GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

31st August 1881, No. 1602.

Municipal Reports.

Read the following paper :—

From E. TURNER, *Esq., Vice-President of the Municipal Commission, Tuticorin, to the President of the Municipal Commissions, Tinnevelly District, dated Tuticorin, 19th June* 1881, *No.* 133.

1. Statement of Receipts and Charges.
2. Statement* of License-tax.
3. Statement of Tolls.
4. Return of Vaccination.
5. Statement of Births and Deaths.

I have the honor to submit the annual report of this Municipality for the year 1880-81. The usual statements and returns are appended as marginally noted (the last two not submitted).

2. RECEIPTS, including the opening balance, amounted to Rs. 19,164-15-4 and the expenditure to Rs. 18,858-13-7, leaving a balance of Rs. 306-1-9. The amount in the bank at the close of the year was Rs. 2,506-13-6, uncashed cheques Rs. 9-3-6, deposit on account of toll contract, &c., Rs. 1,025, and unexpended balance Rs. 306-1-9.

	RS.	A.	P.
Balance from last year ..	27	0	0
Receipts in 1880-81	19,191	15	4
	19,164	15	4
Expenditure in 1880-81 ..	18,858	13	7
Balance ..	306	1	9

3. The receipts were Rs. 4,875-0-8 less than the estimate. The sale of land, which was expected to realize Rs. 2,000, produced but Rs. 56, and the contribution from Local Funds on account of the hospital, budgeted to fetch Rs. 2,500, was not collected within the year. Besides, the License-tax fell short of the estimate by Rs. 1,230. These items account for the decrease.

4. *Rates on Houses.*—The receipts from this source, including the arrears of previous year, amounted to Rs. 6,183-9-9, being Rs. 183-9-9 in excess of the estimate. 764 notices of demand and 384 warrants of distress were issued, and the fees collected under these heads were Rs. 192-2-0 and Rs. 2-9-0 respectively. Attachment was made only in 8 cases. No property was sold. The total demand was Rs. 6,595-14-0, of which Rs. 5,930-1-9 were collected during the year and Rs. 520-6-0 after the close of the year. Rs. 22-11-6 were remitted on appeal, and Rs. 122-10-9 remain outstanding.

5. *Land Rate.*—This tax has never been imposed. It should be imposed now. The Commissioners consider that a preliminary survey of all lands within the municipal limits is first absolutely necessary. Arrangements will be made to carry this into effect at once.

6. *Tax on Arts.*—The receipts under this head amounted to Rs. 2,222-8-0 against Rs. 2,500 of the budget, being Rs. 277-8-0 less than the estimate. The demand was Rs. 2,968, of which Rs. 2,179 were collected and Rs. 16 remitted on appeal, and the remaining sum of Rs. 773 is in course of collection.

7. *Tax on Vehicles and Animals.*—Rs. 527-8-0 were collected under this item, which is Rs. 27-8-0 over the estimate.

---

* Submitted through the Board of Revenue.

8. *Registration of Carts.*—There is an increase of Rs. 16 under this head over the budget of Rs. 150.

9. *Tolls* were leased out for Rs. 7,000, of which Rs. 6,416-10-8 were collected during the year and the remainder after the year. Of the above sum of Rs. 7,000, Rs. 2,138-14-2, being one-third, was paid over to the Local Fund Board. The remaining sum of Rs. 4,277-12-6 exceeds the estimate by Rs. 277-12-6.

10. *Imperial License-tax.*—The net demand, after remissions made on appeal, amounted to Rs. 3,160, of which Rs. 3,070 were collected during the year, and, of the remaining sum of Rs. 90, Rs. 35 were since collected, and demand notices are issued for the collection of the remainder.

11. *Endowment.*—In this item Rs. 1,430-9-0 were realized against Rs. 900 of the estimate. The increase is due to the purchase of medicines by out-patients.

12. *Miscellaneous.*—Rs. 226-5-11, or Rs. 25 over the amount of the last year, was obtained under this head.

