as to bring about the necessary improvements for the good of the public, and sincerely trust that they will be taken in the spirit in which they are written.

NUNDIAL,
27th May 1874.

No. 192.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 29th January 1875.

Read report from the President of the Local Fund Board, Kurnool Circle, dated 25th September 1874, No. 369.

THE Local Fund Report of the Kurnool Circle, for 1873-74, is herewith submitted for the information of Government.

2. The annexed Statement compares the receipts and charges of the year with those of the previous year:—

Receipts.	1872-73.	1873-74.
	Rs.	Rs.
1. Balance	80,568	80,124
2. Provincial grant for Roads	30,150	30,150
3. Do. for Education	516	520
4. Surplus Pound Fund	5,000	7,852
5. Village Service Fund	.....	23,480
6. Ferry Rents	71	103
7. Avenues	.....	23
8. Road Cess under Act III. of 1866	525	179
9. Land Cess under Act IV. of 1871	1,17,192	1,10,663
10. House-tax	1,558	859
11. Fees in Schools and Training Institutions	441	819
12. Contributions for Educational Inspection from Kurnool Municipality	...	300
13. Do. for do. from Cumbum do.	.....	50
14. Sale proceeds of books	95	513
15. Bungalow fees	259	552
16. Sale of materials	239	198
17. Sale of other property	.....	3
18. Public Works receipts	239	68
19. Do. refund of expenditure	.....	499
20. Miscellaneous	102	41
21. Advances Recoverable	1,571	3,216
22 Suspense Account	112	...
Grand Total	2,38,638	2,60,122

Expenditure.	1872-73.	1873-74.
New Works.	Rs.	Rs.
1. Communications { By P. W. D.	46,054	33,835
1. Communications { „ O. A.	.....	128
2. Sanitary and Miscellaneous { By P. W. D.	797	977
2. Sanitary and Miscellaneous { „ O. A.	.....	120
Repairs.		
3. Communications { By P. W. D.	57,319	57,064
3. Communications { „ O. A.	2,387	3,222
4. Sanitary and Miscellaneous { By P. W. D.	99	86
4. Sanitary and Miscellaneous { „ O. A.	2,480	2,054
5. Public Works Department Supervision	20,500	27,002
6. Petty Establishment	3,068	4,401
7. Tools and Plant	1,766	2,035
Total Grant I	1,34,470	1,30,924
8. Payment for Inspection	4,208	4,997
9. Local Fund Schools	2,395	7,192
10. Purchase of books	1,262	2,323
11. Commission for selling books	.....	7
12. Results grants	1,932	939
Total Grant II	9,797	15,458
13. Hospitals and Dispensaries	947	1,200
14. Vaccine Establishment	2,395	2,440
15. Medical Practitioners	.....	480
16. Sanitary Establishments, cleansing tanks and wells	2,885	6,005
17. Choultries, Establishment, etc.	72	70
18. Bungalow do.	468	365
19. Contribution to Municipalities	2,450	2,400
Total Grant III	9,216	12,960
20. Establishments at the Presidency and in the Collector's and Local Fund Board's Offices and Contingencies	2,242	2,282
21. Debit balance of Bungalow Fund	48	.....
Total Grant IV	2,290	2,282
22. Miscellaneous Debt Account	2,741	4,932
Total expenditure	1,58,514	1,66,556
23. Balance	80,124	93,566
Grand Total	2,38,638	2,60,122

3. Receipts.—The Local Fund assets including an opening balance of Rupees 80,124 were Rupees 2,60,122. The actual receipts were Rupees 1,79,998 or Rupees 21,928 more than in 1872-73.

4. The increase in the Surplus Pound Fund was due to a larger amount having been transferred to Local Funds than in 1872-73.

5. A sum of Rupees 23,480 was specially allotted from the accumulated surplus of the Village Service Fund of the district in G. O., Financial Department, dated 11th July 1873, No. 973, to meet the cost of the proposed elementary schools, which had been struck out of the Budget because of the disallowance of the House-tax.

