GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

15th June 1881, No. 1091.

Municipal Reports.

Read the following paper :—

From W. A. HAPPELL, Esq., President of the Municipal Commissions, Vizagapatam District, to the Chief Secretary to Government, dated Vizagapatam, 20th November 1880, No. 1040 [Current No. 3194].

I have the honor to forward herewith the annual report and accounts as per margin of the Vizianagrum Municipality for the official year 1879-80.

Statements I, I-A, II, II-A, II-B, III, IV, V, and V-B.
Memorandum of License-tax Transactions.
Tolls Statement.
Explanation of Variations, Statement IV-B.
Annual Concise Report of the Maharaja's Dispensary.
Vice-President's Report.
Auditor's Report.

2. The year opened with a balance of Rs. 1,066. The total receipts during the year amounted to Rs. 14,084-3-8, making a total of Rs. 15,150-3-8 available for expenditure. Of this Rs. 13,240-12-7 were spent, leaving a balance of Rs. 1,909-7-1 at the close of the year.

3. The subjoined statement exhibits the percentage of receipts and charges under the principal heads :—

Receipts.		Charges.	
Rates on Houses and Lands	14·09	Public Works	20·44
Taxes on Vehicles and Animals	20·06	Education	4·91
Registration of Carts	2·57	Hospitals and Dispensaries	·28
Tolls	37·62	Vaccination	1·41
License-tax	15·86	Registration of Births and Deaths	1·44
Contribution from Special and Local Funds	·19	Conservancy	24·47
Fees in Schools and Training Institutions	·32	License-tax	15·28
Miscellaneous	2·25	Lighting	2·43
Opening Balance	7·04	Police	3·46
		Supervision and Management	10·63
		Training a Medical Pupil and Contribution to Medical College	·88
		Miscellaneous	1·77
		Closing Balance	12·60
Total	100·00	Total	100·00

The income of the Municipality was for the most part derived from tolls and rates on vehicles and animals paid by the Rajah. Only a small proportion of the taxes levied was borne by the townspeople. The condition of the town roads is not satisfactory, and a much larger proportion of the tolls should in future be spent on them.

A copy of the License-tax Statement has been submitted to the Board of Revenue with reference to G.O., No. 1548, dated 10th August last.

ENCLOSURE No. 1.

From P. JAGANATHA ROW, Vice-President of the Municipal Commission, Vizianagrum, to the President of the Municipal Commissions, Vizagapatam District, dated 31st May 1880, No. 33.

I have the honor to forward herewith the annual report and statements of this Municipality for the official year 1879-80.

2. The year opened with a balance of Rs. 1,066, the collections under all heads amounted to Rs. 15,150-3-8, and the whole expenditure was Rs. 13,240-12-7, thus leaving an amount of Rs. 1,909-7-1 to be the closing balance at the end of the year.

3. The variations between budget estimates and the actuals are fully explained in the memorandum attached to the Comparative Statement VI-B.

4. *Tax Collection.*—The collections under all heads have been satisfactorily made except the taxes on houses. Under this head a sum of Rs. 144-5-9 was left uncollected, the cause having been explained to be the absence of several owners of the houses from the station. Orders were however issued to pay much more attention to the collection of house-tax balance. This collection will be shown in the next year's report.

Tolls.—The public sale did not bring so much as was expected for the year.

License-tax.—There appears Rs. 2,402-14-5 as the collection of license-tax; this includes the tax as well as the remuneration of Rs. 162-0-10, which was overpaid to Government and recovered during the year 1880-81.

5. *Charges—Public Works.*—The works executed under this head were not adequate to the requirements of the town. The Municipality had to bear the costs of the Town Police, and it was therefore obliged to reduce the sum, which otherwise ought to be estimated under Public Works, and to transfer the amount to the Police charge. The following works were, however, executed:—

		RS.	A.	P.
(1.)	Travellers' shed rebuilt	100	0	0
(2.)	Four hundred and fifty eight yards of rough-stone drains .	114	8	0
(3.)	Eighty-six yards of tunnels of 2, 3, and 4 feet vents have been newly made	100	12	0
(4.)	One thousand and seventy yards of rough-stone walls ..	1,108	3	7
	Repairs.			
(5.)	Fourteen thousand and seventy yards of roads have been repaired	1,407	1	2
(6.)	Petty buildings, &c., repaired	138	6	10

6. *Education.*—Last year it was remarked by the Government that the primary education was not satisfactory. The Commissioners therefore, in co-operation with the Educational officers, have started two Primary Schools which are reported to be working satisfactorily by the Inspector of Schools.

