GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—File of Municipal Reports for 1881-82.

ORDER—dated 4th July 1883, No. 1372, Financial.

The reports of the several Mofussil Municipalities having for the most part been separately dealt with already, the Government now proceed to review them as a whole. Notwithstanding the remarks annually passed by Government in their orders reviewing these reports, there was little or no improvement as regards the punctuality of their submission. Only one report, that of Tinnevelly, was submitted within the prescribed time, while in many instances the time was considerably exceeded, the last report (Bimlipatam) having been received in January 1883, seven months after the proper date. The attention of Presidents will again be drawn to this matter, and the Government trust that, in future, punctuality will be strictly observed.

2. The number of Municipalities administered under Act III of 1871 was the same as in the preceding year, viz., forty-seven. The constitution of the Municipal Boards was as shown below:—

——	Europeans and Eurasians.	Natives.	Officials.	Non-officials.	Total.
1880-81	267	473	319	421	740
1881-82	275	494	345	424	769

The average number of Commissioners for a Municipality was about sixteen, and the percentage of officials to the total number forty-five against forty-three in the previous year. In three Municipalities—Kurnool, Calicut, and Vizianagrum—the legal proportion of official members was exceeded, and the Presidents will accordingly be directed to take such immediate steps as may be necessary to organize the Boards strictly in accordance with the provisions of the law.

3. The privilege of election was exercised in the marginally-noted five Municipalities in addition to the four towns in which the system had been in force in the previous year. On the whole, the operation of the system may be said to have been very fairly successful, but it is clear that the electoral law is in need of amendment, and that the rights of minorities have hitherto been inadequately safeguarded.

Total Income ..	14,95,316	16,33,794

5. Compared with the previous year, the income from almost all sources of revenue, excluding the Imperial License-tax, underwent an increase, the aggregate advance amounting to Rs. 1,19,161, of which the improvement under heads of taxation, properly so called, alone amounted to Rs. 63,643. Under "House and Land Rate" there was an advance of Rs. 25,219 due in some cases * to the realization of large outstanding arrears, and in others † to the enhancement of the rate. In Bellary there was a large falling off, caused by the exemption from taxation of Government buildings and lands under the orders of the Government of India, embodied in G.O., 14th May 1880, No. 990. The proceeds of this tax formed 44·09 per cent. of the entire receipts from taxation excluding the Imperial License-tax, and amounted to 31·45 per cent. of the total Municipal income.

6. In three ‡ out of the five Municipalities in which the illegal non-levy of the land-rate was remarked on in the general review of 1880-81, the tax was collected for the first time during the year under review. In a fourth (Tuticorin) the tax has since been introduced, while as regards Masulipatam the attention of the Commissioners has again been directed to the legal obligation devolving upon them. The President of the Vellore Municipality will report whether it is any longer necessary to postpone the collection of this rate.

7. The revenue derived from the "Tax on Arts" amounted to Rs. 1,40,721 against Rs. 1,31,144 in the previous year, an increase due to the introduction of the tax for the first time in the three towns noted in the margin in addition to the thirty-three Municipalities in which it was already in force, to the extension of the tax to the last two classes in Rajahmundry, and to some extent to the prompter realization of arrears. Laxity in collection prevailed, however, in certain Municipalities, especially in Kumbakónam, Negapatam, Tinnevelly, and Vellore, where the income from this source exhibits a marked decrease.

Bellary. Ellore. Bimlipatam.

8. There was an advance of nearly Rs. 5,000 in the revenue derived from the wheel-tax and tax on animals, which is generally attributed to the growing prosperity of the country, and the consequent increase in the number of vehicles and animals brought under taxation. The fee levied for the registration of carts was raised in Kurnool to the full rate provided in the Act, and in Tuticorin and Palamcottah reduced from three-fourths to one-half. It is noted that in Pálghat no income was derived from this source. The President will explain the fact.

