GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

2nd November 188[illegible], No. 2123.

Municipal—Reports.

Read the following paper :—

From R. B. NIXON, *Esq., Vice-President of the Municipal Commission, Cocanada, to the President of the Municipal Commissions, Godavari District, dated 9th September* 1881, *No.* 223.

I have the honor to submit my annual report on the working of the Towns' Improvement Act, III of 1871, in the Cocanada Municipality during the official year 1880-81, together with the usual statements.

2. The total receipts, including the opening balance, were Rs. 36,014-10-3, and, excluding the opening balance and the receipts from the license tax, were Rs. 29,027-4-7.

3. The actual collections for the year under notice, as compared with the estimate and regular estimate, approximate pretty closely in most instances, but there are some differences, which are explained herein.

4. *Receipts—Rates and Taxes—(a) Houses and Lands.*—The taxes under these items realized without difficulty the full amount budgeted for, and the increase of Rs. 125-6-3 is due to the collection of arrears, amounting to Rs. 113-13-0. There was a small balance of Rs. 232-3-0 outstanding at the close of the year under reference, most of which may be collected hereafter.

5. (*c*) *Taxes on Arts, &c.*—Our collections under this head were Rs. 3,402 (including Rs. 63 collected on account of arrears due for the previous year) against Rs. 3,700 estimated for. The balance outstanding at the close of the year under report, as first assessed, was Rs. 537, of which Rs. 252 have been collected since the close of the year under notice, and of the remaining Rs. 285 a great deal seems to be irrecoverable. Inclusive of the Rs. 252 collected after the close of the year, the actuals come up closely to the estimate, the difference being only Rs. 109.

6. The increases under (*d*) to (*h*) do not much call for remark, except under carts and animals, where the increase is considerable, viz., Rs. 522 against Rs. 400 estimated. This is due to the extension of the trade of cart-keeping, many persons having come from the Vizagapatam District for the purpose.

7. (3) *a, Surplus Pound Fund.*—There is a decrease of Rs. 52-15-0. The collection is made by the Revenue Department and paid to the Municipality. Rs. 17-1-0 only was the amount paid during the year.

8. (7) *a, Market.*—In explaining Rs. 5[illegible]-13-9, which is an increase under this item, I may add that the receipts from the market have been on the increase for the last four years as the marginal note explains. Nothing has been done towards the erection of a market in Cocanada. In our budget for 1881-82 we proposed to be allowed to use the balance of the Hospital Endowment Fund as a loan for the purpose of building a market in Cocanada, but Government declined to sanction the proposal, so that this project must continue to be deferred, though the market is much needed and would be sure to yield a profitable return.

	RS.	A.	P.
1877-78	401	9	1
1878-79	437	10	2
1879-80	477	7	10
1880-81	500	13	9

9. (7) *b, Wharf.*—The decrease of Rs. 11-13-4 under this item is small and does not call for special remark.

10. *c, Wood-yards.*—The increase of Rs. 240-0-1 under this item is chiefly due to better supervision and a stricter collection of the taxes.

11. (8) *a, Private Scavenging.*—This item shows an increase of Rs. 46-4-0. The Commissioners have undertaken to have the cess-pools cleaned on trial from the beginning of the year under report.

12. (9) *a, Hospital.*—The decrease of Rs. 1,412-11-2 under this head is due to two causes—

1stly.—The sale sanctioned [illegible] Government Order of the 2nd August 1880, No. 1494, of a Gov[illegible]ent bond for Rs. 1,000, forming part of the Hospital Endowmen[illegible]und, was not carried out during the year owing to the difficul[illegible] regulating it, but it will probably be sold and appear in the ac[illegible]s for the current year 1881-82.

2ndly.—Private subscriptions t[illegible] extent of Rs. 480 were withdrawn.

13. (10) *b, Materials, Avenues,* [illegible]-The receipts under this item are from the sale of the withered trees and unservic[illegible] articles, &c., and the decrease of Rs. 65-9-6 was owing to the small number of thin[illegible]hat had to be sold during the year under report.

14. (13) *License Tax.*—The dec[illegible]e of Rs. 930 against Rs. 6,000 budgeted for and Rs. 5,085 actually demanded [illegible]der this head is due to Rs. 900 that were refunded under the first three classe[illegible]hese classes having been removed by the Amendment Act VI of 1880, and to [illegible]0 not collected during the year.

15. The opening balance estima[illegible]was Rs. 1,830 and the increase of Rs. 102-5-8 is to be accounted for chiefly by the [illegible]that Rs. 99-12-7 deposited in Savings Bank were not included in the balance wh[illegible]the budget was made up for the year under report.

16. *Expenditure—Grant I, Publ*[illegible]*Works—(D) Water-supply.*—No new works were executed during the year unde[illegible]report, except the excavation of a part of a drinking-water tank in Jagannayaka[illegible]e, for which a sum of Rs. 400 was budgeted, of which Rs. 200 were paid for the w[illegible] done during the year.

17. *(E) Miscellaneous.*—It was [illegible]oposed in our budget to spend Rs. 600 under this item in raising and keeping in o[illegible] the land outside the salt-water creek used by the people for latrine purposes. Thi[illegible]proposal was not carried out. The Commissioners in January last resolved to utilize the amount of this allotment towards the repairs of the wooden bridge across the salt-water creek, which was in an unsafe state, but the money saved under Grant I—2, Repairs—*(a)* Communications, was sufficient to meet the amount expended on the bridge during the year.

