GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

24th January 1881, No. 117.

Budget Estimates.

Read the following paper :—

No. 85. *From A. C. TUPP, Esq., Officiating Accountant-General, to the Chief Secretary to Government, dated Fort St. George, 21st January* 1881, *No.* 184.

Budget Department.

In forwarding, as usual, the Consolidated Civil Budget Estimate of this Presidency for 1881-82, I have the honor to make the following remarks on the transactions relating to Provincial Services proper.

2. From the separate abstracts enclosed it will be observed that the Provincial transactions close with an estimated balance of Rs. 1,28,026 on the 31st March 1882. A statement is appended showing the particulars of this amount.

3. The amount passed by Government in the several departmental estimates on account of Public Works by Civil Officers costing less than Rs. 1,000 each is Rs. 1,75,510 as follows :—

	Rs.
Revenue Departments	79,000
Registration	7,000
Revenue Board	1,500
Accountant-General	2,000
Observatory	400
Museum	500
High Court	3,000
Magisterial Courts	200
Small Cause Court	1,000
District Courts	20,350
Police	40,400
Civil Engineering College	1,200
Marine	1,000
Government Press	500
Hospitals and Dispensaries	17,460
Total ..	1,75,510

4. If this sum be deducted from the gross sum of Rs. 2,00,000 entered in the Provincial Budget of Government on this account for all Civil Departments, there is left a balance of Rs. 24,490 for other Civil Departments not mentioned in the above list. This amount I have apportioned in my consolidated estimate between Jails, Churches, and Burial-grounds which had a total allotment of Rs. 35,121 for 1880-81. There is therefore, after providing these amounts, no margin for Miscellaneous purposes, for which Rs. 12,400 stand allotted for the current year, and it will probably be necessary to redistribute the above grants in order to meet this sum.

ENCLOSURE No. 1.

STATEMENT showing how the Closing Balance of Rs. 1,28,026 on the 31st March 1882 at the Credit of Provincial Services has been arrived at.

	Rs.
Regular Estimate of Receipts from the Buckingham Canal raised in this office from Rs. 75,000 as originally estimated to Rs. 1,18,000 with reference to the actual transactions of six months.	43,000

		RS.
Receipts under Medical similarly raised in consequence of the recent recoveries from the Madras Municipality of arrears of contribution due by it		37,180
Regular Estimate of Medical and Miscellaneous charges reduced with reference to the actuals of eight months		10,000
Closing balance of the 31st March 1880 improved by entries in the supplemental accounts for March 1880		24,517
Sums added in this office to the receipts of 1881-82 on account of receipts of Botanical Gardens, Saidápet Farm, Interest, and other accounts		17,800
Contribution from Local Funds on account of reserve of Medical Subordinates		10,000
Sums included in the following departmental estimates on account of Public Works by Civil Officers and for Refunds separately budgeted for in the gross in the Government Estimate for Provincial Services:—		
	RS.	
Registration	10,500	
Police	3,400	
Civil Engineering College	1,200	
		15,100
Items twice provided for in the last-mentioned estimate under the head of Printing		7,300
Difference between Rs. 4,00,000 entered in the Government Estimate on account of supplies of stationery from the Depôt to Public Departments and Rs. 3,89,000 estimated on that account by the Superintendent of Stamps and Stationery		11,000
		1,75,897
Deduct Public Works Receipts for 1880-81 reduced in this office from Rs. 1,70,000 as provided in the Regular Estimate to Rs. 1,30,000 in the Consolidated Estimate with reference to eight months' actuals	RS. 40,000	
Other trifling amendments made under other heads with reference to the actuals of eight months ..	7,869	
		47,871
	Net ..	1,28,026

No. 86. ORDER THEREON, 24th January 1881, No. 117.

Ordered that the Consolidated Budget Estimate, with the accompanying statements, be transmitted to the Government of India with the following letter.

2. The distribution of the balance of the sum of Rs. 24,490 mentioned in the fourth paragraph of the Accountant-General's letter is approved. Charges for Miscellaneous purposes will be debited to the gross allotment of two lakhs, being met from savings therefrom.

