ORDER THEREON, 5th July 1881, No. 1246.

The Board propose to follow the instructions of Government, regarding the manner in which amounts reserved for famine adjustments should be shown, in preparing the regular estimate to be submitted with the budget for 1882-83. The instructions were intended for observance in 1881-82, and the budget should be revised accordingly.

DISPOSED OF
5 JUL 81
BY G.O. No.

2. The large increase* of Rs. 33,200 in the opening balance of the Regular Estimate is attributed to large collections of the Land Cess arrears commented on by Government in paragraph 3 of their Order, dated 3rd February 1880, No. 249, and to short expenditure particularly on Public Works during 1879-80. The Regular Estimate as revised by the Board

* Budget Estimate, 1881 ..	RS.
Regular ..	22,290
Excess ...	55,490
	33,200

*of Revenue does not call for remark, except that the small sum of Rs. 5, shown as endowment receipts, should have been explained, as it appears to be a new item.

3. The cost of the Public Works Establishment should be entered at the amount sanctioned by Government.

4. From the closing balance of Rs. 39,170, according to the Regular Estimate under Road Fund, the Board of Revenue propose to carry forward only Rs. 12,170 to the budget for 1881-82, reserving Rs. 27,000 for adjustment of famine expenditure, the exact amount of which is unknown. Should such reservation be deemed necessary it seems desirable not to omit the amount from the accounts altogether, but to include it in them showing the anticipated liability as a charge. The estimated receipts for 1881-82 are much the same as those of the previous year.

5. The allotment for New Works, Communications, is passed under the explanation furnished. The cost of the Local Fund Engineering Establishment is taken at the amount (Rs. 7,220) sanctioned by Government. There is a difference† of Rs. 25 between the total given in Column 3 of the Statement II-B and that shown in Statement II under "New

Works and Repairs—Communications," which should have been explained. The increased provision under Education is passed with reference to the remarks of the Director of Public Instruction. The Surgeon-General's observations regarding reduced provision for furniture should receive attention. The grant for Vaccination and Sanitation, although in excess of that sanctioned for 1881, is considered by the Sanitary Commissioner to be insufficient. It will, however, be retained as the finances of the Circle do not admit of its enhancement. The cost of maintaining bungalows is given as Rs. 230 including establishment and repair charges, while no income is budgeted from this source, although the Vice-President states that arrangements have been made for levying fees.

6. The Right Honorable the Governor in Council passes the Local Fund Budget of the Penukonda Circle for 1881-82.

(True Extract.)

(Signed) R. DAVIDSON,
Chief Secreary.

Resolution—

THE Local Fund Budget of the Penukonda Circle for 1881-82 will be printed and circulated to all officers concerned.

2. Paragraph 2 of the Government Order.—The sum of Rs. 5 shown under (b) Hospitals, 6, "Receipts from Endowments, &c.," is the sale proceeds of medicines in the Local Fund Dispensaries of the Circle.

3. Paragraph 4 of the Government Order.—The suggestion of Government regarding the exhibition of the Road Fund balance reserved for the adjustment of famine expenditure as a charge in the Regular Estimate will be kept in view for the Budget of 1882-83, should such reservation be found necessary.

4. Paragraph 5 of the Government Order.—The difference pointed out in this paragraph is due to the fact that the allotment for New Works, Communications, in Statement II was erroneously entered as Rs. 3,200 instead of Rs. 3,170 as shown in Part I of the Budget. The figure in Statement II was altered, but not in Statement II-B, as the amount involved was very small, and as it was not possible to adjust the difference in the latter statement, which shows the talukwar distribution of the amounts allotted for Road Works, New as well as Repairs.

5. The attention of the President is called to the remarks of Government regarding the income expected from the Travellers' Bungalows of the Circle, and he is requested to report what amount is likely to be realized in the current year.