7. *Vaccination.*—The number of vaccine operations during the year was 770, being more than last year by 13; of this number 754 were successful, 7 were unsuccessful, and the remaining 9 not known, being strangers.

8. *Registration.*—Six hundred and four births were registered; the deaths under all heads were 645 against 630 of last year's births and 942 of its deaths. Of the deaths registered 2 were from small-pox, 560 from fevers, 19 from bowel complaints, 11 from accidents, and 53 from all other causes.

9. *Conservancy.*—The working of the conservancy has been satisfactory; besides its own sanitary work it is also ordered to look after the petty repairs of the roads, &c., whenever necessary.

10. *Sanitation.*—There has been a sufficient supply of good water throughout the year. The drainage of the town has been much attended to. They are cleaned twice in a day and washed once. The existing eighteen latrines are daily cleaned and they are enclosed with masonry walls.

11. *Lighting.*—There are sixty lamps in the use of the Municipality. The new system of using kerosine oil has been introduced lately. It has been very useful to the inhabitants. The money which has been wasted for cocoanut oil has been much saved.

12. *Head Office Establishment.*—The working of the Municipal Secretary and officers has been good throughout the year. Besides the office-work which has since of late increased very much, they are also worked for the collection of license-tax under Act III of 1878.

13. *Public Health.*—The general health of the people has been unsatisfactory. The principal cause of mortality was fever.

1091/2

The working of the Act has been satisfactory throughout the year under report, and the collections were made with great care and attention. A concise annual report of His Highness the Maharaja's Dispensary is herewith attached as ordered by Government in their review on the last year's report.

ENCLOSURE No. 2.

STATEMENT VI-B.

Explanation of Variations.

RECEIPTS.

1 & 2. Many houses and lands have been left vacant by the owners, who deserted them for the last famine and have not as yet returned. Hence the decrease.

3. His Highness the Maharaja has bought carriages, &c.

4 & 5. The decrease is due to some cultivators who sold their carts and animals for the last famine and have not as yet procured them again.

6. The decrease is owing to the reduction caused by the auction sale of tolls.

7. This item includes receipts under all heads of license-tax, such as remuneration, &c., but not the pure tax as was estimated. Hence there appears an increase.

8. This item was not estimated in the budget. Municipal Schools were subsequently established and the fees collected. Hence the increase.

9 & 11. These are very uncertain amounts. The increase or decrease in the former (9) depends upon the convictions made by the Bench of Magistrates.

12. This item comprises all sundry and miscellaneous receipts.

13. There were no receipts under this head as estimated.

EXPENDITURE.

Grant I—New Works and Communications.—This sum was not utilized, as the road for which it was estimated was not necessary.

2. *Buildings.*—A travellers' shed in the cattle market was flooded with water and fell down. No sum was estimated, the charge not having been anticipated.

3. *Drainage.*—The works estimated under this head were for the most part executed. But only a portion of the estimated amount was left unexpended. Hence the decrease.

4. *Miscellaneous.*—The charge under this head cannot properly be estimated, it being itself miscellaneous. Several roads have been protected with side parapet walls. Hence the increase.

5. *Repairs—Communications.*—The increase is little and calls for no remark.

6. *Buildings.*—Sundry repairs have been made to Municipal buildings leaking for the heavy rains. Hence the increase.

7. This charge was not availed of as it was not so necessary as the other works.

8. Certain repairs have been made to several parapet walls, &c.

10. Tools were not bought as estimated, but only last year's tools have been used. Hence the decrease.

11 & 12. A sum of Rs. 500 was originally estimated under Results Grants head. Subsequently Educational authorities have proposed, under G.O., No. 1879, dated the 29th September 1879, to start two Municipal Schools with a view to improve the primary education of the town children. The estimate was utilized both for Results Grants and Municipal Schools with a moderate decrease in the former and increase in the latter.

14. Basin and stand, &c., have been supplied to the dead-house. Hence the small increase.

15. Fee for children vaccinated was subsequently sanctioned. Hence the increase.

16. Registrar's pay has been reduced. Hence the decrease.

17. The decrease is trifling and does not call for remark.

18. The settled demand was paid to Government.

19. Kerosine oil became cheap. Hence the decrease.

20. This is the amount spent on establishment for collecting license-tax.

21. Expenditure on account of educating a Medical Pupil was not utilized.

22. This decrease under the estimate is chiefly due to the past expense of the Town Police of the year not having been demanded.