Department	Description of Work	Actuals 1879-80	Estimates 1880-81	Estimates 1881-82	Remarks.
Judicial	District Munsiffs Court of Parvatipore. Turning the tiles of the Court House, and Witnesses' Shed, Whitewashing, matting, tarring and Minor repairs to doors, Cabs &c.	"	"	415	The District Munsiff says that the tiles have not been turned since 1874, and that the roof leaks in places; also that matting and tarring are necessary. The work therefore appears to be one which should not be postponed.
	District Munsiffs Court of Vizianagram. Construction of a boundary wall around the Court House.	"	"	104	The District Munsiff states that these works cannot be postponed and are necessary for the security of the Court House.
	Repairs to the Court House.	"	"	101.	
	District Munsiffs Court of Rayavaram at Elamanchili. Repairs to the Court House. viz to the roof, Whitewashing Plastering and minor repairs.	"	"	320	The District Munsiff states that the repairs are absolutely necessary, no repairs having been made since 1875 when the Court House was constructed
	District Munsiffs Court of Bunlipatam. Re-roofing a shed attached to the Court House, the roof of which fell in during the late rains, and the Construction of a road thereto from the new gate.	"	"	165	The shed is used as a Coach house and also for the shelter of parties and witnesses. A thatched roof cannot be put over the shed as the Court House is situated on one of the main streets of the town and a bye law of the Municipality prohibits the construction of thatched buildings in such streets.
	Whitewashing & Sundry annual repairs.	"	400	25	This work and the slight annual repairs might therefore be sanctioned. The Court House was repaired last year.
	District Munsiffs Court of Razam. Relaling the roof of the Court House, repairs to the floor, a window, and whitewashing	"	"	200	The repairs are necessary and should be carried out in 1881-82.

Final (1881) Despatch
From Budget Estimate
for Office District Judge
of Balaklava
To Calcutta
The Chief Secy to Govt
Judicial Department
Fort St George

Dated 21-11-80
Recd. 15-1-81

No 19

Estimate for 1881/82
of the cost of Construc
tion and Repairs of
Public Buildings

Estimate for 1881-82. of the cost of Construction and Repairs of Public Buildings through Departmental Agency.

117-118
15

Department.	Description of Work.	Actuals 1879-80.	Estimates 1880-81.	Estimates 1881-82.	Remarks.
District and Sessions Court of Tinnevelly.	Shifting tiles with necessary repairs and white and colour washing	"	700-"	300-"	Cannot be delayed owing to the leaking. - Office and record rooms are in untidy state.
District Munsiff's Court of Tinnevelly.	Repairs to roof of Office room.	"	300-"		These works are very necessary and cannot be delayed, as the Office room roof is bent in the middle of rafter.
	Shifting tiles of main Court	"	30-"	50-	
Do of Srivigunt'am.	Repairing the Vandals.	"	"	50-	The work was last done in 1877 with Rupees 85 sanctioned by the High Court in their Proceedings No 2838 dated 7th December 1877. Unless repaired before the next monsoon, much damage and inconvenience will be the consequence.
Do of Srivilliputtur.	Construction of an Office room for the Clerks as per detailed estimate herewith forwarded.	"	"	345.	The Munsiff is very much disturbed from getting through his work in Court, because the whole establishment are obliged to transact their work in one and the same hall close to the bench for want of a separate and convenient room for them.
	Construction of Compound walls west of the Court-house for the safe custody of cattle &c under attachment as per detailed estimate herewith forwarded.	"	"	235.	Again there is no place available at all for receiving safely attached cattle. Hence the incurring of the outlay in 1881-82 is urgent and indispensable.

No. 144. 117-118/57 14th December 1880.

From The District Munsiff of
Amalapur.

To. B. Horsburgh Esqre.
Acting District Judge
Rajahmundry

Honored Sir,

In reply to your Court's Proceedings dated 23rd ultimo, calling for an Estimate as to the repairs of this Court house if urgently required, I beg to submit that as the several parts of this Court being leaky on account of heavy rains in November last and occasional petty repairs being of no consequence, repairs of Rs. 250 seems to be urgently required and an Estimate for the same is herewith sent for sanction. The Court being an old one, the above sum will, I think, suffice to meet the expenditure at present. But I must add that the building is become so old and leaky as to be utterly useless and

any

any amount of expenditure cannot put it in a fit state.

This has often been brought to the notice of your Honorable Court and the correspondence is shown in the margin.

I beg to remain
Honored Sir
Your most obedient servt

No 86.

112–118
60

From

The District Munsiff

of Peddapore.

To

The District Judge

Godavery.

