GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

5th October 1881, No. 1900.

Municipal—Reports.

Read the following paper :—

From G. McWATTERS, Esq., President of the Municipal Commission, Calicut, to the Officiating Chief Secretary to Government, dated Calicut, 15*th July* 1881, *No.* 188 [*Current No.* 1819].

I have the honor to forward, herewith, the annual report of the Tellicherry Municipality for the past official year 1880-81, together with the prescribed statements. The report of the Municipal Auditor and of the Medical Officer in charge of the Municipal Dispensary and of the Deputy Inspector of Schools are also submitted herewith.

RECEIPTS.

2. The total income of the Municipality during the year under report was Rs. 25,138-14-3, which with last year's balance of Rs. 1,103-3-2 brought the available amount to Rs. 26,242-1-5, or Rs. 7,587-14-7 less than was anticipated.

3. The particulars of receipts, as compared with the estimate of the year under report and the actuals of the previous year, are given below :—

—	Actuals of 1879-80.	Estimate of 1880-81.	Actuals of 1880-81.	INCREASE OR DECREASE AS COMPAPED WITH THE ACTUALS OF 1879-80.	
				Increase.	Decrease.
	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.
1. Balance	3,828 12 9	1,100 0 0	1,103 3 2	..	2,725 9 7
2. Assignment, &c., from Government.	126 11 3	530 0 0	431 8 6	304 13 3	..
3. Rates and Taxes	19,082 6 5	21,810 0 0	15,066 15 0	..	4,015 7 6
4. Tolls	..	3,050 0 0	2,476 0 0	2,476 0 0	..
5. Fees in Schools	129 14 0	360 0 0	385 12 0	255 14 0	..
6. Contribution from Local Funds ..	1,381 12 1	1,220 0 0	1,143 5 10	..	238 6 3
7. Endowments, Contributions, &c. ..	284 9 2	490 0 0	700 15 6	416 6 4	..
8. Miscellaneous	1,097 10 1	2,200 0 0	1,928 2 8	830 8 7	..
9. Advances recovered	253 15 0	..	100 0 0	..	153 15 0
10. Collections from License Tax, III of 1878	..	3,070 0 0	2,906 2 9	2,906 2 9	..
Total ..	26,185 10 10	33,830 0 0	26,242 1 5	7,189 12 11	7,133 6 4
Net ..	..	..	..	56 6 7	..

The decrease under "Rates and Taxes" was owing to the receipts under "Tolls and License-tax" collections having been included under this head last year, which are shown separately this year.

4. The following is a comparative statement of demand, collection, and balance of rates and taxes, &c., for the year under report and for the previous years :—

—		Total Demand.	Collections.	Remission.	Total, Columns 3 and 4.	Balance.	Percentage of Collection to Net Demand.
1		2	3	4	5	6	7
		RS.	RS.	RS.	RS.	RS.	RS.
1879-80	Current ..	17,578	13,849	585	14,434	3,144	78·78
	Arrears ..	1,724	1,280	11	1,291	433	74·24
1880-81	Current ..	18,309	14,327	236	14,563	3,746	79·27
	Arrears ..	3,576	2,642	28	2,670	906	74·46

5. The collections during the year appear to have been satisfactory. The large outstanding was due to the falling off in the assessment made in that part of Nettoor Amshom newly included within the Municipality from the beginning of the year under report.

EXPENDITURE.

6. The total expenditure amounted to Rs. 24,748-5-2 against an estimate of Rs. 30,570. The particulars, as compared with the previous year, are given below :—

—	Actuals of 1879-80.	Estimate of 1880-81.	Actuals of 1880-81.	INCREASE OR DECREASE IN ACTUALS AS COMPARED WITH THOSE OF 1879-80.	
				Increase.	Decrease.
	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.

Net ..	..	..	..	..	334 2 6

7. *Grant I.*—As compared with the actuals of the previous year there seems to be an increase of Rs. 1,121 under this grant. This increase was mainly due to the opening of a new road from the German Mission Chapel to the road leading to the Kuyally Ferry. This road is very useful to the public, and the inconvenience occasioned by a strong current of water, during the monsoon in the drain, which runs across the road has been obviated by the building of a strong masonry arched culvert at a considerable outlay. The principal roads which were much cut up by the traffic of carts were mostly attended to. The Commissioners had made arrangements with a Mr. Bell to carry out their work, paying him 25 per cent. on the actual expenditure as commission to meet the cost of supervision, and they appear to have been satisfied with his work.

1900/2

8. *Grant II.*—The Municipality has one Middle School, its highest class at the beginning of the year was a Lower Fourth, but as it did not do well at the last inspection, it was abolished on the proposal of the Director of Public Instruction, and the Sanscrit teaching in the whole school discontinued. The girls' school was closed during the year owing to the difficulty in securing the services of a competent female caste teacher. There is an increase of four Elementary Schools and 363 pupils over the previous year.

9. *Grant III.*—There is an increase of Rs. 141 under this grant, which was due to the increased charges incurred for dieting patients.

10. The decrease under Grant IV was owing to the non-payment of the Police contributions, as the Nettoor assessment and the collections have fallen off.

11. The number of patients treated in the dispensary was 6,201, of which 242 were in and 5,959 out-patients, which shows a decrease under the former and an increase under the latter as compared in the margin with the figures of the previous year.

	1879-80.	1880-81.
In-patients	321	242
Out-patients	5,476	5,959

12. The total number of persons vaccinated was 1,778, or 677 more than the previous year. Of the 1,778 cases, 1,491 were successful, 183 unsuccessful, and 104 unknown.

13. There were 593 births and 446 deaths registered during the year under report against 535 births and 440 deaths for the previous year.

14. There were no cases of cholera in the town or in the district during the year under report, but there were a few cases of small-pox; on the whole the year was a healthy one.

ENCLOSURE No. 1.

From Surgeon-Major H. HYDE, Vice-President of the Municipal Commission, Tellicherry, to the President of the Municipal Commission, Tellicherry, Calicut, dated Tellicherry, 23rd June 1881, No. 75.

I have the honor to submit the annual report for 1880-81 on the Tellicherry Municipality with the usual statements prescribed for the accounts.

2. The Municipality is entrusted with the duty of collecting the Imperial License-tax under Act III of 1878, and to pay it to Government on a remuneration. The amount of this tax, which has not been fully collected within the year owing to certain of the traders having been absent for a time, forms a nominal increase to the receipts and expenditure of the Municipality. Omitting it on the receipt side together with the opening balance, the actual income of the Municipality amounted to Rs. 22,253-14-3.

3. This income of Rs. 22,253-14-3 was obtained, speaking generally, from the following sources:—Tax on Houses Rs. 8,201-11-0, on Lands Rs. 2,564-4-0, on Arts, &c., Rs. 3,770-8-0, Tolls produced Rs. 2,476 inclusive of the contribution from Local Funds, viz., Rs. 2,098-12-0, and arrears of Rs. 112-8-0. The remaining sum, viz., Rs. 5,241-7-3, was made up by School and License fees, Magisterial fines for breaches of Municipal Act and Bye-laws, contribution from Local Funds for Hospital charges, and such miscellaneous sources of revenue as contribute to the income of the Municipality.