23. Office peon's pay was estimated at Rs. 4½, but the peon has been paid only Rs. 3 per mensem. Hence the decrease.

25. Printing charges exceeded the budget grant. Hence the increase.

26. The cause of increase cannot properly be explained as the difference is little.

27. Some expenses incurred in charging the contractors and getting public copies of certain decrees.

Vice-President of the Municipal Commission.

ENCLOSURE No. 3.

Annual Concise Report of the Maharaja's Dispensary for the Year 1879-80.

The south-west monsoon set in rather early in May, in which month 10½ inches of rain fell. The north-east monsoon broke in November and was only partial, but did not prove prejudicial to the crops. The rainfall for the year was 33 inches. The hot season was moderate.

2. Market well supplied throughout the year, and prices of food grains, &c., within the reach of all.

3. Public health unsatisfactory. The prevailing diseases were fever, rheumatism, dropsy, dysentsry, diarrhœa, and measles.

4. No cholera.

5. A few cases of small-pox; two deaths reported by the Municipality; 770 persons were vaccinated, of which 754 were successful.

6. Much fever during the year. The Municipal mortuary return shows 560 deaths from this cause.

7. The dispensary continues to be popular; 183 in and 5,592 out patients treated during the year.

8. The building is the property of His Highness the Maharaja of Vizianagrum, and the dispensary is entirely supported by him and unconnected with Government.

VIZIANAGRUM,
1*st April* 1880.

2. The receipts, excluding opening balance and the License Tax collections, amounted to Rs. 11,681 against Rs. 12,558 estimated and Rs. 12,569 actuals of the previous year. The decrease is chiefly under Tolls, which realized Rs. 750 less than was expected. The probable cause which influenced the auction sale should have been noticed. The variations under the other heads are small and do not call for remark, except that a revenue from school fees (Rs. 49) is for the first time shown in the accounts. The collections were satisfactory, judging from the entries in Statement IV; but information should have been furnished as to the extent coercive measures were resorted to. The "Miscellaneous" receipts show an excess of Rs. 223 over the estimate; the sum of Rs. 244-8-0 appearing under this head in Statement I is no where explained.

3. The charges aggregated Rs. 10,926 against Rs. 12,236 estimated and Rs. 11,506 actuals of the previous year. They were distributed thus—

	Percentage of Total Expenditure.
Grant I	28·3
„ II	6·8
„ III	38·9
„ IV	10·4
„ V	15·6

4. Out of an allotment of Rs. 3,647 under Public Works only Rs. 3,097 were utilized, the whole of which (including Rs. 118 spent in building or repairing travellers' sheds) was expended directly or indirectly in connection with communications. The reason for not utilizing the grant in full is not satisfactorily explained, especially in face of the Vice-President's complaint of the reduction in the estimates under this head owing to the necessity of providing for the Police charge.

5. The Educational charges show an advance of Rs. 150 over the estimate, owing to the establishment of two primary Municipal Schools during the year. These schools absorbed also nearly 60 per cent. of the allotment for results grants. Their working is reported to have been satisfactory. The average daily attendance is given as fifty-three boys and five girls, and the cost of educating each pupil as Rs. 7-1-1. The report of the Educational officers should have been forwarded; and the schools should appear under the head "Municipal Schools" in Statements II and V, the heading "Combined System Schools" being intended to show only the schools on that system *not* under Municipal management. The nine schools to which results grants were paid should have been particularised in Statement V. Besides these aided schools, there were five indigenous schools, two of which are supported entirely by the Maharaja. The total number of children under instruction in the town was nearly 870, or 28·6 per cent. of a school-going age population of 3,025. While the Government are glad to note the progress made during the year, they consider there is ample room for further educational effort.

6. The Government are gratified to learn that the dispensary maintained at the sole expense of His Highness the Maharaja of Vizianagrum continued to do good work and to increase in popularity; 183 in and 5,592 out patients received treatment during the year. Vaccination appears to have made no progress; the early attention of the Commissioners should be directed to this matter. The registration of births and deaths gives the following results:—

	Births.	Deaths.
1878-79	630	942
1879-80	604	645

7. These figures testify to considerable improvement in the work of the Registrars. The public health was seriously affected by the prevalence of fever. The sanitary condition of the town appears to be well attended to. The lighting was improved, and a saving effected by the use of kerosene oil.

8. Only one-third of the Police contribution was paid during the year. It is unnecessary to wait till a demand is made. The Inspector-General should, however, take steps to recover the amount due by each Municipality before the close of the official year. In this case the balance should have been exhibited as a liability in the foot-note to Statement II.