18. *II, Repairs—(a) Communications.*—A sum of Rs. 5,296-6-2 was spent against Rs. 5,530 estimated under this head, viz., Rs. 2,432-14-5 for rekunkering bridge road in Jagannayakapure, the Ramakistnaya road on the canal side of Cocanada (which was also metalled), and the Mosque road in Cocanada, a distance of 1,234 yards; Rs. 2,563-7-9 for repairing considerably the Cutcherry, Custom House, Sullivan, Club, and Bank roads in Cocanada, and for keeping all other roads in order; and Rs. 300 paid in advance against Rs. 411-1-0 for which the repairs of the wooden bridge across the salt-water creek were contracted. There are several other roads that still require to be put in thorough order, some of which I hope will be carried through during the current year.

19. *(b) Buildings.*—Rs. 359-8-8 against Rs. 430 estimated under this item were spent under repairs to the hospital and market building in Jagannayakapure, the latter costing only Rs. 42-0-8.

20. *(c) Drainage.*—The cost for making drains on the sides of the roads and repairing masonry culverts, sluices, &c. (the latter costing Rs. 118-0-9), was Rs. 484-13-0 against Rs. 400 estimated for the year under report. The increase is due

2123/2

chiefly to repairs to the culverts in giving attention to the Sanitary Commissioner's suggestions.

21. *(d) Water-supply.*—The expenditure incurred under this item was Rs. 326-1-11 against Rs. 100 estimated. It includes Rs. 209-2-9, being monthly wages of two coolies permanently employed—one on the Coyvoor and the other on the Cocanada supply channels—and the charge of the extra coolies employed in keeping the channels under proper repairs, besides Rs. 65-2-0 incurred for repairing and cleaning the tanks and wells, and Rs. 51-13-2 paid on account of rings supplied to a large number of wells to meet the demand of fresh water, while the canals were so long closed for repairs during the last hot season. The estimate was originally for the repairs alone; the other items coming under this item incidentally occasioned an increase.

22. *(e) Miscellaneous.*—Rs. 234-14-0 against Rs. 300 estimated under this item were spent, and they include Rs. 184-4-0 incurred in keeping the latrines in good order and Rs. 50-10-0 in finding huts, &c., for the residence of toties. Two new public latrines have been added since the close of the year.

23. *Grant II, Education.*—No great improvement was effected during the year in point of education. The Municipality continued its aid to the Linton's Primary School at Cocanada and the St. Thomas' School at Jagannayakapure, as well as to a Mussulman School, which latter gets a salary grant of Rs. 7-8-0 a month. The estimate under salary grants is more by Rs. [illegible]0 than the actual expenditure, owing to the increase of Rs. 10 in the grant to Linton's Primary School not having been paid during the first month of the year. Under results grants there is a slight increase of Rs. 34-12-0, as expenditure must necessarily be fluctuating. Three schools received results grants during the year. The schools receiving salary grants continue in the same state as last year.

24. *Grant III, Sanitation—(1) Hospitals and Dispensaries—(c) Diet of Patients.*—The decrease of Rs. 101-9-0 against Rs. 1,[illegible]0 estimated under this item is due to the smaller number of seamen and in-patients treated during the year as compared in the margin with the number of the previous year.

	1879-80.	1880-81.
In-patients	281	241
Out-patients	5,670	5,646
Seamen	42	27

25. *(d) Sundries and Contingencies.*—The expenditure under this item did not exceed Rs. 202-10-8 against Rs. 404 estimated for the year.

26. *(e) Contribution to Medical College.*—The increase of Rs. 137-13-6 against Rs. 140 budgeted for under this item was the payment of the demand for 1879-80 paid during the year under report.

27. *(h) and (i) Bedding and Clothing.*—The estimate for the year was Rs. 375. The contract for the provision of these items had been given the year before and an advance of Rs. 100 made. The balance of Rs. 229-15-6 was paid during the year and forms the sole amount of expenditure.

28. The Municipal Hospital and Dispensary remain in the same favorable state as was reported last year by my predecessor.

29. The resignation of the former midwife, Mrs. Hart, was accepted on the 1st November 1880, and she was succeeded by Mrs. Conway holding diplomas as sick nurse and midwife. She joined the duty on 22nd November 1880. The cases attended to by the midwives during the year are compared in the margin with those of the previous year. From the few number of cases treated it would appear that the benefits of a properly-trained midwife are not yet sufficiently appreciated by the general public.

	1879-80.	1880-81.
In-patients	4	4
Out-patients	25	24

30. (2) *Vaccination.*—There is no change in the expenditure under this item. There is a slight increase in the number of cases vaccinated during the year as compared with the figures of the previous year is as follows.

—					Sucessful.	Unsuccessful.	Unknown.	Total.
1879-80	..	..	..	..	544	113	33	690
1880-81	..	..	..	..	603	128	10	741
					FROM ARM-TO-ARM.			
1879-80	..	..	..	..	162	19	4	185
1880-81	..	..	..	..	222	32	..	254
					UNDER [illegible] YEAR OF AGE.			
1879-80	..	..	..	..	61	2	1	64
1880-81	..	..	..	..	60	2	..	62

The state of vaccination, howev[illegible]n this Municipality is by no means so satisfactory as it should be.

31. (3) *Registration of Births [illegible] Deaths.*—The births and deaths during the year are compared in the margin with those of the previous year. From the comparison it would appear that there was an increase in births and a decrease in deaths, also a preponderance of births over deaths. The returns, I think, may be considered fairly accurate.

					1879-80.	1880-81.
Births	..	..	..	..	475	66[illegible]
Deaths	..	..	..	..	656	3[illegible]

The annual concise report of the Municipal Dispensary and Seamen's Hospital, Cocanada, for the year under report, received from the Civil Surgeon, Cocanada, under date the 9th August 1881, is annexed:—

"The greatest rainfall in a month was 10·87 in November 1880 and 7·9 in October. In these two months the greatest amount of rain generally falls. The rainfall for the past five years is as follows:—

1876-77	..	..	..	.	..	..	..	..	22·98
1877-78	..	..	..	.	..	..	..	..	34·16
1878-79	..	..	..	.	..	..	..	..	65·6
1879-80	..	..	..	.	..	..	..	..	47·29
1880-81	..	..	..	.	..	..	..	..	35·79

"Giving an average of 41·45 inch per year. The highest temperature recorded during the year was 101 on 5th June 1880, and the lowest 70 on 22nd December 1880. Necessaries of life are plentiful and cheap.