4. Taking the Comparative Statement II-B of the receipts, a decrease of Rs. 8,004 is observable when compared with the estimated income for the year. This occurred chiefly under the seven heads explained as follows :—

5. (1) *Rate on Houses and Lands.*—The demand for the year under this head was only Rs. 11,717-8-7 and Rs. 2,338-0-3 arrears. Of this, Rs. 8,837-12-6 and Rs. 1,920-1-0 were actually collected against an estimate of Rs. 15,330. The only balance that now remains under current and arrears *minus* remissions, &c., is Rs. 3,153-13-4—*vide* Statement IV. The difference between the estimated income and the demand is due to the falling off in the assessment made in that part of Nettoor Amshom newly included in this Municipality from the beginning of the year under report.

(2) *Tax on Arts, &c.*—The demand under this head is Rs. 4,238 current and Rs. 1,126 arrears. Of this, Rs. 3,161 and Rs. 609-8-0 were realized within the year, leaving an uncollected balance of current and arrears Rs. 1,473-8-0. The current and arrears demand for the year is by Rs. 304 in excess of the estimated income. This is due to a large amount of irrecoverable items of the previous years having been allowed to accumulate without proper steps being taken to strike them out of the accounts. A statement of such items has been placed in the hands of a Sub-Committee for due inquiry and report, and their views not having been received as yet, I am unable to give any further information. I shall make this a subject for explanation in the current year's annual report.

(3) *Tolls.*—The toll produced Rs. 2,476 against a demand of Rs. 2,466-4-0, leaving still a balance of Rs. 25-8-0—*vide* Statement IV. The current year contractor of the Municipal Kutiady Toll having paid up Rs. 35-4-0 in advance as security before the beginning of the year for the due fulfilment of his contract, the excess against the demand is thus accounted for. But the decrease in the estimated income of the budget is due to the Local Fund contribution having been less than the anticipated amount.

(4) *h. License.*—The budgeted amount was Rs. 870. Of this, Rs. 600 was expected from fish-drying industry considered to be a noxious trade, but no steps were taken owing to the bye-laws not having been sanctioned until the beginning of the current year, so that the provisions of Section 129 of Act III of 1871 could not be enforced, and the Divisional Sub-Committee, to whom the matter was entrusted, appear to have abstained from taking any steps owing to the sanction of the bye-laws in question not having been received. Hence the anticipated recoveries could not be made.

(5) *Rent of Houses, &c.*—The difference between the recoveries and the estimated income under this head is due to the Tiruvangad bandy-stand contractor not having acted up to the stipulations of his agreement. A suit against him is pending before the Sub-Judge of the District Court, North Malabar.

(6) 10. *Miscellaneous—c. Municipal Garden.*—The decrease is due to the falling off in the anticipated sale of vegetables; the Commissioners finding that the maintenance of the garden involved a considerable outlay without any adequate return, have since leased it out for a small sum.

(7) *License Tax.*—The decrease in this item is due to the introduction of the amended License Tax Act III of 1880. A statement of the collections is made for information.

6. *Demand, Collection, and Balance Statement IV—Rate on Houses, &c.*—The large outstanding is due to the Municipal establishment having been engaged for the greater part of the year in Census work, and the completion of the assessment in that portion of the Nettoor Amshom newly included in this Municipality having been delayed till the latter part of September 1880, the bills were not issued till March 1881; the period allowed to lapse before the issue of the bills was taken up in the revision of the register by a Special Sub-Committee, and the time granted in the special notices issued under Section 47 of the Act. Since the year closed a sum of Rs. 1,440-1-9 of the balance has been realized.

7. The total amount of expenditure during the year, exclusive of the part payments on account of license-tax, was Rs 22,647-6-10.

8. Before proceeding with details of the year's expenditure, if I may be permitted, I will note the particulars in connection with the license-tax. The amount shown as disbursed under the head License-tax is Rs. 2,100-14-4. Of this, Rs. 30-14-4 the arrears of the previous year, and Rs. 1,570 of the current are payments made to the Collector. Rs. 500 is the amount that was refunded to Messrs. Volkart Brothers in compliance with the Board's Proceedings, No. 1731, dated 19th February 1881. A statement of the collections, &c., is appended.

9. *Grant I—New Works—(a) Communication.*—Rs. 1,635-2-3, against a sum of Rs. 1,000, sanctioned allotment of the budget was an outlay for opening a new road from the German Mission Chapel to the road leading to the Kuyally Ferry.

10. The increase over estimate for this was owing to the necessity for the completion of the work during the year before the monsoon set in, and to meet this end a part of the allotment under (*e*) Miscellaneous was appropriated as already referred to in paragraph 32 of the annual report for 1879-80. The road is a very useful one, and the inconvenience occasioned by a strong current of water, during the monsoon in the drain, which runs across this road has been obviated by building strong masonry arched culvert of a large size at a considerable outlay. This work was entrusted to Mr. Bell, conservancy contractor to this Municipality, on a commission of 25 per cent. on the actual cost to meet supervision. He carried out the work to the satisfaction of the Commissioners.

11. *Buildings.*—The outlay under this head is made up of Rs. 392-4-11 balance of the previous year's terrace work, and Rs. 322-3-6 part payment of the charges incurred in building two new latrines which have since been completed.

12. (*d*) *Water-supply.*—The outlay under this head was for completing the work of the tank near Tiruvangad cart-stand undertaken by the Commissioners in the previous year, and the sum utilized for this purpose was from the allotment sanctioned in the budget for the co struction of a public sea-bath which was considered unnecessary, as it would be impossibl complete the work with a small sum. The tank is of great public utility.

3

1900/3

13. *Repairs—(a) Communications.*—The repair of roads, streets, improvement of certain lanes, under the contract system undertaken by Mr. Bell, involved an outlay of Rs. 4,442-9-10, against the budget allotment of Rs. 5,000. The principal roads which were much cut up by the traffic of carts were mostly attended to, and the arrangement made with Mr. Bell for carrying on the contract was at 25 per cent. on the actual expenditure as commission to meet the cost of supervision, and the Commissioners are glad to observe that the work on the whole was very well executed.

14. (*b*) *Buildings.*—The particulars of the sum spent under this head, Rs. 272-6-9 against the budget allotment of Rs. 200, are detailed in Statement II-A, Part II, Repairs. The trifling excess is due to certain improvements made to the hospital buildings during the year.

15. (4) *Tools and Plant, &c.*—Rs. 53-4-0 has been disbursed for the purchase and repair of implements for the use of the Municipality.

16. *Grant II—Education—*(2) *Municipal Boys' School.*—This is a Middle Class School, for the upkeep of which the Commissioners spent during the year Rs. 1,030-15-4, and the fees realized were Rs. 385-12-0, so that the actual cost to the Municipality, *minus* the fees collected, is only Rs. 645-3-4.

17. In reference to the remark in the educational report for the year by the Deputy Inspector of Schools, herewith attached, to provide the school with furniture, &c., and to secure a commodious building, I may observe that the Commissioners have applied to the Local Fund Boards for furniture and maps from the schools which that Board has lately abolished; but so far as the school building is concerned, they are unable to provide any other accommodation, as the present one is the best available in the neighbourhood.

18. The Municipal Girls' School, which has often been unfavorably reported on, cost Rs. 444. The difficulty in securing the services of a female caste teacher to remove the prejudices of the higher class of Hindus in sending their girls to school has been so great that the Commissioners resolved, on Mr. Bradshaw's last and unfavorable report, to abolish the institution and to save a considerable sum from being fruitlessly absorbed monthly, which might be utilized otherwise. The school was accordingly abolished from the beginning of the current year.