9. The following inaccuracies are observed in the accounts:—

(1) The Medical College contribution is shown under Grant IV instead of under Grant III.
(2) The License Tax paid to Government appears under Grant III instead of under Grant IV.
(3) The License Tax establishment is shown under Grant IV instead of under Grant V.
(4) The rent for bandy-stand and Court expenses should appear under Grant IV not Grant V.
(5) The entries in Columns 5 and 6 of the special statement of tolls are wrong. They should be transposed.

10. The necessary alterations have been made in the abstract at the head of these Proceedings. The charges of supervision and management exceed 10 per cent. the receipts. It is observed from Appendix A that the number of offi[illegible]ls exc[illegible]

that of non-officials by one. The President's attention is drawn to this in view to the illegality being corrected.

10. Tools were not bought as estimated, but only last year's tools have been used. Hence the decrease.

11 & 12. A sum of Rs. 500 was originally estimated under Results Grants head. Subsequently Educational authorities have proposed, under G.O., No. 1879, dated the 29th September 1879, to start two Municipal Schools with a view to improve the primary education of the town children. The estimate was utilized both for Results Grants and Municipal Schools with a moderate decrease in the former and increase in the latter.

14. Basin and stand, &c., have been supplied to the dead-house. Hence the small increase.

15. Fee for children vaccinated was subsequently sanctioned. Hence the increase.

16. Registrar's pay has been reduced. Hence the decrease.

17. The decrease is trifling and does not call for remark.

18. The settled demand was paid to Government.

19. Kerosine oil became cheap. Hence the decrease.

20. This is the amount spent on establishment for collecting license-tax.

21. Expenditure on account of educating a Medical Pupil was not utilized.

22. This decrease under the estimate is chiefly due to the past expense of the Town Police of the year not having been demanded.

Vizianagram

23. Office peon's pay was estimated at Rs. 4½, but the peon has been paid only Rs. 3 per mensem. Hence the decrease.

25. Printing charges exceeded the budget grant. Hence the increase.

26. The cause of increase cannot properly be explained as the difference is little.

27. Some expenses incurred in charging the contractors and getting public copies of certain decrees.

ENCLOSURE No. 3.

Annual Concise Report of the Maharaja's Dispensary for the Year 1879-80.

The south-west monsoon set in rather early in May, in which month 10½ inches of rain fell. The north-east monsoon broke in November and was only partial, but did not prove prejudicial to the crops. The rainfall for the year was 33 inches. The hot season was moderate.

2. Market well supplied throughout the year, and prices of food grains, &c., within the reach of all.

3. Public health unsatisfactory. The prevailing diseases were fever, rheumatism, dropsy, dysentsry, diarrhœa, and measles.

4. No cholera.

5. A few cases of small-pox; two deaths reported by the Municipality; 770 persons were vaccinated, of which 754 were successful.

6. Much fever during the year. The Municipal mortuary return shows 560 deaths from this cause.

7. The dispensary continues to be popular; 183 in and 5,592 out patients treated during the year.

8. The building is the property of His Highness the Maharaja of Vizianagrum, and the dispensary is entirely supported by him and unconnected with Government.

To

The Honorable R. Davidson C. S. I
Chief Secretary to Government
Madras.

Sir,

I have the honor to forward herewith the annual Report and accounts as per margin of the Vizianagrum Municipality for the official year 1879-80.

2. The year opened with a balance of Rs 1066. The total receipts during the year amounted to Rs 14,084: 3: 8 making a total of Rs 15,150: 3: 8 available for expenditure. Of this Rs 13240: 12: 7 were spent leaving a balance of Rs 1909: 7: 1 at the close of the year.

3. The Subjoined Statement exhibits the percentage of receipts and charges under the principal heads.

Receipts		Charges.	
Rates on houses and lands.	14.09	Public Works	20.44
Taxes on Vehicles and animals	20.06	Education	4.91
Registration of Carts	2.57	Hospitals and Dispensaries	.28
Tolls	37.62	Vaccination	1.41
License Tax	15.86	Registration of Births and Deaths	1.44
Contribution from Special and Local Funds	.19	Conservancy	24.47
		License Tax	15.28
Fees in Schools and Training Institutions	.32	Lighting	2.43
		Police	8.46
Miscellaneous	2.28	Supervision and management	10.63
Opening Balance	7.04	Training a Medical pupil and Contribution to Medical College	.88
		Miscellaneous	1.77
		Closing Balance	12.60
	100.00		100.00

The income of the Municipality was, for the most part derived from Tolls and rates on Vehicles and animals paid by the Rajah. Only a Small proportion of the taxes levied was borne by the Town's people. The condition of the Town Roads is not Satisfactory, and a much larger proportion of the tolls should in future be spent on them.

