GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

9th May 1881, No. 1052.

Municipal—Reports.

Read the following paper:—

From W. S. WHITESIDE, Esq., President of the Municipal Commission, Wálajápet, to the Chief Secretary to Government, dated Chittoor, 25th November 1880, *No.* 136 [*Current No.* 3147].

I have the honor to report on the administration by the Commissioners for the town of Wálajápet, of the Municipal Fund raised under Act III of 1871 during the official year 1879-80.

2. In doing so I forward the Vice-President's report and that of the Auditor, which is accompanied by a balance sheet, showing the gross transactions of the Municipality as disclosed by the audit.

3. The Auditor's balance sheet shows that a sum of Rs. 13,528-11-5 passed through the hands of the Commissioners during the year. This sum includes the opening balance Rs. 377-6-11, the deposit balance Rs. 422-6-11, and the deposits received during the year Rs. 1,759-12-4. Excluding these the income of the Commissioners for the year was Rs. 10,969-1-3. This amount falls short of the estimate by Rs. 192-14-9 and of the actuals of the preceding year by Rs. 824-5-2. The amount collected on account of License-tax under Act III of 1878 was Rs. 1,263.

4. The uncollected balance at the close of the year amounted to current Rs. 766-4-5 and arrears Rs. 613-2-3, or a total of Rs. 1,379-6-8. The difficulty in collecting these arrears is attributed to the disastrous consequences of the famine.

5. The expenditure of the year amounted to Rs. 11,079-8-7 against an estimate of Rs. 11,104 and against the actual expenditure of the previous year of Rs. 11,416. Deducting the payment on account of License-tax, the net expenditure of the Municipality under Act III of 1871 was only Rs. 9,826-8-7, which leaves a balance to the credit of the fund of only Rs. 266-15-7. The balance under the head of Deposits is Rs. 760-9-0.

6. The amount of expenditure and the percentage thereof under each of the major head of account as per Statement No. II are as follows:—

	Amount. Rs.	Percentage.
Grant I.—Public Works	1,832	16·5
Grant II.—Education..	1,083	9·8
Grant III.—Sanitation..	2,555	23·0
Grant IV.—Miscellaneous	3,591	32·4
Grant V.—Supervision	1,826	16·5
Repayment of Debt, Advances, &c.	193	1·8
Total ..	11,080	100·0

7. The expenditure under Grant I, Public Works, was Rs. 667 below the estimate. This is owing to the suspension of some of the new works proposed for execution from want of funds, and to savings effected on the works carried out as particularized in Statement II-A, Part I. Rs. 150 and Rs. 215 were spent in improving the drainage and water-supply of the town.

8. The expenditure under "Education" was Rs. 115 below the estimate. This is owing to disinclination on the part of the Masters of the seven pial schools in the

town to bring their schools under the result system for the reasons explained in paragraph 18 of the Vice-President's report.

9. There are two Municipal Schools in the town. The progress of these schools is favorably reported upon by the Deputy Inspector of Schools. The attendance at both schools on the last day of the year shows an increase over the preceding year of 16 pupils. The net cost of educating each pupil was Rs. 4-5-4.

10. Results Grants were paid only to two schools in the town. These schools are also favorably reported upon by the Deputy Inspector of Schools. There are seven unaided schools in the town as already mentioned above, besides the Government Middle-class School.

11. The health of the town was good during the year.

12. The number of births and deaths was 384 and 346, against 273 and 365 in 1878-79.

13. The number of persons vaccinated was 371 against 369 in 1878-79 ; of these the number of infant vaccination was 75 against 7 in the previous year. Batta at one anna each was paid to 108 pauper children who offered themselves for vaccination.

14. The working of the Towns Improvement Act in the Municipality during the year was, on the whole, satisfactory.

ENCLOSURE No. 1.

From C. VENKATAKISTNA MUDELIAR, Vice-President of the Municipal Commission, Wálajápet, to the President of the Municipal Commission, North Arcot, dated 30th October 1880, No. 55.

I have the honor to submit the annual accounts of the Municipality for 1879-80 which were audited by the late Assistant in the Military Accountant's Office, Madras, and found correct as per his report herewith enclosed.

2. *Receipts and Disbursements.*—The amount collected during the year was Rs. 10,969-1-3 exclusive of deposits from contractors and appellants and of rates and taxes remaining uncollected, especially owing to the disastrous consequences left behind by the late unprecedented famine.

The amount actually expended was Rs. 11,079-8-7, inclusive of advances to be recovered Rs. 155-10-2 and of rates refunded to owners of vacant houses, together with rates and taxes remitted by reason of poverty Rs. 37-6-2, leaving a balance of Rs. 266-15-7.

The balance under deposit was Rs. 760-9-0.

3. The following is a summary of the receipts and disbursements compared with the budget allotments as shown in the statements :—

RECEIPTS.

	Budget. RS.	Actuals. RS.
Rates and Taxes—		
Rates on Houses, &c.	3,047	2,337
Taxes on Professions, &c.	1,850	1,246

Lighting	694	431
Market	55	54
Other Items	838	734
Town Police Contribution	1,110	1,099
License Tax and Penalty	..	1,272
GRANT V.		
Office	1,380	1,366
Miscellaneous	260	460
Advances Recoverable	..	156
Refunds	..	37
Balance	435	267
Total ..	11,539	11,346

4. *Health.*—The health of the town has been good during the year ; it has been totally free from cholera.

5. *Births and Deaths.*—The number of births during the year was 384 against 273 in 1878-79, and of deaths 346 against 365 during the same year.

6. *Vaccination.*—The total number vaccinated was 371 against 369 in 1878-79 ; of these, 75 were of persons under one year of age against 7 in the preceding year, and 296 above one year against 362 during the same year. In the former case 73 were successful and 2 unsuccessful, and in the latter 237 successful, 29 unsuccessful, and the result of 30 not known.

One hundred and eight pauper children against 194 in the preceding year, who offered themselves for vaccination, received a batta of one anna each.

7. *New Works—Buildings—Market.*—Gateways were put up to the north and east sides of the market.

Market Enlargement.—The enlargement of the market, which was commenced in the preceding year, was completed during the year.

Petty Works—Market Floor.—The floor of the verandah was substituted with stone slabs.

Park Gate Pillars.—The old gate-pillars of Kávéripák gate park were demolished and new ones erected to suit gateways put up in 1877-78.

Drainage—Culverts and Road Dams.—Four culverts and two road dams were erected across roads in the town.

Water-supply.—The Ranipet gate relief well, erected under relief operation and left incomplete, was provided with parapet wall and platform alone, as the estimate fell short of the expenditure.

Petty Works.—The Oothavadai street well, erected under relief operation and left incomplete, was provided with parapet wall and platform with ratnams or water-drawing pulleys.

The well in Wudder's street was rivetted with brick and chunam and a ratnam or water-drawing wheel fixed to the same.

The putting up of ratnams to wells in Suvarna Chetti Bujanna Rau and Wudder's streets were brought to completion during the year.

