GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

3rd October 1881, No. 1870.

Budget Estimate.

Read the following paper:—

From Deputy Surgeon-General M. C. FURNELL, M.D., F.R.C.S., Sanitary Commissioner for Madras, to the Chief Secretary to Government (through the Accountant-General), dated Madras, 13th September 1881, No. 2228 [Current No. 2555].

I have the honor to submit in duplicate the budget estimate of the Sanitary and Vaccine Departments for 1882-83.

2. The estimate is in excess of the grant for the current year 1881-82 by Rs. 3,260. The causes of, and the items under which, the increase is distributed are noted in the column of "Remarks." The largest increases under any one item are Rs. 1,200 and Rs. 1,000, the former due to provision having been made for increased salary and house-rent for Dr. Laing, Inspector of Vaccination and Deputy Sanitary Commissioner, who will become a Surgeon-Major on the 1st April 1882, and the latter is a provision made for the first time for "work done in Government factories." This increase, however, is more apparent than real as no cash payments will be made, the charges for any work that may be executed being adjusted in the Account Department as a book adjustment.

3. The increase noted under *f*, *h*, *i*, *j*, and *l* are charges proposed to be incurred for the first time, and I beg that Government may be pleased to allow them to stand and sanction the expenditure. Great inconvenience has hitherto been felt owing to no provision having been made on these accounts.

4. A peon for the Deputy Inspector of Vaccination, Jeypore Hill Tracts, is a necessary servant, and he should be allowed batta at double rates, as is granted to the vaccination peon in North Coimbatore Circle when he accompanies the Deputy Inspector on his tour in the hill taluks.

5. The Deputy Inspector of Vaccination of the Vizagapatam Circle inspects the work of the Government vaccinators on the Gudem Hills for two months in the year, and, to enable him to do his work efficiently, he should be allowed batta at the same rate as that granted to the Deputy Inspectors of other Hill Tracts. He should also be provided with service postage labels, and so must also the Deputy Inspector, who inspects the work of the vaccinators in the Bhadrachalam Taluk.

6. The increases that occur under the other items than those noticed above are charges already sanctioned by Government, but proposed to be slightly increased according to circumstances in each case.

7. Although the estimate is in excess of that for the year 1881-82, it is not likely that the whole amount will be spent. For instance the estimate for 1880-81 was Rs. 53,761, while the actuals for that year amounted to only Rs. 53,031.

Forwarded to the Chief Secretary to Government, Public Department.

(Signed) H. F. CLOGSTOUN,
Offg. Accountant-General.

16th September 1881.

ORDER THEREON, 3rd October 1881, No. 1870.

The amalgamated budget estimate of the Sanitary and Vaccination Departments for

		RS.	
Actuals	1877-78	58,398	1882-83 shows an increase over the current year's budget of Rs. 3,260 and of Rs. 4,547 over the average of the last five years, taking the estimates for the unknown actuals of 1880-81 and 1881-82.
	1878-79	51,929	
	1879-80	52,229	
Estimates	1880-81	53,761	The figures in the margin show progressive increase in the charges from 1878-79, and the expectation of Government that the estimate for the current year would be found susceptible of reduction after some experience of the working of the combined department remains unfulfilled.
	1881-82	55,688	
	1882-83	58,948	

the estimate for the current year would be found susceptible of reduction after some experience of the working of the combined department remains unfulfilled.

2. The increase in the present estimate is partly unavoidable owing to the higher rate of pay to which Dr. Laing will become entitled on the 1st April 1882. The other items of increase are fully explained, but the necessity for the provision of Rs. 1,000 for work in Government factories, which is described as a book adjustment involving no cash payment, is not apparent. The Accountant-General, who suggested the entry, will explain his reasons for recommending this course. The estimate is passed as submitted subject to further explanation on this point, and on the understanding that the actual expenditure be kept as much within the estimate as possible.