"*General State of Health.*—Good. Two cases of small-pox were admitted into hospital, and one case of cholera occurred in a lascar landed from a British India Steamer. The most common diseases amongst in-door patients have been, in order of frequency, ulcers (31), rheumatic affections (25), syphilitic affections (23), disease of bowels (17); amongst the out-patients, bowel complaints (847), skin diseases (654), ague (524), respiratory affections (355), worms (334), ulcers (246), rheumatic affections (244), syphilitic affections (176).

"There has been a falling off in the number of native in-patients during the past year as will be seen by the table given below. As my predecessor was of opinion that the increase of the previous two years was due to sickness amongst followers, &c., in the Rampa rebellion, I think the present rate of admission is the average one; there was a slight increase amongst the native out-patients. The Eurasian in-patients are in almost the same proportion as previously, but there is a considerable falling off in the number of out-patients attending, due, I think, to the healthiness of the past year. There is also a falling off in admissions amongst European seamen. The number of major operations performed is steadily on the increase, people coming many miles to be relieved. The number of women attended in child-birth remains stationary. The lying-in ward has been closed for some time past after being open for the short period of one year on account of its want of success. I do not think one year is a long-enough time for its trial and would strongly recommend that it be opened again and kept open for a much longer period, for it is notorious that even the poorest will not resort to the hospital until they are *in extremis*, and even then the friends are very reluctant to bring the patient, and consequently it will take a long time to overcome their prejudice, and they must be shown over and over again the benefit to be derived by coming to the hospital in difficult cases or even for ordinary labor. In a large shipping town like Cocanada there must of necessity be a large number of women of ill fame, and, if you go into the wards, you will find generally one-half of the patients (women) suffering from venereal diseases. I think this class of patients keep those who are more deserving out of the wards; consequently they should, if possible, be provided for in separate wards. During last year no less than twenty-one major operations were performed; this is a large number, and I should think two would always be in the hospital at a time, but there is no ward in which these patients can be placed by themselves; they have to be put in the general ward; it is obvious that this is not as it should be, and so to obtain a separate ward for operation cases and a ward for venereal diseases, I think the European seamen and Eurasians should be provided for in a separate two-roomed hospital built for that purpose and so liberate the two wards detained for their use.

"The following table gives the attendance of patients for the past three years for Natives, Eurasians, and Seamen:—

Years.				In.	Out.	Total.
				NATIVES.		
1878-79	..	..	..	300	5,089	5,389
1879-80	..	..	..	267	5,347	5,614
1880-81	..	..	..	229	5,417	5,646
				EURASIANS.		
1878-79	..	..	..	5	303	308
1879-80	..	..	..	14	323	337
1880-81	..	..	..	12	229	241

SEAMEN.

—				European.	Native.	Total.
1878-79	..	..	..	43	6	49

1878-79	..	..	..	2	34	36
1879-80	..	..	..	4	25	29
1880-81	..	..	..	4	24	28

"COCANADA,
9th August 1881.

(Signed) LIONEL BEECH,
Acting Civil Surgeon."

32. (4) *Conservancy—(a) Establishment.*—The decrease of Rs. 265-5-8 against Rs. 4,122 estimated for the year under report includes Rs. 192, being wages of two toties and a peon not employed during the year, and Rs. 60, reduction in the salary of the Overseer at Rs. 5 per month, besides Rs. 13-5-8, saving from peons' wages. The conservancy of the town was attended to carefully as far as the means at present at our command will allow, but a great deal yet remains to be done in this direction.

33. (c) *Contingencies.*—The expenses under this item did not amount to more than Rs. 80-9-9 against Rs. 114 estimated for the year under report.

34. (d) *Private Scavenging.*—The amount expended on this item is Rs. 330-6-8, thus falling short of the estimate by Rs. 53-9-4, which is due to the employment of scavengers so as to meet actual requirements. This was so done to bring the expenditure within the receipts as directed by the Government in their Order of the 21st September 1880, No. 1828.

35. *Grant IV, Miscellaneous Municipal Purposes—1, Lighting.*—The number of municipal street lamps was increased by four during the year. They were carefully looked after.

36. (b) *Contingencies.*—Rs. 370-10-0 were not expended under this item out of Rs. 1,142 estimated. In consequence of the saving of Rs. 313-14-0 in the value of the oil purchased at lower rates and of the value of chimneys and burners, &c., amounting to Rs. 56-12-0, not purchased during the year.

37. (5) *Avenues—Watering and Fencing Trees.*—The decrease of Rs. 144-13-2 in the expenditure under this item is the saving in the value of bamboos and other materials purchased during the year.

38. (7) *Lunatic.*—Rs. 75 were spent against Rs. 100 estimated under this item for the full year. The lunatic was discharged from 1st January last.

39. (8) *Maintenance of Police.*—Rs. 119-8-8 unspent against Rs. 3,600 estimated under this item was the amount not drawn during the year by the Police.

40. (9) *License Tax.*—Rs. 4,802-4-0 were paid to the collector during the year, while Rs. 252-12-0 were taken by the Municipality on account of allowance due to it at 5 per cent. on Rs. 5,055, which is the whole amount collected during the year.

41. (10) *Miscellaneous.*—Rs. 330-1-1 against Rs. 75 estimated were spent under this item. The increase was chiefly in consequence of the necessity we were driven to to purchase galvanized iron buckets and firehooks, &c., at a cost of Rs. 242-10-6 as a prevention in case of fires, which are unfortunately of rather frequent occurrence in the crowded parts of the town during the hot weather.

