GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

15th June 1881, No. 1103.

Municipal—Reports.

Read the following papers:—

From W. A. HAPPELL, Esq., President of the Municipal Commissions, Vizagapatam, to the Chief Secretary to Government, dated Vizagapatam, 23rd September 1880, No. 884 [Current No. 2606].

I have the honor to submit the annual report, accounts, &c., as per margin, of the Bimlipatam Municipality for the year 1879-80.

- 1 Annual Report of the Vice-President.
- 1 File of Annual Accounts.
- 1 Medical Officer's Report.
- 1 Tolls Statement.
- 1 License-tax Statement.
- 1 Auditor's Report.

2. The balance in favor of the Municipality at the beginning of the year under report was Rs. 100. The receipts during the year amounted to Rupees 10,929-14-6, making a total of Rupees 11,029-14-6 available for expenditure. During the year Rs. 10,981-5-2 were spent, leaving a balance of Rs. 48-9-4 at the close of 1879-80.

3. The following statement shows the percentage of receipts and charges under the principal heads:—

Receipts.	Percentage.	Charges.	Percentage.
Rates on Houses and Lands ..	24.79	Public Works	14.37
Taxes on Vehicles and Animals ..	2.02	Education	3.63
Registration of Carts	1.44	Hospital	31.69
Tolls	38.07	Vaccination	1.27
Contributions from Provincial and Local Funds	2.83	Conservancy	18.08
Rent on Houses, Lands, &c. ..	1.52	Lighting	2.17
Hospital Subscriptions	16.36	Dieting Lunatics	3.16
License-tax Receipts	8.53	License-tax	7.88
Miscellaneous Receipts	3.53	Police	4.75
Balance	.91	Supervision and Management ..	8.29
		Miscellaneous Charges	4.27
		Balance	.44
Total ..	100.00	Total ..	100.00

4. The principal sources of income to the Municipality are tolls, rates on houses, and ship subscriptions to the hospital. The cost of keeping up the hospital has been hitherto a heavy burden on the Municipal Fund, but it will be lighter in future as Government has recently sanctioned a monthly contribution of Rs. 75.

5. A copy of the License-tax account has this day been sent to the Board of Revenue with reference to G.O., No. 1548, dated 10th August last.

ENCLOSURE No. 1.

From W. ELSEWORTHY, Esq., Vice-President of the Municipal Commission, Bimlipatam, to the President of the Municipal Commission, Vizagapatam, dated Bimlipatam, 23rd June 1880, No. 50.

I have the honor to forward, enclosed, the annual return for the official year 1879-80.

RECEIPTS.

A deficit of Rs. 774 in the estimates prepared and forwarded by the late Vice-President having been discovered some months after the Budget Estimates were passed, the matter was brought to the notice of the late O. B. Irvine, Esq., who ordered amended estimates to be prepared, which was accordingly done, and the enclosed statements of account show that the Municipality had at its disposal during the year Rs. 11,029-14-6 against an estimate of Rs. 10,878, and this increase is partly accounted for by the sale of surplus Municipal stores and remuneration allowed for collecting the taxes levied under Madras Act III of 1878.

The increase in 1879-80, as compared with the previous year, arises from the house-tax having been increased from 5 per cent. to 7½ per cent., and to the increased collection of tolls. It will be observed that the year opened with a balance of Rs. 100, and closed with a balance of Rs. 48-9-4. The decreased collection in the house-tax is partly owing to decreased rental of warehouses. The collection under other heads calls for no particular remarks.

CHARGES.

2. The Commissioners allotted Rs. 680 for new works, and of this Rs. 426-9-1 was spent in excess in constructing two new roads in those parts of the town where they were specially required. During the year there was a fire in the part of the town inhabited by the shepherd caste, by which some fifty huts were burnt, and as the close proximity of the huts to each other rendered it impossible for the Police or others to give assistance in case of fire, the Commissioners decided to buy up a sufficient number of the huts to form two new roads, one from east to west and the other from north to south, and this was done at a cost of Rs. 276. A sum of Rupees 361-14-0 was also sanctioned for the construction of a new out-stone V drain, 193 yards long, opposite the Police lines in that part of the town known as "New Town" or Jugganathapuram.