13. Other items of fines and fees, &c., call for no remark.

14. EXPENDITURE—*Public Works—New Drainage.*—Rs. 618-12-0 were spent in constructing a drain to the south of the railway compound.

Repairs—Buildings.—Rs. 27-2-8 were spent for repairing the house occupied by the Hospital Assistant and the hospital latrines.

Communications.—An expenditure of Rs. 2,712-6-11 was incurred for repairing the roads against Rs. 2,050 of the budget grant. The main roads required much repairs; hence the increase in the expenditure was absolutely necessary.

15. *Education.*—No disbursement was made on this account during the year as the schools were not examined in due time.

16. *Sanitary and Miscellaneous.*—Dispensary cost Rs. 4,588-6-7 against the receipt of Rs. 1,430-9-0. Contribution from the Local Fund Board was not received during the year. Rs. 1,700 has since been received, and application for the remaining sum has also been made.

17. The number of in and out patients treated during the year was 292 and 5,830 against 333 and 6,464 of the last year, and the daily average amounts to 21·22 and 159·74 persons respectively.

18. *Vaccination.*—The establishment cost Rs. 165 and contingencies Rs. 59-5-0. The pay of the vaccinator for the last month of the year was paid in the beginning of the following year; 891 persons were vaccinated this year against 839 cases in the last year. Compulsory vaccination has been introduced into schools under the result system, and every effort is being made for the furtherance of vaccine operations.

19. *Registration of Births and Deaths.*—Rs. 225 were spent under this item—Rs. 200 for the pay of the Registrar and Rs. 25 for the arrears of the pay of the Circar Curnam who checked the accounts. There were 614 births and 501 deaths against 552 and 440 in the previous year. The service of the Circar Curnam was temporarily dispensed with in order to see the feasibility of securing correct accounts from the servants whose duty it is to furnish the necessary information to the Registrar. There was no epidemic during the year.

20. *The Conservancy* was under the direct management of the Commissioners and cost Rs. 2,685-14-5 against Rs. 2,810 budgeted. The decrease is owing to the abolition of two head coolies at Rs. 6 each.

21. Rs. 114-1-9 were paid for the contribution to the Medical College including the arrears of 1878-79 against Rs. 90 of the budget grant.

22. *Lighting* was also under the direct management of the Commissioners and cost Rs. 1,024-6-11 against Rs. 1,500, the budget grant. The number of lamps maintained was 82.

23. *Public Bungalow.*—Rs. 58-13-8 only were spent on account of the establishment against Rs. 162 budgeted. The bungalow was leased out for an annual rental

of Rs. 250 in the month of August 1880. The lessee has bound himself to give the passengers as much convenience as was allowed when the bungalow was under the direct management of the Commissioners. By this arrangement there is a saving of Rs. 250. Rs. 8-10-0 were spent for contingencies.

24. *Choultry.*—Rs. 32-14-11 were spent for the establishment against Rs. 70 estimated. The services of the gardener were dispensed with as not required for the present. Rs. 16-11-0 was laid out in repairing the pandal and compound fences.

25. *Watering Roads and Planting Avenues* cost Rs. 98-4-2, being Rs. 1-11-10 less than the estimate.

26. *Payment for Water.*—Rs. 174-13-11 were paid during the year. The bills for April, May, and December 1880 and January 1881 have not been yet paid, as the amount of the bills is disputed and the matter is under reference. Copies of correspondence between the Commissioners and the Public Works Department regarding the bills were forwarded to you with my letter, No. 107, dated 24th May 1881.

27. *Contribution to Police Force.*—Rs. 1,750 were spent on account of contribution towards Police force including the arrears of 1879-80.

28. *Head Office Establishment* cost Rs. 1,226-4-0 and contingencies Rs. 150.

29. *Miscellaneous.*—Audit fee, Rs. 100, as usual; office rent, Rs. 275; and printing forms, book, and minutes, &c., Rs. 401-9-0, including the arrears of former years.