9. As regards the extent to which coercive measures were resorted to for the collection of taxes, it is observed that the statement called for in G.O., 26th August 1881, No. 1528, was not received from the marginally-noted Municipalities. The Presidents concerned will explain the cause of this omission. From the returns received from the remaining Municipalities, it appears that coercive measures were adopted more or less every where except in Erode, where they were not required, and that the number of processes issued was especially large in Tanjore, Madura, and Negapatam, three of the richest and most flourishing towns in the Presidency. In very few cases, however, was it necessary to proceed to the distraint of property, and the value of property sold was altogether insignificant, the inference being that the withholding of the tax was not, as a rule, the result of poverty, but of sheer disinclination to pay.

10. Under Tolls there was an apparent advance of Rs. 21,886 over the previous year's revenue. This increase, however, which occurred chiefly in Bellary and Negapatam, was due in a great degree to the non-disbursement within the year of the share payable to the Local Fund Board, and in a lesser degree to the retention of the toll-gates under the direct administration of the Commissioners, an arrangement involving countervailing expenditure on account of establishment. In Bellary, moreover, the fees were raised from half to the full rates, which further contributed to swell the receipts. The marked decrease in Trichinopoly was due, on the other hand, to the non-recovery of the full contribution due to the Municipality by the Local Fund Board.

11. The subjoined abstract shows the revenue from Tolls in each Municipality, the percentage it bears to the total income, and the proportion of expenditure on roads and communications :—

12. Thus the proportion of tolls revenue to entire income ranged from 5·4 per cent. in Srírangam to 43 per cent. in Vizianagrum, the average being 20·6 per cent. On the other hand, the average expenditure on Communications was only 53 per cent. of the tolls proceeds against 59 per cent. in the previous year. In no fewer than thirty-three Municipalities was it less than 50 per cent., while in the five towns marginally noted it was not so much as one-eighth of the income from this source. The attention of the Commissioners concerned will again be directed to the necessity of devoting at least 50 per cent. of the receipts from tolls to the construction and upkeep of roads and communications.

13. Rents from markets yielded Rs. 58,368, falling short of the previous year's figure by Rs. 22,115. This decrease is only apparent and not real, as in 1880-81 this item included the income derived from "Other Buildings and Gardens," which amounted

in the year under review to Rs. 29,243 and has now been transferred to "Miscellaneous."

14. It is gratifying to observe the steady progress of the system of private scavengering as evidenced by the increased revenue derived from this source. This amounted in the year under review to Rs. 22,537 against Rs. 14,828 in 1880-81. The system was introduced for the first time in the marginally-noted Municipalities, and was tolerably successful in all with the exception of Kumbakónam. In Mangalore and Negapatam the people are reported to have testified their appreciation of the measure, and in Tanjore and other towns, where the system was already in force, it continued to work with general satisfaction. The subject will doubtless engage the special attention of the Commissioners in other Municipalities, who will endeavour gradually to introduce the system, of which the importance, both on financial and sanitary grounds, can scarcely be overrated.

15. Grants-in-aid from Provincial and Local Funds show an increase of over Rs. 30,000 as compared with the previous year, owing to enhanced contributions paid by Government and Local Fund Boards on account of schools, roads, dispensaries, &c., to certain Municipalities, especially Trichinopoly, Masulipatam, and Bellary. In Madura the excess was due to the payment in arrears of the Local Fund Hospital contribution.

16. The collection of the Imperial License-tax in Municipalities was, as usual, entrusted to the Commissioners concerned except in Cochin, Coonoor, Ootacamund, and Anakápalle, and resulted in a revenue of Rs. 1,03,183 against Rs. 1,01,286 in the previous year.

17. The subjoined statement shows the incidence of taxation per head of population in each Municipality on the Census figures of 1881 :—

18. There was a slight fall in the general average as compared with the previous year, the precise figures being 8 annas 5 pies per head against 8 annas 8 pies. Omitting the two hill stations of Ootacamund and Coonoor, where the incidence is abnormally high, the incidence in low country Municipalities varied from 3 annas 5 pies in Pálghat to 13 annas 11 pies in Cuddapah. Compared with the previous year, there was a rise in three towns * exceeding 2 annas, and a fall in six † of upwards of 3 annas as particularised in the margin. In Coonoor the incidence rose by 4 annas 4 pies, while in Ootacamund there was a fall of 6 annas 6 pies. As regards the amount of taxation paid by casual visitors to Ootacamund, the information furnished is still most imperfect. The subject has been noticed at length in the orders reviewing the report of that Municipality, and means have been suggested for the acquisition of the required information.