Miscellaneous—Pasture Land.—A piece of land measuring three cawnies was purchased at Sholinghur gate to be used as pasture for Municipal scavenger bullocks.

Petty Works—Latrine and Urinal.—A latrine in Strenivasa Pillai's and a urinal in Taluk Cutcherry streets were erected during the year to supply a want which was greatly felt there.

8. *Repairs—Communications.*—During the year all the petty roads and side-ditches in the town were repaired. The remaining portion of the Railway approach road from the toll-gate to the limits of the Municipality was remetalled and the Great Western Trunk Road put in thorough repair.

Water-supply—Petty Repairs.—The repair of the Agambraiswara Swami pond feeder was brought to completion during the year.

Miscellaneous—Petty Repairs.—All the latrines in the town were cleaned and tarred during the year.

Belfry.—The bell in the belfry which was out of repair is now getting recast.

9. *Conservancy.*—During the year the conservancy of the town was effected by departmental agency.

10. *Lighting.*—All the street lamps in the town were lighted with kerosine-oil.

11. *Compound Walls.*—Compound walls coped with tiles were raised to eighty-four vacant building sites which were facing the street.

12. *Noxious Vegetation.*—The back-yards of forty houses were cleared of rank vegetation.

13. *Buildings in ruinous state.*—Ten houses which were in a dangerous state were removed and repaired. Ruined walls in unoccupied and unclaimed building sites were demolished and levelled.

14. *Prickly-pear.*—Five thousand two hundred and nine square yards of prickly-pear were removed and interred during the year; of these, 45 square yards were from private property at the expense of the owners concerned.

15. *Planting Trees.*—One hundred and fifty-one new trees were planted during the year near Venayaga Chetti's and Nungundappa's drinking-water ponds and in the two parks and trunk road.

16. *White-washing.*—All the occupied houses in the town were white-washed and otherwise cleaned during the year.

17. *Dogs.*—Eighty-three dogs were killed during the year.

18. *Education.*—Subjoined is an extract from the report on the progress of education in the Municipal Schools during the year received from the Deputy Inspector of Schools, Chittoor Circle. On this the Commissioners have no observation to make except that arrangements will be made to put up a temporary shed around the Westernpett School as suggested by the Deputy Inspector in paragraph 4 of his report.

Primary Schools.—Primary Schools in the Municipality are of three kinds—Salary System Schools, Result Grant Schools, and Unaided Schools.

Salary System Schools.—There are two schools of this description in this town named Easternpett School and Westernpett School. They are entirely maintained by the Municipality and the fees collected, at the rates of Annas 3, 2, and 1, are remitted to it. Both Tamil and Telugu are taught here together with English in the highest class from which boys go to the Government Middle School at the station for higher education. The standard in those schools nearly equals that of a Third Standard Results Schools.

The Westernpett School is held in a rented building like the Easternpett one, but not so well accommodated. Some improvements, I hear, have been made to the building, and yet a verandah around it or a temporary shed at least is urgently needed to keep off the scorching rays of the sun, and prevent the class Masters from keeping the windows and doorway shut on the pretext of sun's heat, and thereby stopping ventilation against the principles of hygiene.

At the annual inspection in November 1879, Mr. Seshia, the Acting Inspector of Schools, was highly pleased with the results of the Easternpett School, but not favorably impressed with those of the other, though he remarked that both the schools were well attended.

These schools acquitted themselves fairly when I visited them in February last. They were twice visited by the Inspector of Schools, four times by the Deputy Inspector, and eight times by the Inspecting Schoolmaster.

The Easternpett School sent up fifteen pupils and the Westernpett School twelve for the Lower Primary Examination. Of them, thirteen received certificates in the former school, and

1052/3

eleven in the latter. These results speak well of the Head Masters of both the schools and their Assistants.

The following table gives particulars of the establishments connected with these schools:—

Names of Masters.	Designation.	Salary.	Names of Masters.	Designation.	Salary.
Easternpett School.		RS.	*Westernpett School.*		RS.
M. Rungasami Iyengar.	Head Master.	15	P. Thanicachella Pillai.	Head Master.	15
K. Gopaul Rau ..	Assistant Master.	10	P. Narayanasami Mudali.	Assistant Master ..	10
L. Komarasami Mudali.	Do.	9	L. Kistna Iyer ..	Do.	9
Royalu	Peon ..	3	Perumal	Peon ..	3

The pay of the three Masters of the Easternpett School was assimilated with the pay of those of the other school during the year. In the subjoined table is shown the fees realized in these schools, the gross expenditure incurred by the Municipality on their accounts and the net cost to it:—

Names of Schools.	Fees Realized.	To MUNICIPALITY.	
		Gross Expenditure.	Net Cost.
	RS. A. P.	RS. A. P.	RS. A. P.
Easternpett Municipal School.	102 15 0	480 12 2	377 13 2
Westernpett Municipal School.	120 3 0	474 11 11	354 8 11

The attendance of these schools at the close of the last five years is shown in the table below for the sake of comparison:—

Names of Schools.	NUMBER OF PUPILS ON THE 31ST MARCH				
	1876.	1877.	1878.	1879.	1880.
Easternpett Municipal School ..	66	62	100	71	82
Westernpett Municipal School ..	50	62	94	82	87

It will be seen from the above table that there has been an increase of eleven and five pupils, respectively, in the two schools, though they have not recovered the strength of 1878.

Results Grant Schools.—There are two schools under results system known as Raghaviah's School and Gurusamiah's School. The total number of pupils on their rolls on the 31st March last was 30 and 17; and the Municipal grants earned by them were Rs. 63-15-0 and Rs. 33-10-0, respectively. The latter school received also grant of Rs. 18-14-0 from Provincial Funds. These are very good private schools as their income in the shape of fees amounts to Rs. 84 and Rs. 60.

Unaided Schools.—There are so many as seven pial schools in the town which have not sought aid from the Municipality, and a little less than Rs. 100 was therefore spent in the shape of Results Grants. The main reason for the non-expenditure of the whole amount of Rs. 200 sanctioned for Results Grants is that the Masters of the above schools are disinclined and deaf to the persuasions of the Inspecting Schoolmasters to bring their schools under the results system, lest their liberty should be interfered with, and lest they night incur the displeasure of the authorities for any careless acts of omissions or commission on their part in marking the daily attendance in registers and sending returns, &c. For instance, the Master of the pial school, at the next door of the Westernpett Municipal School, has often refused and still refuses to place his school under Government inspection, though he has been repeatedly told of its advantages. I am glad to state, however, that two of the remaining six schools are likely to come under the

results system in the course of the current month. Their example may be followed by the other schools, and so I think the sanctioned amount for the Results Grants may not be reduced in the next year's budget.

19. *Appeals.*—There were 114 appeals on the file; of these, 82 were against house-tax and 32 against trade-tax. In the former, the taxes of 37 appeals were confirmed, 26 reduced, 1 remitted, and 25 appeals dismissed for default owing to the absence of appellants. In the latter, the taxes of 14 appeals were reduced, 10 confirmed, 4 remitted, and 4 appeals dismissed owing to the absence of the appellants.