3. Education fell short of estimate by Rs. 40-3-0. There are eight schools in the town, seven for boys and one for girls. The present returns give 271 boys against 220 in 1878-79.

4. The hospital is separately reported on by Mr. Apothecary Roberts. This officer, who succeeded Mr. Gillson in November last, is doing good work, and appears to be very popular.

The annual returns for 1879-80 show a large increase of patients treated as compared with 1878-79. Natives who from caste prejudice have hitherto hesitated to apply to the dispensary for aid, are now attending freely, and this change, the Commissioners believe, is in a measure due to the popularity of the present Medical Officer.

5. The register of births shows 168 or 19.75 per mille, against 114 or 12.91 in 1878-79; whilst the mortuary register shows 227 or 25.71 per mille, against 289 or 32.75 in 1878-79. Cheapness of food, as compared with the previous year, has no doubt contributed materially to these results. No deaths were reported from small-pox or cholera during the year.

6. There was a falling off in the vaccination, the register showing 368 cases or 41.69 per mille, against 467 or 52.90 per mille in 1878-79.

MUNICIPAL DISPENSARY, BIMLIPATAM.

Annual Concise Report of the Bimlipatam Dispensary for the Official Year ending 31st March 1880.

I.—General and Seasonable Phenomena.—The monsoons came down in seasonable time and in sufficient quantity by which the ryots were enabled to reap good crops. The port was not fortunately visited by cyclones. The temperature has been more or less as usual.

II.—Necessaries of Life.—The prices of food-grains have come down to within the reach of the poorest inhabitants, so that they who had to sell their cattle and other household goods and farm furniture are replacing them and paying off old debts. The market is well stocked with grains, and there is a look of prosperity everywhere. Third sort rice is selling at eighteen seers per rupee, and raggy at twenty-four seers per rupee; this last is the chief food of the poorer classes. Water is obtained chiefly from wells and in abundance and of good quality. There is enough of pasturage for cattle, hence they are all in good condition. There is no cattle-disease at present, nor did it prevail during the year.

III.—General State of Health.—The health of the public was very fair during the year notwithstanding the prevalence of fever during the months of July and August. The number

of deaths registered at the Municipal Office is 224 and 116 births. There were 368 subjects vaccinated successfully.

IV.—Cholera (number admitted with deaths should be given).—Cholera did not prevail during the year, but one case of cholera was admitted to hospital from the coasting S.S. *Oulna* from Gopálpur.

V.—Small-pox.—The town was free from small-pox during the period under report. Vaccination is performed by the Municipal Vaccinator under the immediate orders of the Medical Officer, so that the working is much more satisfactory than heretofore. I would here beg to recommend the compulsory vaccination of all children attending our public schools, and to insist upon every candidate producing a vaccination certificate who seeks for Government employment, no matter of what sort, as there are many native officials holding high posts who are not vaccinated.

There is a quarantine shed on a convenient site for small-pox cases that may be brought by coasting vessels. There were two cases landed from one of the steamers during the year and treated in the above shed successfully.

VI.—Malarial Fevers.—Ague of the three types prevailed to a large extent throughout the district, and in this town, during the months of July and August, in an epidemic form; of course there are always cases of ague in the town, and will be as long as the swamp to the north of the town is allowed to be flooded and dried alternately. This swamp would make a good site for a set of salt-pans or reclaimed and utilized for some other purpose with profit to the Municipality. Tincture iodine was most successfully employed in the treatment of the fever that prevailed during the year.

VII.—Prevailing Diseases.—The prevailing diseases among the out-door and in-door patients, both Europeans and Natives, were intermittent fevers, rheumatic affections, primary and secondary syphilis, inflammation of the external ear, dysentery, diarrhoea, and, above all, round worms. Every person appears to be possessed of this parasite, and whether it is generated from the food-grains or water, I am not in a position to decide.

VIII.—New Dispensary.—Nil.

IX.—General Remarks.—The past year has been a healthy one, although ague prevailed in an epidemic form. Rainfall has been good, and the outturn of the crops all that could be desired, so that the people appear to be everywhere in comparative ease.

The sanitary condition of the town cannot be expected to be better. Every means is taken, both by the Municipality and the Police, to keep the place clean, tidy, and healthy; of course there is always room for improvement. If two cinerators were built, one for each end of the town, for burning the refuse and other sweepings, instead of throwing it on the beach as at present and waiting the vicissitudes of the season for its destruction and removal, it would render the town still healthier and be a source of gain to the Municipality.

