RESOLUTION.—From the returns received from the Government of Bombay a list has been prepared, and is appended to this Resolution, of the articles which, on the information now before the Government of India, it is possible to procure of Indian manufacture. Many of the articles enumerated seem to be required by individual officers in small quantities at a time; but in the aggregate the quantity annually required for the public service in the Bombay Presidency and in other parts of India will probably be sufficient to induce local manufacturers to undertake the supply; and as it is expedient to encourage local industries by every legitimate means, the Governor General in Council requests that His Excellency the Governor of Bombay in Council will cause definite instructions to be issued to all the officers concerned to institute enquiries as to the cheapest and most convenient way of obtaining in future regular supplies of such goods of Indian manufacture as well as of any other goods which on enquiry it may be found feasible to add to the list. The Governor General in Council will be prepared to approve of contracts made by the Local Government with Indian manufacturers for the suply, for a term of years, of any of the articles if, in any case, such a course is found necessary in order to give to the manufacturers an assurance of the existence of a permanent and steady demand for goods which they would not otherwise undertake to make. Ordinarily such contracts need not be for more than five years in the first instance, and should be based on the average cost of the imported articles.

ORDER THEREON, 6th October 1881, No. 1909.

Recorded.

(True Extract.)

R. DAVIDSON,
Chief Secretary.

Exd. T. O'Connor.

1909/20

2. The existing sources of supply of most of the articles mentioned (so far as they are as yet known to the Government of India) have already been noticed in the Resolutions on the subject of the supply of stores published in the *Gazette of India* since the 23rd July last, and they need not be repeated here.

3. The manufacture of brown pape[illegible]e paper, blotting-paper, and some other articles of stationery, asalso va[illegible]ptions of cotton and woollen cloth and ironware, is now established in India. The Governor General in Council directs that wherever possible, with due regard to economy, such articles of Indian manufacture shall, in futue, be substituted for European articles in the Presidency of Bombay as everywiere else in India.

ORDERED, that the foregoingResolution be communicated to the Government of Bombay, with the request that the submission of the other returns promised may be expedited.

Ordered also, that the Resolution be communicated to the other Local Governments and Administrations and be published in the *Gazette of India* for general information.
