No. 218. Read the following letter from A. WEDDERBURN, Esq., President of the Local Fund and Municipal Boards, Coimbatore, to the Honorable W. HUDLESTON, Chief Secretary to Government, Fort St. George, dated Coimbatore, 10th April 1875, No. 7:—

With reference to G.O., 23rd February 1875, No. 417, on a reference by the Accountant-General as to the proportion of charges to be borne by Government of local medical staff affording assistance to Government departments, I have the honor to bring to the notice of Government that charges for medicine form a very heavy debit on local and municipal funds. It seems but reasonable, when Government sanction twenty-five per cent. of the Medical Subordinate Officer's salary to be charged to Government, that a corresponding amount for medicine should be sanctioned. Hitherto charges for medicine to the Police and other departments, when separately prescribed for, have been borne by Government; and, as such medicines will have to be dispensed gratis by the local and municipal dispensaries to the lower grades of the Police and other departments, it is hoped that Government will continue such contribution, calculated either on an average Government outlay of the three preceding years, or of twenty-five per cent. of charges for medicines actually borne by the amalgamated institutions.

No. 219. ORDER THEREON, 21st April 1875, No. 892.

It has been decided in G.O., dated 16th July 1874, No. 1176, that, when a contribution is drawn of twenty-five per cent. of the salaries of the medical staff, all Government servants are entitled to treatment and medicines free of charge, but the Government are willing to make exceptional arrangements on good cause being shown.

2. The Collector, in communication with the Surgeon-General, will make an estimate of the additional charge thrown on the local bodies concerned on account of medicines for Government servants, and will compare the estimated charge with the contribution now paid from Provincial Funds.