BIMLIPATAM,
1st April 1880.

(Signed) C. G. ROBERTS,
Port Surgeon in Medical Charge.

Proceedings of the Board of Revenue, dated 8th November 1880, No. 12,341 (Miscellaneous) [Current No. 2916].

Read the following letter from W. A. HAPPELL, Esq., President of the Municipal Commission, Vizagapatam, to the Secretary to the Board of Revenue, dated 24th September 1880, No. 885:—

I have the honor to submit herewith a memorandum of License-tax transactions of the Bimlipatam Municipality for 1879, with reference to G.O., No. 1548, dated 10th August last, Financial Department.

The Board observe from the memorandum of accounts submitted with the letter above read that Rs. 870 are entered as the settled demand, whereas the same is entered

at Rs. 880 in the Statement No. I accompanying the annual license-tax report for 1879. The President is requested to explain the discrepancy, noting any alterations of the account required. It is further noticed that the remuneration has not been deducted from the settled demand in making payment to Government as directed in paragraph 2 of the Board's Proceedings, 5th June 1880, No. 766, otherwise the accounts are correct.

2. The President is requested to deduct the overpayment to Government on account of 1879 from the sum payable to Government for 1880.

(True Copy and Extract.)

(Signed)

C. A. GALTON,

Secretary.

Proceedings of the Board of Revenue, dated 20th January 1881, Miscellaneous No. 560 [Current No. 153].

Read the following letter from W. A. HAPPELL, Esq., President of the Municipal Commissions, Vizagapatam District, to the Secretary to the Board of Revenue, dated Vizagapatam, 24th November 1880, No. 1046:—

Referring to the Proceedings of the Board of Revenue, Miscellaneous No. 12,341, dated 8th instant, I have the honor to inform you that the correct gross demand of the Bimlipatam Municipality on account of License-tax for the year 1879 is Rs. 870 as given in the memorandum submitted with this office letter, No. 885, dated 24th September last. The difference between this demand and that given in Statement No. I accompanying the License-tax Report for 1879 is Rs. 10, and is due to the amount which was granted as a remission to one Lakshmana Chetty (he having been licensed at Madras for his whole business) not having been deducted by mistake from the demand given in the above statement.

* Submitted to Government in continuation of Board's Proceedings, dated 8th November 1880, Miscellaneous No. 12,341.

2. The necessary corrections have been made in Statement No. I. The Collector is requested to correct his office-copy accordingly.

(True Copy and Extract.)

(Signed)

C. A. GALTON,

Secretary.

ORDER THEREON, 15th JUNE 1881, No. 1103.

The receipts and charges of the Bimlipatam Municipality for 1879-80 are compared below with the estimates for the year and the actuals for the preceding year:—

	RECEIPTS.		
	Actuals, 1878-79.	Estimate, 1879-80.	Actuals, 1879-80.
Balance brought forward	..	..	..
Rates on Houses and Lands	230	100	100
Taxes on Vehicles and Animals	1,887	2,800	2,734
Registration of Carts	215	230	223
Tolls	144	150	159
License-tax	2,842	4,200	4,200
Assignments by Government	1,008	840	941
Contribution from Local Funds	6	10	12
Fines and Fees	300	300	300
Endowments	46	40	12
Miscellaneous	2,435	2,000	2,047
	245	210	302
Total	9,358	10,880	11,030

CHARGES.

	Actuals, Estimate, Actuals, 1878-79. 1879-80. 1879-80.		
	RS.	RS.	RS.
GRANT I.			
New Works—			
Communications	..	..	318
Sanitary and Miscellaneous	..	..	362
Repairs—			
Communications	195	600	730
Buildings	88	100	35
Sanitary and Miscellaneous	139	100	125
Tools and Plant	..	..	15
GRANT II.