20. Excluding charges connected with the Imperial License-tax, the expenditure aggregated Rs. 13,48,309 against Rs. 12,51,699 in the preceding year, and fell short of the total receipts by Rs. 21,920. The opening balance for the year under review was in excess of the closing balance according to the returns of 1880-81 by Rs. 1,390, the net result of discrepancies in the accounts of the four Municipalities noted below :—

	Closing Balance, 1880-81. RS.	Opening Balance, 1881-82. RS.	Difference. RS.
1. Cocanada	2,634	2,509	— 125

3. Tellicherry	1,255	1,494	+ 239
4. Tuticorin	306	1,649	+1,343
Net ..			1,390

These, in the case of Cocanada and Tellicherry, required no more than a simple adjustment of figures, and were dealt with accordingly in the orders reviewing the annual reports. As regards Rajahmundry no explanation has been furnished, and the President has accordingly been called upon to report on the point. The discrepancy in the case of Tuticorin was considerable, and the Vice-President stated in explanation that the balances shown in the annual accounts for 1879-80, 1880-81, and 1881-82 were all incorrect and submitted a revised statement. This gross irregularity was seriously noticed in G.O., dated 16th December 1882, No. 1969, and the President was instructed to take steps to prevent the possibility of its recurrence.

21. The annexed statement shows the percentages of available income expended on each of the more important objects of the Act :—

22. The outlay on Public Works amounted to Rs. 2,87,963 against Rs. 2,59,744 in the previous year and formed 21·3 per cent. of the aggregate expenditure under all heads. Of this sum 51·9 per cent. was laid out on the construction and maintenance of roads, which are generally reported to have been kept in good condition. Compared with other Municipalities, the expenditure on new roads was exceptionally large in

Kumbakónam, Tanjore, Chidambaram, and Conjeeveram, while in Madura, Trichinopoly, and Ootacamund considerable sums were expended in the repair of existing communications. In the last-mentioned place and in Coonoor the outlay on Communications was, as usual, largely supplemented by Provincial grants for the maintenance of the main lines which were formerly under the care of the Public Works Department. In Masulipatam the total expenditure on Communications—New Works and Repairs—actually fell short of the contribution paid by the Local Fund Board for that purpose—a fact indicating that no portion whatever of the tolls revenue had been utilized in this direction. The matter has already been noticed in the order reviewing the report of that Municipality. In eight Municipalities the outlay incurred on road repairs was less than Rs. 500, while in Anantapur and Ongole it amounted only to Rs. 141 and Rs. 231, respectively. The roads in Cannanore and Guntúr are stated to be in fairly good condition, but as regards the remaining six towns* no information is furnished on the subject.

* Anantapur, Ongole, Kurnool, Dindigul, Srírangam, Bimlipatam.

23. No important drainage schemes were undertaken during the year. In connection with water-supply, the principal works undertaken and executed were the excavation of a drinking water tank at Negapatam at a cost of Rs. 2,248, which is stated to have supplied a want hitherto much felt in the town especially during the hot weather, and the construction of a masonry conduit at Masulipatam costing Rs. 2,216.