20. *License Tax.*—There were 29 objection petitions received against this tax. The taxes were confirmed in 12 cases, reduced in 10, and remitted in 5, dismissing 2 petitions for default of the petitioners after due notice. The amount collected during the year is Rs. 1,263, and that collected on account of penalty for 1878 is Rs. 2-8-0. A sum of Rs. 169-9-7 was received from the Treasury Deputy Collector on account of remuneration for 1878.

Out of this, a sum of Rs. 50 was refunded to one Sungappa, Gumastah of Pullatha Sayammal, agreeably to the Collector's letter, No. 108, dated 23rd June 1879, and the balance distributed to Municipal servants for services rendered in the collection of the tax.

21. *Coercive Process.*—With reference to your foot-note to G.O., Financial Department, No. 997, dated 3rd May 1880, I beg to subjoin a statement showing the extent to which coercive process was resorted to in the collection of the several taxes. From this it will be seen that considering the status of the town and the generality of the townspeople the power to compel payment was exercised to a comparatively very small extent:—

Particulars.	Percentage of Processes.		Rate.	Percentage of		
	Arrears.	Current.		Prosecutions made.	Penalty levied.	Amount collected.
House Rates, &c.			AS.			
Notice of Demand	26	16	1 & 4	..	..	3
Distraints	1	..	4 & 8	..	..	3
Taxes on Arts, &c.	..	..	..	3	2·3	..
Do. on Animals	..	..	..	5	2·1	..
Registration of Carts	..	..	..	1	·1	..

ORDER THEREON, 9th June 1881, No. 1052.

The receipts and charges of the Wálajápet Municipality for 1879-80 are compared below with the estimates for the year and the actuals for the previous year:—

RECEIPTS.

Sanitary and Miscellaneous	110	1,080	697
Repairs—			
Communications	738	500	457
Buildings	33	..	..
Sanitary and Miscellaneous	106	150	54
Establishment	344	360	348
Tools and Plant	100	100	..
GRANT II.			
Municipal Schools	904	950	937
Results Grants	73	200	98
Inspection (Contribution)	60	30	30
Miscellaneous	12	20	19
GRANT III.			
Hospitals and Dispensaries	450	300	292
Medical College	54	50	54
Vaccination	197	210	177
Registration of Births and Deaths	221	220	220
Conservancy	1,867	2,280	1,811
GRANT IV.			
Lighting	521	690	431
Markets	47	60	54
Avenues and Watering Roads	328	410	399
Police	..	1,110	1,099
License Tax	1,720	1,610	1,255
Miscellaneous	383	430	352
GRANT V.			
Supervision and Management	2,253	1,740	1,826
Repayment of Debt	235	..	..
Advances Recoverable	125	..	156
Refunds	34	..	37
Balances	377	430	267
Total ..	11,793	13,240	11,346

2. Excluding the opening balance and the License Tax collections, the receipts of the year amounted to Rs. 9,534 against Rs. 11,160 estimated and Rs. 10,083, the actuals of 1878-79. The decrease as compared with the estimate was chiefly in the items "Rates on Houses and Lands" and "Taxes on Arts &c.," owing to tardy collection ascribed to the lingering effects of famine. The outstandings bore percentages as noted below to the demand:—

	Percentage to Demand.
House Rate—	
Current	16·1
Arrears	52·0
Land Rate—	
Current	71·1
Arrears	65·6
Tax on Arts—	
Current	11·3
Arrears	..

The heavy arrears of Land-rate and the large percentage of old House-rate arrears are unsatisfactory. The necessity for the large amounts written off as irrecoverable should have been fully explained. The item "Advances Recoverable" requires explanation, especially as to the circumstances under which advances were made to Municipal servants as noted in Statement I. The information furnished in paragraph 21 of the

Vice-President's letter of the extent to which coercive process was employed is not sufficiently full; the actual number of processes of each description should also be shown.

3. The expenditure of the year, excluding License Tax paid to Government, amounted to Rs. 9,824 against Rs. 11,200 estimated and Rs. 9,696, the actuals of 1878-79, and was distributed in the following proportions :—

Grant I—Public Works	18·6
„ II—Education	11·0
„ III—Sanitation	26·0
„ IV—Miscellaneous	23·8
„ V—Supervision	18·6
Advances and Refunds	2·0

4. The estimate for Public Works was reduced by nearly 27 per cent. for want of funds. Particulars of the outlay on roads are not given, and no information is furnished regarding the condition of the town roads.

5. The two Municipal Schools worked well during the year, the attendance at each having risen and the schools being otherwise on the whole favorably reported on by the Inspectors. Only two out of nine schools in the town applied for results grants and obtained Rs. 98. The reluctance and disinclination stated to exist on the part of pial masters to bring their schools under inspection should receive the attention of the Director of Public Instruction. The number of schools in the town, besides the Government Middle Class School and Girls' School, evidences the interest taken by the community in the education of their children; but the proportion of children on the lists of all the schools to the total population of school-going age was only 28·9.

6. Vaccination of infants showed progress, the number of children under one year operated on being seventy-five against seven in 1878-79. The cost per operation fell from 8 annas to 7 annas 7 pies. The registration of births and deaths showed the following results :—

	Year 1878-79.	Ratio per Mille.	Year 1879-80.	Ratio per Mille.
Births	273	22·5	384	31·7
Deaths	365	30·1	346	28·6

The conservancy of the town appears to have been well attended to.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

1052 8/6

9th ~~May~~ June 1881, No. 1052.

Municipal—Reports.

Read the following paper:—

From W. S. WHITESIDE, Esq., President of the Municipal Commission, Wálajápet, to the Chief Secretary to Government, dated Chittoor, 25th November 1880, *No.* 136 [*Current No.* 3147].

I have the honor to report on the administration by the Commissioners for the town of Wálajápet, of the Municipal Fund raised under Act III of 1871 during the official year 1879-80.

2. In doing so I forward the Vice-President's report and that of the Auditor, which is accompanied by a balance sheet, showing the gross transactions of the Municipality as disclosed by the audit.

3. The Auditor's balance sheet shows that a sum of Rs. 13,528-11-5 passed through the hands of the Commissioners during the year. This sum includes the opening balance Rs. 377-6-11, the deposit balance Rs. 422-6-11, and the deposits received during the year Rs. 1,759-12-4. Excluding these the income of the Commissioners for the year was Rs. 10,969-1-3. This amount falls short of the estimate by Rs. 192-14-9 and of the actuals of the preceding year by Rs. 824-5-2. The amount collected on account of License-tax under Act III of 1878 was Rs. 1,263.

4. The uncollected balance at the close of the year amounted to current Rs. 766-4-5 and arrears Rs. 613-2-3, or a total of Rs. 1,379-6-8. The difficulty in collecting these arrears is attributed to the disastrous consequences of the famine.

5. The expenditure of the year amounted to Rs. 11,079-8-7 against an estimate of Rs. 11,104 and against the actual expenditure of the previous year of Rs. 11,416. Deducting the payment on account of License-tax, the net expenditure of the Municipality under Act III of 1871 was only Rs. 9,826-8-7, which leaves a balance to the credit of the fund of only Rs. 266-15-7. The balance under the head of Deposits is Rs. 760-9-0.