Sir

With reference to your Proceedings No.. dated 23rd November 1880, I have the honor to report that the Court building of this station is so old, crazy and delapidated besides being incommodious that it is in my opinion entirely unfit for Court house.

2. I have, however, caused a rough estimate of the urgently required repairs made by an old mastry available at this place.

3. The old rafters of the roof and the bamboo netting over them was so old and rotten that the roof sagged, and consequently leaks in almost every room. The walls in two of the verandah rooms have cracked, and it is apprehended that the next rainy season may bring down most part of the verandah rooms. The old roof and cracked walls require entire removal and reconstruction. The flooring

and

and plastering require one-third repairs, and the whole building requires white-washing and other sundry repairs to its compound wall. The cost of all the repairs above-specified is estimated roughly at Rs 700—— which is now entered in the budget estimate for the ensuing official year, and estimate of the cost in detail will be submitted for sanction. Separately in a short time.

4. While on this subject I beg to add that the Court is held at present in the central hall. 18 feet long and 15 feet broad—From the 18 feet of the length, 6 should be deducted for the bench, leaving but 12 feet for the clerks' and pleaders tables and benches, and the space then left is very inconvenient both for Vakils and their clients.

5. There is no space for the public to congregate to witness the Court proceedings which is very necessary in the examination of parties and witnesses who are generally more afraid of swearing falsely when they depose openly in the view of the public, than when examined in the presence of a few men and in a secluded place.

112-116/61

6. There is no private chamber for Munsiff to do his office work and to write his judgments, nor are there rooms for attached properly and for pleaders to sit and do their business. If we compare the present building with the standard plans sanctioned by Government in G. O. No. 1292 of 15th July 1874 for Court buildings the former is not even one-third of the latter in providing for the necessary accommodation.

7. Instead of wasting the amount of the present estimate for repairs of this old and useless building it is more economical if it is sold by Government as it now stands, and a new Court house built according to the standard plan. I hear that an estimate for building a new Court house was already sanctioned by Government, but funds were not allotted on financial grounds. If such were the case, I respectfully beg to submit that it is desirable under

under the present circumstances to make an application to Government for allotment of funds for the new Court house in the ensuing Official year. As the Affghan war is now at an end, I trust that Government may sanction for the allotment of the funds if the necessity for a pucca building is fully explained to them.

I have the honor to be
Sir.
Your most obedient
Servant

Patent Hammers, Relating to Welding — " — 73 — — — The Patent Hammers used at the Navy Steam Hammering Establishment, Woolwich, consist of a heavy falling weight, or ram, guided between vertical standards, and lifted by a steam piston working in a cylinder. The ram is lifted by the piston rod, which passes through a stuffing box in the top cover of the cylinder, and is connected to the ram by a coupling box and cotter. The steam is admitted to the cylinder by a slide valve, worked by an eccentric on the crank shaft, and is exhausted from the cylinder through the same valve and passages. The slide valve is worked by a separate eccentric on the crank shaft, which is driven by a pair of bevel wheels, the shaft of the lower wheel being fitted with a clutch, by which the hammer can be started or stopped at pleasure. The length of stroke is regulated by the position of the trip, which is adjustable on the standard. The length of stroke is indicated on a graduated scale, and can be read off by the workman at the platform. The anvil block is supported on a massive foundation of timber and concrete, and is separated from the surrounding brickwork by a space filled with sand, to prevent the transmission of vibration. The hammer is fitted with a counterpoise valve, which is opened automatically when the hammer is at rest, to relieve the engine of the load of the ram during the return stroke. The hammer is provided with a friction clutch, by which the blow can be regulated in force, and the hammer can be worked rapidly for a number of blows in succession, or singly, as required. The hammer is also provided with a self-acting gear for lifting the ram and tools to any required height, and releasing them at the moment of striking the anvil block. The ram is lifted by a pair of friction rollers, driven by a strap from the crank shaft, and is released by the action of a trip, which is adjustable in height on the standard. The length of stroke is indicated on a graduated scale, and can be read off by the workman at the platform. The hammer is also provided with a friction clutch, by which the blow can be regulated in force, and the hammer can be worked rapidly for a number of blows in succession, or singly, as required. The hammer is also provided with a self-acting gear for lifting the ram and tools to any required height, and releasing them at the moment of striking the anvil block. The ram is lifted by a pair of friction rollers, driven by a strap from the crank shaft, and is released by the action of a trip, which is adjustable in height on the standard. The length of stroke is indicated on a graduated scale, and can be read off by the workman at the platform. The hammer is also provided with a friction clutch, by which the blow can be regulated in force, and the hammer can be worked rapidly for a number of blows in succession, or singly, as required. The hammer is also provided with a self-acting gear for lifting the ram and tools to any required height, and releasing them at the moment of striking the anvil block. The ram is lifted by a pair of friction rollers, driven by a strap from the crank shaft, and is released by the action of a trip, which is adjustable in height on the standard. The length of stroke is indicated on a graduated scale, and can be read off by the workman at the platform. The hammer is also provided with a friction clutch, by which the blow can be regulated in force, and the hammer can be worked rapidly for a number of blows in succession, or singly, as required. The hammer is also provided with a self-acting gear for lifting the ram and tools to any required height, and releasing them at the moment of striking the anvil block. The ram is lifted by a pair of friction rollers, driven by a strap from the crank shaft, and is released by the action of a trip, which is adjustable in height on the standard. The length of stroke is indicated on a graduated scale, and can be read off by the workman at the platform. The hammer is also provided with a friction clutch, by which the blow can be regulated in force, and the hammer can be worked rapidly for a number of blows in succession, or singly, as required.

