Stores.

Communicating to the Departments of the Secretariat, &c., resolution of the Government of India prescribing revised rules for the supply of articles of European manufacture required for the public service in India, and issuing instructions regarding the preparation and submission of annual estimates of Stores required from England and of annual returns of expenditure on stores.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

Read—the following paper :—

Proceedings of the Government of India, Department of Finance and Commerce, (Accounts and Finance—Stores), dated Calcutta, 10th January 1883, No. 185.

Read—again the undermentioned papers regarding the procedure to be employed in obtaining for the public service supplies of stores of other than Indian origin or manufacture :—

Financial Resolution, No. 3574, dated 3rd November 1880.

"	"	"	953,	"	10th June 1881.
"	• Circular	"	1470,	"	15th March 1882.
"	"	"	1620,	"	21st " "

Resolution—

The Governor-General in Council having had under consideration the existing orders regarding the supply of articles of European manufacture required for the public service in India, and the preparation of the annual returns of expenditure on stores required for transmission to Her Majesty's Secretary of State for India, is pleased to direct the publication in a consolidated form of the existing rules on the subject, and at the same time to prescribe modified forms for the submission of the annual statements required by the Secretary of State. Accordingly, in supersession of the orders cited above, the Governor-General in Council prescribes the following rules. These rules apply to stores required for Imperial and Provincial services and Incorporated Local Funds, but not to those required for Excluded Local Funds :—

Articles of European Manufacture.

2. All articles required for the public service which cannot be manufactured in India are, as an almost invariable rule, to be obtained by indenting on the Secretary of State. The Store Department at the India Office constitutes a special agency, which is maintained for the express purpose of purchasing stores in England on account of the Government of India, and, save in the special cases hereafter mentioned, stores of European manufacture must not be bought in India or obtained direct from Europe independently of the India Office.

3. The special cases in which, with the previous sanction of the Government of India or of the local Government, as the case may be, stores of European manufacture may be obtained in India are—

- 1st, when for any special reason it may be more economical to do so ;
- 2nd, when stores indented for from England have not arrived, and inconvenience to the public service is anticipated from delay in the supply ;
- 3rd, when the articles are perishable.

4. Indents must be prepared in the following form and transmitted to England in duplicate, accompanied by a letter from the Secretary to Government direct to the address of the Assistant Under Secretary of State for India or of the Departmental Secretary at the India Office, with an intimation that the supply has been authorized by the responsible Government. All indents for Military and Marine stores, &c., are, however, to be transmitted through the Government of India in the Military Department (see paragraph 5). The grant to which the cost of stores required for Imperial service is chargeable should be specified in the indent, and all necessary particulars should be inserted in the proper columns ; if in any case a column is left blank, the reasons for not filling it up should be stated :—

- Column 1.—Name of article.
- " 2.—Revenues to which cost is chargeable (Imperial, Provincial, Local or Berar).
- " 3.—Imperial head of account or grant to which chargeable.*
- " 4.—Established proportion.
- " 5.—How established proportion is calculated.
- " 6.—Number or quantity in store on
- " 7.—Number or quantity due on previous indents.
- " 8.—Number or quantity now indented for.
- " 9.—Rate.
- " 10.—Value { of number or quantity due on previous indents.
of number of quantity now indented for.
- " 11.—Remarks.
- " 12.—Shipped or under provision.
- " 13.—Proposed to be provided.
- " 14.—Remarks by the Director-General of Stores.†

5. This form is not applicable to departments such as the Ordnance Department, for which a special form has been prescribed by the Secretary of State or the Government of India, or to indents for stamps and currency note forms. All indents for Military, Marine, and Medical stores (whether Provincial or Imperial) must be submitted to the Government of India in the Military Department for review and transmission to the Secretary of State for compliance.

6. The established proportion is, as a general rule, three years' supply, and is, unless otherwise specially ordered, based on the average of the previous three years' consumption. Demands in excess of the established proportion should be explained. In the column "Remarks" should be entered the names of the last two or three vessels whose consignments have been included in the quantity in store, as shown in column 6.

7. Patterns or samples of articles required should accompany the indent in cases where the description of the article given in the indent is unavoidably vague or too general for guidance without the help of samples ; and when paper is required, it should be explained whether it is wanted for drawing, writing or printing.

