Municipal Reports.

Read the following paper :—

From F. A. NICHOLSON, Esq., Vice-President of the Municipal Commission, Karúr, to the President of the Municipal Commission, Karúr, dated 12th August 1881, *No.* 179.

With reference to G.O., dated 20th July 1881, No. 1321, reviewing the annual report of the Karúr Municipality for the year 1880-81, communicated with your endorsement, No. 154, of the 8th current, I have the honor to explain that since the sum of Rs. 200 (*vide* concluding part of paragraph 5 of Government Order) was paid to, and repaid by, the Municipality within the year under report to Government, the amount was scored out both on the credit and debit sides of the account to avoid the unnecessary and apparent swelling of the actual receipts of the year thereby and the consequent increase of contributions to be paid by the Municipality in proportion to its receipts. Hence no transaction was exhibited in the annual accounts submitted with the report.

2. With regard to the non-payment of a half per cent. on account of Sanitary Inspection, I have to explain that it has been omitted by oversight, no demand having been made on that account by the Treasury Officer. The actual payment was also believed to be contingent upon the sanctioning and carrying into effect of a scheme for sanitary divisions to be proposed by the Sanitary Commissioner (paragraph 8 of G.O., No. 1537, of 21st October 1879), and, pending the sanction, it was not understood that the payment of this half per cent. was to be actually made, as the half per cent. was understood as the pecuniary provision for that scheme. I request to know if I should now pay the amount to the Treasury.

3. With reference to paragraph 6, I fear that my report was misleading as regards vaccination, since the numbers vaccinated are more by 108 than actual births during the year and more by 156 than infants which survived ; this, in a small Municipality which has for some years been regularly vaccinated, seems creditable, as it is impossible to get many adult cases.

No. 73 [Current No. 2207].

Submitted to Government with reference to paragraphs 5, 6, and 8 of their Order, No. 1321, of 20th July 1881, in the Financial Department.

2. The sum of Rs. 200 referred to in paragraph 5 of the Government Order should have been shown by the Vice-President on both sides of the account.

3. The contribution for sanitary inspection has since been ordered to be paid subject to subsequent Government Orders.

Karúr Municipal Office
12th August 1881.

F. A. Nicholson Esqre
Vice President of the
Karúr Municipality.

To,

W. Wilson Esquire.
President of the Karúr
Municipality

Sir,

With reference to G. O. dated 20th July 1881, No 1321, reviewing the Annual report of the Karúr Municipality for the year 1880-81, communicated with your endorsement No 154 of the 8th current, I have the honor to explain that since the sum of Rs 200 (vide concluding part of para 5 of G. O.) was paid to and repaid by, the Municipality within the year under report to Govt, the amount was scored out both on the credit and debit sides of the account

to avoid the unnecessary and apparent swelling of the actual receipts of the year thereby, and the consequent increase of contributions to be paid by the Municipality in proportion to its receipts. Hence, no transaction was exhibited in the annual accounts submitted with the report.

With regard to the non-payment of a ½ per cent on account of Sanitary Inspection, I have to explain that it has been omitted by oversight, no demand having been made on that account by the Treasury Officer. The actual non-payment was also believed to be contingent upon the sanctioning and carrying into effect of a scheme for Sanitary divisions to be proposed by the Sanitary Commissioner (Para 8 of G.O. No. 1537 of 21st October 1879) and pending the sanction it was not understood that the payment of this ½ per

cent was [illegible] actually made, as the ½ per cent was understood as the pecuniary provision for that scheme. I request to know if I should now pay the amount to the Treasury.

With reference to para 6, I fear that my report was misleading as regards vaccination, since the numbers vaccinated are more by 108 than actual births during the year and more by 156 than infants which survived: this, in a small Municipality which has for some years been regularly vaccinated, seems creditable as it is impossible to get many adult cases.

I have &c