GRANT V.			
Supervision and Management	890	1,060	1,344
Balances	100	40	49
Total	9,358	10,880	11,030

2. The receipts, excluding License-tax, aggregated Rs. 9,989 against Rs. 9,940 estimated and Rs. 8,120 actuals of 1878-79. The increase over last year's income is due to the enhancement of the House-tax from 5 to 7½ per cent. and to the increased revenue from Tolls, which in the previous year suffered from the effects of the cyclones of 1878. The collection of the taxes was satisfactory, a sum of only Rs. 175 under House-rates remaining in arrears at the close of the year. In the Demand, Collection, and Balance Statement (current) the items "Taxes on Vehicles and Animals" and "Registration of Carts" should find no place if the provisions of the Act were properly worked. The Auditor has rightly altered the account so as to leave no balance under these heads.

3. With reference to the remarks of the Board of Revenue regarding the License-tax account, it is observed that the Auditor explains that Rs. 50 of the overpayment to Government have been recovered within the year, leaving only Rs. 9 to be adjusted in 1880-81.

4. Excluding License-tax collections paid to Government, the expenditure amounted to Rs. 10,112 against Rs. 10,060 estimated and Rs. 8,250 actual of 1878-79. It was distributed in the following proportions:—

	Percentage to total expenditure.
Grant I	15.7
Grant II	3.9
Grant III	55.7
Grant IV	11.4
Grant V	13.3

5. The expenditure on Public Works was Rs. 785 in excess of the budget estimates, chiefly owing to the formation of two new roads opening up a densely-populated quarter and the construction of street drains. These works are calculated

1103
H

to prove of great utility. It is observed however that they were undertaken without sanction. The damage caused by the heavy rains of the previous year entailed an excess of Rs. 130 over the budget provision in the repair of communications.

6. The Educational charge amounted to Rs. 401 including Rs. 240 paid as salary grant to the infant school in which the average attendance was 7 boys and 13 girls, and Rs. 160 paid as results grants to 4 schools with an attendance of 128 boys. The Maharajah's School taught 50 girls, while the other schools in the town educated 264 boys. It is not explained why the sum of Rs. 40 provided for Educational Inspection was not utilised.

7. The number of out-patients treated in the hospital was nearly double that in the previous year, being 8,031 against 4,305, gratifying evidence of its popularity. The reclamation of the malarious swamp to the north of the town should engage the early attention of the Commissioners. The disposal of the sweepings in the manner pointed out by the Port Surgeon seems highly desirable. The progress of vaccination is not satisfactory, only 368 operations being reported against 467 in the year preceding. The cost per head vaccinated was as high as 6 annas and 1 pie. The vital statistics appear to be still unsatisfactory, the births reported being 168 against 227 deaths. The conservancy of the town appears to have been well attended to. The President's report should furnish full and detailed information concerning this important branch of Municipal administration. Only half of the Police contribution was paid within the year. The remark in Statement VI-B would seem to imply that the payment was only for the last six months. It should be explained whether the whole charge has yet been met. The charges incurred for printing under Grant V appear excessive and should be reduced. The total expenditure under this grant should, as a rule, not exceed 10 per cent. of the receipts of the year excluding License-tax.

The sanitary condition of the town cannot be expected to be better. Every means is taken, both by the Municipality and the Police, to keep the place clean, tidy, and healthy; of course there is always room for improvement. If two cinerators were built, one for each end of the town, for burning the refuse and other sweepings, instead of throwing it on the beach as at present and waiting the vicissitudes of the season for its destruction and removal, it would render the town still healthier and be a source of gain to the Municipality.

BIMLIPATAM,
1st April 1880.

(Signed) C. G. ROBERTS,
Port Surgeon in Medical Charge.

No. — Proceedings of the Board of Revenue, dated 8th November 1880, No. 12,341 (Miscellaneous).

Read the following letter from W. A. HAPPELL, Esq., President of the Municipal Commission, Vizagapatam, to the Secretary to the Board of Revenue, dated 24th September 1880, No. 885:—

I have the honor to submit herewith a memorandum of License-tax transactions of the Bimlipatam Municipality for 1879, with reference to G.O., No. 1548, dated 10th August last, Financial Department.

4

The Board observe from the memorandum of accounts submitted with the letter above read that Rs. 870 are entered as the settled demand, whereas the same is entered at Rs. 880 in the Statement No. I accompanying the annual license-tax report for 1879. The President is requested to explain the discrepancy, noting any alterations of the account required. It is further noticed that the remuneration has not been deducted from the settled demand in making payment to Government as directed in paragraph 2 of the Board's Proceedings, 5th June 1880, No. 766, otherwise the accounts are correct.