30. Rs. 104-8-6 were refunded for House and Trade Tax on account of the current and last year.

31. As regards paragraph 2 of the Auditor's report, the register referred to was only a copy of the register of the former year, when the revaluation of the buildings was made. The book has since been certified.

32. With reference to paragraph 3, the Commissioners observe that the accounts connected with the Imperial License-tax should, as usual, be kept separate from the Municipal accounts. A distinct report is submitted for each, and it is better not to mix up the two accounts.

33. With reference to paragraph 4, the required information will be given hereafter as far as practicable.

34. Auditor's report, with enclosure, is herewith forwarded in original.

35. With reference to paragraph 8 of G.O., No. 1,733, dated 9th September 1880, I have to report that nightsoil and rubbish are buried in places set apart for the purpose outside of the town. The Commissioners do not consider that Tuticorin can be said to be "behindhand in this branch of sanitation," but it is differently situated in this respect from many other Municipalities. The surroundings of Tuticorin are nothing but sand and palmyras. There are scarcely any gardens; consequently there is no demand for manure. It simply does not pay to go in for expensive sanitary arrangements, such as cinerators, &c. Experiments in this direction have been undertaken *ad nauseam* by private firms, but they very soon found it did not pay and gave it up. The Commissioners have also tried to sell their manure without success. For the present, therefore, they are content to bury this nightsoil and rubbish in pits according to the plan followed in Tinnevelly.

ENCLOSURE No. 1.

Concise Medical Report of the Municipal Dispensary, Tuticorin, for the Official Year 1880-81.

Climate and Rainfall.—The climate of the station during the past year was for the greater part very dry, but in November and December there was a copious fall of rain, and the prices of food-grains have consequently fallen considerably. The total quantity of rain registered has amounted to 18·47 inches, which is slightly over the average rainfall of the station. The highest temperature recorded during the year was 96° in June, and the lowest temperature 77° in January. The average temperature of the station was therefore 87° and the range of temperature 19°.

Condition of Public Health.—The public health of the town during the past year was not very satisfactory, small-pox, measles, and hooping-cough having prevailed more or less throughout the entire period. Eighteen deaths from small-pox were registered and there were also several casualties from measles amongst children, but they are recorded under some other heading in the Municipal Register. Under the heading "Fevers" 132 deaths are shown, which is an increase of 36 upon the number registered in 1879-80.

Prevailing Diseases.—The principal diseases during the past year were fevers of all types, rheumatism, syphilis, dropsy, respiratory affections, dysentery, diarrhœa, abscesses, and ulcers. Of in-patients 292 were treated, and the average number daily under treatment has been 21·22. There were 37 deaths amongst this class of patients, and they were caused principally by dropsy, diarrhœa, and dysentery. Compared with the preceding year, there is a decrease of 41 patients, which is perhaps a matter for congratulation, as it shows that the usual causes which serve to drive the poorer classes into hospital have not prevailed with any great intensity.

Of out-patients 5,830 came under treatment, and the average daily attendance has been 159·74. There were 32 deaths in this class, and they were caused principally by diarrhœa, dysentery, teething, and convulsions. Compared with the previous year, there is a decrease of 634 patients, but the average daily sick is 1·33 higher, showing that the attendance has not fallen off.

Vaccination.—This is carefully kept up, but it is carried on under very great difficulties, the people evincing great repugnance to the performance of the operation.

TUTICORIN,
18th June 1881.

(Signed) D. O'LEARY,
Apothecary.

No. 1190 [Current No. 1743].

Submitted for the information of Government together with the prescribed statements.

2. *Paragraph* 15.—Schools in the Tuticorin Municipality were examined on the 26th, 27th, and 28th March last, the usual time for such examination. It appears the Deputy Inspector went twice before to examine these schools, but they were not ready.

3. *Paragraph* 26.—The correspondence on this subject was submitted to Government for orders with this office letter, No. 924, dated the 30th May 1881.