District Munsiff's Court-house at Ellore	Construction of 4 Windows with Iron bars	"	"	22-"-"

A copy of the Munsiff's report is hereto annexed marked G. From the Munsiff's remarks thereon it will be observed that the construction of windows is essential to the security of the records of the Court.

The Munsiff submitted the estimate for the current official year only, but as the work has not yet been executed, it will have to be done at least in the

District Munsiff's Court house at Cocanada	Plastering the floor of the Court-hall	"	"	43-11-"

	Repairs to the record room with Chunam	"	"	4-"-"
				69-8-6

The District Munsiff reports that these repairs cannot be postponed to the year 1882-83. Copy of his estimate is herewith submitted marked H.

Godavery District Court,
Rajahmundry, 29th March 1881.

Acting District Judge

From, The Asst District Judge of Godavary.
Dated 29th March 1881. No 69

CURRENT No. 869.

To,

The Chief Secretary to Government
Fort St. George
Madras.

117-118
70

Sir,

In accordance with the Accountant General's Circular No XL dated the 30th October last, I have the honor to forward herewith an estimate showing the necessary repairs to be executed during the next official year in connection with the several Courts-houses in the District.

2. Among the buildings mentioned in the estimate those in the occupancy of the District Munsiffs of Peddapore and Amalapur and of the District Court require repairs on a large scale. The construction of new buildings for the District Munsifs' Courts at Peddapur and Amalapur and for the District Court were sanctioned

by the Government in G. O. No 778 dated 25th September 1877 and G. O. No 582 dated 4th September 1878 respectively. But no steps appear to have been as yet taken by Government to give effect to their orders. The present buildings are in a very leaky and dilapidated condition, and the repairs now estimated for are therefore urgently required and must be executed in the course of the next official year.

3. I regret the delay in the submission of this Estimate which is due to the necessity of waiting long for detailed Estimates of repairs for the Court-houses at Amalapuram and Peddapuram which were not received till lately from the D.P.W. and to the difficulty of securing the aid of an experienced Maistry in preparing the estimate for the repairs of the District Court-house.

I have the honor to be
Sir,
Your most obed't Sv't.

117-118
29-1-81

Sir,

In forwarding, as usual, the Consolidated Civil Budget Estimate of this Presidency for 1881/82, I have the honor to make the following remarks on the transactions relating to Provincial Services proper.—

2. From the separate abstracts enclosed it will be observed that the Provincial transactions close with an estimated balance of Rs 1.28.026 on the 31st March 1882.— A statement is appended showing the particulars of this amount.

