GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

27th January 1881, No. 156.

Local Funds—Medical.

Read the following papers :—

No. 104. *From Surgeon-General W. R. CORNISH, F.R.C.S., C.I.E., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Fort St. George, 17th November 1880, No. 513.*

I have the honor to submit, for the orders of Government, the accompanying correspondence, in which the District Engineer in the employ of the Local Fund Board, Tinnevely Circle, raises the question of medical aid from the Zillah Surgeon for himself and his establishment.

2. Under the rules of the Medical Department, all public servants are entitled to gratuitous medical aid for themselves. Gazetted officers are entitled to receive it at their own houses, and non-gazetted officers in receipt of salaries amounting to Rs. 100 and upwards are also entitled to the attendance of the Civil Surgeon at their own houses in cases of illness such as to prevent their consulting the Medical Officer at his quarters.

3. As a rule, Civil Surgeons are entitled to remuneration for attendance on the families of Government servants, Covenanted or Uncovenanted, irrespective of the amount of pay drawn by them, with the following exceptions :—families of Regimental Officers or of Officers in Military staff employ, of Chaplains or Assistant Chaplains, of Warrant Officers, and of all Military men below the grade of a Commissioned Officer. Government have also conferred the privilege of gratuitous medical attendance at their own houses on the families of Uncovenanted Servants while on duty on the Nilgiris with their respective departments.

4. The Engineer of a Local Fund Board and his establishment are not public servants in the sense of being Government servants, and can have no claim to the gratuitous medical attendance of the Civil Surgeon for themselves, much less for their families; but I would venture to recommend, for the favorable consideration of Government, the expediency of extending to the Local Fund Engineer and his establishment the privilege of free medical attendance which is enjoyed by Government servants with the limitation of salary in regard to his subordinates.

5. The families of the Local Fund servants, of course, will not enjoy any greater advantages in respect to medical aid than those of Government servants; but in the event of the Engineer's subordinates being Warrant or Non-Commissioned Officers or Privates connected with the Department of Public Works, their families should have the right of gratuitous medical attendance in accordance with the practice mentioned in paragraph 3 of this letter.

No. 2306.