8. Indents for stores required for Provincial services, with the exception mentioned in paragraph 5, or for Incorporated Local Funds, should be forwarded to England direct by the local Government concerned, a copy of each indent being simultaneously transmitted to the Government of India in the Financial Department and to the local Accountant-General. But in the case of stores required for Provincial Public Works, indents should be forwarded in triplicate through the Director-General of Railways, who will retain the triplicate copy and forward it to the Government of India in the Financial Department for perusal. Indents for chemicals and

* This column will be blank if the charge is not debitable to the Imperial Revenues.
† These are to be left blank for the Director-General of Stores to fill up.

scientific apparatus, &c., required for colleges and schools will continue as heretofore to be submitted to the Government of India in the Military Department for review and transmission to the Secretary of State.

9. Indents for stores required for Imperial services should be forwarded as follows:—

<i>Nature of Stores.</i>	<i>To be forwarded to England by the—</i>
Military, Marine and Medical ...	Military Department.
Public Works, including Railway and Telegraph.	Public Works Department.
Stamps, Post Office, Mint and Paper Currency department.	Department of Finance and Commerce.
Other civil stores for use in Bombay ...	Government of Bombay.
" " " " Madras ...	" of Madras.
" " " " Hyderabad.	Foreign Department.
" " " " elsewhere ...	The department of the Supreme Government concerned.

10. The Governments of Madras and Bombay, and the several departments of the Supreme Government will furnish a copy of each indent to the Government of India in the Department of Finance simultaneously with the transmission of the original indents to the India Office; in the case of Military and Public Works stores, the Governments of Madras and Bombay will forward a copy of each indent to the Government of India in the Military and Public Works Departments, respectively, and not direct to the Department of Finance. In the case of the departments of the Supreme Government, the Department of Finance will return the copies of the indents after perusal with any remarks that may seem called for.

11. With each indent, whether for Imperial or Provincial services, an explanatory memorandum or statement should be transmitted to the India Office, when practicable, in the form published with this department circular, No. 1620, dated 21st March 1882, giving the reasons for retaining in the indent any articles included in appendix C to this resolution, or such articles as are to any extent manufactured in India, instead of substituting for them articles procurable locally.

Books, Newspapers, &c.

12. Books and newspapers are exempted from the general rule requiring all articles of European manufacture to be obtained by indenting on the Secretary of State, and in regard to them the following procedure is prescribed.

13. Books, maps and newspapers, or other periodicals published in Europe or America, whether required for Imperial or Provincial services, or for Local Funds, shall be procured independently of the India Office, either through local book-sellers or by direct orders to agents or publishers in Europe or America.

14. For official publications, other than Parliamentary papers, whether periodical or not, requisitions should be forwarded by the departments of the Supreme Government, and by the local Governments and Administrations requiring them for their own use and for the use of the officers subordinate to them, direct to the address of the Assistant Under Secretary of State for India; the revenues (Imperial, Provincial, or Local) to which the cost is chargeable, and, if Imperial, the head of account or grant to which it is debitable, being specified in the requisition.

15. Parliamentary papers required for departments and officers elsewhere than in the Madras and Bombay Presidencies will be supplied, as published, by the Secretary of State to the Home Department of the Government of India, under the terms of his Despatch No. 5, dated 13th January 1876. Any communications regarding their distribution should be made to the Secretary to the Government of India in the Home Department.

16. Parliamentary papers required by the Governments of Madras and Bombay should be obtained direct from the Secretary of State.

17. Government does not undertake to supply books and newspapers indiscriminately; and supplies must be confined to what is found actually necessary for the public service. Books for regimental schools, regimental and prison libraries, and Military offices will, so far as the requisitions are in accordance with the rules in force in the Military Department, be brought under the orders of the Government of India, Military Department, for the Bengal Army, and of the Governments of Madras and Bombay for the armies in those Presidencies. Books for the Educational Department should be obtained under the rules and usage of the several local Governments concerned. Purchase of other works should be confined strictly to those books, principally of reference, which are of obvious practical necessity to the office for which it is proposed to purchase them, independently of the desire of officers for improvement on subjects connected with their duties. Purchases of other than hand-books, manuals, practical guides, and the like should be rarely, if ever, made for executive officers, but mainly for officers charged, among other duties, with important deliberate duties of advising Government on special or important subjects.

18. All books and periodicals procured for any office should be registered or filed, and must not be permanently removed from the office for which they were intended.

19. Payment for books, newspapers, &c., procured from abroad should, by preference, be made in India, either through an agent or a bank, on bills drawn by the supplier. When this is not practicable, the remittance should be made invariably through the local Accountants-General and the accounting officers of the Military and Public Works Departments, who should be responsible for the purchase of the bills.

