* The actual of 1880-81 is in excess of the average expenditure of 3 years in consequence of the use of net in place of the ordinary gunny bags. In addition to the Coin received during the year, which was higher than the usual receipts owing to the Establishment of a Branch Reserve Treasury in connection with the Currency, the whole of the old Coin in the Currency Vaults was also transferred to new bags, thus enhancing the expenditure of the year.

° This is higher than the average of 3 years owing to a remittance of specie of 20 lakhs Rupees being made to Bombay, which necessitated a larger disbursement than was incurred during the previous two years.
