From T. J. HOPE, Esq., Officiating Secretary to the Government of India, Department of Finance and Commerce, to the Secretary to the Government of Madras, dated Simla, 24th June 1881, No. 1303 [Current No. 1690].

I am directed to invite attention to my letter, No. 1868, dated the 23rd July last, and subsequent reminders in regard to Important Industries for publication in the Volume of Miscellaneous Statistics.

2. As the information asked for related to simple facts, it was not supposed that above two or three months at most would be necessary for its supply, but nearly a year has now elapsed since the date of my letter above quoted. His Excellency the Governor-General in Council now requests that the Government of Madras will use their best endeavours promptly to overcome whatever difficulties may have caused this delay, as much importance is attached to the publication of the information in question.

Circulated for Orders

The information
called for by the Govt
of India was furnished
with Docket No 1099,
dated 15 June, 1881. The
delay in its submission
was due, it will be
observed, in part to
the

the want of uniformity in the information supplied by Collectors (para 2 of Bds' Resolution No 1015 dated 9 June 1881). The Original heading of the 4th Column of the return was certainly vague. Even allowing for this, there seems to have been a lack of promptitude alike on the part of the Board and the Collectors consulted. Submitted that the present letter might be referred to the Board for such remarks as they may wish to offer.

The Board's Mo: recorded in G.O. 15 June 81 No 1098 do not show the dates of the replies received from

the Districts in reply to their requisition of 11 Oct 1880

No 1491- ¹²³⁹/₄

It is always difficult to get information out of private companies and in the present instance it might suffice to record the current paper with ref: to G.O. No 1098 and with the remark that the Board will be desired to exercise more promptitude in disposal of similar future applications for statistics.

The Board of Revenue will be desired to exercise

more promptitude
in the disposal of
similar future ap-
plications for statistics.