Annual Estimates of Stores required from England.

20. In order to facilitate the preparation by the India Office of the estimates of expenditure on stores, the Secretary of State has desired that forecasts shall be annually forwarded by the various indenting departments of the value of their probable requirements in respect of stores from England during the ensuing financial year. The Governor-General in Council accordingly directs that all officers submitting indents for stores from England shall prepare and forward to the local Government, or the department of the Supreme Government concerned, as the case may be, for transmission to the Secretary of State, statements in the annexed form (appendix A), showing in groups of principal articles to the estimated gross quantities, rates and value of stores required for the ensuing financial year.

21. Separate estimates should be prepared of stores required for Imperial services and for Provincial services or Incorporated Local Funds, and they should be carefully framed on the basis of previous experience, modified to meet the known or probable requirements of the service for the year which they may represent; those relating to Imperial services should be sent to the Government of India in the department concerned, and those relating to Provincial services to the local Government; and all should be despatched so as to reach the local Government or the Government of India not later than the 1st of August in the year preceding that to which they relate. They should then be transmitted to the India Office so as to arrive there not later than the 1st of October in each year. The Public Works and Military Departments of the Government of India will arrange for the submission of the estimates by indenting officers in those departments.

Annual Returns of Expenditure on Stores.

22. The existing system provides for the proper accounting for stores received from Europe and for the audit of store expenditure. For the civil departments of Government, instructions as to the account procedure are contained in rule 15 of chapter 72 and rule 29 of chapter 73 of the Civil Account Code; the latter rule refers to the annual report of the expenditure on stores prescribed in the resolutions of this department, No. 1267, dated 21st July 1871, and No. 5487, dated 10th September 1874 (for the Military and Marine Departments), and reproduces the form

of the annual statement prescribed in the resolution of this department, No. 3574, dated 3rd November 1880, for transmission to the Secretary of State through the Government of India in the Department of Finance, showing to what extent and in what respects the intervention of the Store Department of the India Office has been dispensed with, distinguishing in groups of principal articles the stores procured in India from those imported from Europe, and giving financial results, as far as possible, whenever the system of local purchase has been adopted.

23. It is of great importance that the Secretary of State and the Government of India should have the means of observing the financial effect of the change which is being made in the mode of obtaining stores by substituting articles of local manufacture for imported stores, and also that sufficient information should be supplied to the Secretary of State to admit of a comparison between the rates of India Office purchases and those for corresponding articles of Indian manufacture purchased in considerable quantities. The Governor-General in Council accordingly requests that returns for each province and department (including Military and Public Works) may be prepared commencing from the year 1882-83, in the form annexed as appendix B to this resolution, and submitted to the Government of India in the Department of Finance for transmission to the Secretary of State. The statements, it should be observed, are intended merely to be returns of stores received or purchased as the case may be, and it is not necessary that they should be agreed with the books of the departmental account officers, but each statement should be complete for the province or department to which it relates.

24. In future, similar returns should be submitted by the 31st August in each year, and all returns, including those of the Military and Public Works Departments, should be forwarded to the Government of India in the Finance Department, in order that, before transmission to the India Office, an abstract statement may be compiled showing the total value of stores procured of local manufacture and of stores imported, so as to set forth in a convenient form the progress made during the year in substituting local manufactures for imported articles.

25. A few remarks are offered in explanation of the form in which the statements are to be submitted and of which a specimen is annexed (appendix B). The statement should be prepared in three parts, viz. :—

- (1) European stores obtained through the Secretary of State.
- (2) European stores specially purchased in India.
- (3) Articles manufactured in India, or of Indian origin, and substituted for stores hitherto imported through the Secretary of State.

In the second and third parts the average price or rate for each class of article, as well as all incidental charges, should be shown, as far as possible, in the prescribed columns, and also the estimated cost, as far as can be given, of similar articles if obtained through the India Office, and the gain or loss, being the difference between the actual and the estimated cost. Such observations as may seem necessary in regard to variations in quality being noted in a column of remarks. When the exact proportion of incidental charges cannot be ascertained, an approximate percentage charge may be made.