19. For further information on educational matters I beg to refer you to the Deputy Inspector's report and the statistical and financial returns attached.

20. *Grant III—Sanitation and Medical Services—*(1) *Hospital and Dispensary.*—A sum of Rs. 2,529-14-5 was spent in the upkeep of the dispensary against a Budget Estimate of Rs. 2,840. The decrease is mainly due to the cost of medicines and the charges under sundries and contingencies being smaller than was expected.

21. The number of in and out door patients treated during the year in the hospital was 242 in and 5,959 out patients against 321 and 5,476, respectively, in the previous year. The cost of dieting the in-patients was Rs. 771-12-0. The working of the dispensary is satisfactory.

22. The Commissioners have during the year secured the services of a certificated native midwife from Madras.

23. *Vaccination.*—The actual outlay under this head is Rs. 433-3-6 against an estimate of Rs. 600. The decrease is very slight and apparently calls for no remark. The number of operations performed during the year is 1,778 against 1,101 in the previous year. Of the operations in the year under report there were 1,491 successful, 183 unsuccessful, and 104 unknown. The number of the cases operated on is very satisfactory when compared with that of the previous year. This is due to an increase in the staff. To encourage vaccination, the Commissioners issue batta at four annas to each child vaccinated; the distribution of which is made at the hospital in the presence of the Medical Officer. The work of the vaccinators is also superintended by the aforesaid officer. By the present staff, vaccination is more satisfactorily carried on, and the Commissioners hope to record still better results in their next annual report.

24. *Registration of Births and Deaths.*—The number of deaths registered was 446 against 440 in the previous year. There were no cases of cholera, only two deaths from small-pox are registered. The season appears to have been healthy. The births returned are 593, or 58 in excess of last year.

25. *Conservancy.*—Rs. 3,521-9-4 was spent against an estimate of Rs. 3,510 on establishment. The slight increase observable is the arrears of the previous year. Rs. 962 was spent for conservancy carts against an estimate of Rs. 960. The conservancy of the town was made over to Mr. Bell, a European, on contract, and under this arrangement he was held responsible for the cleanliness of the town and for the maintenance of a proper establishment for this purpose. I may here observe that the sanitary condition of the town under European supervision has been satisfactorily attended to, and it did not cost the Commissioners more than the estimated amount. But in the current year the Commissioners have resorted to the former system of keeping up permanently paid establishment.

26. *Lighting.*—Rs. 1,064-0-3 against an estimate of Rs. 1,500 was spent for lighting the town on contract. Twenty-five additional lamps have been put up during the year.

27. *Municipal Garden.*—Rs. 206-3-10 against an estimate of Rs. 300 was spent towards keeping up a garden to provide the town with English vegetable in the hope of effecting a good return; but the Commissioners having failed in their attempts and the expenses exceeding the income, they have ceased to maintain the same, and have accordingly leased it out as beforementioned.

28. *Grant V—Supervision*—1. *Head Office,* (*a*) *Establishment.*—Rs. 1,140-9-3 was spent against an estimate of Rs. 1,370, the difference is due to the change of Head Clerks. Rs. 427-13-9 against an estimate of Rs. 444 was spent under (II) Collection Establishment. Rs. 688-9-8 against an estimate of Rs. 420 was spent under (III) Miscellaneous. The increase under this head was chiefly incurred for the establishment entertained for the preparation of the assessment of houses and lands, &c., in that part of Nettoor Amshom lately taken into the Municipality and for the payment of license-tax remuneration for 1879-80.

29. The Auditor's report, together with the statement of charges, in original, are herewith submitted for the information of Government, as also the sanitary report of the Zillah Surgeon for the year under review.

CIVIL DISPENSARY, TELLICHERRY.

SANITARY REPORT.

Dispensary.—The number of admissions into hospital during the year was 242 against 321, and the number of out-patients 5,959 against 5,476 of the preceding year, showing a decrease of 79 in-patients and an increase of 483 out-patients. Of 242 in-patients, 62 dieted themselves and were of very little expense to the institution.

The number of cases treated at the dispensary during the year was more than during any previous year, and the following statement will show the steady increase of patients seeking treatment for the last five years:—

Year.	In-patient.	Out-patient.	Total.
1876-77	233	2970	3203
1877-78	228	4376	4604
1878-79	294	4868	5162
1879-80	321	5476	5797
1880-81	242	5959	6201

Principal Diseases.—The principal diseases that gave rise to admissions were, as usual, ague, rheumatism, syphilis, dysentery, diarrhœa, ulcer, boil, itch and wound, and those most prevalent among out-door patients were ague, rheumatism, syphilis, dysentery, diarrhœa, worms, ulcer, and injuries.

Epidemic Diseases.—There were no cases of cholera in the town or in the district during the year under report, but there were a few cases of small-pox in the town.

Vaccination.—The number of cases vaccinated during the year was 1,778, of which 1,491 were successful and 183 unsuccessful, and in 104 the result was unknown.

TELLICHERRY,
1st May 1881.

(Signed) H. HYDE, Surgeon-Major,
Zillah Surgeon.

From T. MATTHEW, Esq., Officiating Deputy Inspector of Schools, Tellicherry Circle, to the Vice-President, Municipal Commission, Tellicherry, dated Tellicherry, 2nd June 1881, No. 1013.

I have the honor to submit my report on the working of the Middle and Primary Schools in the Tellicherry Municipality during the year 1880-81.

2. *Middle School.*—There was in the year under report one Middle School supported by the Municipality. It consisted of the Lower Fourth and Third classes. None of the boys in these classes were sent in for the comparative examinations, the results of which would have served to show the state of the school compared with that of other schools. In the annual inspection held by the Inspector of Schools, the results were not satisfactory, and, in accordance with the remarks made by the Director of Public Instruction in his Proceedings reviewing the Inspector's report, the Lower Fourth class was lately abolished, and Sanskrit teaching in the whole school discontinued. A part of the savings thus effected may be utilized with advantage in furnishing the school with maps and articles of furniture, the want of which is now very much felt. Considering the importance of affording all possible means of improving the physical condition of the children and the still greater importance of removing everything that might have a contrary effect, I cannot help bringing to your notice the advisability of securing, if possible, a more commodious building for the school in a less crowded part of the town. Immediately after the last annual inspection the then Head Master resigned, and the vacancy was subsequently filled up by the appointment of another person selected by the Inspector of Schools. The services of the Sanskrit Pundit were dispensed with. In other respects the teaching staff remains the same.

1900/4

3. *Primary Schools.*—Of all the Primary Schools in the Municipality, the one in connection with the Middle School was the best. It consisted of the first and second classes. A Preparatory class may now be opened, as the highest class in the Middle School was abolished, and the locality seems to demand such an addition to the school.

4. The number of Primary Schools unconnected with higher institutions in the Municipality during the year under report was nineteen, of which five were Mission and fourteen non-mission. Of the former, two are girls' schools, one German Mission, and the other Roman Catholic. Of the Mission Schools, all but one—a thinly attended boys' school managed by the German Mission—were examined for results grants. Six of the non-mission schools were on the combined system, four being Mappila and two Hindu Schools; and the remaining eight were Hindu Schools, seven on the results system and one on the salary grant system. The best non-mission school in the Municipality, as shown by the results of the last grant examination, was a Hindu School on the results system.