42. *Grant V, Supervision and Management.*—The decrease of Rs. 174-14-9 against Rs. 1,154 estimated under (b) Contingencies mostly consists of the printing charges not incurred during the year. The amount spent under (2) Miscellaneous was Rs. 281 against Rs. 120 estimated. The increase is chiefly due to the wages of the establishment and other charges, amounting to Rs. 149-12-0, incurred for the work of census conducted by this Municipality. The work of census, notwithstanding the very heavy extra pressure of work thrown upon the office establishment at the time, was performed with care and attention, and the returns may, I think, be relied upon as being very accurate. The result shows that the population has increased from 17,839 in 1871 to 28,076 in 1881.

43. The accounts of the Municipality have been audited for the year under report. The Auditor's report is annexed. In it the suggestion is again made to demand security from the Manager. In 1879-80 the Auditor made a similar proposal, and the matter was considered by the Commissioners at their meeting held on the 21st July 1880. Their resolution No. 3 is copied below :—

"Considering proposal by Auditor that Municipal Manager should give security, the Commissioners think that this question should be decided now and that no security need be given."

The matter was again brought before the Commissioners at their meeting of 10th August 1881, when the following resolution was passed :—

"Reconsidering the question of requiring security from the Municipal Manager, the Commissioners consider that the Manager should not now be required to give security."

2123/4

"From E. G. RICKETTS, Esq., Auditor, Municipal Accounts, Cocanada, to the Vice-President, Cocanada Municipality, dated Cocanada, 20th June 1881.

"Having been appointed by the President, Municipal Commissions, Godávari District, to audit the accounts of your Municipality for the year 1880-81, I have the honor to submit the following report.

"The several books in which are recorded the full particulars of receipts have been examined and found to be correct and the collections carried to the proper head of account shown in the cash book. The entries in the daily cash book were supported by vouchers with the exception of one on the credit side, viz., for the amount of Re. 1 recovered from a cartman on account of the damage done by him to a municipal lamp-post. The demand for the year under audit was all but collected, a balance of Rs. 1,304-8-9 only remaining as exhibited in Statement No. I enclosed. Statement No. II, also enclosed, shows the cash transactions of the Municipality for the year under report, and Statements Nos. III and IV appended compare the income and expenditure of the year under audit with the previous year. I have ascertained the cash balance in favor of the Municipality on the 31st March 1881 as shown in the Bank pass books, &c., as stated in the margin, and found it to be correct. The several registers prescribed by the Act have been opened and contain the necessary information. The books and vouchers have been neatly kept and reflect credit on the establishment. I have much pleasure in certifying to the Head Clerk's (A. V. Gopal Rao) thorough knowledge of the accounts. The Government in their Order, No. 1828, dated 21st September 1880, authorized the taking of security from the Manager, but it has not been done as yet. I therefore recommend the taking of the said security of Rs. (2,000) two thousand from the Manager, as the collections are not remitted to the Bank on the same day they are received. The highest sum held by the Manager at any one time during the year under report was Rs. (1600) sixteen hundred and the number of challans that accompanied the remittance to the Bank was 52 in the whole year, thus showing that the remittances to the Bank were made once a week on an average."

RS.	A.	P.	
4,171	10	8	Balance according to pass book.
152	14	8	Do. in the Municipal Office.
124	6	11	Do. in Government Savings Bank.
4,449	0	3	

Meetings.—The Commissioners held twenty-nine meetings during the year, and the average attendance was eight.

No 26 [Current No. 2569].

Submitted to Government.

2. The report of the Vice-President sufficiently explains all the differences between the estimates and the actual receipts and expenditure.

3. The Auditor has proposed that the Manager should provide security; the matter was again laid before the Commissioners, but they do not wish to require this now. I certainly agree with the Commissioners; nothing was said about security when the Manager was appointed, and to require it now would be tantamount to reducing his pay. When the post, however, again becomes vacant, I will see that the next incumbent does give security.

4. I cannot say that the Municipal Commissioners have become less willing to grant people permission to thatch houses or that fires have been less during the year under report.

5. It is to be observed what a marked difference there is in the incidence of taxation by taking this year's census instead of that of 1871. The population has increased by 57 per cent. In some places the town is extending beyond the municipal limits, and it will doubtless be advisable soon to extend these limits also.

ORDER THEREON, 2nd November 1881, No. 2123.

The receipts and charges of the Cocanada Municipality for 1880-81 are compared below with the estimates for the year and the actuals for 1879-80.

RECEIPTS.

	Actuals, 1879-80.	Estimate, 1880-81.	Actuals, 1880-81.

6702
6902

2. Excluding the License Tax collections, the receipts amounted to Rs. 28,856 against Rs. 29,850 estimated and Rs. 26,652 collected in the previous year. The receipts from the various heads of taxation are for the most part slightly in excess of the estimate and of the actuals of the previous year; while under Endowments there is, as compared with the budget estimate, a marked decrease, which is attributed partly to a falling off in the subscriptions to the hospital and partly to the fact that the funded capital of the dispensary was not drawn on for current expenditure as originally proposed. The receipts from private scavenging show a slight improvement.

2123/5 2123/5

	RS.
1879-80	366
1880-81	446

3. The collection of taxes were satisfactory except in the case of the "Tax on Arts," under which there was an uncollected balance of Rs. 537, besides a sum of Rs. 262 written off as irrecoverable. Information should have been furnished as to the extent to which coercive measures were resorted to.