2. The President is requested to deduct the overpayment to Government on account of 1879 from the sum payable to Government for 1880.

(True Copy and Extract.)

(Signed) C. A. GALTON,
Secretary.

Exd. T. O'Connor.

Visagapatam.
11th September 1880.

W. & G. Appell Esquire
President M.C.
Visagapatam District

Sir,

I have the honour to report on the accounts of the Bimlipatam Municipality for the year 1879-80, which I have audited under your memo of 10.196 dated 13th March last.

2. The year opened with a balance of Rs. 100 and the total Receipts for the same year amounting to Rs. 10,929:14:6, the amount available for expenditure was Rs. 11,029:14:6. Of this Rs. 10,981:5:2 were expended during the year leaving a balance of Rs. 48:17:4 on the 31st March last. The balance is certified by the Deputy Muzildar of Bimlipatam and corresponds with the balance of the cash Book.

3. & 40 Register of Public Works is maintained now in the office. I have shown to the Municipal Secretary the advantage of having one, and requested him to open one soon for the current year. & 40 Government Registers are neatly and

and correctly kept. Money for expenditure is drawn from the Sub Treasury on detailed Bills and not by means of cheques as in other Municipalities. The accounts of Yello and License transactions have not been opened as directed in G.O. No 1614 dated 22nd August 1899 Y.D. I have however prepared a Yello Statement and a License Tax Statement and attached them to the annual accounts. From the License Tax Statement you will observe that the Municipality has overpaid to Government Rs 57:14:5. Of this Rs 50:9:7 have already been recovered during the current year and the balance viz. Rs 7:4:10 will also be recovered soon.

5. A sum of Rs 20 was overdrawn from the Sub Treasury on account of the allowances of the Esplanade Police. This has also to be recovered and credited to the Municipal Fund during the current year.

6. I am satisfied that all sums collected are duly brought to Municipal account and that all expenditure is

is covered by proper vouchers.

I have the honour to be

Sir,

Your most obedient Servant

/s/ K. Nagabhushanarao

Auditor Municipal Accounts.

Madras.

Sir,

Annual Report
Dues Received
of the annual
accounts
Municipal Office
Report
Statement
of the
Statement
of the
Report

I have the honour to submit the
annual report, accounts &c as per
margin of the Bimlipatam Mun-
-cipality for the year 1877-80
2. The balance in favour of the
Municipality at the beginning of the
year under report was Rs 100. The
receipts during the year amounted to
Rs 10,929:14:6 making a total of
Rs 11,029:14:6, available for expendi-
-ture. During the year Rs 10,981:5:2
were expended, leaving a balance of
Rs 48:9:4 at the close of 1877-80
3. The following Statement shows

The percentage of Receipts and Charges under the principal heads.

Receipts	Percentage	Charges	Percentage
Rates on Houses and Cattle	24.77	Public Works	14.37
Taxes on Vehicles and animals	2.02	Education	3.63
Registration of carts	1.44	Hospital	31.69
Tolls	3.07	Vaccination	1.27
Contributions from Provincial Land Local Funds	2.83	Conveyance	18.08
Rent on Houses, Lands &c	1.52	Lighting	2.17
Hospital Subscriptions	16.36	Distilling & Lard	3.16
License Tax Receipts	8.33	License Tax	7.38
Miscellaneous Receipts	3.33	Police	4.75
Balance		Supervision & Management	8.29
		Miscellaneous Charges	4.27
		Balance	1.44
Total	100.00		100.00

The principal sources of income to the Municipality are Tolls, Rates on Houses and Ship-subscriptions to the Hospital. The cost of keeping up the Hospital has been hitherto a heavy burden on the Municipal Fund, but it will be lighter in future as Government has,

has recently sanctioned a monthly contribution of Rs 75.

A copy of the License Tax & Account has this day been sent to the Board of Revenue with reference to G.O. 1548 dated 10th August last.