A copy of the License Tax Statement has been Submitted to the Board of Revenue with reference to G. O. No. 1348 dated 10th August [illegible]

Sir,

I have the honor to forward herewith the Annual Report and Statements of this municipality for the official year 1879-80.

2 The year opened with a balance of Rs 1066 the Collections under all head amounted to Rs 15142-6-1 and the whole Expenditure was Rs 13240-12-7 thus leaving an amount of Rs 1901-10-1 to be the closing balance at the end of the year.

3 The variations between Budget Estimates and the Actuals are fully explained in the Memoran attached to the Comparative Statement VI-B.

4 Tax Collection.

The Collections under all heads have been Satisfactorily made except the taxes on houses. under this head a Sum of Rs 144-5-9 was left uncollected, the Cause having been explained to be the absence of General owners of the houses from the Station. Orders were however issued to pay much more attention to the Collection of House Tax Balance. This Collection will be shewn in the next year's Report.

Tolls.— The public sale did not bring so much as was expected for the year.

Submitting Report and Annual Statements of the Municipality for the year 1879-80

The money which has been wasted for Cocoanut oil has been much saved.

12. Head Office Establishment.—

The working of the Municipal Secretary and Officers has been good throughout the years Besides the office work which has, since of late, increased very much, they are also worked for the Collection of License Tax under Act III of 1878.

13. Public Health.—

The general health of the people has been unsatisfactory. The principal Cause of mortality was Fever.

The working of the Act has been satisfactory throughout the year under Report, and the Collections were made with great Care and attention. A Concise Annual Report of H. H. the Maharajah's Dispensary is herewith attached as ordered by Govt. in their Review on the last year's Report.

Explanation of Variations

Receipts

1-2 Many Houses and Lands have been left vacant by the Owners who deserted them for the last famine and have not as yet Returned. Hence the decrease.

3 His Highness the Maharajah has bought Carriages &c.

4&5 The decrease is due to some Cultivators who sold their Carts and Animals for the last famine and have not as yet procured them again.

6 The decrease is owing to the reduction Caused by the auction sale of Tolls.

7 This item includes Receipts under all heads of License Tax, Such as Remuneration &c, but not the pure Tax as was estimated, hence there appears an increase.

8 This item was not estimated in the Budget. Municipal Schools were subsequently established and the fees Collected. Hence the increase.

9 & 11 These are very uncertain amounts. The increase or decrease in the former (9) depends upon the Convictions made by the Bench of Magistrates.

12 This item Comprises all Sundry and Miscellaneous Receipts.

13 There were no Receipts under this head as estimated

Expenditure.

Grant I.— New Works and Communications.

1 This Sum was not utilized as the Road for which it was estimated was not necessary.

Buildings.—

2 A Travellers' shed in the Cattle Market, was flooded with water and fell down. No Sum was estimated, the charge not having been anticipated

Drainage.—

3 The works estimated under this head were, for the most part executed. But only a portion of the estimated amount was left unexpended. Hence the decrease.

Miscellaneous.—

4 The charge under this head cannot properly be estimated. It being itself miscellaneous. Several roads have been protected with side parapet walls. Hence the increase.

Repairs.—

Communications.—

5 The increase is little and calls for no remarks.

Buildings.—

6 Sundry repairs have been made to Municipal Buildings leaking for the heavy rains. Hence the increase.

7 This charge was not availed of, as it was not so necessary as the other works.

8 Certain repairs have been made to several parapet walls &c.

10 Tools were not bought as estimated but only last years tools have been used. Hence the decrease.

11 & 12 A sum of Rs 500 was originally estimated under Results Grants Head. Subsequently Educational Authorities have proposed under G. O. To

W. D. Happell Esquire,
President M. C.
Vizianagram

Sir,

I have the honor to report on the Municipal accounts of Vizianagram for 1879-80, which I audited under your Memo No 19 dated 13th March 1880.

2. The year opened with a balance of Rs 1066 and the total receipts during the year amounted to Rs 14084-3-8. The amount available for expenditure was therefore Rs 15150-3-8; of which Rs 13240:12:7 were spent during the year leaving a balance of Rs 1909:7:1 on the 31st March 1880. The balance is certified by the Dy Tahsildar of Vizianagram and corresponds with the balance in

in the cash book.