6. The Road and Land-cess receipts decreased owing to uncollected arrears.

7. The sum shown against House-tax was the arrear from the previous year.

8. School fees increased owing to the establishment of new schools during the latter part of the year.

9. Fees in Travellers' Bungalows decreased because a smaller number of travellers used them.

10 Expenditure, Grant I., Public Works.—The allotments for Public Works according to the Registers kept in this Office were :—

New Works.

			Rs.	
Communications	by Public Works Department		73,409	
Do.	by Other Agency		2,558	
Educational	by Public Works Department		6,000	
Sanitary and Miscellaneous	do.		3,973	
				85,940

Repairs.

			Rs.	
Communications	by Public Works Department		57,158	
Do.	by Other Agency		6,322	
Sanitary and Miscellaneous	by Public Wokrs Department...		850	
Do.	do.	by Other Agency	3,000	
				67,330
		Total...		1,53,270

11. The actual expenditure was—

New Works.	President and Accountant-General.	Controller.
	Rs.	Rs.
Communications by Public Works Department	33,836	33,836
Do. by Other Agency	128	128
Sanitary and Miscellaneous by Public Works Department...	977	977
Do. do. by Other Agency	120	...
	35,061	34,941
Repairs.		
Communications by Public Works Department	Rs. 57,064	Rs. 57,064
Do. by Other Agency	3,222	3,222
Sanitary and Miscellaneous by Public Works Department...	85	85
Do. do. by Other Agency	2,054	2,054
	62,425	62,425
Total ...	97,486	97,366

12. The total expenditure according to the Controller which is only Rupees 120 less than that of the President and Accountant-General, was 63·60 per cent. on the allotment sanctioned which is a slight advance over the previous year when only 57·79 per cent. of the sanctioned allotment was utilized.

13. The short outlay by the Public Works Department appears to be due as respects new works of communications chiefly to no portion of the allotment of Rupees 5,000 for the Trunk Road No. 17 between Ayalur and the Nundicanama Ghaut having been utilized, and to only Rupees 6,055 out of an allotment of Rupees 21,000 for the road from the Rampur Pass to the Nundicanama Ghaut having been expended.

14. The President mentions that only Rupees 1,806 out of an allotment of Rupees 5,000 provided in the budget were spent in making village street improvements, and that "the short expenditure was due partly to the inability of the Tahsildars to carry out their improvements without the aid of a special Maistry, and partly to the dilatoriness of the officers of Public Works Department in furnishing the necessary advances. For instance, the cheques indented for in December and January were not received till the end of March when it was found impracticable to utilize the money."

15. A sum of Rupees 6,000 was allotted in the Budget for constructing school houses for the five Middle-class Schools, and another sum of Rupees 2,500 for constructing a Dispensary and Dead-house at Nundial, but both the allotments were left unutilized. No explanation is given to show that any special causes operated in preventing the expenditure of the various allotments, but the President says, "In my former report, the delay on the part of Public Works officers in carrying out new works was commented on, and the Board and Government having called for an explanation, the subject will be disposed of separately, and there is, therefore, no occasion to discuss the cause of their delay in the present report."

16. The expenditure on establishment was as follows :—

	President and Accountant-General.	Controller.
	Rs.	Rs.
Public Works Department Supervision...	27,002	22,894
Petty Establishment	4,401	3,675
Total ...	31,403	26,569

17. The Controller's charge for supervision is 24·89 per cent. on the expenditure on works supervised by the Public Works Department.

18. One hundred and thirty-one and-a-half miles of road were maintained in good order, thirty-five completed, and seventeen in progress. The President quotes remarks by the Acting District Engineer and of the Deputy-Collector of Nundial and Peapalli on the general condition of some of the more important roads. Captain Taylor's remarks show that very little indeed of the Kurnool and Cumbum road was in good order. The Gazupalli Choultry commenced three years previously, and a small Choultry at Atmakur were in progress. Avenues were maintained. There were 9,698 trees.