Office of Municipal Commission
Trinilipatan 23rd June 1880

To, The President
Municipalities
Trinilipatan

No 50 Sir,

I have the honor to forward enclosed the Annual Return for the Official Year 1879.80

Receipts A deficit of Rs 774/- in the Estimates prepared and forwarded by the late Vice President having been discovered some months after the Budget Estimates were passed, the matter was brought to the notice of the late C.P. Irvine Esq, who ordered amended Estimates to be prepared, which was accordingly done, and the enclosed Statement of Account shows that the Municipality had at its disposal during the year Rs 11029.14.6 against an Estimate of Rs 10878/- and this increase is partly accounted for by the sale of Surplus Municipal Stores, and remuneration allowed for collecting the taxes levied under Madras Act III of 1878

The increase in 1879.80, as compared with the previous year arises from the House Tax having been increased from 5% to 7 1/2% and to the increased collection of Tolls. It will be observed that the year opened with a balance of Rs 100/- and closed with a balance of Rs 48.9.4. The decreased Collection in the House Tax is partly owing to

decreased rental of Warehouses & the collection under other heads calls for no particular remarks

38 11/30

2nd

Charges The Commissioners allotted Rs 680 for new works and of this Rs 426. 9.1 was spent in excess in constructing two new roads in those parts of the Town where they were specially required. During the year there was a fire in the part of the Town inhabited by the Shepherd caste, by which some 50 huts were burnt, and as the close proximity of the huts to each other rendered it impossible for the Police or others to give assistance in case of fire the Commissioners decided to buy up a sufficient number of the huts to form two new Roads, one from East to West and the other from North to South, and this was done at a cost of Rs 276/- a sum of Rs 36.14 was also sanctioned for the construction of a new Cut Stone Drain 193 fms long opposite the Police lines in that part of the Town known as "New Town" or Jugganathpore.

3rd

Education fell short of Estimate by Rs 40.3. There are 8 schools in the Town, 7 for Boys and one for girls. The present Returns give 271 boys against 220 in 1878.79.

4th

The Hospital is separately reported on by Mr Apothecary Roberts. This Officer who succeeded Mr Fielson in November last is doing good work and appears to be very popular.

The Annual Returns for 1879. 80
show a large increase of patients treated,
as compared with 1878. 79 - Natives
who from Caste prejudices have hitherto
hesitated to apply to the Dispensary
for aid, are now attending freely, and
this change the Commissioners believe
is in a measure due to the popularity
of the present Medical Officer.

5th The Register of Births shows 168
or 19.75 per mille against 114 or 12.91
in 78 and 79 - whilst the Mortuary Reg-
ister shows 227 or 25.71 per mille against
289 or 32.75 in 1878. 79 Cheapness of food
as compared with the previous year has
no doubt contributed materially to these
results - No deaths were reported
from Small pox or Cholera during the
year.

6th There was a falling off in the
vaccination - the Register showing 368
cases or 41.69 per mille against 467.
or 52.90 per mille in 1878. 79

Original

Annual Concise Report of the Municipal Dispensary for the Official Year ending 31st March 1880

I. General and Seasonable Phenomena - The monsoon came down in seasonable time, and in sufficient quantity, by which the Ryots were enabled to reap good crops. The Port was not, fortunately visited by Cyclones. The temperature has been more or less as usual.

II. Necessaries of Life - The prices of food grains have come down to within the reach of the poorest inhabitants. So that, they who had to sell their cattle and other house-hold goods and farm furniture, are replacing them and paying off old debts. The market is well stocked with grains, and there is a look of prosperity everywhere. 3rd Sort Rice is selling at 18 seers per Rhy and Raggy at 24 seers per Rhy. The cost is the chief food of the poorer classes. Water is obtained chiefly from wells and in abundance and of good quality. There is enough of pasturage for cattle, and they are all in good condition. There is no cattle disease at present, nor did it prevail during the year.

III. General State of Health - The health of the population was very fair during the year, notwithstanding the prevalence of fever during the months of July and August. The number of deaths registered at the Municipal Office are 224 and 116 births. There were 368 subjects vaccinated successfully.

IV. Cholera (Number admitted with deaths should be given) Cholera did not prevail during the year, but one case of Cholera was admitted to Hospital from the Contonment of P. P. Cutna from Gopalspore.

V. Small pox. The town was free from small pox.

during the period under report Vaccination is performed by the Municipal Vaccinator under the immediate orders of the Medical Officer so that the working is much more satisfactory than heretofore would here beg to recommend the compulsory vaccination of all Children attending our Public Schools.

and to insist upon every Candidate producing a vaccination certificate when seeking for Government employment is matter of what sort, as there are many Native Officials holding high posts who are not vaccinated.