4. *Paragraph* 35.—Palmyras would be none the worse for manure, and cinerators are *not* expensive arrangements; quite the contrary.

TINNEVELLY,
4th July 1881.

(Signed) J. B. PENNINGTON,
President.

Proceedings of the Board of Revenue, dated 25th July 1881, *Miscellaneous No.* 7148 [*Current No.* 1979].

Read statement from the Collector of Tinnevelly, dated 4th July 1881, No. 380, showing the amount collected in the Tuticorin Municipality under the License-tax Act during 1880-81.

Submitted to Government with reference to paragraph 13 of G.O., Financial Department, dated 10th August 1880, No. 1548.

2. The amount fixed as final demand being Rs. 3,160 the 5 per cent. commission due to the Municipality is Rs. 158 and the sum payable to Government Rs. 3,002. The Municipality paid Rs. 2,000 during the year 1880-81 and Rs. 1,000 in April last. The total amount paid on account of 1880-81 is Rs. 3,000, or Rs. 2 less than the amount due.

(True Extract.)

(Signed) E. GIBSON,
Acting Secretary.

Total	26,170	24,040	19,165	

2. The receipts, excluding License-tax, amounted to Rs. 16,122 against Rs. 19,660 estimated and Rs. 20,469 actuals for 1879-80. The decrease was due mainly to the non-payment by the Local Fund Board of the contribution due from them on account of the hospital, and to sales of lands, from which Rs. 2,000 were expected, not having been effected; but the cause of the omission is in neither case explained. The taxes, excepting tolls, realized less revenue than in the previous year, owing apparently to negligence in collection, for large arrears under the House and Profession Taxes were left outstanding at the end of the year. Though coercive measures were largely resorted to for realizing the demand, they do not appear to have had the desired result. The non-levy of the land-rate was irregular; and the reason assigned does not explain the delay, which should not have been allowed to occur, in making the survey said to be required.

3. The expenditure aggregated Rs. 16,859 against Rs. 19,050 estimated and Rs. 22,197 actuals for 1879-80. It was distributed as under :—

Grant I—Public Works	21·1
„ II—Education	..
„ III—Sanitation	46·3
„ IV—Miscellaneous	19·0
„ V—Supervision and Management	13·0
Refunds	·6

4. The greater portion of the expenditure on Public Works was confined to the repair of roads. The amount so spent bears a fair proportion to the receipts from Tolls.

5. No expenditure was incurred on Education owing to the schools not having been examined for results grants in proper time. The President explains that the Deputy Inspector went twice during the year to examine the schools, but they were not then ready. Better arrangements should be made in future.

6. The working of the dispensary during the year presents no noteworthy features, except that, notwithstanding the decrease in the numbers treated as marginally noted, there was no falling off in the average daily attendance of the sick. Vaccination showed improvement, 891 operations having been performed against 839 in the preceding year at a cost of four annas per operation. The registration of births and deaths appears to have been accurate.

	In.	Out.
1879-80	333	6,464
1880-81	292	5,830

7. The returns shows in—

	Births.	Rate per Mille.	Deaths.	Rate per Mille.
1879-80	552	52·2	440	41·6
1880-81	614	58·1	501	47·4

8. It is observed that the percentage of increase in both births and deaths is very nearly equal. The high death-rate, in the absence of any epidemics, points to insanitary condition. It is noticed that the President does not agree with the Vice-President as regards the sufficiency of the conservancy operations. That the sanitation of the town is susceptible of considerable improvement in this and other respects does not seem open to doubt.

9. The Auditor's remarks have been attended to. The Government will not insist on a change being made in the keeping of the License-tax accounts. The account of this tax submitted to the Board of Revenue does not show the amount due at the end of the year to Government, although it can be gathered from the entries. If the form is one prescribed by the Board of Revenue, they should revise it so as to admit of this information appearing on the face of the accounts. As observed in the reports of other Municipalities, no outlay has been incurred under G.O., dated 21st October 1879, No. 1537, Public Department.