4. The expenditure, excluding License Tax, aggregated Rs. 28,562 against an estimate of Rs. 31,480 and an actual of Rs. 26,446 in the previous year and was distributed among the various grants in the following proportions :—

Grant	I.—Public Works	24·6
"	II.—Education	3·6
"	III.—Sanitation	38·8
"	IV.—Miscellaneous	20·1
"	V.—Supervision	12·9

5. The expenditure on New Works was limited to the partial excavation of a tank at a cost of Rs. 200. The repair of roads absorbed Rs. 5,296: and it is reported that, notwithstanding the large expenditure incurred under this head during the last two years, there are still several roads requiring to be put in order.

6. In regard to Education, municipal action was confined to the payment of pure results grants to three schools and of salary grants to a similar number. The attendance at the results grant schools fell from 101 to 51, while that at the salary grant schools remained almost the same as in the previous year. Nothing is stated as to the progress of education in these schools, and the report of the Educational officer has not been submitted. The attention of the Commissioners will be specially directed to the importance of improving the elementary education of the town. There are evidently a large number of unaided schools which might be brought under systematic municipal control. Statement V shows twenty-eight such schools with an attendance of 505 boys and 130 girls.

7. The hospital and dispensary continued to work satisfactorily. The numbers treated fell slightly from 281 in and 5,712 out patients in the previous year to 241 and 5,673 respectively. There were twenty-eight cases in which the services of the midwife were required. Nothing whatever was realised from the sale of medicines, which would thus appear to have been supplied gratuitously not only to the poor, but also to those who could well afford to pay for them and who can have no claim to such indulgence at the expense of the rate-payers.

8. There was a small increase, from 690 to 741, in the number of vaccine operations. The cost per operation however (four annas and seven pies) is high and should be reduced.

9. The returns of vital statistics show [illegible]1 births and 398 deaths against 475 and 656 respectively in the previous year.

10. Conservancy is reported to have been carefully attended to, but the sanitary state of the town is not noticed in the annual report of the Civil Surgeon. The latter officer points out several defects in the hospital arrangements at present existing, which will doubtless engage the attention of the Commissioners. The remaining items do not call for remark.

11. The Auditor recommends that security be taken from the Manager; but, as the Commissioners are unwilling to require this in the case of the present incumbent, it seems desirable that arrangements should be made so that the collections may not pass through the Manager's hands. Direct payments into the treasury may be insisted on, and as to disbursements cash transactions may be obviated by the use of cheques.

12. It is observed that the contribution for additional sanitary inspection was not paid during the year. This item should appear in the foot-note to Statement II as an unpaid liability. Under assets in the same foot-note the deposit balance

should be included. In Statement II th ere is an entry under Grant IV of Rs. 23-8-7 as paid to the Deputy Collector in cha ge of the treasury for controlling establishment. The entry requires explanatio as it is evidently distinct from the sum of Rs. 31-4-0 entered under Grant V.

Municipal—Reports.—Report on the working of the Cocanada Municipality during 1880-81, reviewed.

Municipal Office
Cocanada 9th September
1881

No 223

2123
~~26~~ 7

From
The Vice President
Municipal Commission
Cocanada

To
The President
Municipal Commission
Godavery District

Sir,

I have the honor to submit my annual report, on the working of the Towns Improvement Act III of 1871, in the Cocanada Municipality during the official year 1880-81. together with the usual statements.

2 The total Receipts including the opening balance were Rs 36014—10—3, and Excluding the opening balance and the receipts from the License Tax were Rs 29027-4-7.

3. The actual Collections for the year under notice, as compared with the estimate and regular estimate, approxima pretty closely in most instances, but there are some differences, which are explained herein.

Receipts

Rates and Taxes

(a) Houses and Lands

4. The taxes under these items realized without diffic the full amount budgeted for, and the increase of Rs 125—6—3 is due to the Collection of arrears, amoun to Rs 113—13—0. There was a small balance of Rs 232—3—0 outstanding at the close of the y under reference, most of which may be Collected he -after

(c) Taxes on Arts &c.

5 Our Collections under this head were Rs 3402—
includ

(including Rs 63—0—0 collected on account of arrears due for the previous year) against Rs 3700—0—0 estimated for. The balance outstanding at the close of the year under report, as at first assessed, was Rs 537—0—0, of which Rs 252—0—0 have been collected since the close of the year under notice, and of the remaining Rs 285—0—0 a great deal seems to be irrecoverable. Inclusive of the Rs 252 collected after the close of the year, the actuals come up closely to the estimate, the difference being only Rs 109—0—0:

6. The increases under (d to h) is not much call for remark, except under carts and animals, where the increase is considerable, viz Rs 522 against Rs 400 estimated. This is due to the extension of the trade of cart keeping, many persons having come from the Vizagapatam District for the purpose.

(3) a Surplus Pound Fund

7. There is a decrease of Rs 52—15—0 The collection is made by the Revenue Department, and paid to the Municipality. Rs 17—1—0 only was the amount paid during the year.

(7) a Market

8. In explaining Rs 50—13—9 which is an increase under this item, I may add that the receipts from the market have been on the increase for the last 4 years as the marginal note explains. Nothing has been done towards the erection of a market in Cocanada. In our Budget for 1881/82 we proposed to be allowed to use the balance of the Hospital Endowment Fund, as a loan for the purpose of building a market in Cocanada, but Government declined to sanction the proposal, so that, this project must continue to be deferred though the market is much needed and would be sure to yield a profitable return.

	Rs	A	P
1877/78	401	9	1
1878/79	437	10	2
1879/80	477	7	10
1880/81	500	13	9

(7 b) Warf

9.. The decrease of Rs 11—13—4 under this item is small and does not call for special remark.

(c) Wood yards

10.. The increase of Rs 240—0—1 under this item is chiefly due to better supervision and a stricter collection of the taxes.

(8 a) Private Scavengering

11 This item shows an increase of Rs 46—4—0. The Commissioners have undertaken to have the cesspools cleaned on trial from the beginning of the year under report.