6. The amount of expenditure and the percentage thereof under each of the major head of account as per Statement No. II are as follows:—

	Amount.	Percentage.
	RS.	
Grant I.—Public Works	1,832	16·5
Grant II.—Education..	1,083	9·8
Grant III.—Sanitation..	2,555	23·0
Grant IV.—Miscellaneous	3,591	32·4
Grant V.—Supervision	1,826	16·5
Repayment of Debt, Advances, &c.	193	1·8
Total ..	11,080	100·0

7. The expenditure under Grant I, Public Works, was Rs. 667 below the estimate. This is owing to the suspension of some of the new works proposed for execution from want of funds, and to savings effected on the works carried out as particularized in Statement II-A, Part I. Rs. 150 and Rs. 215 were spent in improving the drainage and water-supply of the town.

8. The expenditure under "Education" was Rs. 115 below the estimate. This is owing to disinclination on the part of the Masters of the seven pial schools in the

town to bring their schools under the result system for the reasons explained in paragraph 18 of the Vice-President's report.

9. There are two Municipal Schools in the town. The progress of these schools is favorably reported upon by the Deputy Inspector of Schools. The attendance at both schools on the last day of the year shows an increase over the preceding year of 16 pupils. The net cost of educating each pupil was Rs. 4-5-4.

10. Results Grants were paid only to two schools in the town. These schools are also favorably reported upon by the Deputy Inspector of Schools. There are seven unaided schools in the town as already mentioned above, besides the Government Middle-class School.

11. The health of the town was good during the year.

12. The number of births and deaths was 384 and 346, against 273 and 365 in 1878-79.

13. The number of persons vaccinated was 371 against 369 in 1878-79; of these the number of infant vaccination was 75 against 7 in the previous year. Batta at one anna each was paid to 108 pauper children who offered themselves for vaccination.

14. The working of the Towns Improvement Act in the Municipality during the year was, on the whole, satisfactory.

ENCLOSURE No. 1.

From C. VENKATAKISTNA MUDELIAR, Vice-President of the Municipal Commission, Wálajápet, to the President of the Municipal Commission, North Arcot, dated 30th October 1880, No. 55.

I have the honor to submit the annual accounts of the Municipality for 1879-80 which were audited by the late Assistant in the Military Accountant's Office, Madras, and found correct as per his report herewith enclosed.

2. *Receipts and Disbursements.*—The amount collected during the year was Rs. 10,969-1-3 exclusive of deposits from contractors and appellants and of rates and taxes remaining uncollected, especially owing to the disastrous consequences left behind by the late unprecedented famine.

The amount actually expended was Rs. 11,079-8-7, inclusive of advances to be recovered Rs. 155-10-2 and of rates refunded to owners of vacant houses, together with rates and taxes remitted by reason of poverty Rs. 37-6-2, leaving a balance of Rs. 266-15-7.

The balance under deposit was Rs. 760-9-0.

3. The following is a summary of the receipts and disbursements compared with the budget allotments as shown in the statements :—

RECEIPTS.

	Budget. Rs.	Actuals. Rs.
Rates and Taxes—		
Rates on Houses, &c.	3,047	2,337

Office	1,380	1,366
Miscellaneous	260	460
Advances Recoverable	..	156
Refunds	..	37
Balance	435	267
Total ..	11,539	11,346

4. *Health.*—The health of the town has been good during the year; it has been totally free from cholera.

5. *Births and Deaths.*—The number of births during the year was 384 against 273 in 1878-79, and of deaths 346 against 365 during the same year.

6. *Vaccination.*—The total number vaccinated was 371 against 369 in 1878-79; of these, 75 were of persons under one year of age against 7 in the preceding year, and 296 above one year against 362 during the same year. In the former case 73 were successful and 2 unsuccessful, and in the latter 237 successful, 29 unsuccessful, and the result of 30 not known.

One hundred and eight pauper children against 194 in the preceding year, who offered themselves for vaccination, received a batta of one anna each.

7. *New Works—Buildings—Market.*—Gateways were put up to the north and east sides of the market.

Market Enlargement.—The enlargement of the market, which was commenced in the preceding year, was completed during the year.

Petty Works—Market Floor.—The floor of the verandah was substituted with stone slabs.

Park Gate Pillars.—The old gate-pillars of Kávéripák gate park were demolished and new ones erected to suit gateways put up in 1877-78.

Drainage—Culverts and Road Dams.—Four culverts and two road dams were erected across roads in the town.

Water-supply.—The Ranipet gate relief well, erected under relief operation and left incomplete, was provided with parapet wall and platform alone, as the estimate fell short of the expenditure.

Petty Works.—The Oothavadai street well, erected under relief operation and left incomplete, was provided with parapet wall and platform with ratnams or water-drawing pulleys.

The well in Wudder's street was rivetted with brick and chunam and a ratnam or water-drawing wheel fixed to the same.

The putting up of ratnams to wells in Suvarna Chetti Bujanna Rau and Wudder's streets were brought to completion during the year.

Miscellaneous—Pasture Land.—A piece of land measuring three cawnies was purchased at Sholinghur gate to be used as pasture for Municipal scavenger bullocks.

Petty Works—Latrine and Urinal.—A latrine in Strenivasa Pillai's and a urinal in Taluk Cutcherry streets were erected during the year to supply a want which was greatly felt there.

8. *Repairs—Communications.*—During the year all the petty roads and side-ditches in the town were repaired. The remaining portion of the Railway approach road from the toll-gate to the limits of the Municipality was remetalled and the Great Western Trunk Road put in thorough repair.

Water-supply—Petty Repairs.—The repair of the Agambraiswara Swami pond feeder was brought to completion during the year.

Miscellaneous—Petty Repairs.—All the latrines in the town were cleaned and tarred during the year.

Belfry.—The bell in the belfry which was out of repair is now getting recast.

9. *Conservancy.*—During the year the conservancy of the town was effected by departmental agency.

10. *Lighting.*—All the street lamps in the town were lighted with kerosine-oil.

11. *Compound Walls.*—Compound walls coped with tiles were raised to eighty-four vacant building sites which were facing the street.

12. *Noxious Vegetation.*—The back-yards of forty houses were cleared of rank vegetation.

13. *Buildings in ruinous state.*—Ten houses which were in a dangerous state were removed and repaired. Ruined walls in unoccupied and unclaimed building sites were demolished and levelled.

14. *Prickly-pear.*—Five thousand two hundred and nine square yards of prickly-pear were removed and interred during the year; of these, 45 square yards were from private property at the expense of the owners concerned.

15. *Planting Trees.*—One hundred and fifty-one new trees were planted during the year near Venayaga Chetti's and Nungundappa's drinking-water ponds and in the two parks and trunk road.

16. *White-washing.*—All the occupied houses in the town were white-washed and otherwise cleaned during the year.

17. *Dogs.*—Eighty-three dogs were killed during the year.