There is a quarantine shed on a convenient site for small pox cases that may be brought by coasting vessels. There were two cases landed from one of the Steamers, during the year and treated in the above shed successfully.

Malarial Fevers. Ague of the three types prevailed to a large extent throughout the District and in the Town during the months of July and August in an epidemic form of course there are always cases of Ague in the Town. And will be as long as the Swamp to the north of the Town; is allowed to be flooded and dried alternately. This swamp would make a good site for a set of Salt-pans or reclaimed and utilized for some other purpose with profit to the Municipality. Iodine was most successfully employed in the treatment of the fever that prevailed during the year.

II. Prevailing Diseases. The prevailing diseases among the out-door and in-door patients both Europeans and Natives were. Intermittent fevers Rheumatic Affections. Dermang and Secondary Syphilis Inflammation of the External Ear Dysentery. Diarrhoea and above all Round worms. Every person appears to be possessed of this Parasite and

whether it is generated from the food of grain or water. I am not in a position to decide.

VIII. New Dispensary — — — — — 41

IX. General Remarks. The past year has been a healthy one. Although ague prevailed in an epidemic form. Rains fall has been good and the out-turn of the Crops all that could be desired. So that the people appear to be everywhere in comparative ease.

The Sanitary Condition of the Town cannot be expected to be better every means is taken both by the Municipality and the Police to keep the place clean tidy and healthy. Of course there is always room for improvement. If two Cinerators were built, one for each end of the Town, for burning the refuse and other sweepings: instead of throwing it on the beach as at present and waiting the vicissitudes of the season for its destruction and removal. It would render the Town still healthier and be a source of gain to the Municipality.

To

C. A. Galt Esq

Secretary to the Board of
Revenue, Madras

Sir

I have the honor to submit herewith a
Memo of License Tax transactions of the Bimlipatam
Municipality for 1879 with reference to G. O. N^o 1548
dated 10 August last SD.

Vizagapatam collector's
office 24th September/80

I have
(sd) C. H. Mouney
For President M.C.

The Board observe from the memo of
accounts submitted with the letter above read
that Rs 870 are entered as the settled demand
whereas the same is entered at Rs 880 in the statement
N^o

No. I accompanying the annual License Tax report for 1879. The President is requested to explain the discrepancy noting any alterations of the account required. It is further noticed that the remuneration has not been deducted from the settled demand in making payment to Government as directed in para 2 of the Board Proceedings 5th June 1880 No 766. Otherwise the accounts are correct.

2. The President is requested to deduct the overpayment to Government on account of 1879 from the sum payable to Government for 1880.

Proceedings of the Board of Revenue

Dated 20 January 1881.

Read the following:-

N. 1046.

From W. A. Wappell Esquire

President Municipal Commission
Tirupattur District.

To C. A. Galt Esquire
Secretary to the Board of Revenue
Madras

Referring to the Proceedings of the Board of Revenue this N. 12341 of 8 instant I have the honor to inform you that the correct gross demand of the Tirupattur Municipality on account of License Tax for the year 1879 is Rs. 870 as given in the memo submitted with this office letter N. 885 dated 24 Sept. last. The difference between this demand and that given in Statement N. I accompanying the License Tax Report for 1879 is Rs. 10 and is due to the amount which was granted as a remission to one Lakshmana Chetty (he having been licensed at Madras for his whole business) not having been deducted by mistake from the demand given in the above statement.

Tirupattur
Local Fund Board.
Office - 24 Nov. 1880

^{1103/1500} 3P
 2. The receipts, excluding
 License tax, aggregated
 Rs 9,989 against Rs 9,940
 estimated and Rs 8,120 actual
 of 1878-79. The increase
 over last year's income is
 due to the subaument
 of the House tax from 5 to $\frac{1}{2}$
 percent and to the increased
 revenue from tolls, which,
 in the previous year, was
^{supered from} low owing to the effects
 of the cyclones of
 1878. The tolls were
 farmed out for Rs 5,600
 and a fourth of this was
 paid to the Local Board
 with reference
 to G.O. 31st March 1879
 Rs 615. The collection
 of the taxes was satisfactory.

a sum of only Rs 175 under
House rates remaining in
arrear at the close of the
year. In the D.C. B.
Statement (current) the
items "taxes on vehicles
and animals" & "registra-
tion of carts" should find
no place, ~~as under the~~^{if}
provisions of the Act, ~~no~~^{were}
~~properly worked~~
~~and could accrue~~
~~under these heads.~~ The
President will explain
how the demand for these
items were calculated.
The auditor has rightly
altered the account
so as to leave no balance
under these heads.

