No. 65. Read the following Proceedings of the Board of Revenue, dated 25th January 1876, No. 732 (Miscellaneous):—

Read the following letter from C. A. LAWFORD, Esq., District Engineer, South Canara, to H. E. SOTKES, Esq., Acting Secretary to the Board of Revenue, dated Mangalore, 10th January 1876, No. 189:—

I have the honor to request that you will be so good as to inform me whether the revised estimates of the works detailed in the margin, referred to in the Revenue Board's Proceedings, No. 2204, of the 6th August 1875, have been sanctioned by Government as the working season has fairly set in and the necessary materials having been collected it is highly desirable that the work should be commenced at once, ample funds having been provided for expenditure during the current official year, and the early completion of the works being imperative.

	Rs.
Constructing a bridge of two arches each thirty feet span across the Bermarkatloo stream	8,800
Constructing a single arched bridge of thirty feet span across the Chantanur stream	5,000

2. If the estimates have not yet been sanctioned, I shall be obliged by the Board making further reference on the subject so that early sanction may be obtained.

3. To avoid delay in the completion of the works, I would request that the Board will be so good as to authorize me to commence the excavation of foundations, &c., of the said two works in anticipation of the formal sanction of Government to the revised estimates, the revision being in accordance with the instructions of the Chief Engineer.

4. The Vice-President, Local Fund Board, to whom a reference was made on the subject, states that the final orders of Government on the revised estimates have not yet been received in his office.

———

Submitted for the early orders of Government with reference to Board's Proceedings, 6th August 1875, No. 2204.

2. In anticipation of the sanction of Government to the revised estimates the Board authorize the District Engineer to commence the excavation of the foundations, &c., of the bridges.

3. It is observed that the present reference should have been made through the President.