18. *Education.*—Subjoined is an extract from the report on the progress of education in the Municipal Schools during the year received from the Deputy Inspector of Schools, Chittoor Circle. On this the Commissioners have no observation to make except that arrangements will be made to put up a temporary shed around the Westernpett School as suggested by the Deputy Inspector in paragraph 4 of his report.

Primary Schools.—Primary Schools in the Municipality are of three kinds—Salary System Schools, Result Grant Schools, and Unaided Schools.

Salary System Schools.—There are two schools of this description in this town named Easternpett School and Westernpett School. They are entirely maintained by the Municipality and the fees collected, at the rates of Annas 3, 2, and 1, are remitted to it. Both Tamil and Telugu are taught here together with English in the highest class from which boys go to the Government Middle School at the station for higher education. The standard in those schools nearly equals that of a Third Standard Results Schools.

The Westernpett School is held in a rented building like the Easternpett one, but not so well accommodated. Some improvements, I hear, have been made to the building, and yet a verandah around it or a temporary shed at least is urgently needed to keep off the scorching rays of the sun, and prevent the class Masters from keeping the windows and doorway shut on the pretext of sun's heat, and thereby stopping ventilation against the principles of hygiene.

At the annual inspection in November 1879, Mr. Seshia, the Acting Inspector of Schools, was highly pleased with the results of the Easternpett School, but not favorably impressed with those of the other, though he remarked that both the schools were well attended.

These schools acquitted themselves fairly when I visited them in February last. They were twice visited by the Inspector of Schools, four times by the Deputy Inspector, and eight times by the Inspecting Schoolmaster.

The Easternpett School sent up fifteen pupils and the Westernpett School twelve for the Lower Primary Examination. Of them, thirteen received certificates in the former school, and

eleven in the latter. These results speak well of the Head Masters of both the schools and their Assistants.

The following table gives particulars of the establishments connected with these schools:—

Names of Masters.	Designation.	Salary.	Names of Masters.	Designation.	Salary.
Easternpett School.		RS.	*Westernpett School.*		RS.
M. Rungasami Iyengar.	Head Master.	15	P. Thanicachella Pillai.	Head Master.	15
K. Gopaul Rau ..	Assistant Master.	10	P. Narayanasami Mudali.	Assistant Master ..	10
L. Komarasami Mudali.	Do.	9	L. Kistna Iyer ..	Do.	9
Royalu	Peon ..	3	Perumal	Peon ..	3

The pay of the three Masters of the Easternpett School was assimilated with the pay of those of the other school during the year. In the subjoined table is shown the fees realized in these schools, the gross expenditure incurred by the Municipality on their accounts and the net cost to it:—

Names of Schools.	Fees Realized.	To Municipality.	
		Gross Expenditure.	Net Cost.
	RS. A. P.	RS. A. P.	RS. A. P.
Easternpett Municipal School.	102 15 0	480 12 2	377 13 2
Westernpett Municipal School.	120 3 0	474 11 11	354 8 11

The attendance of these schools at the close of the last five years is shown in the table below for the sake of comparison:—

Names of Schools.	Number of Pupils on the 31st March				
	1876.	1877.	1878.	1879.	1880.
Easternpett Municipal School ..	66	62	100	71	82
Westernpett Municipal School ..	50	62	94	82	87

It will be seen from the above table that there has been an increase of eleven and five pupils, respectively, in the two schools, though they have not recovered the strength of 1878.

Results Grant Schools.—There are two schools under results system known as Raghaviah's School and Gurusamiah's School. The total number of pupils on their rolls on the 31st March last was 30 and 17; and the Municipal grants earned by them were Rs. 63-15-0 and Rs. 33-10-0, respectively. The latter school received also grant of Rs. 18-14-0 from Provincial Funds. These are very good private schools as their income in the shape of fees amounts to Rs. 84 and Rs. 60.

Unaided Schools.—There are so many as seven pial schools in the town which have not sought aid from the Municipality, and a little less than Rs. 100 was therefore spent in the shape of Results Grants. The main reason for the non-expenditure of the whole amount of Rs. 200 sanctioned for Results Grants is that the Masters of the above schools are disinclined and deaf to the persuasions of the Inspecting Schoolmasters to bring their schools under the results system, lest their liberty should be interfered with, and lest they might incur the displeasure of the authorities for any careless acts of omissions or commission on their part in marking the daily attendance in registers and sending returns, &c. For instance, the Master of the pial school, at the next door of the Westernpett Municipal School, has often refused and still refuses to place his school under Government inspection, though he has been repeatedly told of its advantages. I am glad to state, however, that two of the remaining six schools are likely to come under the

results system in the course of the current month. Their example may be followed by the other schools, and so I think the sanctioned amount for the Results Grants may not be reduced in the next year's budget.

19. *Appeals.*—There were 114 appeals on the file; of these, 82 were against house-tax and 32 against trade-tax. In the former, the taxes of 37 appeals were confirmed, 26 reduced, 1 remitted, and 25 appeals dismissed for default owing to the absence of appellants. In the latter, the taxes of 14 appeals were reduced, 10 confirmed, 4 remitted, and 4 appeals dismissed owing to the absence of the appellants.

20. *License Tax.*—There were 29 objection petitions received against this tax. The taxes were confirmed in 12 cases, reduced in 10, and remitted in 5, dismissing 2 petitions for default of the petitioners after due notice. The amount collected during the year is Rs. 1,263, and that collected on account of penalty for 1878 is Rs. 2-8-0. A sum of Rs. 169-9-7 was received from the Treasury Deputy Collector on account of remuneration for 1878.

Out of this, a sum of Rs. 50 was refunded to one Sungappa, Gumastah of Pullatha Sayammal, agreeably to the Collector's letter, No. 108, dated 23rd June 1879, and the balance distributed to Municipal servants for services rendered in the collection of the tax.

21. *Coercive Process.*—With reference to your foot-note to G.O., Financial Department, No. 997, dated 3rd May 1880, I beg to subjoin a statement showing the extent to which coercive process was resorted to in the collection of the several taxes. From this it will be seen that considering the status of the town and the generality of the townspeople the power to compel payment was exercised to a comparatively very small extent:—

Particulars.	Percentage of Processes.		Rate.	Percentage of		
	Arrears.	Current.		Prosecutions made.	Penalty levied.	Amount collected.
House Rates, &c.

Received 16/4/80

To

W. S. Whiteside, Esquire
President of the Municipal Commission
Wallappatt.

Sir,

Having agreeably to your instructions contained in Excise dated 27th April 1880, audited the accounts of the Wallappatt Municipality for the official year 1879-80, I beg to Submit a Balance Sheet, shewing the transactions for that period.

It will be observed by the above Balance Sheet that the year opened with a balance of Rs 377-6-11 in favor of the the municipality

Balance on the 1st April 1879	Rs 377-6-11
Collections during the Year 1879-80	10969-1-3
Total	Rs 11346-8-1
Deduct Expenditure during Do	11079-8-7
Balance on 1st April 1880	266-15-7

1052
23

The collections during the year amounted to Rs 10969-1-3 and the Expenditure to Rs 11079-8-7

The year closed with a balance of Rs 266-15-7 in favor of the Municipality as per Margin.