Municipal Reports.—Report on the working of the Tuticorin Municipality during 1880-81, reviewed.

No 133

Municipal Commissioners Office
Tuticorin 19th June 1881

CURRENT No. 1..3

From E. Turner Esquire,
Vice President of,
Tuticorin Municipality

To The President of, $\frac{1602}{24}$
Tinnevelly Municipalities.

Sir,

I have the honor to submit the annual report of this Municipality for the Year 1880—81. The usual Statements and Returns are appended as marginally noted (the last 2 not submitted).

1. Statement of Receipts + charges ×
2. Statement of License Tax ×
3. Statement of Tolls.
4. Return of Vaccination
5. Statement of Births + deaths.

× Submitted through the Board of Revenue.

DISPOSED OF 31 AUG BRD OF M.

2. Receipts including the opening balance amounted to Rs 19,164-15-4

	Rs. A. P.
Balance from last year.	-27- " - "
Receipts in 1880-81.	-19191-15-4
	19164-15-4
Expenditure in 1880-81.	18858-13-7
Balance	306-1-9

and

and the expenditure to Rs 18,858-13-7 leaving a balance of Rs 306-1-9. The amount in the Bank at the close of the Year was Rs 2,506-13-6, uncashed cheques Rs 9-3-6, deposit on account of Toll Contract &c Rs 1025-.-. and unexpended balance Rs 306-1-9.

3. The receipts were Rs 4,875-.-8 less than the estimate. The sale of land which was expected to realize Rs 2,000 produced but Rs 56-.-. and the contribution from Local Funds on account of the hospital budgetted to fetch Rs 2,500 was not collected within the year. Besides, the License Tax fell short of the estimate by Rs 1230. These items account for the decrease.

4. Rates on houses:- The receipts from this source including the arrears of previous Year amounted to Rs 6,183-9-9 being Rs 183-9-9 in excess of the estimate. 764 notices of demand and 384 warrants of distress were issued, and the fees collected under these heads were Rs 192-2-. and Rs 2-9- respectively. Attachment was made only in 8 cases. No property was sold. The total demand was Rs 6,595-14-. of which Rs 5,930-1-9 were collected during the year and Rs 520-6-. after the close of the Year. Rs 22-11-6 were remitted on appeal and Rs 122-10-9 remain outstanding.

16 2/25

5. Land rate:- This tax has never been imposed. It should be imposed now. The Commissioners consider that a preliminary survey of all lands within the Municipal limits is first absolutely necessary. Arrangements will be made to carry this

into effect at once.

6. Tax on Arts:– The receipts under this head amounted to Rs 2,222-8-– against Rs 2,500 of the budget being Rs 277-8-– less than the estimate. The demand was Rs 2,968-–-– of which Rs 2,179 were collected and Rs 16-–-– remitted on appeal and the remaining sum of Rs 773-–-– is in course of collection.

7. Tax on vehicles and animals:– Rs 527-8-– were collected under this item which is Rs 27-8-– over the estimate.

8. Registration of Carts:– There is an increase of Rs 16 under this head over the budget of Rs 150-–-–.

9. Tolls. were leased out for Rs 7,000 of which Rs 6,416-10-8 were collected during the year and the remainder after the year. Of the above s of Rs 7,000, Rs 2,138-14-2 being

being 1/3rd was paid over to the Local Fund Board. The remaining sum of Rs 4,277-12-6 exceeds the estimate by Rs 277-12-6.

1602
26

10. Imperial License Tax:– The net demand after remissions made on appeal amounted to Rs 3,160 of which Rs 3,070 were collected during the year, and of the remaining sum of Rs 90, Rs 35 were since collected and demand notices are issued for the collection of the remainder.

11. Endowment. In this item, Rs 1,430-9-– were realized against Rs 900 of the estimate. The increase is due to the purchase of medicines by Out-patients.

12. Miscellaneous:– Rs 226-5-11 or Rs 25 over the amount of the last year was obtained under this head.

13. Other items of fines and fees &c

Call for no remark.