(9 a) Hospital

12. The decrease of Rs 1412—11—2 under this head is due to two causes.

1stly The sale sanctioned by Government order of the 2nd August 1880 No. 1494 of a Government Bond for Rs 1000—0—0, forming part of the Hospital Endowment Fund, was not carried out during the year owing to the difficulty in regulating it, but it will probably be sold and appear in the accounts for the current year 1881-82.

2ndly Private subscriptions to the extent of Rs 480 were withdrawn.

(10 b) Materials Avenues &ca

13 The receipts under this item are from the sale of the withered trees and unserviceable articles &ca, and the decrease of Rupees 65—9—6 was owing to the small number of things that had to be sold during the year under report.

13 License Tax

14. The decrease of Rupees 930—0—0 against Rs 6000—0—0 budgeted for and Rs 5085—0—0 actually demanded under this head, is due to Rupees 900—0—0 that were refunded under the first three classes, these classes having been removed by the Amendment Act VI of 1880, and to Rs 30—0—0 not collected during the year.

15 The opening balance estimated was Rs 1830—0—0 and the increase of Rs 102—5—8 is to be accounted for chiefly by the fact that Rupees 99—12—7 deposited in Saving Banks were not included in the balance when the budget was made up for the year under report.

Expenditure

Expenditure

Grant I Public Works

(D.) Water Supply

16. No new works were Executed during the year under report, Except the Excavation of a part of a drinking water tank in Jagannayakapure, for which a sum of Rs 400—0—0 was budgeted, of which Rs 200—0—0 were paid for the work done during the year.

(E) Miscellaneous

17. It was proposed in our budget to spend Rs 600—0—0 under this item, in raising and keeping in order the land outside the Salt water creek used by the people for latrine purposes. This proposal was not carried out. The Commissioners in January last resolved to utilize the amount of this allotment towards the repairs of the wooden bridge across the salt water creek, which was in an unsafe state, but the money saved under Grant I 2 Repairs (a) Communications was sufficient to meet the amount Expended on the Bridge during the year.

II Repairs

(a) Communications

18. A sum of Rs 5296—6—2 was spent against Rs 5530—0—0 Estimated under this head viz Rs 2432—14—5 for rekunkering Bridge road in Jagannayakapure, the Ramakistnayya road on the canal side of Cocanada (which was also metalled) and the Mosque road in Cocanada, a distance of 1234 yards; Rs 2563—7—9 for repairing considerably the Cutcherry, Custom House, Sullivan, Club, and Bank, Roads in Cocanada; and Rs 300—0—0 for keeping all other roads in order; and Rs 300—0—0 paid in advance against Rs 411—1—0, for which the repairs of the wooden Bridge across the salt water creek were contracted. There are several other Roads that still require to be put in thorough order, some of which I hope will be carried through during the current year.

Buildings

2123/28

(B) Buildings

19. Rs 359—8—8 against Rs 430—0—0 estimated under this item were spent under repairs to the Hospital and Market Building in Jagannayakapure, the latter costing only Rs 42—0—8.

(C) Drainage

20. The cost for making drains on the sides of the roads and repairing masonry culverts, sluices &c (the latter costing Rs 118—0—9) was Rs 484—13—0 against Rs 400—0—0 estimated for the year under report. The increase is due chiefly to repairs to the culverts in giving attention to the Sanitary Commissioner's Suggestions.

D Water Supply

21. The expenditure incurred under this item was Rs 326-1-11 against Rs 100 estimated; It includes Rs 209—2—9 being monthly wages of two Coolies permanently employed, one on the Cornoor, and the other on the Cocanada Supply channels, and the charge of the extra Coolies employed in keeping the channels under proper repairs, besides Rs 65-2-0 incurred for repairing and cleaning the tanks and wells, &c, Rs 51—13—2 paid on account of rings supplied to a large number of wells to meet the demand of fresh water, while the canals were so long closed for repairs during the last hot season. The estimate was originally for the repairs alone; the other items coming under this item incidentally, occasioned an increase.

(E) Miscellaneous

22. Rs 234—14—0 against Rs 300—0—0 estimated under this item were spent and they include Rs 184—4—0 incurred in keeping the latrines in good order, and Rs 50—10—0 in finding huts &c for the residence of toties. Two new public latrines have been added since the close of the year.

Grant II Education

Grant II Education

23. No great improvement was effected during the year in point of education. The Municipality continued its aid to the Linton's Primary school at Cocanada, and the Saint Thomas school at Jagannayakapuram, as well as to a Mussalman school, which latter gets a salary grant of Rs 7—8—0 a month. The estimate under salary grants is more by Rs 10—0—0 than the actual expenditure, owing to the increase of Rs 10—0—0 in the grant to Linton's Primary school, not having been paid during the first month of the year. Under result grants there is a slight increase of Rs 34—12—0, as expenditure must necessarily be fluctuating. Three schools received result grants ~~schools~~ during the year. The schools receiving salary grants continue in the same state as last year.

Grant III Sanitation

(1) Hospital and Dispensaries

(C) Diet of Patients

24. The decrease of Rs 101—9—0 against Rs 1800—0—0 estimated under this item is due to the smaller number of Seamen and in patients treated during the year as compared in the margin with the number of the previous year.

	1879-80	1880-81
In Patients	281	241
Out Patients	5670	5646
Seamen	42	27

(D) Sundries and Contingencies

25 The Expenditure under this item did not exceed Rs 202—10—8 against Rs 404—0—0 estimated for the year.

(E) Contribution to Medical College

26. The increase of Rs 137—13—6 against Rs 140—0—0 budgeted for under this item, was the payment of the demand for 1879-80 paid during the year under report

(H and i) Bedding and clothing

27. The Estimate for the year was Rs 375—0—0. The contract for the provision of these items, had been given the year before and an advance of Rs 100—0—0 made. The balance of Rs 229—15—6 was paid during the year and forms the sole amount of expenditure.