5. The school on the salary grant system was the only Hindu Girls' School within the Municipality. It was long suffering from want of a Schoolmistress of even moderate attainments, until at last it was resolved that it should cease to exist with the year under review. The difficulty in securing the services of a fairly qualified Schoolmistress is by no means small; but that this difficulty should have led to the abolition of the school—the only one of the kind within the Municipality—is certainly a matter of regret. The school would have done far better under a young woman that had passed nothing more than the Upper Primary School Examination, and it does not seem to be very difficult at present to obtain the services of such a woman. The indifference on the part of the people to female education is fast diminishing as shown by the attendance of girls in boys' schools; but the number of girls' schools is extremely inadequate. The few schools that do exist are kept up by Mission agencies, and they are seldom resorted to by Hindu children. This is a point that deserves special attention.

6. Among the existing Elementary Schools only two are on the combined system under certificated teachers. It would therefore be advisable to give two more schools the advantage of having certificated teachers, one in Tiruvangad and one in Chirramkunnam. This can be done without exceeding the budget allotment for the current year.

7. Under the present arrangement the supervision of Elementary Schools in the Municipality is not what it ought to be, they being placed under the Inspecting Schoolmaster of the Kottayam Taluk, who has under him nearly seventy schools in all, scattered over an area much too large for one officer to visit within a reasonable time. The appointment of a separate Inspecting Schoolmaster for the Municipality seems therefore called for; and the annual expenditure on this account alone will not be more than Rs. 200, the amount sanctioned in the budget for inspection.

8. The statistical and financial statements are hereto appended, from which it will be seen that there is an increase in the year under report of four Elementary Schools and 363 pupils over the previous year, and that the actual payment on account of Elementary Schools was Rs. 314-2-0 in the year under report against a budget allotment of Rs. 900.

ORDER THEREON, 5th October 1881, No. 1900.

The receipts and charges of the Tellicherry Municipality for 1880-81 are compared below with the estimates for the year and the actuals of 1879-80:—

2. The receipts, exclusive of the License-tax collections and of the License-tax remuneration which should not have been shown as a credit in the accounts, amounted to Rs. 21,994 against Rs. 29,660 estimated and Rs. 18,853 actuals of the previous year, thus showing an excess over last year of about Rs. 3,141 and a falling off of Rs. 7,666 compared with the estimate. The former is due chiefly to the enhancement of the House rate and the latter to the estimate under this head having proved excessive. The Tax on Arts, &c., and Tolls yielded Rs. 1,290 and Rs. 574, respectively, less than was expected. The collections can hardly be regarded as satisfactory, 22·4 per cent. of House rate having been left uncollected owing, it is urged, to the pressure of Census work and the delay in assessing property newly brought within Municipal limits. Under Tax on Arts, &c., the outstandings were nearly 27·4 per cent. of the demand. These should be speedily realised, and such portion as may prove irrecoverable struck off the accounts. The Government regret to find that the receipts from the Fish-curing industry and Municipal garden have fallen off very considerably. It is hoped that the former will revive, the Municipal bye-laws having been sanctioned by G.O., 17th March 1881, No. 460, Financial Department. Information is again omitted regarding the extent to which coercive measures were adopted in the realisation of taxes during the year.

3. The total expenditure during the year, exclusive of License-tax paid to Government, amounted to Rs. 22,647 against Rs. 27,710 estimated and Rs. 21,502 the actuals of 1879-80. It was distributed in the following proportions :—

Grant I.—Public Works	36·3
Do. II.—Education	8·5
Do. III.—Sanitation	34·8
Do. IV.—Miscellaneous	9·0
Do. V.—Supervision	10·4
Advances and Refunds	1·0

4. As regards expenditure under Grant I, the deviations from the budget are fully explained. The completion during the year of a new and very useful road* is satisfactory. This work, together with the repair of roads, streets, &c., is reported to have been well executed by the conservancy contractor Mr. Bell, to whom a commission of 25 per cent. was paid for supervision, although the usual staff of Overseer and maistries was at the same time kept up.

5. The Educational work of the year was far from satisfactory. The Middle Class Municipal School did badly at the annual examination, and the highest class (the Lower Fourth) was accordingly abolished. The school is said to be situated in a crowded part of the town and its removal elsewhere is recommended. The Municipal Girls' School was also closed at the end of the year on account of difficulties in securing the services of a competent Schoolmistress. It is observed that in the opinion of the Officiating Deputy Inspector very high qualifications are not required, and the Government trust that the school may be reopened at an early opportunity. The Results Grants paid amounted only to the insignificant sum of Rs. 69 as against Rs. 600 estimated, and no reason is assigned for the shortness of the outlay. There is an increase of four Elementary Schools and 363 pupils over the previous year, and it is understood that the entertainment of a separate Inspecting Schoolmaster for the Municipality is in contemplation.

6. The Hospital charges show a decrease as compared with the estimate and the actuals of the previous year; 242 in and 5,959 out patients were treated during the year as against 321 and 5,476, respectively, in 1879-80. The services of a certificated midwife were secured. Great progress was made in vaccination, no fewer than 1,778 operations, or an average of 72 per vaccinator per month, having been performed at a cost per operation of Annas 3-10. The registration of births and deaths shows the following results :—

	Births.	Deaths.
1879-80	535	440
1880-81	593	446

* From German Mission Chapel to the road leading to Kuyally Ferry.

7. The Conservancy of the town was carried out on contract by an European and appears to have produced satisfactory results. It is observed that the contribution for Sanitary Inspection was not paid within the year.

8. The payment due to Government on account of Police was also allowed to fall into arrears. This should not occur again. The contribution for each year must, in future, be paid off before its close. The Toll statement was not submitted as required by G.O., 22nd August 1879, No. 1614. The closing balance of the deposit account, viz., Rs. 440, should have been shown in note to Statement II. In Statement I the arrear collections under "Rate on Houses and Lands" are entered at Rs. 1,928, while Statement IV shows them at Rs. 1,920.

9. The Auditor does not appear to have done his work thoroughly. The inclusion of the License-tax remuneration as an item of receipt shows that he is hardly conversant as yet with the details of the system of Municipal accounts.

To,

Surgeon Major H. Hyde.
Vice President, Municipal Commission.
Tellicherry.

Sir,

I have the honor to submit, for the information of the Commissioners and the President of the Tellicherry Municipal Commission, this my report on the result of my examination of the several accounts of Receipts and Charges of the funds of the Municipality during the past official year 1880-81.

2. The statement of Receipts and Charges submitted herewith will show that the income of the Municipality in the year 1880-81 was Rs 25,138. 14. 3. Including Rs 1103. 3. 2 the balance at the end of the year 1879-80 the income rose to Rs 26.242. 1. 5. Of this sum, Rs 24.748. 5. 2 was expended in the year under report, and the balance left at the end of the past official year in favor of the Municipality is Rs 1493. 12. 3 which was found to tally with the amount remaining in the Kottayam Taluq Treasury on the 1st of April 1881.

3. I have no remarks to make except that the books of accounts kept are too many and confusing.

I have the honor to be
Sir
Your most obdt. Servant

CURRENT No. 1819

18

Malabar President's Office
Calicut 15. July 1881.