24. On Buildings Rs. 81,113 were expended against Rs. 66,972 in the previous year. The most considerable works undertaken and wholly or partially carried out during the year under report were—

	Rs.
(1) A Dispensary at Adóni	4,681
(2) Market-sheds at Erode	2,445
(3) A Dispensary at Cuddapah	3,617
(4) Lying-in Hospital at Guntúr	1,925
(5) Market cooking-sheds in Ootacamund	4,274
(6) Lying-in Hospital at Vellore	2,373
(7) Dispensary at Chidambaram	7,931
(8) Powder Magazine at Mangalore	2,163
(9) Four pucka bazaars at Tinnevelly	2,063
(10) Pucka latrines at Trichinopoly	2,214

25. The educational charges amounted to Rs. 85,564, showing an advance over the previous year of Rs. 10,000. In three Municipalities * the expenditure fell short of Rs. 500, in nine towns it was between Rs. 500 and Rs. 1,000, in nineteen between Rs. 1,000 and Rs. 2,000, in eight between Rs. 2,000 and Rs. 3,000, and in four between Rs. 3,000 and Rs. 4,000. In Máyavaram it amounted to Rs. 5,230, in Salem to Rs. 6,171, and in Madura to Rs. 6,326. There was an increase in eleven towns † of more than Rs. 500 as compared with the outlay in the previous year. The number of Municipal Schools maintained on the salary system increased from 65 with 3,352 pupils to 96 with 4,010, and the number of schools on the combined system from 72 with an attendance of 3,890 to 99 with 4,425.

26. The following statement furnishes particulars of educational expenditure as compared with the figures of the preceding year :—

	1880-81. Rs.	1881-82. Rs.
Training Schools	220	402
Municipal Schools	30,895	33,210
Combined System Schools	15,929	17,366
Salary Grants	5,304	4,168

	1880-81. Rs.	1881-82. Rs.
Results Grants	18,915	26,195
Inspection	2,583	2,925
Miscellaneous	1,718	1,298
Total ..	75,564	85,564

Detailed information in regard to these items will be found in Statement V appended to these Proceedings. With the exception of Salary Grants and Miscellaneous, every item shows an advance, which is especially marked in the case of results grants, indicating a gradual change from the salary to the results system. The progress of female education still leaves very much to be desired, but the prevailing prejudice against it appears to be slowly but surely giving way. Much, comparatively speaking, has already been done in such centres of population as Tanjore, Negapatam, Nellore, Máyavaram, and Vizagapatam, and in no town can it be said that the results achieved are positively discouraging.

27. The expenditure on Hospitals and Dispensaries amounted to Rs. 1,92,302 and that on Vaccination to Rs. 11,895, making a total outlay for medical purposes of Rs. 2,04,197 against Rs. 2,11,452 in 1880-81. In the latter year charges on account of charitable establishments were included under this head, but these are now shown under "Miscellaneous," and account for the apparent diminution in the total of medical charges. Every Municipality is now provided with a Hospital or Dispensary, and in many Branch Dispensaries have been opened for the purpose of affording relief to persons living at a distance from the main institutions. Where a Municipality* has no Dispensary of its own, a contribution is paid from Municipal Funds to the Local Fund Board or other body to whom the local Dispensary belongs. The attendance at some of the more important of these institutions is shown below in comparison with the figures of the previous year :—

* Ootacamund. Dindigul. | Wálajápet. Vizianagram.

28. The services of trained midwives were secured in several towns during the year, and the reports show that they were largely availed of. The School of Midwifery at Nellore continued to work satisfactorily, but as regards that which is understood to exist at Mannárgudi, no information has been furnished notwithstanding the remark passed by Government in paragraph 26 of G.O., 4th April 1882, No. 322.

29. On Conservancy, the outlay amounted to Rs. 3,39,092 or 25 per cent. of the income of the year, exclusive of the License-tax, against Rs. 2,92,456 in the previous year. The increase is due chiefly to additional expenditure incurred in some

towns on account of special sanitary arrangements made before and after the outbreak of cholera. In Ootacamund a special sanitary establishment was entertained in order to carry out certain urgently required sanitary reforms, while in Tanjore the extension of the private scavengering service sufficiently accounts for the increased sanitary expenditure. The operations under this head as well as under Vaccination and Registration of Vital Statistics are fully dealt with by the Sanitary Commissioner in his report for 1881, pages 56 to 84 and 141 and 142.

30. With the exception of Chicacole and Anakápalle, every Municipality provided for lighting, the expenditure incurred on that account amounting to Rs. 51,808, or Rs. 2,271 in excess of that of the previous year.