3. I have examined the assessment Registers, the Counter-foils of bills issued to Tax-payers, the account current, in the the treasury and Cash books and ascertained that the whole amount assessed was shown as demand in the accounts and that all collections were brought to account and remitted to Treasury. All expenditure is covered by due sanctions and vouchers.

4. No register of Public works is maintained. The Secretary promised to open one soon.

5. There are no separate accounts kept to show the transactions of Licence Tax and Tolls Revenue, as per instructions conveyed in G. O. No 1614 dated 22nd August 1879. I have however got a Licence Tax and a Tolls Statement

Statement prepared 1691/80 15 and attached them to the report.

2. The receipts, excluding opening balance and the licence tax collections, amounted to Rs 11681 against Rs. 12558 estimated and Rs. 12569 actuals of the last year. The decrease is chiefly under tolls which realised by the auction sale was Rs 750 less than expected. The probable cause which influenced the ~~result of the~~ auction sale should have been noticed. ~~be ascertained and reported~~. The variations under the other heads are small and

and do not call for remark except that a revenue from school fees (Rs. 49) is for the first time shewn in the Accounts. The Collectors have been satisfactory, judging from the entries in statement IV; but information should have been furnished as to the extent to which coercive measures were resorted to. ~~in the collection of the taxes.~~

The "Miscellaneous" receipts shew an excess of Rs. 223 over the estimate; the sum of Rs 244-8-0 ~~entered against (d) Miscellaneous~~ appearing under this head in the statement is explained.

3. The charges aggregated Rs 11926 against Rs. 12236 estimated, and Rs 11506 incurred of the previous year. They were distributed thus:-

	percentage of total expenditure
Grant I	28.3
Grant II	6.8
Grant III	38.9
Grant IV	10.4
Grant V	15.6

The Educational
charges

^ the whole of which (including Rs 118 spent in building or repairing travellers' sheds) was expended directly or indirectly in connection with Communications. The reason for not utilizing the grant in full is not satisfactorily explained, especially in face of the Vice-President's complaint of the reduction in the estimates under this head owing to the necessity of so providing for the Police charge.

charges show an advance of Rs 150 over the estimate, ~~which~~ owing to the establishment of two municipal primary schools during the year. These schools absorbed also nearly 60 per cent of the allotment for results grants. Their working is reported to have been satisfactory. The average daily attendance is given as 53 boys and 5 girls, and the cost of education each pupil as Rs 7-11. The report of the Educational

ecclesiastical officers on
the working of the schools
should have been for-
warded; and the schools
should be shown under
the head "municipal
schools" in Statements
II and V, the heading
"combined System Schools"
being intended to shew
only the schools on that
system not under Mu-
nicipal management.
The nine schools for
which results grants
were paid should have
been particularised
in Statement V. Besides
these aided schools,
there were five indige-
nous schools, which
two schools of the Ma-
harajah College and
boarding girls' school
supported entirely by
the Maharajah. The total
number of children
under instruction in all
the Town schools was nearly
870 or 28.6 per cent
of the population of
school-going age, of
3025. While the Govt. are glad to
note the progress made during the year they
consider there is ample
room for further educational
effort.

The Government

work and to increase its popularity. ~~There was not treated in it.~~ 183 in and 5592 out patients received treatment during the year.

these figures testify to considerable improvement in the work of the Inspectors. The public health was seriously affected by the prevalence of fever. The sanitary condition of the town appears to be well attended to. The lighting was improved & a saving effected by the use of Kerosine oil.

Only one third of the Police contribution was paid during the year. It is unnecessary to wait till a demand is made. The Inspectors shd however take steps to

8 The following
inaccuracies are ob-
served in the accounts:-
(1) The Medical College
Contribution is shewn
under Grant IX instead
of under Grant III.
(2) The Licensetax paid
to Government appears
under Grant III instead
of under Grant IV

Year. In this case the

in the footnote to
Stat. II.

(3) The Licence taxes establishment is shewn under Grant IV instead of under Grant V.

(4) The rent for Laundy stand and Court expenses should appear under Grant IV not Grant V.

(5) The entries in columns 5 & 6 of the special statement of tolls are wrong. They should be transposed.

The necessary alterations have been made in the Abstract at the head of these Proceedings.

The charges of supervision and management exceed 10 per cent. of the Receipts. It is observed

observed in the Appendix A. the number of officials exceeds that of non-officials by one. The President's attention is drawn to this in view to the illegality being corrected.