No

From,

G. McWatters Esquire,
President Municipal Commission
Calicut

1900/25

To,

C. G. Master Esquire,
Ag: Chief Secretary to Government.
Ootacamund.

Sir,

I have the honor to forward herewith the Annual Report of the Tellicherry Municipality for the past Official year 1880-81, together with the prescribed statements. The report of the Municipal Auditor and of the Medical Officer in charge of the Municipal Dispensary and of the Deputy Inspector of Schools are also submitted herewith.

2. The total income of the Municipality during the year under report was Rs 25,138. 14. 3, which with last year's balance of Rs 1103. 3. 2, brought the available amount to Rs 26,242. 1. 5 or Rs 7587. 14. 7 less than was anticipated.

3. The particulars of receipts as compared with the estimate of the year under

report and the actuals of the previous year are given below:-

		Actuals of 1879-80			Estimate of 1880-81			Actuals of 1880-81			Increase or Decrease as compared with the actuals of 1879-80.					
											Increase			Decrease		
1	Balance	3828	12	9	1100			1103	3	2	.	.		2725	9	7
2	Assignment &c from Govt.	126	11	3	530	.	.	431	8	6	304	13	3	.	.	
3	Rates & Taxes.	19,082	6	6	21,810	.	.	15,066	15	.	.	.		4015	7	6
4	Tolls	.	„	.	3050	.		2476	.	.	2476	.				
5	Tax in Schools	129	14	.	360	.	.	385	12	.	255	14	.	.	.	
6.	Contribution from Local Funds.	1381	12	1	1220	.	.	1143	5	10	.	.		238	6	3
7	Endowments, Contributions &c	284	9	2	490	.	.	700	15	6	416	6	4	.		
8	Miscellaneous	1097	10	1	2200			1928	2	8	830	8	7	.		
9	Advances recovered	253	15	.	.		.	100	.	.	.	.		153	15	.
10	Collections from License Tax III of 1878	.	.	.	3070	.	.	2906	2	9	2906	2	9	.		
	Total	26,185	10	10	33,830	.	.	26,242	1	5	7189	12	11	7133	6	4
	Net.	.	.	.		.	.		.	.	56	6	7	.	.	.

The decrease under "Rates and Taxes" was owing to the receipts under "Tolls and License Tax" collections having been included under this head last year, which are shewn separately this year.

4. The following is a comparative statement of Demand, Collection and Balance of Rates and Taxes &c for the year under report and for the previous year:-

		Total Demand	Collections	Remission	Total columns 3 & 4	Balance	Percentage of Collection to Net demand
1		2	3	4	5	6	7
1879-80	Current	17,578	13,849	585	14,434	3,144	78.78
	Arrears	1,724	1,280	11	1,291	433	74.24
1880-81	Current	18,309	14,327	236	14,563	3,746	79.27
	Arrears	3,576	2,642	28	2,670	906	74.46.

5. The collections during the year appear to have been satisfactory. The large outstanding was due to the falling off in the assessment made in that part of Nettoor Amshom newly included within the Municipality from the beginning of the year under report.

Expenditure

6. The total expenditure amounted to Rs 24,748. 5. 2 against an estimate of Rupees 30.570. The particulars as compared with the previous year are given below.

	Actuals of 1879-80	Estimate of 1880-81	Actuals of 1880-81	Increase or Decrease in actuals as compared with those of 1879-80: Increase	Decrease
Grant I	7098 13 3	9640 . .	8219 13 9	1121 . 6	. .
" II	1658 . 10	2790 . .	1921 1 4	263 . 6	. .
" III	7733 11 8	8690 . .	7875 11 3	141 15 7	. . .
" IV	6379 7 10	7030 . .	4133 2 8	. . .	2246 5 2
" V.	1982 9 1	2420 . .	2368 . 8	385 7 7	. . .
Advances recoverable	200 . .	. .	200 . .	. .	
Refunds	29 13 .	. . .	30 7 6	. 10 6	. . .
Total	25,082 7 8	30,570 . .	24,748 5 2	1912 2 8	2246 5 2
Net	. .		. .	. . .	334 2 6

7. Grant I As compared with the actuals of the previous year there seems to be an increase of Rs 1124 under this grant. This increase was mainly due to the opening of a new road from the German Mission Chapel to the road leading to the Kuyally Ferry. This road is very useful to the public and the inconvenience occasioned by a strong current of water during the Monsoon in the drain which runs across the road has been obviated by the building of a strong Masonry arched Culvert at a Considerable outlay. The principal roads which were much cut up by the traffic of carts were mostly attended to. The Commissioners had made arrangements with a Mr Bell to carry out their work paying him 25 percent on the actual expenditure as Commission, to meet the Cost of Supervision and they appear to have been satisfied with his work.

8. Grant II The Municipality has one Middle School, its highest class at the beginning of the year was a Lower Fourth, but as it did not do well at the last inspection, it was abolished on the proposal of the Director of Public Instruction, and the Sanscrit Teaching in the whole of School discontinued. The girls school was closed during the year owing to the difficulty in Securing the Services of a Competent female Caste Teacher. There is an increase of 4 Elementary Schools and 363 pupils over the previous year.

9. Grant III There is an increase of Rs141 under this grant, which was due to the increased charges incurred for dieting patients.

10. The decrease under grant IV was owing to the non-payment of the Police Contributions, as the Nettoor assessment and the collections has fallen off.

11. The number of patients treated in the dispensary was 6201 of which 242 were In and 5959 Out patients, which shews a decrease under the former and an increase under the latter as compared in the margin with the figures of the previous year.

	1879-80	1880-81
In patients	321	242
Out. "	5476.	5959

12. The total number of persons vaccinated was 1778 or 677 more than the previous year. Of the 1778 cases 1491 were successful, 183 unsuccessful, and 104 unknown.

13. There were 593 births and 446 deaths registered during the year under report against 535 births and 440 deaths for the previous year.

14. There were no cases of Cholera in the Town or in the District during the year under report, but there were a few cases of Small pox; on the whole the year was a healthy one.

ENDORSEMENT No. 1819

Subject
Forwards Annual Report of the Tellicherry Municipality for 1880-81 with statements, Audit and Medical Reports.

Deputy Inspector's Office
Tellicherry. 2nd June 1881 15/8

No. 1013

From

The Offg. Dy. Inspector of Schools
Tellicherry Circle

To

The Vice President 1900/38
Municipal Commission Tellicherry

Sir,

I have the honour to submit my report on the working of the Middle and Primary Schools in the Tellicherry Municipality during the year 1880-1881.

Middle School.

2 There was in the year under report one middle School supported by the municipality. It consisted of the Lower Fourth and Third Classes. None of the boys in these classes were sent in for the Comparative Examinations, the results of which would have served to show the state of the School compared with that of other Schools. In the Annual Inspection held by the Inspector of Schools, the results were not satisfactory and, in accordance with the remarks made by the Director of Public Instruction in his Proceedings reviewing the Inspector's report, the Lower Fourth Class was lately

abolished and Sanskrit teaching in the whole school discontinued. A part of the Savings thus effected may be utilized with advantage in furnishing the School with maps and articles of furniture, the want of which is now very much felt. Considering the importance of affording all possible means of improving the physical condition of the Children and the still greater importance of removing everything that might have a contrary effect, I cannot help bringing to your notice the advisability of securing, if possible, a more commodious building for the School in a less crowded part of the town. Immediately after the last Annual Inspection the then Headmaster resigned and the vacancy was subsequently filled up by the appointment of another person selected by the Inspector of Schools. The Services of the Sanskrit Pundit were dispensed with. In other respects the teaching Staff remains the same.