The usual annual Statements Submitted to Government by the Municipal office through you, have been compared

Compared by me with the Balance Sheet and found them to be correct. Copies of them will be forwarded to you with the Vice President's Report.

The Statements referred to in para 3 of the order of Government No 1614 dated 22nd August 1879 have been also prepared in the office as directed, and I have affixed my Sig. alures to them in token of their Correctness. Copies of these will also be forwarded to you for Submission to Government.

The Cash Book and the Ledger are kept neatly and correctly and the vouchers connected therewith are numbered and arranged regularly, so that they may be looked into easily.

Owing to my having been unwell for upwards of 2 weeks, the auditing work was delayed a little, for which I beg to be excused.

I remain &c

1058/33 16

North Arcot, Presidents Office,
Chittoor, 25th November 1880.

No. 136-

From,

W. S. Whiteside, Esq.,
President, Municipal Commission, Wallajapet.

To,

R. Davidson, Esq.,
Chief Secretary to Govt.,
Fort St. George.

Sir,

I have the honour to report on the administration by the Commissioners for the town of Wallajapet of the Municipal Fund raised under Act III of 1871 during the Official Year 1879-80.

2- In doing so, I forward the Vice Presidents report and that of the Auditor which is accompanied by a balance sheet shewing the gross transactions of the Municipality as disclosed by the audit.

3. The Auditors balance sheet shews that a sum of Rs. 13,528-11-5 passed through the hands of the Commissioners during the year. This sum includes the opening balance of Rupees 377-6-11,

Enclosure in a letter from the President Municipal Commissioners Wallajapet to the Collector dated 25 Novr 1880 No 136.

Rec'd. 3/12/80

the deposit balance Rs. 422-6-11, and the deposits received during the year Rs. 1,759-12-4. Excluding these the income of the Commissioners for the year was Rs. 10,969-1-3. This amount falls short of the Estimate by Rs. 192-14-9 and of the actuals of the preceding year by Rs. 824-5-2. The amount Collected on account of License Tax under Act III of 1878 was Rs. 1263.

4) The uncollected balance at the close of the year amounted to Current 766-4-5, and arrears 613-2-3, or a total of Rs. 1379-6-8. The difficulty in collecting these arrears is attributed to the disastrous consequences of the famine.

5) The Expenditure of the Year amounted to Rs. 11,079-8-7 against an Estimate of Rs. 11,104 and against the the actual Expenditure of the previous year of Rs. 11,416. Deducting the payment on account of License Tax the net

Expenditure of the Municipality under Act III of 1871 was only Rs. 9826-8-7 which leaves a balance to the credit of the fund of only Rs. 266-15-7. The balance under the head of deposits is Rs. 760-9-0.

6. The amount of Expenditure & the percentage thereof under Each of the Major head of Account as per Statement No. II are as follows:-

	Amount.	Percentage.
Grant I Public works.	1,832	16.5
" II Education	1083	9.8
" III Sanitation	2,565	23.0
" IV Miscellaneous	3591	32.4
" V. Supervision	1826	16.5
Repayment of debt advances &c	193	1.8
	11,080	100.0

7. The Expenditure under Grant I, Public Works was Rs. 667 below the Estimate. This is owing to the suspension of some of the new works proposed for execution from want of funds, and to savings Effected on the works

carried out as particularized in State-
-ment II A Part I. Rupees 150 and
215 were spent in improving the drain-
-age and water supply of the town.

The Expenditure under "Education"
8) was Rs. 115 below the Estimate. This
is owing to disinclination on the part
of the Masters of the 7 Pyal Schools
in the town to bring their Schools
under the result system for the rea-
-sons explained in para 18 of the Vice
President's report.

9) There are two Municipal Schools
in the town. The progress of these
Schools is favorably reported upon
by the Dy. Inspector of Schools.
The attendance at both Schools
on the last day of the year shews
an increase over the preceding year
of 16 pupils. The net cost of Edu-
-cating each pupil was 4-5-4.

10) Results grants were paid only
to two Schools in the town. These schools

2/1 are also favorably reported upon by the
Dy. Inspector of Schools. There are 7
unaided Schools in the town as already
mentioned above, besides the Government
Middle Class School. 105 21 35

11) The health of the town was good
during the year.

12) The number of births and
deaths was 384 and 346, against
273 and 365 in 1878-79.

13) The number of persons vacci-
-nated was 371 against 369 in 1878-79.
Of these the number of infant vacci-
-nation was 75 against 7 in the pre-
-vious year. Batta at one anna each
was paid to 108 pauper Children
who offered themselves for vaccina-
-tion.

14) The working of the Town Im-
provement Act in the Municipality

during the year was, on the whole, satisfactory.

I have the honor to be,
Sir,
Your Most obedient Servant,
L. P. Whitelock
President

No 55

Wallajapetta Municipality
Commissioner's office
30th October 1880.

To

W. S. Whitecide, Esquire
President of the Wallajapetta
Municipal Commission
North Arcot

Sir,

I have the honour to submit the annual accounts of the Municipality for 1879/80 which were audited by the late Assistant in the Military Accountants office Madras, and found correct, as per his report herewith enclosed.

Receipts and Disbursements.

2. The amount collected during the year was Rupees 10,969-1-3 inclusive of Deposits from Contractors and Appellants and of rates and taxes remaining uncollected, especially owing to the disastrous consequences left behind by the late unprecedented famine.

The Amount actually Expended was Rupees 11,079-8-7, inclusive of advances to be recovered Rs 155-10-2 and of rates refunded to owners of vacant houses, together with rates and taxes remitted by reason of poverty Rs 37-6-2, leaving a balance of

of Rs 266. 15. 7.

The balance under Deposit was Rupees 760. 9. 0.

3. The following is a Summary of the Receipts and Disbursements compared with the Budget allotments, as shewn in the Statements:—

	Budget	Actuals		Budget	Actuals

Total Rupees	11,539	11,346	Total Rupees	11,539	11,346

Health

4. The health of the town has been good during the year; it has been totally free from Cholera.

Births and Deaths

1058/1926

5 The number of Births during the year was 384 against 273 in 1878/79 and of Deaths 346 against 365 during the same year.

Vaccination

6. The total number vaccinated was 371 against 369 in 1878/79. of these 75 were of persons under 1 year of age against 7 in the preceding year, and 296 above 1 year against 362 during the same year. In the former case, 73 were successful and 2 unsuccessful; and in the latter, 237 successful, 29 unsuccessful, and the result of 30 not known.

108 Pauper Children against 194 in the preceding year, who offered themselves for vaccination, received a batta of one anna each.

New Works.

Buildings.

Markets.

7. 4 Gateways were put up to the North and East sides of the Market.

Market Enlargement.

The Enlargement of the Market which was commenced in the preceding year was completed during

during the year.

Petty Works

Market floor.

The floor of the Verandah was substituted with Stone Slabs.

Park gate pillars.