14. Expenditure. – Public Works. New Drainage. Rs 618-12-0 were spent in constructing a drain to the south of the Railway Compound. Repairs: Buildings. Rs 27-2-8 were spent for repairing the house occupied by the Hospital Assistant and the Hospital latrines. Communications. An expenditure of Rs 2712-6-11 was incurred for repairing the roads against Rs 2,050 of the Budget grant. The main roads required much repairs, hence the increase in the expenditure was absolutely necessary.

15. Education. No disbursement was made on this account during the year as the schools were not examined in due time.

16. Sanitary and Miscellaneous.

4P

Dispensary Cost Rs 4,588-6-7 against the receipt of Rs 1,430-9-0. Contribution from the Local Fund Board was not received during the year. Rs 1,200 has since been received and application for the remaining sum has also been made.

1602/8027

17. The number of In and Out patients treated during the year was 292 and 5,830 against 333 and 6,464 of the last year and the daily average amounts to 21.22 and 159.74 persons respectively.

18. Vaccination. The establishment Cost Rs 165 and Contingencies Rs 59-5-. The pay of the Vaccinator for the last month of the year was paid in the beginning of the following year. 891 persons were vaccinated this year against 839 cases in the last year. Compulsory vaccination

has been introduced into schools under the result system and every effort is being made for the furtherance of vaccine operations.

19. Registration of Births & Deaths: Rs 225 were spent under this item. Rs 200 for the pay of the Registrar and Rs 25 for the arrears of the pay of the Circar Curnam who checked the accounts. There were 614 births and 501 deaths against 552 and 440 in the previous year. The service of the Circar Curnam was temporarily dispensed with in order to see the feasibility of securing correct accounts from the servants whose duty it is to furnish the necessary information to the Registrar. There was no epidemic during the year.

20. The Conservancy was under the direct management of the Commissioners and Cost Rs 2,685-14-5 against Rs 2,810 budgetted. The decrease is owing to the abolition of two head head Coolies at Rs 6 each.

21. Rs 114-1-9 were paid for the Contribution to the Medical College including the arrears of 1878-79 against Rs 90 of the Budget grant. 1602/28

22 Lighting was also under the direct management of the Commissioners and Cost Rs 1,024-6-11 against Rs 1,500, the Budget grant. The number of lamps maintained was 82.

23. Public Bungalow: Rs 58-13-8 only were spent on account of the Establishment against Rs 162 budgetted. The bungalow was leased out for an annual rental of Rs 250 in the month of August 1880. The lessee has bound himself to find

the passengers as much Convenience as was allowed when the bungalow was under the direct management of the Commissioners. By this arrangement, there is a saving of Rs 250. Rs 8-10-0 were spent for contingencies.

24. Choultry. Rs 32-14-11 were spent for the establishment against Rs 70 estimated. The services of the gardener were dispensed with as not required for the present. Rs 16-11-0 was laid out in repairing the pandal and Compound fences.

25. Watering roads and planting avenues. Cost Rs 98-4-2, being Rs 1-11-10 less than the estimate.

26. Payment for water. Rs 174-13-11 were paid during the year. The bills for April, May and December 1880 and January 1881 have not been yet

paid, as the amount of the bills is disputed and the matter is under reference. Copies of Correspondence between the Commissioners and the D. P. W. regarding the bills were forwarded to you with my letter No 107 dated 24th May 1881.

27. Contribution to Police force. Rs 1750 were spent on account of contribution towards Police force including the arrears of 1879-80.

1602/29

28. Head Office Establishment. Cost Rs 1226-4-0 and Contingencies Rs 150.

29. Miscellaneous. Audit fee Rs 100 as usual. Office rent Rs 275 and printing forms, book and minutes &c Rs 401-9-0 including the arrears of former years.

30. Rs 104-8-6 were refunded for house and Trade Tax on account

of the Current and last year.

31. As regards para 2 of the Auditor's report, the Register referred to was only a Copy of the register of the former year when the re-valuation of the buildings was made. The book has since been Certified.