Primary Schools.

3. Of all the Primary Schools in the municipality, the one in connection with the middle School was the best. It

Consisted

Consisted of the 1st and 2nd Classes. A Preparatory Class may now be opened as the highest class in the middle School was abolished and the locality seems to demand such an addition to the School.

1900/39

4 The number of Primary Schools unconnected with higher institutions in the municipality during the year under report was 19, of which 5 were mission and 14 non-mission. Of the former, 2 are girls' Schools, 1 German mission and the other Roman Catholic. Of the mission Schools, all but one – a thinly attended Boys' School managed by the German mission – were examined for Results Grants. Six of the Nonmission Schools were on the Combined System, 4 being mappila, and 2 Hindu Schools; and the remaining 8 were Hindu Schools, 7 on the Results System & 1 on the Salary Grant System. The best non-mission School in the municipality, as shown by the Results of the last Grant Examination, was a Hindu School on the Results System.

5 The School on the Salary Grant System was the only Hindu Girls' School

within the municipality. It was long suffering from want of a School-mistress of even moderate Attainments until at last it was resolved that it should Cease to exist with the year under review. The difficulty in securing the Services of a fairly Qualified School-mistress is by no means small; but that this difficulty should have led to the abolition of the School — the only one of the kind within the municipality — is Certainly a matter of regret. The School would have done far better under a young woman that had passed nothing more than the Upper Primary School Examination and it does not seem to be very difficult at present to obtain the services of such a woman. The indifference on the part of the people to Female Education is fast diminishing, as shown by the attendance of Girls in Boys' Schools; but the number of Girls' Schools is extremely inadequate. The few Schools that do exist are kept up by Mission Agencies and they are seldom resorted to by Hindu Children. This is a point that deserves special attention.

6. Among the existing Elementary

Schools only 2 are on the Combined System under Certificated Teachers. It would therefore be advisable to give 2 more Schools the advantage of having Certificated Teachers one in Tiruvangad and one in Cherriamkunnam. This Can be done without exceeding the Budget Allotment for the Current year.

7 Under the present arrangement the supervision of Elementary Schools in the municipality is not what it ought to be, they being placed under the Inspecting Schoolmaster of the Kottayam Taluk, who has under him nearly 70 Schools in all scattered over an area much too large for one officer to visit within a reasonable time. The appointment of a Separate Inspecting Schoolmaster for the municipality seems therefore Called for; and the annual expenditure on this account alone will not be more than Rs 200, the amount sanctioned in the Budget for Inspection.

8. The Statistical and Financial Statements are hereto appended, from which it will be seen that there is an increase in the year under report of 4 four Elementary Schools and 363 pupils

over the previous year and that the actual payment on account of Elementary Schools was Rs 314-2-- in the year under report against a Budget allotment of Rs 900-.-.-.

I have the honour to be,
Sir,
Your most obedient Servant

Sanitary Report

Dispensary

The number of admissions into Hospital during the year was 242 against 321 & the number of Out Patients 5959 against 5476 of the preceding year shewing a decrease of 79 In Patients & an increase of 483 Out Patients. Of 242 In Patients 62 dieted themselves & were of very little expense to the Institution.

The number of Cases treated at the Dispensary during the year was more than during any previous year & the following Statement will shew the steady increase of patients seeking treatment for the last five years

Year	In Patients	Out Patients	Total
1876-77	233	2970	3203
1877-78	228	4376	4604
1878-79	294	4868	5162
1879-80	321	5476	5797
1880-81	242	5959	6201

Principle Diseases

The principle diseases that gave rise to admissions were as usual Ague, Rheumatism, Syphilis, Dysentery Diarrhoea, Ulcers, Boil, Itch & wounds & those most prevalent among Out-door patients were, Ague, Rheumatism, Syphilis, Dysentery, Diarrhoea, wounds ulcer & injuries

1900/37

Epidemic Diseases

There were no cases of Cholera in the town or in the district during the year under report; but there were a few cases of smallpox in the town –

Vaccination

The number of cases Vaccinated during the year was 1778 of which 1491 were successful & 183 unsuccessful & in 104 the result was unknown

Jellicherry 23rd June 1881

No. 75

1900
29

From
The Vice President
Jellicherry Municipal Commission

RECEIVED
11 JUL 81

To
The President
Jellicherry Municipal Commission
Calicut

Sir,

I have the honor to submit the Annual Report for 1880/81 on the Jellicherry Municipality with the usual Statements prescribed for the Accounts.

2. The Municipality is entrusted with the duty of collecting the Imperial License tax under Act III of 1878 and to pay it to Government on a remuneration. The amount of this tax which has not been fully collected within the Year owing to certain of the traders having been absent for a time forms a nominal increase to the Receipts and Expenditure of the Municipality. Omitting it on the receipt side together with the opening balance the actual income of the Municipality amounted to Rupees 22,253-14-3.

3. This income of Rs 22,253-14-3 was obtained speaking generally from the following sources. Tax on houses Rs 8201-11-" On lands Rs 2564-4-" On Arts &c Rs 3770-8-" tolls produced Rs 2476-"-" inclusive of the Contribution from Local Funds Viz Rs 2098-12-" and Arrears of Rs 112-8-".

The remaining sum Viz Rs. 5241-7-3 was made up by School and License fees, Magisterial fines for breaches of Municipal Act and Bye-laws, Contribution from Local Funds for Hospital charges, and such Miscellaneous sources of Revenue as contribute to the income of the Municipality.

4. Taking the comparative Statement II B of the Receipts a decrease of Rupees 8004-"-" is observable when compared with the estimated income for the Year. This occurred chiefly under the seven heads explained as follows.

5. (1) Rate on houses & lands.

The demand for the Year under this head was only Rupees 11717-8-7 and Rs. 2338-0-3 arrears. Of this Rs. 8857-12-6 and Rs. 1920-1-" were actually collected against an Estimate of Rs. 15330-"-". The only balance that now remains under Current & Arrears minus remissions &c is Rs. 3153-13-4 Vide Statement IV. The difference between the Estimated income and the demand is due to the falling off in the assessment made in that part of Nettoor Amshom newly included in this Municipality from the beginning of the Year under report.

(2) Tax on Arts &c.

The demand under this head is Rupees 4238 Current and Rs. 1126-"-" Arrears. Of this Rs. 3161-"-" & 609-8-" were realized within the Year leaving an uncollected balance of Current & Arrears Rs. 1473-8-". The Current and Arrears demand for the Year is by Rs. 304 in excess of the Estimated income. This is due to a large

amoun

amount of irrecoverable items of the previous Years having been allowed to accumulate without proper steps being taken to strike them out of the Accounts. A Statement of such items has been placed in the hands of a Sub Committee for due enquiry and report and their views not having been received as yet I am unable to give any further information. I shall make this a subject for explanation in the Current Years' Annual report.

1900/30

(3) Tolls. The toll produced Rs. 2476 against a demand of Rs. 2466-4-" leaving still a balance of Rs. 25-8-" Vide Statement IV. The Current Year Contractor of the Municipal Kutiady Toll having paid up Rs. 35-4-" in advance as security before the beginning of the Year for the due fulfilment of his Contract the Excess against the demand is thus accounted for. But the decrease in the Estimated income of the Budget is due to the Local Fund Contribution having been less than the anticipated amount.

