Municipal—Education.

No. 131. Read the following letter from R. W. BARLOW, Esq., President of the Municipal Commission, Conjeveram, to the Hon. W. HUDLESTON, Chief Secretary to Government, Fort St. George, dated Saidapet, 2nd April 1875, No. 40 :—

Adverting to paragraph 5 of G.O., dated 17th October 1874, No. 1759, Financial, I have the honor to forward an extract from the Proceedings of the Municipal Commissioners of Conjeveram, dated 12th December 1874, wherein they account for the comparatively small proportion of boys receiving the benefit of primary education with the aid of Municipal Funds.

2. From the latter part of the resolution, it will be seen that the Commissioners think that the scheme of primary education can only be sufficiently and fully developed with the aid of funds from Government. For this purpose they solicit a grant equal to the allotment (Rupees 1,350) in the current year's Budget for payment of results grants ; and I send on their request for the favorable consideration of Government.

Extract from the Proceedings of the Conjeveram Municipal Commissioners held on the 12th day of December 1874.

Read paragraph 5 of G.O., No. 1759, dated 17th October 1874.

The boys supposed by Government to be not attending schools number 1,900, while those reading at schools aided by the Municipality are 800. The difference is accounted for as follows :—

1. Boys reading in the primary classes of Patcheappah and the Free Church Institutions.
2. Boys attending the eleven pial schools not examined last year.
3. Some are sent to Madras by their parents to be there educated.
4. Many are the children of parents who, anxious to have them placed under instruction are yet too poor to pay the school fees.
5. A large number assist their parents (weavers and cultivators) at their trades and cannot be spared.
6. The children of out-castes who have no desire to have them educated.

2. The Municipal Commissioners are, as the Government must be well aware, fully alive to the necessity for extending primary education in Conjeveram, and plans have been under consideration from time to time for making the most of the limited funds at their disposal for the purpose. Last year a scheme for municipal schools was submitted, but subsequently withdrawn on representations made by the Educational Department. The Commissioners quite despair of any satisfactory improvement, unless they receive assistance from Government. They resolve, therefore, to request Government to make a grant of Rupees 1,350, being the equivalent of the allotment in the Budget for 1875-76 for results grants. The Government grant would be applied to the extension of payment by results and the establishment of municipal schools, where also the very poor would receive instruction.

(Signed) V. DORASAWMY IYER,
Vice-President.

No. 132. Order thereon, 10th April 1875, No. 810.

The proposal that the municipal provision for primary education should be supplemented by a grant from Provincial Funds is quite inadmissible.
