Proceedings of the Madras Government, Financial Department,
19th January 1875.

Local Funds—Establishments.

No. 129. Proceedings of Government, 19th January 1875, No. 82.

In G. O., dated 31st May 1873, No. 762, in dealing with a proposal to entertain a Local Fund Engineer and Establishment for the Salem Circle, the Government remarked that they desired to let it be generally known that they had no intention of permitting any deviation from the system adopted, after most mature consideration, previous to the re-organisation of the Department of Public Works, until the system had been fairly tried.

2. The existing arrangements for the execution of Local Fund works by officers of the general Public Works Establishment have now been in force for nearly four years, and during that time indications have not been wanting that Local Boards have been dissatisfied with the manner in which the work has been carried out owing to the pressure of other duties upon the time and attention of the officers of the Public Works Department; while, in several instances, the relations between the Boards and the local officers of the Public Works Establishment have been far from harmonious.

3. The Government resolve accordingly to call on the Board of Revenue to submit their opinion, after consultation with all Local Fund and Municipal Boards, on the expediency of sanctioning the entertainment of separate local Engineering Establishments to work under the control of Local Fund Boards and Municipalities.