32. With reference to para 3, the Commissioners observe that the accounts Connected with the Imperial License Tax should, as usual, be kept separate from the Municipal accounts. A distinct report is submitted for each, and it is better not to mix up the two accounts.

33. With reference to para 4, the required information will be given hereafter as far as practicable

34. Auditor's report with Enclosure is herewith forwarded in original.

35 With reference to para 18 of G. O. No 1733 dated 9th September 1880 I have to report that night soil and rubbish are buried in places set apart for the purpose outside of the town. The Commissioners do not Consider that Tuticorin Can be said to be "behind hand in this branch of Sanitation", but it is differently situated in this respect from many other municipalities. The surroundings of Tuticorin are nothing but sand and palmyrahs. There are scarcely any gardens, Consequently there is no demand for manure. It simply does not pay to go in for expensive Sanitary arrangements such as Cinerators &c. Experiments in this direction have been undertaken 'ad nauseam' by private firms but they very soon found

it did not pay and gave it up. The Commissioners have also tried to sell their manure without success. For the present, therefore, they are content to bury this night-soil and rubbish in pits according to the plan followed in Tinnevelly.

Have &c

(Signed) E. Turner.

Vice President.

10^B

No 1190

Submitted for the information of Government together with the prescribed Statements.

2. Para 15. Schools in the Tuticorin Municipality were examined on the 26th, 27th & 28th March last, the usual time for such examination. It appears the Deputy Inspector went twice before to examine these schools, but they were not ready.

3. Para 26. The correspondence on this subject was submitted to Government for orders with this office letter No 924 dated the 30th May 1881. X X

4. Para 35. Palmyras would be none the worse for manure, and Cinerators are not expensive arrangements: quite the Contrary.

Concise Medical Report of the Municipal Dispensary, Tuticorin for the Official Year 1880-81.

1602/39

Climate and Rainfall. The climate of the station during the past year was, for the greater part, very dry, but in November and December there was a copious fall of rain, and the prices of food-grains have, consequently, fallen considerably. The total quantity of rain registered has amounted to 18.47 inches, which is slightly over the average rainfall of the station. The highest temperature recorded during the year was 96° in June, and the lowest temperature 77° in January. 32 The average temperature of the station was therefore 87°, and the range of temperature 19°.

Condition of Public Health. The public health of the town during the past year was not very satisfactory. Small-pox, Measles and Hooping-Cough having prevailed, more or less, throughout the entire period. Eighteen deaths from Small-pox were registered, and there were also several Casualties from Measles, amongst Children, but they are recorded under some other heading in the Municipal Register. Under the heading "fevers", 132 deaths are shown, which is an increase of 36 upon the number registered in 1879-80.

Prevailing Diseases. The principal diseases during the past year were fevers of all types, Rheumatism, Syphilis, Dropsy, Respiratory affections,

Dysentery, Diarrhoea, Abscesses and Ulcers. Of Inpatients, 292 were treated, and the average number daily under treatment has been 21.22. There were 37 deaths amongst this class of patients, and they were caused principally by Dropsy, diarrhoea and Dysentery. Compared with the preceding year, there is a decrease of 41 patients, which is perhaps a matter for congratulation as it shows that the usual causes which serve to drive the poorer classes into hospital, have not prevailed with any great intensity.

Of Out patients, 5,830 came under treatment, and the 33 average daily attendance has been 159.74. There were 32 deaths in this class, and they were caused principally by Diarrhoea, Dysentery

Teething & Convulsions. Compared with the previous year, there is a decrease of 634 patients, but the average daily sick is 1.33 higher, showing that the attendance has not fallen off.

Vaccination. This is carefully kept up, but it is carried on under very great difficulties; the people evincing great repugnance to the performance of the operation.