1870 Madras

To

The Chief Secretary to Government
Public Department
Colacannur

Sir

X Duplicate
retained by
the Accountant
General

I have the honor to submit
in duplicate the Budget estimate of the
Sanitary and Vaccine Department for 1882/83.

2. The estimate is in excess of the
grant for the current year 1881/82 by Rs.
3,260. The causes of, and the items
under which, the increase is distributed
are noted in the column of "Remarks".

The largest increases under any one
item are Rs. 1,200 and 1,000, the former
due to provision having been made
for increased salary and house rent
for Dr. Laing, Inspector of Vaccination
and Deputy Sanitary Commissioner,
who will become a Surgeon Major on the

1st April

1st April 1882, and the latter is a provision made for the first time for "work done in Government Factories". This increase, however, is more apparent than real, as no cash payments will be made, the charges for any work that may be executed being adjusted in the Account Department as a book adjustment.

3. The increases noted under f, h, i, j and l are charges proposed to be incurred for the first time, and I beg that Government may be pleased to allow them to stand and sanction the expenditure. Great inconvenience has hitherto been felt owing to no provision having been made on these accounts.

4. A person for the Deputy Inspector of Vaccination, Mysore Hill Tracts, is a necessary servant and he should be allowed better at double rates, as is granted to the Vaccination peon in North Canara Circle when he accompanies the Deputy Inspector

28
1870
7

Inspector on his tour in the hill taluhs.

5. The Deputy Inspector of Vaccination of the Vizagapatam circle inspects the work of the Government Vaccinators on the Gudem Hills for 2 months in the year, and to enable him to do his work efficiently he should be allowed better at the same rate as that granted to the Deputy Inspectors of other Hill Tracts. He should also be provided with service postage labels, and so must also the Deputy Inspector, who inspects the work of the Vaccinators in the Badrachellam taluk.

6. The increases that occur under the other items than those noticed above, are charges already sanctioned by Government, but proposed to be slightly increased according to circumstances in each case.

7. Although the estimate is in excess

1870
8

excess of that for the year 1881/82, it is
not likely that the whole amount
will be spent. For instance the
estimate for 1880/81 was 53,761, while
the actuals for that year amounted
to only 53,031.

READ the following letter

from the Sanitary Com-
missioner, Madras, dated
13th September 81 N^o 2228.

Order 3rd October 1881, N^o 1870.

The amalgamated
budget estimate of the
Sanitary & Vaccination
departments for 1882-83
shows an increase over the
current year's budget of
Rs 3,260 + of Rs 4,547
over the average of the
last five years, taking
the estimates for the sum-
known actuals of 1880-81
and 1881-82. The figures,
in the margin, show progressive
increase

AM

Actuals. 1877-78	58,398
1878-79	57,929
1879-80	52,229
Estimates. 1880-81	53,761
1881-82	55,688
1882-83	58,948

increase in the charge ^{from 1870}
and the expectation of
Government that the
estimate for the current
year would be found sus-
ceptible of reduction
after ^{some} experience of the work-
ing of the combined
Department had been ob-
tained (vide G.O. of 4th Decem-
ber, 1880, at p. 2258) remain
unfulfilled.

2. The increase
in the present estimate is
~~appears to be~~ partly
unavoidable owing to
the higher rate of pay
to which D. Laing
will become eligible. entitled on the 1st April 1882.
The other ^{if items of} increases are

fully

his reasons for recommending this course.
desires in his first instance to his receipt from sale of article 10th

1870/10
fully explained; but the
necessity for the provision
of Rs 1000 for work in
Government factories, which
is described as a book ad-
justment involving no cash
payment, is not apparent.
The Accountant Genl. who ~~has~~ ^{has} suggested
that the entry will explain. ~~It~~
~~appears to be a proper charge~~
~~only in the account~~
~~connected with the working~~
~~of the factory.~~ The
estimate is papered as sub-
mitted subject to further
explanation on this point
on the understanding
that the actual expendi-
ture will be kept as much
within the estimate as
possible.