4 · Prea

28 The Municipal Hospital and Dispensary remain in the same favourable state as was reported last year by my predecessor.

2123 / ~~29~~ 29 10

29. The resignation of the former Midwife Mrs Hart was accepted on the 1st November 1880, and she was succeeded by Mrs Conway holding diplomas as sick nurse and Midwife. She joined the duty on 22nd November 1880. The cases attended to by the Midwives during the year, are compared in the margin with those of the previous year. From the few number of cases treated, it would appear that the benefits of a properly trained Midwife are not yet sufficiently appreciated by the general public.

	1879-80	1880-81
In Patients	4	4
Out Patients	25	24

2 Vaccination

30. There is no change in the Expenditure under this item. There is a slight increase in the number of cases vaccinated during the year as compared with the figures of the previous year as follows

	Successful	Unsuccessful	Unknown	Total
1879 · 80	544	113	33	690
1880 81	603	128	10	741
From arm to arm				
1879 · 80	162	19	4	185
1880 81	222	32	0	254
Under one year of age				
1879 · 80	61	2	1	64
1880 81	60	2	0	62

The state of Vaccination however in this Municipality is by no means so satisfactory as it should be.

3. Registration of Births and Deaths

31 The Births and Deaths during the year are compared in the

in the margin with those of the previous year. From the comparison it would appear that there was an increase in Births, and a decrease in Deaths, also a preponderance of Births over Deaths. The returns I think may be considered fairly accurate.

	1879-80	1880-81
Births	475	661
Deaths	656	398

The annual concise report of the Municipal Dispensary and Seamen's Hospital Cocanada for the year under report, received from the Civil Surgeon Cocanada under date the 9th August 1881 is annexed.

" The greatest rain fall in a month was 10-87 in November 1880 and 7·9 in October. In these two months the greatest amount of rain generally falls. The rain fall for the past 5 years is as follows.

1876-77.	22-98
1877-78	34-16
1878-79	65-6
1879-80	47-29
1880-81	35-79

Giving an average of 41-45 inch per year. The highest temperature recorded during the year was 101 on June 5th 1880, and the lowest 70 on 22nd December 1880. Necessaries of life are plentiful and cheap. General state of Health - Good - Two cases of Small Pox were admitted into Hospital and one case of Cholera occurred in a Lascar landed from a B. I. Steamer. The most common diseases amongst Indoor Patients have been in order of frequency ulcers (31) Rheumatic Affections (25) Syphilitic affections (23) Disease of bowels (17) amongst the out-Patients Bowel complaints (847) Skin Diseases (654) Ague (524) Respiratory affections (355) Worms (334) Ulcers (246) Rheumatic affections (244) Syphilitic affections (176).

" There has been a falling off in the number of Native In patients during the past year as will be seen by the Table given below, As my predecessor was of opinion that the increase of the previous two years was due

to

(3) 5

to sickness amongst followers &ca in the Rumpa rebellion, I think the present rate of admission is the average one, There was a slight increase amongst the native out patients - The Eurasian In Patients are in almost the same proportion as previously, but there is a considerable falling off in the number of Out Patients attending, due I think to the healthiness of the past year. There is also a falling off in admissions amongst European Seamen - The number of major operations performed is steadily on the increase, people coming many miles to be relieved. The number of women attended in child birth remains stationary. The lying in ward has been closed for some time past after being open for the short period of one year on account of its want of success, I do not think one year is a long enough time for its trial and would strongly recommend that it be opened again and kept open for a much longer period, for it is notorious that even the poorest will not resort to the Hospital until they are in extremes and even then the friends are very reluctant to bring the patient and consequently it will take a long time to over come their prejudice and they must be shown over and over again the benefit to be derived by coming to the Hospital in difficult cases or even for ordinary labour. In a large shipping ~~taken~~ town like Cocanada there must of necessity be a large number women of ill fame, and if you go into the wards you will find, generally, one half of the patients (women) suffering from Venereal diseases. I think this class of patients keep those who are more deserving out of the wards consequently they should if possible be provided for in separate wards During last year no less than 21 major operations were performed this is a large number, and I should think two would always be

2123/30 11

" in the Hospital at a time, but there is no ward in which
" these patients can be placed by themselves, they have to be
" put in the General ward, it is obvious that this is not
" as it should be and so to obtain a separate ward for
" operation cases and a ward for venereal diseases I think
" the European Seamen and Eurasians should be provided for
" in a separate two roomed Hospital built for that purpose
" and so liberate the 2 wards detained for their use.

"The following Table gives the attendance of patients for
" the past 3 years for Natives, Europeans and Seamen.

Natives

years	In	out	Total
1878 - 79	300	5089	5.389
1879 - 80	267	5347	5.614

Ag Civil Surgeon

Conservancy

---

4 Conservancy

(a) Establishment

32. The decrease of Rupees 265—5—8 against Rs 422—0—0 Estimated for the year under report, includes Rs 192—0—0 being wages of 2 toties and a peon not employed during the year, and Rs 60—0—0 reduction in the salary of the overseer at Rs 5—0—0 per month, besides Rs 13—5—8 saving from peons' wages. The Conservancy of the Town was attended to carefully as far as the means at present at our command will allow, but a great deal yet remains to be done in this direction.

2123/31 17

(c) Contingencies

33 The Expenses under this item did not amount to more than Rs 80—9—9 against Rs 114—0—0 Estimated for the year under report.

(d) Private Scavengering

34 The amount expended on this item is Rs 330—6—8 thus falling short of the Estimate by Rs 53—9—4 which is due to the employment of Scavengers so as to meet actual requirements. This was so done to bring the expenditure within the receipts as directed by the Government in their order of the 21st September 1880 No. 1828.