The old gate-pillars of Cannon-park-gate-park were demolished, and new ones erected to suit Gate-wags put up in 1877/78.

Drainage

Culverts and Road Dams

4 Culverts and 2 Road Dams were erected across Roads in the town.

Water Supply

The Ramipett Gate Relief well erected under Relief operation and left incomplete, was provided with parapet wall and platform alone, as the Estimate fell short of the Expenditure.

Petty Works.

The Oothavadai Street well erected under Relief operation and left incomplete, was provided with parapet wall and platform with Ratnams or water drawing pulleys.

The well in Wedderi Street was pivetted with brick and

Chunam

1052 276 88

Chunam, and a Ratnam or water drawing wheel fixed to the same.

The putting up of Ratnams to wells in Suvarnamukhi Bujanma Ran, and Wedderi Streets were brought to completion during the year.

Miscellaneous

Pasture land.

A piece of land measuring 3 Cawnies was purchased at Thalinghergate to be used as pasture for Municipal Scavenger Bullocks.

Petty Works.

Latrine and Urinal.

A latrine in Streeniwasa Pillai's and a Urinal in Salute Cutcheri Streets were erected during the year, to supply a want which was greatly felt there.

Repairs

Communications

8 During the year, all the petty roads and side ditches in the town were repaired. The remaining portion of the Railway Approach Road from the Toll gate to the limits of the Municipality was re-macadamized and the great Western Trunk Road

put

put in through repair

Water Supply

Petty Repairs.

The repair of the Agambaiswara Swami Pond Feeder was brought to completion during the year.

Miscellaneous

Petty Repairs

All the latrines in the town were cleaned and tarred during the year.

Belfry

The Bell in the Belfry which was out of repair is now getting recast.

Conservancy.

9 During the year the Conservancy of the town was effected by Departmental agency.

Lighting

10 All the street lamps in the town were lighted with kerosine oil.

Compound Walls

11 Compound Walls coped with tiles were raised to 84 vacant building sites which were facing the street.

Noxious vegetation.

12. The back yards of 40 houses were cleared of rank vegetation.

Buildings in ruinous State.

13. 10 houses which were in a dangerous State were removed and repaired. Ruined Walls in unoccupied and unclaimed building sites were demolished and levelled.

Prickly pear

14. 5209 Square yards of Prickly pear were removed and interred during the year. of these 45 Square yards were from private property at the Suspense of the owners concerned.

Planting Trees.

15. 151 New Trees were planted during the year near Venayaga Chetti's and Nungambaffa's drinking water Ponds and in the 2 parks and Trunk Road.

Whitewashing

16. All the occupied houses in the town were whitewashed and otherwise cleaned during the year.

Dogs

17. 83 Dogs were killed during the year.

Education

18. Subjoined is an Extract from the Report on the progress of Education in the Municipal Schools during the year, received from the Deputy Inspector of Schools

Chittoor

thittoor Circle. On this the Commissioners have no observation to make except that arrangements will be made to put up a temporary shed around the Westernpett School, as suggested by the Deputy Inspector in para 4 of his report.

Primary Schools.

Primary Schools in the Municipality are of three kinds. Salary System Schools, Result to Grant Schools, and unaided Schools.

Salary System Schools.

There are 2 Schools of this description in this town named Easternpett School and Westernpett School. They are entirely maintained by the Municipality and the fees collected at the rates of annas 3, 2 and 1 are remitted to it. Both Tamil and Telugu are taught here together with English in the highest Class from which boys go to the Government Middle School at the Station for higher Education. The Standard in those Schools nearly equals that of a third Standard Results Schools.

The Westernpett School is

1052/529 8 80

is held in a pucka building, like the Easternpett one, but not so well accommodated. Some improvements I hear, have been made to the building, and yet a Verandah around it or a temporary shed at least is urgently needed to keep off the scorching rays of the Sun, and prevent the Class Masters from keeping the windows and doorway shut on the pretext of Sun's heat, and thereby stopping ventilation against the principles of Hygiene.

At the Annual inspection in November 1879 Mr. Seshia, the Acting Inspector of Schools, was highly pleased with the results of the Easternpett School, but not favorably impressed with those of the other, though he remarked that both the Schools were well attended.

These Schools acquitted themselves fairly when I visited them in February last. They were twice visited by the Inspector of Schools, 4 times by the Deputy Inspector

inspector, and 8 times by the Inspecting School Master.

The Easternpetta School sent up 15 pupils and the Westernpetta School 12 for the Lower Primary Examination. Of them 13 received Certificates in the former School, and 11 in the latter. These results speak well of the Head Masters of both the Schools and their Assistants.

The following table gives particulars of the Establishments connected with these Schools.

Names of Masters	Designation	Salary	Names of Masters	Designation	Salary
Easternpetta School			Westernpetta School		
M. Ramgasami Iyengar	H. Master	15	P. Thanicachella Pillai	2d Master	15 .. ..
M. Gopaul Rau	Asst. Do	10	P. Narayanasami Mudali	Asst Do	10 .. ..
L. Komarasami Mudali	Do.	9	L. Kistna Iyer	Do	9 .. ..
Rozalu	Peon	3	Perumal	Peon	3 .. ..

The pay of the 3 Masters of the Easternpetta School was assimilated with the pay of those of the other School during the year. In the subjoined table is shewn the fees realized in these Schools, the gross Expenditure incurred by the Municipality on their

Account,

1052/20 9/88

accounts, and the net cost to it.

Names of Schools	Fees realized	To Municipality Gross Expenditure	To Municipality Net Cost.
Easternpetta Municipal School	102 15 ..	450 12 2	377 13 2
Westernpetta Municipal School	120 3 ..	474 11 11	354 8 11

The attendance of these School at the close of the last 5 years is shewn in the table below for the sake of comparison.

Names of Schools	No. of pupils on the 31st March				
	1876	1877	1878	1879	1880.
Easternpetta Municipal School	66	62	100	71	82
Westernpetta Municipal School	50	62	94	82	87

It will be seen from the above table that there has been an increase of 11 and 5 pupils respectively in the two Schools, though they have not recovered the strength of 1878.

Results paid Schools.

There are two Schools under Results System, known as Raghavia's School and Gurusamia's School. The total number of pupils on their rolls on the 31st March last was 30 and 17; and the Municipal pants

Earned

earned by them were Rs 63. 15. - and Rs 33. 10. - respectively. The latter school receives also grants of Rupees 18. 14. - from Provincial Funds. These are very good private schools as their income in the shape of fees amounts to Rs 84 and 60.

Unaided Schools.

There are so many as 7 final schools in the town which have not sought aid from the Municipality, and a little less than Rs100 was therefore spent in the shape of Results grants. The main reason for the Non-Expenditure of the whole amount of Rs 200. Sanctioned for Results Grants, is that the Masters of the above schools are disinclined and deaf to the persuasions of the Inspecting School Masters to bring their schools under the Results System, lest their liberty should be interfered with, and lest they might incur the displeasure of the authorities for any careless acts of omissions or commission on their part in marking the daily attendance in Registers and sending Returns &c.