(4) h. License. The Budgeted amount was Rs. 870. Of this Rs. 600 was expected from fish drying industry considered to be a noxious trade but no steps were taken owing to the Bye-laws not having been sanctioned until the beginning of the Current Year, so that the provisions of Section 129 of Act III of 1871 could not be enforced and the Divisional Sub Committee to whom the matter was entrusted appear to have abstained from taking any steps owing to the sanction of the Bye-laws in question not having been received. Hence the anticipated recoveries could not be made.

(5) Rent of houses &c.

The difference between the recoveries and the Estimated income under this head is due to the Tiruvangad Bandy Stand Contractor not having acted up to the Stipulations of his agreement. A Suit against him is pending before the Sub Judge of the District Court North Malabar.

(6) 10. Miscellaneous

C. Municipal Garden.

The decrease is due to the falling off in the anticipated sale of vegetables, the Commissioners finding that the maintenance of the garden involved a considerable outlay without any adequate return have since leased it out for a small sum.

(7). License Tax. The decrease in this item is due to the introduction of the amended License tax Act III of 1880. A Statement of the Collections is made for information.

6. Demand, Collection and Balance Statement IV. Rate on houses &c. The large outstanding is due to the Municipal Establishment having been engaged for the greater part of the Year in Census Work; and the completion of the Assessment in that portion of the Nettoor Amshom newly included in this Municipality having been delayed till the latter part of September 1880, the bills were not issued till March 1881; the period allowed to lapse before the issue of the bills was taken up in the revision of the Register by a Special Sub Committee, and the time granted in the Special notices

notices issued under Section 47 of the Act. Since the Year closed a sum of Rs. 1440-1-9 of the balance has been realized.

7. The total amount of Expenditure during the year exclusive of the part payments on account of License tax was Rs. 22,647-6-10.

1900/31

8. Before proceeding with details of the years expenditure if I may be permitted I will note the particulars in connection with the License tax. The amount shown as disbursed under the head License tax is Rs. 2100-14-4. Of this Rs. 30-14-4 the arrears of the previous Year, and Rupees 1570 of the Current are payments made to the Collector. Rs. 500 is the amount that was refunded to Messrs. Volkart Brothers in compliance with the Boards Proceedings No. 1-731 dated 19th February 1881. A Statement of the Collections &c. is appended.

9. Grant I. New Work

(a) Communication.

Rupees 1635-2-3, against a sum of Rs. 1000 sanctioned allotment of the Budget was an outlay for opening a New Road from the German Mission Chapel to the Road leading to the Kuyally Ferry.

10. The increase over Estimate for this was owing to the necessity for the completion of the work during the Year before the Monsoon set in, and to meet this end a part of the allotment under (e) Miscellaneous was appropriated as already referred to in para 32 of the Annual Report for 1879/80. The Road is a very useful one and the inconvenience

occasioned by a strong current of water, during the Monsoon, in the drain which runs across this road has been obviated by building strong masonry arched culvert of a large size at a considerable outlay. This work was entrusted to Mr. Bell Conservancy Contractor to this Municipality on a Commission of 25 per Cent on the Actual cost to meet supervision. He carried out the work to the satisfaction of the Commissioners.

11. Buildings. The outlay under this head is made up of Rs. 392-4-11 balance of the previous Years Terrace work and Rs. 322-3-6 part payment of the charges incurred in building two new latrines which have since been completed.

12. (d) Water Supply. The outlay under this head was for completing the work of the tank near Tiruvangad Cart stand undertaken by the Commissioners in the previous Year and the sum utilized for this purpose was from the allotment sanctioned in the Budget for the construction of a public sea-bath which was considered unnecessary as it would be impossible to complete the work with a small sum. The tank is of great public utility.

13. Repairs (a) Communication. The repair of roads, streets, improvement of certain lanes under the Contract system undertaken by Mr. Bell involved an outlay of Rs. 4442-9-10 against the Budget allotment of Rs. 5000. The principal Roads which were much cut up by the traffic of Carts were mostly attended to and the

arrangement

arrangement made with Mr. Bell for carrying on the Contract, was at 25 per Cent on the actual expenditure as Commission to meet the cost of supervision, and the Commissioners are glad to observe that the work on the whole was very well executed.

1900/32

14. (b) Buildings. The particulars of the sum spent under this head Rs. 272-6-9 against the Budget allotment of Rs. 200 is detailed in Statement II a part II repairs. The trifling excess is due to certain improvements made to the Hospital buildings during the year.

15. (4) Tools & Plant &c. Rs. 53-4-.. has been disbursed for the purchase and repair of implements for the use of the Municipality.

16. Grant II – Education (2) Municipal boys' School.

This is a Middle Class School for the up-keep of which the Commissioners spent during the Year Rs. 1030-15-4, and the fees realized were Rs. 385-12-.. so that the actual cost to the Municipality minus the fees collected is only Rs. 645-3-4.

17. In reference to the remark in the Educational Report for the year by the Deputy Inspector of Schools herewith attached, to provide the School with furniture &c. and to secure a commodious building, I may observe that the Commissioners have applied to the Local Fund Boards for furniture and Maps, from the Schools which that Board has lately abolished, but so far as the School building is concerned, they are unable to provide any other accommodation as the present one is the best available in the neighbourhood.

18.

18. The Municipal Girls' School which has often been unfavourably reported on, cost Rs. 444 - - The difficulty in securing the services of a female Caste Teacher to remove the prejudices of the higher Class of Hindus in sending their girls to School has been so great that the Commissioners resolved on Mr. Bradshaw's last and unfavourable report to abolish the Institution and to save a considerable sum from being fruitlessly absorbed monthly which might be utilized otherwise. The School was accordingly abolished from the beginning of the Current Year.

19. For further information on Educational matters I beg to refer you to the Dt. Inspectors Report and the Statistical and Financial Returns attached.

20. Grant III. Sanitation & Medical Services. One Hospital and Dispensary. A sum of Rs. 2529-14-5 was spent in the up-keep of the Dispensary against a Budget Estimate of Rs. 2840. The decrease is mainly due to the cost of medicines and the charges under sundries and Contingencies being smaller than was expected.

21. The number of in and out-door patients treated during the Year in the Hospital was 242 in, and 5959 out patients against 321 and 5476 respectively in the previous Year. The cost of dieting the in-patients was Rs. 771-12- -. The working of the Dispensary is satisfactory.

22. The Commissioners have during the Year secured the services of a Certificated Native Midwife from Madras.

23.

23. Vaccination. The actual outlay under this head is Rs. 433-3-6 against an Estimate of Rs. 600. The decrease is very slight and apparently calls for no remark. The number of operations performed during the year is 1778 against 1101 in the previous Year. Of the operations in the Year under report there were 1491 successful, 183 unsuccessful and 104 unknown. The number of the cases operated on is very satisfactory when compared with that of the previous Year. This is due to an increase in the Staff. To encourage Vaccination, the Commissioners issue batta at 4 Annas to each child vaccinated. The distibution of which is made at the Hospital in the presence of the Medical Officer. The work of the Vaccinators is also superintended by the aforesaid Officer. By the present Staff, Vaccination is more satisfactorily carried on and the Commissioners hope to record still better results in their next Annual report.