Refunds	1501	"	104	·6
Balances	-27	990	306	1·6
Total	26,170	24040	19165	

The receipts, excluding License tax, amounted to Rs. 16,122 against Rs. 19,660 estimated and Rs. 20,469 actuals for 1879-80. The decrease was due mainly to the non-payment by the Local Fund Board of the contribution due from them on account of the Hospital and to sales of lands from which Rs. 2000 were expected not having been effected; but the cause of the omission is in neither case explained. The taxes, excepting tolls, realized less revenue than in the previous year owing apparently to negligence

in

in collection, for large arrears under the House & Profession taxes were left outstanding at the end of the year. Though coercive measures were largely resorted to for realizing the demand, they do not appear to have had the desired ~~effect~~ result. The non-levy of the land rate was irregular and the reason assigned does not explain the delay, which should not have been allowed to occur, in making the survey said to be required.

The expenditure aggregated Rs. 16,859 against Rs. 19,050 estimated and Rs. 22,197 actuals for 1879-80. It was distributed as under:-

Grant I, Public Works ...	21.1
— " — II, Education ...	"
— " — III, Sanitation ...	46.3
— " — IV, Miscellaneous ...	19.0
— " — V, Supervision & management ...	13.0
Refunds ...	.6

The greater portion of the expenditure on Public Works was confined to the repair of roads. The amount so spent bears a fair proportion to the receipts from Tolls.

No expenditure was incurred on Education owing to the schools not having been examined for results grants in proper time. The President explains that

that the Deputy Inspector went twice during the year to examine the schools but they were not then ready. Better arrangements should be made in future.

The working of the dispensary during the year presents no noteworthy features except that notwithstanding the decrease in the numbers treated, as marginally noted, there was no falling off in the average daily attendance of the sick. Vaccination shewed improvement - 891 operations having been

	In.	Out
1879-80	333	6464
1880-81	292	5830

been performed against 839 in the preceding year, at a cost of 4 annas per operation. The registration of Births and deaths appears to have been accurate.

The returns shew in:-

	Births	Rate per mille	Deaths	Rate per mille
1879-80	552	52·2	440	41·6
1880-81	614	58·1	501	47·4

It is observed that the percentage of increase in both births and deaths is very nearly equal. The high death rate, in the absence of any epidemics, points to insanitary condition. It is noticed that the President does not agree with the Vice President as as regards the sufficiency of the conservancy operations. That the sanitation of the town is susceptible of considerable improvement in this and other respects does not seem open to doubt.

The auditor's remarks have been attended to. The Government will not insist on a change being made in the keeping of the License tax accounts. The account of this tax submitted to the Board of Revenue does not shew the account due at the end of the year to Government, although it can be gathered from the entries. If the form is one prescribed by the Board of Revenue, they should revise it so as to admit of this information appearing on the face of the accounts. As observed in the reports of other Municipalities, no outlay has been incurred under G.O. 21st October 1879, No. 1537 Public Deptt.

No 1012. 5

CURRENT No. 1743

To
The President,
Municipal Commission,
Tuticorin.

1602/6

Sir,

I beg to report that I have audited the accounts of the Tuticorin Municipality for the year ended the 31st March 1881.

The receipts of the Municipality for the year have all been correctly brought to account, and the disbursements are supported by proper vouchers. The several Registers of Rates and Taxes &c have been carefully examined by me and found to be correct, but the Register of House Tax has not been authenticated and certified to by the Commissioners as is required by section 48 of the Act.

The receipts and payments

on account of the License Tax are kept in a separate book, and the money is deposited to a distinct account in the Madras Bank, from that of the General funds of the Municipality. I would suggest that the transactions on account of the License Tax should be dealt with in the Municipal books as all other items of receipt and expenditure. There does not appear to be any advantage gained in keeping two distinct accounts.

The Notes to Statement II ought to show the value of unconsumable stores and plant on hand on the 31st March 1881, but there are no Store accounts to arrive at this. There is also no record shewing the details of the value of Premises &c by which the accuracy of the figures in the Notes can be ascertained.

I beg &c.
(Signed) Geo. T. Oliver
Auditor 1880-81.