3. The amount passed by Govern-ment in the several departmental estimates on account of Public Works by Civil Officers costing less than

Rupees

Rupees 1.000 each is Rupees 1.75.510,
as follows:—

Revenue Departments	79.000
Registration	7.000
Revenue Board	1.500
Accountant General	2.000
Observatory	400.
Museum	500.
High Court	3.000
Magisterial Courts	200
Small Cause Court	1.000
District Courts	20350
Police	40.400
Civil Engineering College	1.200
Marine	1.000
Government Press	500.
Hospitals and Dispensaries	17460
	175.510

4. If this sum be deducted from the gross sum of Rs. 2.00.000 entered in the Provincial Budget of Government on this account for all Civil departments, there is left a balance of Rupees 24.490 for other Civil departments not mentioned in the above list. This amount I have apportioned in my consolidated estimate between Jails, Churches and burial grounds which had a total allotment of Rs. 35121 for 1880/81. There is

therefore

therefore after providing these amounts no margin for Miscellaneous purposes for which Rupees 12,400 stand allotted for the Current Year, and it will probably be necessary to re-distribute the above grants in order to meet this sum.—

117-118

Vouchers at Headquarters

Despatches
per last Packet
Despatches with Govt
in 5 Covers — 28/11/87

with abstract state-
ments prepared in
accordance 117-118
~~with~~ with
the forms prescribed
by the Govt of India
in Financial Re-
-solution No 1249,
dated 13th March 1879.
Copies of the orders
of Govt, reviewing
the several de-
-partmental esti-
-mates accompany
this letter; as also
the Provincial Ser-
-vices budget in
detail, with the
order passed thereon.

2. The estimated
revenue & receipts
for 1888-89 are
less than the actuals
for 1879-80 by Rs
20,00,000

Actuals	1879-80	9,73,00,234
Estimate	1880-81	9,39,24,000
Revised Estimate	1880-81	9,36,89,700
Budget Estimate	1881-82	9,44,73,600

20,00,000 in round numbers, while they exceed the estimate and regular estimate for 1080-81 by 5-20 lakhs respectively. The variations under the several heads are fully explained by the Accountant General.

The estimated charges during 1081-82 exceed the actuals for 1079-80 by about 21½ lakhs, the estimate for 1080-81 by about 14½ lakhs, and the regular estimate for the same year by Rs 196.400. The principal variations

Actuals for 1079-80		3,57,51,80
Estimate for 1080-81		3,64,64,0
Regular Estimate 1080-81		377,10,50
Estimate for 1081-82		3,79,06,90

are shown below

Head 117-118 83	More	Less.
34. Other Public Works	516,200	-
30 Miscellaneous	----	4,10,700
35- Provincial & Local Surpluses	----	293,800
4 Land Revenue	224,000	-
27. Allowances & Assignments under treaties &c	----	221,000
6. Excise on Spirits & drugs	197,000	-
20. Police	----	135,000
29. Superannuation, Retired and Compensation allowances	----	124,000
24 Medical	113,000	-
10 Minor departments	90,000	-
33. Irrigation	92,000	-
10 Salt	--	00,000
3 Repairs & drawbacks	--	02,000
22 Education	02,000	-
19 Law & justice	61,000	-

some of the variations are nominal and due, as explained by the Accountant General, to transfers to separate heads outstanding

outstanding famine charges, amounting to four lakhs & a half of rupees, which will, it is hoped, be adjusted before the current year closes, recount for the large increase under the head, 30 Miscellaneous. The difference under 34 Other Public Works is due to Govt having been able to allot a larger sum than in 1900-01 when financial considerations precluded a grant of the usual amount

4. The Accountant General suggests a reduction of Rs 90,000 in the budget estimate for

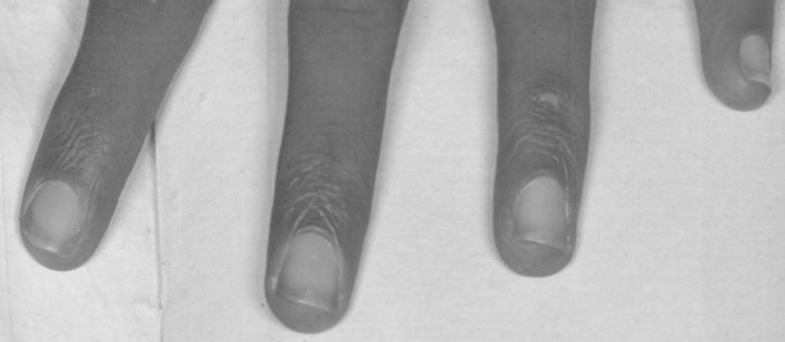

117-118
85
84

for 1901-02 under 24. Medical Services, Local, but the Govt would prefer to accept the calculations of the Board of Revenue. Certain minor alterations in the amount of the grants for items under the heads Education (22), Stationery & Printing (25), and elsewhere may be accepted.