26. In the case of stores manufactured in Europe and obtained through the Secretary of State, no details are required; the articles should be grouped under a few main headings in the manner indicated in the first column of the form, and the total value only should be given against each heading. In the case of articles of European manufacture purchased in India under the conditions stated in paragraph 3 of this resolution, as well as in the case of articles of Indian manufacture substituted for articles previously obtained from England, details must be given of the different kinds of articles included under each major heading. The purchases of European articles in the local market being restricted to special cases, the items should not be numerous, and therefore no separate major headings need be laid down for them. They should be shown under appropriate headings in the prescribed column of the statement. As regards articles manufactured in India and purchased in lieu of stores hitherto

imported, it is necessary that a uniform classification under major headings should be adopted in view to the compilation ultimately of an abstract statement; accordingly, a list has been prepared of the articles which can be procured of Indian manufacture, and is annexed as appendix C. In this list the articles have been arranged under appropriate major headings which have been shown in alphabetical order; it is important that, in furnishing details in the prescribed column of appendix B of the classes of articles of Indian manufacture substituted for articles hitherto imported, officers should follow, as closely as possible, the classification given in appendix C. This classification, as now published, is, however, intended principally for the guidance of officers in the civil departments of Government; it is not in all respects applicable in its present form to the Public Works and Military Departments, and in reissuing this resolution the Government of India in those departments will circulate a revised appendix C for the guidance of Public Works and Military officers in the preparation of the annual statements. Those departments will also prescribe the major headings to be adopted, on the principle above stated, in classifying in appendix B the expenditure on European stores obtained through the Secretary of State.

27. The statement should include articles of importance only, that is to say, articles of which the consumption is considerable: petty articles as well as all stores which have been invariably obtained in India should be excluded. The major headings should invariably be placed in alphabetical order. Any articles not falling under one of the prescribed major headings, but which may have been received from England or purchased in the local market in considerable quantity, should be separately entered; but no articles of which the aggregate value purchased or received during the year does not exceed Rs. 1,000 should be so entered. The Governor-General in Council requests that the necessary steps may be taken in the Public Works and Military Departments to ensure a uniform classification by officers in those departments in the preparation of the statements now prescribed, and that instructions may be issued in those departments on the principles laid down in this resolution as to the limits of values, which should be observed in determining what articles should be included in the returns.

28. The orders of the Secretary of State make it incumbent on all officers of Government requiring stores of European manufacture to obtain them by indenting on the Secretary of State, and permit of the purchase in the local market of articles made in Europe or America only under the special circumstances mentioned in paragraph 3 of this resolution. The Governor-General in Council therefore desires again to invite the special attention of local Governments to the expediency of supplying the wants of Government by the purchase in the local market of articles of *bonâ fide* local manufacture. The Government of India is desirous to give the utmost encouragement to every effort to substitute for articles now obtained from Europe articles of *bonâ fide* local manufacture or of indigenous origin; and where articles of European and of Indian manufacture do not differ materially in price and quality, the Government would always be disposed to give the preference to the latter; and the Governor-General in Council desires to remind all officers of Government that there is no reason why articles manufactured in India should not be obtained locally even although the raw material necessary to their manufacture may have been originally imported from Europe. It is most desirable to bear in mind the distinction between articles of European manufacture and articles produced or worked up in India from imported material; the former should not, save in exceptional cases, be purchased in the local market, while the latter should by preference be purchased locally whenever the quality is sufficiently good, and the price not higher than the cost of laying down the imported article. There are many articles which may not be immediately obtained in the local market, but which can be made in the event of Government encouraging the manufacture.

29. The list (C) appended to this resolution is not to be understood to enumerate all the articles which should be obtained of Indian manufacture. It merely contains, for the information of the officers concerned, a list of the articles which, so far as has been yet ascertained by the Government of India, can be manufactured in India, and specifies the various sources, so far as at present known, from which the

articles can be obtained of local manufacture; some of the articles named in the list, though they can be manufactured in India, are at present only made on a small scale on special order, but the Governor-General in Council believes that, in the event of a constant demand arising for them, there is no reason why they should not become articles of regular manufacture in India. The list is also intended to serve as a guide to ensure that uniformity of classification which is necessary to serve as a guide for the compilation ultimately of a single annual statement. Other articles which may be procurable of *bonâ fide* local manufacture should be included under the appropriate headings, or separately, in preparing the annual statement.

Order—

Ordered that the foregoing resolution be communicated as follows:—

To all departments of the Government of India.
To all local Governments and Administrations.
To the Comptroller-General and to all Accountants-General and Comptrollers.
To the Head Commissioner, Paper Currency.
To the Mint Masters, Calcutta and Bombay.
To the Director-General of the Post Office of India.
To the Commissioner, Northern India Salt Revenue.

R. E. HAMILTON,
Offg. Asst. Secy. to the Govt. of India.