19. The principal works in progress were—

		Rs.
1	Road from Rampur Pass to Nundicanama Ghaut	6,055
2.	Do. from Maddikarra to Tuggalee...	5,470
3.	Do. from Tadicherla to the Cuddapah frontier	11,955
4.	Widening road on the Nundicanama Ghaut	233
5.	Formation of Gooty, Asperry, and Raichore Road... ...	451
6.	Constructing a Choultry at Guzupally	496

20. The expenditure under Grant I. was Rupees 1,30,924.

21. Grant II., Education.—The Inspecting staff consisted of two Deputy-Inspectors and four Inspecting Schoolmasters as in the previous year, and cost the Local Fund Rupees 4,997, of which, Rupees 350 were recovered from the Kurnool and Cumbum Municipalities. They examined for results grants sixty-five schools with 606 pupils against 118 schools with 1,201 pupils in the preceding year (when there were fewer Local Fund Schools) and passed Rupees 938 in Results grants and they attended to 138 Local Fund Schools, of which five were old Middle-class Schools and the remaining 133 Elementary Schools established during the year.

22. It was proposed in the Budget to open 163 new Elementary Schools exclusive of the five old Middle-class Schools. Government at first disallowed the proposal, but afterwards sanctioned it and allotted the requisite money from the Village Service Fund as already noticed above. Only 133 of the new schools were opened before the end of the year.

23. The attendance at and the cost of the schools is shown below :—

Schools.	Attendance of pupils.	Cost.				
		Salaries of Masters.	Servants.	Rent, furniture, maps and books.	Sundries.	Total.
	No.	Rs.	Rs.	Rs.	Rs.	Rs.
Five Middle-class Schools.	182	2,464	271	272	60	3,067
133 Elementary Schools...	3,023	4,088	...	...	36	*4,124
Total...	3,205	6,552	271	272	96	7,191

24. Of the two schools at Narnur and Veldurti noticed in paragraph 24 of the Board's review of the Local Fund Report for 1872-73, the Circle Board have, in consequence of the unsatisfactory condition of the latter school, resolved upon closing it from 1st January 1875.

25. The expenditure under Grant II. was Rupees 15,458.

26. Grant III., Sanitation, etc.—The Local Fund Board maintain a Dispensary at Nundial, and contribute to the Kurnool and Cumbum Municipalities for the Dispensaries at those places. The charges of the Nundial Dispensary including the pay of the Hospital Assistant amounted to Rupees 1,200. Relief was given to twenty-five in-patients and 4,048 out-patients, against twenty-three in-patients and 3,072 out-patients in the previous year.

* Embraces the charges of only 125 schools.

27. The vaccine staff was of the same strength as in the previous year, viz., one Superintendent and eleven Vaccinators. Three thousand one hundred and seventy-nine persons were operated upon against 2,127 in the previous year, at a cost of 12 Annas and 3 Pies per case (the cost per case in the previous year was 1 Rupee and 2 Annas) and 85·40 per cent. of the cases were successful against 81·28 in the preceding year.

28. Rupees 480 were spent out of an allotment of Rupees 1,000 in the Budget for Medical practitioners, in paying the salaries, etc., of two 2nd Class Hospital Assistants, but Government have since ordered their services to be dispensed with.

Vide G. O., Financial Department, dated 4th December 1873, No. 1,765.

29. Rupees 6,004 were spent on Sanitation as follows :—

	Rs.
Cleansing tanks and wells	1,545
Sanitary arrangements at fairs and festivals	611
Scavengering of villages and towns	3,848
	6,004

30. The establishment attached to the four Traveller's Bungalows cost Rupees 365. Rupees 85 were spent in repairing the bungalows at Veldurti and Peapalli. Two hundred and forty-one travellers used the bungalows.

31. The expenditure under Grant III. amounted to Rupees 12,960.

32. Grant IV., Miscellaneous.—The cost of Controlling Establishment and Contingencies amounted to Rupees 2,282.

33. Balance.—The outlay and balance were Rupees 1,66,556 and Rupees 93,566 respectively. The increase in the balance seems to be due chiefly to delay on Public Works, but in part to difficulties in arranging for education.

34. Local Fund Board Meetings.—The Local Fund Board held eighteen meetings during the year, and the average attendance of members was five, of whom four were official and one non-official.

(A true Extract.)