1900/33

24. Registration of Births & Deaths. The number of deaths registered was 446 against 440 in the previous Year. There were no cases of cholera. Only two deaths from small-pox are registred. The season appears to have been healthy. The Births returned are 593 or 58 in excess of last year.

25. Conservancy. Rs. 3521-9-4 was spent against an Estimate of Rs. 3510 on Establishment. The slight increase observable is the arrears of the previous Year. Rs. 962 was spent for Conservancy Carts against an Estimate of Rs. 960. The Conservancy of the Town was made over to Mr. Bellra European

on Contract, and under this arrangement he was held responsible for the cleanliness of the Town and for the maintenance of a proper Establishment for this purpose. I may here observe that the Sanitary condition of the Town under European supervision has been satisfactorily attended to, and it did not cost the Commissioners more than the Estimated amount. But in the Current Year the Commissioners have resorted to the former system of Keeping up permanently paid Establishment.

26. Lighting. Rs 1064-..-3 against an Estimate of Rupees 1500-..-.. was spent for lighting the Town on Contract. 25 additional lamps have been put up during the year.

27. Municipal Garden. Rs 206-3-10 against an Estimate of Rs 300 was spent towards Keeping up a Garden to provide the Town with English Vegetable in the hope of effecting a good return; but the Commissioners having failed in their attempts and the Expenses exceeding the income, they have ceased to maintain the same, and have accordingly leased it out as before mentioned.

28. Grant V. Supervision

1. Head Office (a) Establishment.

Rupees 1140-9-3 was spent against an Estimate of Rs 1370 the difference is due to the change of Head Clerks. Rs 427-13-9 against an Estimate of Rs 444-..-.. was spent under (II) Collection Establishment. Rs 688-9-8 against an Estimate of Rs 420-..-.. was spent under (III) Miscellaneous. The increase under this head was chiefly incurred for the Establishment

Establishment entertained for the preparation of the Assessment of houses and lands &c in that part of Nettoor Amshom lately taken into the Municipality and for the payment of License tax remuneration for 1879/80.

29. The Auditor's report together with the Statement of charges in original are herewith submitted for the information of Government, as also the Sanitary report of the Zillah Surgeon for the year under review.

I have the honor to be

2)

1900/42 KBP 35

The receipts exclusive of the License Tax Collections and of the License Tax remuneration which should not have been shown as a credit in the accounts, amounted to Rs 21,994 against Rs 29,660 estimated & Rs 18,853 actuals of the previous year, thus showing an excess over last year of about Rs 3141 & a falling off of Rs 7,666 compared with the estimate. The former is due chiefly to the enhancement of the House rate & the latter to the estimate under this head having proved excessive. The Tax on Arts &ca and Tolls yielded Rs 1290 & Rs 574 respectively less than ~~the estimate~~ was expected.

The Collections ~~[illegible]~~ can hardly be regarded ~~appear to have been~~ satisfactory, 22·4 per cent ~~[illegible]~~ of House rate ~~was left~~ having been left uncollected owing, it is ~~said~~, urged, to the pressure of Census work & the delay in assessing property newly brought within municipal limits. Under Tax on Arts &ca, the outstandings were nearly 27·4 per cent of the demand. These should be speedily realised & such portion ~~of it~~ as may prove irrecoverable struck off the accounts. The Government regret to find that the receipts from the fish ~~[illegible]~~ curing industry and municipal garden have fallen off very

Considerably

Considerably. It is hoped that the former will revive, the Municipal bye-laws ~~referred to~~ having been sanctioned by G.O. 17th March 1881 No 460 F.D. Information is again omitted ~~to be given in~~ regarding ~~to~~ the extent to which coercive measures were adopted in the realisation of taxes during the year.

The total expenditure during the year, exclusive of ~~the~~ License Tax paid to Government amounted to Rs 22,647 against Rs 27710 estimated and Rs 21502 the actuals of 1879-80. It was distributed in the following proportions ~~given below~~

Grant I	Public Works	36·3
II	Education	8·5
III	Sanitation	34·8
IV	Miscellaneous	9·0
V	Supervision	10·4
Advances & Refunds		1·0

In the expenditure under Grant I, the deviations from the budget are fully explained. The Completion during the year of a new and very useful + road ~~which was considered very useful~~ is satisfactory. This work together with the repair of roads, streets &c^a^ is ~~are~~ reported to have been well executed ~~well~~ by the Conservancy Contractor Mr Bell to whom a Commission of 25 per cent was paid for ~~commi~~ supervision, ~~and apparently held from the~~ ~~and apparently charged~~ ~~to~~

+ from the German Mission Chapel to the road leading to Sheyally Heroy

~~to the works which~~ although the usual staff of Overseer & Maistries was ~~also~~ at the same time kept up.

1900
44

The Educational work of the year was far from satisfactory. The Middle Class Municipal School ~~under~~ ~~municipal management~~ did ~~not fare well~~ badly at the annual examination & the ~~teaching of Sanscrit~~ therein ~~was given up~~. highest class (the Lower Middle) was accordingly abolished. The school is said to be situated in a crowded part of the town and its removal elsewhere is recommended. The Municipal Girls' School was also closed ~~abolished~~ at the end ~~close~~ of the year on account of difficulties in securing ~~pas~~ the services of a competent School mistress ~~could not be secured~~. It is observed that in the opinion of the officiating Deputy Inspector very high qualifications are not required and the Govt. trust that the school may be reopened at an early opportunity. The Results grants paid amounted only to ~~was exceedingly~~ the insignificant sum of ~~small being~~ Rs 69 as against Rs 600 estimated & no reason is assigned for the shortness of the outlay; ~~an~~ ~~the whole the progress of Education in the Municipality during the year is not fully reported on.~~

There is an increase of 4 elementary schools and 363 pupils over the previous year, and it is understood that the ~~[illegible]~~ entertainment of a separate Inspecting Schoolmaster for the Municipality is in contemplation.

The Hospital Charges show a decrease as compared with the estimate & the actuals of the previous year, ~~the Cost of Medicines and other charges having been less~~. ~~The number of patients treated during the year was~~ 242 in and 5959 out patients were treated during the year as against 321 & 5476 respectively in 1879/80. The services of a certificated midwife were secured. ~~Vaccination made a great advance over the previous year, 1778 operations being reported~~

Great progress was made in vaccination, no fewer than 1778 operations, or an average of 72 per vaccinator per month having been performed

~~reported against 1101 in that previous year~~ at a ~~& the~~ cost per operation ~~was~~ of annas 3-10. The Registration of births & deaths shows the following results.

	Births	Deaths
1879-80	535	440
1880-81	593	446

The Conservancy of the town ~~which~~ was carried out on contract by an European and appears to have produced satisfactory results. It is observed that the Contribution for ~~the additional~~ Sanitary Inspection was not paid within the year. The ~~full amount~~ payment due to Government on account of Police ~~Contribution was not paid~~ was also allowed to fall into arrears. This should ~~in~~

not occur again -
~~in future be avoided,~~
~~each year's Contribution~~
~~being paid off before~~
~~the close of the account year~~
~~its place~~. The Toll
Statement was not
submitted as required
by G.O. 22nd Augt/79
No 1614. The Closing
balance of the Deposit
account viz Rs 440
should have been shown
in note to Statement II
In statement I the
Arrear Collections
under "Rate on houses &
lands" are entered at
Rs 1928 while Statement IV
shows them
at Rs 1920 -