For

4 For instance, the Master of the final school at the next door of the Vaikompetta Municipal School has often refused and still refuses to place his school under Government inspection though he has been repeatedly told of its advantages. I am glad to state, however, that two of the remaining six schools are likely to come under the Results System in the course of the current month. Their example may be followed by the other schools, and so, I think, the Sanctioned amount for the Results Grants may not be reduced in the next year's Budget.

Appeals.

19. There were 114 appeals on the file. of these 82 were against House Tax, and 32 against Trade Tax. In the former, the cases of 37 appeals were confirmed, 26 reduced, 1 remitted, and 25 appeals dismissed for default owing to the absence of Appellants. In the latter, the cases of 14 Appeals were reduced, 10 confirmed, 4 remitted, and 4 Appeals dismissed owing to the absence of the

Appellants.

License Tax

20. There were 29 objection petitions received against this tax. The taxes were confirmed in 12 cases, reduced in 10, and remitted in 5, dismissing 2 petitions for default of the petitioners after due notice. The amount collected during the year is Rs 1263 and that collected on account of penalty for 1878 is Rs 2.8.0. A sum of Rs 169.9.7 was received from the Treasury Deputy Collector on account of remuneration for 1878.

Out of this, a sum of Rs 50 was refunded to one Sungappa, Gumasta of Pullatha Sayanmal, agreeably to the Collector's letter No 108, dated 23rd June 1879, and the balance distributed to Municipal Servants for services rendered in the Collection of the tax.

Coercive Process.

21. With reference to your foot-note to Gy. O. Financial Department No 997 dated 3rd May 1880, I beg to subjoin a Statement shewing the extent to which Coercive process was resorted to in the Collection of the several taxes. From this it will be seen that considering the Status of the town and the generality of the town's people the power to compel payment was exercised to a comparatively very small Extent.

Excluding

1052/10 2P.

2. Excluding the opening balance and the license tax collections the receipts of the year amounted to Rs 9534 against Rs 11160 estimated and Rs 10083 the actuals of 1878-79. The decrease as compared with the estimate is chiefly in the items "rates on houses and lands" and "taxes on arts &c" owing to tardy collections ascribed to the lingering effects of ~~the late~~ famine. The outstandings bear the following percentages as noted below to the demand.

	Percentage to demand
House rate	
Current	16.1
arrears	62.0
Land rate	
Current	71.1
arrears	65.6
Tax on Arts	
Current	11.3
arrears	"

The

The heavy arrears of land

rate ~~are particularly unsatis-~~

~~factory~~ and the largest per-

centage of old House rate

are ~~very unsatisfactory~~

arrears ~~should be struck~~ cleared

~~and evidence must of course~~

~~be~~ The accounts furnished

~~in the administration, the~~ the

~~are copied and written off~~

necessity for the large amounts written off

as irrecoverable ~~are consi-~~

~~derable except under Taxa-~~ have been fully explained.

tion Acts &c, under which the

greater portion of the arrears

previous to 1879-80 (6503) have

been written off. The necessity

for this however is no where

explained. There is no reason

why this municipality should

principle
have suffered more than

any other. The Government

consider that the laxity

in collections is owing to

lack

This is wedrich
& Simla purely Native
Do, in this fashion

~~Report of Enquiry on the Ad-~~ 1058/11. 38

~~ministration~~. The item "ad-

vances recoverable" requires

explanation especially as

to the circumstances under

which advances are made

to Municipal servants as

noted in Statement I. The

information furnished in

para 21 of the Vice Presidents

letter of the extent to which

coercive processes were applied

was supplied
is not sufficiently full; ~~The~~

~~percentages are not worked~~.

~~The~~ actual number of process-

-es of each description should

also

be shewn.

3. The expenditure of the

year, excluding license

tax paid to Government,

amounted to Rs 9,824 against

Rs

Rs 11,200 estimated and Rs 9,696 the actuals of 1878-79, and was distributed in the following proportions:-

Grant I Public Works	18.6
" II Education	11.0
" III Sanitation	26.0
" IV Miscellaneous	23.8
" V Supervision	18.6
Advances & Refunds	2.0

4. Nearly 27 per cent of the ~~allotment~~ refunds for Public Works was ~~saved~~ for want of funds. ~~The works executed were all petty~~ but ~~useful~~ Particulars of the outlay on roads are not given and no information is furnished regarding the condition of the Town roads.

5. The two municipal schools ~~are reported to~~ have worked well during the year; ~~The defect noticed having~~ risen & the schools being ~~by the Inspector to the~~ otherwise favourably reported on by the Inspectors. ~~Western pett school should be~~ ~~have been attended~~ on the whole ~~at each school and~~ ~~the cost of educating one~~ pupil ~~at each were noticed~~ below;

	Attendance 1878-79.	1879-80	Cost per pupil 1878-79	1879-80
Eastern pett School	71	82	6-3-1,	5-13-9
Western pett School	82	87	5-12-11,	5-7-3

Only 2 out of 9 schools in the town applied for results grants and obtained Rs 98. ~~in the aggregate.~~ ~~The reluctance & disinclination stated~~ ~~Considerable reluctance is~~ ~~exist on the part of~~ ~~said to exist in the masters~~ masters to bring their schools ~~of undergoing~~ ~~schools to~~ under inspection should receive ~~subject to the~~ inspection ~~of~~ the ~~Dep~~ attention of the Dir. of P.I. ~~Government Education~~ and

~~Officers~~

~~offices owing to the contentious~~
~~by the latter~~
~~unpaid~~ ~~&~~ ~~The attention of the~~
~~Director of Public Instruction~~
~~is drawn to the matter. The~~
~~reason why inspection is~~
~~so much decreased in this~~
~~town should be~~ ascertained
~~and the proper remedy~~
~~applied~~ The number
of schools in the town
besides the Government
middle class school and
Girls School evidences the interest
taken by the Community
in the education of their
children ^ but the proportion
of children on the lists of
~~Educated~~
~~in~~ all the schools to
the total population
of ~~the~~ school-going age
is

28·9

6. ~~The Municipality paid~~
the usual contribution of
Rs 250 to the Rampet Dispen-
-sary. Information should
be given of the working
of the new Dispensary
opened by Dr Scudder ~~in~~
~~1878-79~~. Vaccination of in-
-fants should progress; the
number of children under
one year operated on
being 75 against 7 in
1878·79. The cost per opera
-tion fell from 8 annas
to 7 annas 7 pies. The
registration of births and
deaths should the following
results

	year 1878·79	rate per mille	year 1879·80	rate per mille
Births	273	22·5	384	31·7
Deaths	365	30·1	346	28·6

The

The Conservancy of the town ~~Execution~~ appears to have been well ~~are not fully detailed in~~ attended to. ~~the report. Page 11 to 6~~ of the Vice President's report ~~shew that special measures adopted for preserving the cleanliness of the town; but the daily work of keeping the streets, roads and drains clean should have been noticed and the general sanitary measures adopted during the year.~~

7. The report submitted is not sufficiently full and the Government are not able to endorse the opinion of the President that the working of the Act-