31. Charges for supervision, management, and collection aggregated Rs. 1,11,983, exceeding those of the previous year by Rs. 22,304.

32. The other items do not call for any special remark.

33. On the whole the reports show that the working of the Mofussil Municipalities during the year was satisfactory, and that the Commissioners generally take a laudable interest in the administration of the Act.

ORDER—dated 18th November 1882, No. 1711, Financial.

Ordered that the foregoing statements of receipts and charges of the Mofussil Municipalities in this Presidency for 1881-82 be forwarded to the Comptroller-General, with reference to paragraph 4 of the Government of India Resolution, Department of Finance and Commerce, dated 20th April 1882, No. 470, and with reference to their Resolution, Home Department, dated 27th July 1882, No. 2—103-114-A.

2. It will be seen that of the forty-seven Mofussil Municipalities, only one, Bimlipatam, has not yet submitted its account, and that to avoid delay the Budget Estimates of that Municipality for the year were adopted and shown in italics in lieu of the actuals. No return has been received from the Madras Municipality, which keeps its accounts under the Act for the calendar, not the official year. The orders of the Government of India above quoted were, through an oversight, not communicated to the Municipality. The return will now be called for, and, as soon as received, forwarded to the Comptroller-General, in continuation of the accounts now sent to him.

READ the following

File of municipal Reports for 1881-82.

Order 4 July 82 No 1372

The reports of the several moffussil municipalities having for the most part been separately dealt with already, [illegible] except those relating to the municipalities noted in the margin, The Govt now proceed to review them as a whole. Notwithstanding the remarks passed by Govt in their orders on these reports, it is observed with regret that there was no improvement as regards the punctuality of their submission. Only one report, that of Tinnevelly, was submitted within the prescribed time

time ~~in which~~ while the time, but in many instances the time was exceeded considerably ~~but~~ the last report (Bimlipatam ~~was~~ having been received in January 1883 ~~one~~ seven months after the ~~due~~ proper date. The attention ~~of the~~ Presidents will again be drawn to this matter, and it ~~is~~ is to be ~~hoped~~ trusted that in future punctuality will be strictly observed.

2. The number of Municipalities administered under Act III of 1871 was the same as in the preceding year viz 47. The Constitution of the Municipal Boards was as shown below:—

	Europeans	Natives	Officials	non Officials	Total
1880-81	267	473	389	421	740
1881-82	275	494	345	424	769

The average number of Commissioners for a Municipality was about 16 and the percentage of Officials to the total number, 45 against

43 in the previous year. ~~The legal proportion of official members was exceeded~~ three Municipalities viz Kumool - Calicut and Vizianagram - and the Presidents ~~of these~~, will ~~at once take measures to~~ take such immediate steps as to organise the Boards strictly in accordance with the provisions of the Law.

The legal proportion of official members was exceeded, according to direction may be necessary

3. The privilege of election was exercised in the marginally noted five Municipalities in addition to the four Towns in which ~~where~~ the system had been in force in the previous year. ~~The election was generally free from corruption~~

On the whole the operation of the system may be said to have been very favourable, but it is clear that the electoral law is in need of amendment and that the rights of minorities have hitherto been inadequately safeguarded

4. The annexed abstract shows in a comparative view the receipts under different heads for 1880-81 and 1881-82.

Receipts.

(a) Collections of Imperial License tax	1,01,286	1,05,153
Total income	14,95,316	16,35,764

5. Compared with the previous year the income from almost all the sources of revenue, excluding the Imperial License tax ~~and increase in license~~ ~~collections~~ shows an increase, the aggregate amount of Rs 119,161 of which the ~~increase~~ under head of taxation, properly so called, alone amounted to Rs 63,643.