3. With reference to the
remarks of the Board
of

of Revenue regarding
the License tax account,
it is observed that the
auditor explains that
Rs 50 of the overpayment
to Government have been
recovered within the year
leaving only Rs 9 to be
adjusted in 1880-81. It
should be stated whether
the amount recovered was
credited in the accounts
and if so under what head.
4. Excluding License
tax collections paid to
Government, the expendi-
ture amounted to
Rs 10,112, against Rs 10,000
estimated and Rs 8,250
actual of 1878-79. It was
distributed

distributed in the following proportions and a sum of Rs. 49 remained unspent in the hands of the Commissioners at the end of the year.

Grant I	15.7
Grant II	3.9
Grant III	55.7
Grant IV	11.4
Grant V	13.3

5. The expenditure on Public Works was Rs. 785 in excess of the budget estimates, which was chiefly owing to the formation of two new roads opening up a densely populated quarter and the construction of a street drains in Jaggan and Laxman. These works were calculated to prove of great utility. It is observed however that they were undertaken without sanction.

entailed an excess of Rs. 131 over the budget provision in the repair of Communications.

1103/1858
were made for them in the budget. The repair of Communications cost Rs. 130 over the budget estimate in consequence of the damage caused by the heavy rains of the previous year. It is hoped that the outlay has materially improved their condition.

6. The cost of Education was Rs. 401 including Rs. 240 paid as salary grant to the infant school in which the average attendance was 7 boys and girls, and Rs. 160 paid as results grants to 4 schools with an attendance of 128 boys. The Maharaja's school brought 58 boys while

while the other schools
in the town educated
264 boys. It is not explain-
ed why the sum of Rs. 40
provided for educational
inspection was not
availed of. ~~Whitson~~

The number of
outpatients treated in
the hospital was nearly
double that in the previous
year, being 8031 against
4305, ^{qualifying evidence} ~~while the increase~~
^{of its popularity} ~~in the in-patients over the~~
~~number returned for 1898~~
~~was 2~~. The Commis-
sioners will endeavour
to reclaim ^{the malarious} ~~the swamp~~
to the north of the town
should ~~the~~ ^{the} early attention of
it being ~~represented~~
the Commis.

as

^{103/1045 68}
~~The giving of quick medicine~~
~~should be given to every patient~~
The disposal of the sweepings
in the manner pointed out
by the Port Surgeon seems
highly desirable. The
people of
vaccination ~~with~~ ^{is not}
~~not appear to make satis~~
factory progress, only 368
operations being reported
against 467 in the
year preceding. The cost
per head vaccinated
was as high as Camas
and 1 pie. The vital
statistics appear to be
still unsatisfactory
the deaths reported being
168 against 227 deaths.
The Conservancy of the
town

town appears from the
~~General Officer's report~~
 to have been well attend-
 ed to. The President's
 report should furnish full
 detailed information concerning
 this important branch
 of Municipal adminis-
 tration. The amount
 contributed towards the
 Police charges was Rs. 524
 or Rs. 76 less than the
 budget provision. The
 remark in column 7
 of Statement VI B seems
 to imply that payment
 for the Police was made
 only for the last six months
 of the year. The

Inspector

Only half of the Police con-
 tribution was paid within
 the year. The remark in
 Stat. VI B was seen to imply
 that the part was only for
 the last six months. It should
 be explained whether the whole
 amount has yet been
 met

70
 Inspector General of Police
 will state why no contribu-
 tion was levied from the
 Municipality for the first
 half of the year. That
~~income under grant appears~~
~~the owing to heavy charges~~
 incurred for printing ^{under grant} ~~appears~~
~~excessive should be reduced~~
~~these should be reduced~~
 and the ^{total} expenditure under
 this grant should ^{be reduced} ~~if possible~~
 not exceed 10 per cent of the
 receipts of the year excluding
 License tax.