Under "House and Land rate" there was an increase of Rs 25,219 due to the realization in some cases of large outstanding arrears and to the enhancement of rates in Bellary there was a large falling off caused by the exemption from taxation

b ~~The land rate was collected~~ in three out of five municipalities in which the illegal non levy of the land rate was remarked on in the General ~~Inspection~~ Review of 1880-81 ~~for the year~~ during the year under review. ~~The Act was dated 24th April 1880~~ The Municipalities

As regards ~~the~~ attention of the Commissioner has again been directed in the Review of that municipality, to the legal necessity of collecting the tax. In Tuticorin the tax has been introduced since.

in the previous year, excepting in respect of the increase of Rs 3,500 due to the introduction of the tax for the first time in the 3 towns noted in the margin in addition to the 38 municipalities in which it was already in force, & the extension of the tax to the last two classes in Rajahmundry, & to the realization of arrears. Laxity in collection however prevailed in certain Municipalities especially in Kumbakonam, Negapatam, Tinnevelly and Vellore, where the income exhibits a marked decrease.

There was an increase of nearly Rs 5,000 in the revenue derived from the wheel-tax and tax on animals, which is generally attributed to the growing prosperity of the country and the consequent increase in the

The excess yield under "carriages vehicles and animals" is spread over 33 Municipalities and is ascribed to the increased number of vehicles and animals brought under taxation. The fee, levied for the registration of Carts was in Kumbakonam raised, from half to the full rate provided in the Act, and in Tuticorin and Palamcottah, reduced from three-fourths to one-half. It is also noted that the increase derived from this source in Palghat & the Royal mills explain the excess in Calicut as regards the extent to which coercive measures were resorted to for the collection of taxes, the statement called for in G.O. 26th August 1881 No 1529 was not received from the marginally noted Municipalities. The Residents concerned will furnish the returns received from the remaining Municipalities shortly.

It appears that coercive measures were adopted more or less in the Jaws except in Erode where they were not required as there was no necessity to resort to them, and that the largest number of processes issued was especially large in Tanjore, Madura and Negapatam, these 3 cities being 3 of the richest and most flourishing towns in the Presidency. It is observed, however, that in very few cases was it necessary to proceed to the distraint of products and that the value of property sold was altogether insignificant, the inference being that the willingness of the tax-payers as a rule, the result of proper exercise of these discretionary powers.

18. There was a very slight fall in the general average as compared with the previous year, being 8-5 per head against 8-8. Omitting the two hill stations of Ootacamund and Coonoor, where the incidence is abnormally high, the rate in the municipalities of the country varied from 3 annas and 5 pies in Palghat to 13 annas and 11 pies in Cuddapah. Compared with the year 1880-81 the previous year, the

In Cocanada, the incidence rose by 4 annas and 4 pies while in Nellore and Kurumbam by 3 annas and six pies, owing in the first case to excess income under House and Land rate and in the second case to the increase of population without corresponding addition to the income. As regards the tax falling on the non-residents of Nellore no information is available. This point has been noticed in detail in the orders reviewing the report of the municipality and the necessary instructions have been issued as to the way in which the required information should be obtained. to Rs 28,96,962 against Rs 25,97,744 in the previous year and formed 21·3 per cent of the aggregate expenditure on all heads. Of the above sum 57·9 per cent was laid out on the construction and maintenance of roads. These are generally reported to have been kept in good condition. Compared with other municipalities the expenditure was on new roads exceptionally large in Kumbakonam, Tanjore, Chidambaram and Conjeevaram, being more than Rs 3,000 in each while in Madura, Trichinopoly and Coimbatore Ootacamund and Coonoor the outlay on existing roads exceeded Rs 1,000. 30. On conservancy, the outlay amounted to Rs 2,39,092 or 25 per cent of the income of the (exclusive of the Coimbatore Municipality) year against Rs 2,92,456 in the previous year, showing an increase of Rs 46,636 due chiefly to the additional expenditure incurred in some towns on account of the Sanitary arrangements made before and after the outbreak of Cholera. In Coimbatore a temporary special Sanitary officer was maintained with establishment in order to carry out certain urgently required Sanitary reforms in that municipality, which in Tanjore and the extension of the Private Scavengering service accounts for the increased Sanitary expenditure. Tanjore led to the increased charges in these municipalities. This head