Grant IV Miscellaneous Municipal purposes

I Lighting

35 The number of Municipal Street lamps was increased by 4 during the year. They were carefully looked after.

(b) Contingencies

36 Rs 370—10—0 were not Expended under this item out of Rs 1142—0—0 Estimated. In Consequence of the saving of Rupees 313—14—0 in the Value of the oil purchased at lower rates and of the value of chimneys and burners &c amounting to Rs 56—12—0 not purchased during the year.

(5) Avenues

Watering and Fencing Trees

37. The decrease of Rs 144—13—2 in the Expenditure under

this item is the saving in the value of bamboos and other materials purchased during the year.

(7) Lunatic

38 Rs 75—0—0 was spent against Rs 100—0—0 estimated under this item, for the full year. The lunatic was discharged from 1st January last.

(8) Maintenance of Police

39. Rs 119—8—8 unspent against Rs 3600 estimated under this item was the amount not drawn during the year by the Police.

(9) License Tax

40 Rs 4802—4—0 were paid to the Collector during the year, while Rupees 252—12—0 were taken by the Municipality on account of allowance due to it at 5 per cent on Rs 5055 which is the whole amount collected during the year.

10 Miscellaneous

41. Rs 330—1—1 against Rs 75—0—0 estimated, were spent under this item. The increase was chiefly in consequence of the necessity we were driven to, to purchase galvanized Iron buckets and Firehooks &c at a cost of Rs 242-10-6 as a prevention in case of fires, which are unfortunately of rather frequent occurrence in the crowded parts of the Town during the hot weather.

Grant V Supervision and Management

42. The decrease of Rupees 174—14—9 against Rs 1154—0—0 Estimated under (b) Contingencies, mostly consists of the printing charges not incurred during the year. The amount spent under (2) Miscellaneous was Rs 281—0—0 against Rs 120—0—0 Estimated. The increase is chiefly due to the wages of the Establishment and other charges amounting to Rs 149—12—0 incurred for the works of Census, Conducted by this Municipality. The work of Census notwithstanding the very heavy extra pressure of work thrown upon the office Establishment at the time, was performed with care and attention, and the returns may I think be relied upon as being very accurate. The result shows that the population has increased from 17839 in 1871 to 28076 in 1881, ~~but this does not give the real increase of the population who find employment in this town, for many of the daily labourers live just outside the Municipal limits and if these were included the population would probably be increased by at least 2/3000. It appears to me a question for consideration whether the Municipal limits should not be extended in the direction of [illegible]~~

1018 R

43 The accounts of the Municipality have been audited for the year under report. The Auditor's report is annexed. In it, the suggestion is again made to demand security from the Manager. In 1879-80. the auditor made a similar proposal, and the matter was considered by the Commissioners at their meeting held on the 21st July 1880. Their resolution No 3 is copied below.

" Considering proposal by Auditor that Municipal
" Manager should give Security. The Commissioners
" think that this question should be decided now and
" that no security need be given.

The matter was again brought before the Commissioners at their meeting of 10th August 1881 when the following resolution was passed.

" Reconsidering the question of requiring security from
" the Municipal Manager. The Commissioners consider
" that the Manager should not now be required to give
" security.

2123/32

Cocanada
20th June 1881.

From
The Auditor
Municipal Accounts 13
Cocanada

To
The Vice President
Cocanada Municipality

Sir,

" Having been appointed by the President " Municipal Commission Godavery District to audit the " Accounts of your Municipality for the year 1880-81, I have the

-ve honor to Submit the following report.

" The several books in which are recorded the full
particulars of receipts, have been Examined and found
to be correct and the Collections carried to the proper
" head of account shown in the cash book. The entrees
" in the daily cash book were supported by vouchers ~
with the exception of one on the credit side viz for the
amount of Rs 1—0—0 recovered from a cart man on ~
account of the damage done by him to a Municipal
lamp post. The demand for the year under Audit was
all but Collected, a balance of Rupees 1304—8—9 only
" remaining as Exhibited in statement No 1 inclosed.
" statement No II, also enclosed, shews the cash transactions
" of the Municipality for the year under report and state=
" ments Nos III IV appended Compare the income and ~
Expenditure of the year under audit with the previous
year. I have ascertained the cash balance in favour
" of the Municipality on the 31st March 1881 as shown
" in the Bank pass book &c as stated in the margin
and found it to be correct. The several Registers pres=
" cribed by the Act have been opened and contain the
necessary information. The books and Vouchers have
been neatly kept and reflect Credit on the establish-
" ment. I have much pleasure in certifying to the Head
" Clerk's (A. V. Gopal Rao) thorough knowledge of the
" Accounts. The Government in their order No 1828
" dated 21st September 1880 authorized the taking of security
" from the Manager, but it has not been done as yet
" I therefore recommend the taking of the said security
" of Rs (2000) two thousand from the Manager, as the
" Collections are not remitted to the Banke on the same
" day they are received. The highest sum held by the
" Manager at any one time during the year under
" report was Rupees (1600) sixteen hundred and the
" number of challans that accompanied the remittance
to the

4171—10—8	Balance according to pass book

" to the Banke was 52 in the whole year, thus showing
" that the remittances to the Bank were made once a
" week on an average

I have the honor to be,
Sir,
Your most obedient Servant
(Signed) E. G. Ricketts
Auditor

Meetings

2123/33 14

The Commissioners held 29 meetings during the year
and the average attendance was 8.

I have the honor to be,
Sir,
Your most obedient Servant
Col J. D. Nixon
Vice President

1

Annual report
of Cocanada Municipality
for the official year
1880-81.

Finl 2569/81

No. 26

CURRENT No. 2569

Submitted to Government.

2. The report of the Vice President sufficiently explains all the differences between the estimates and the actual receipts and expenditure.

2123/34

3. The Auditor has proposed that the Manager should provide security; the matter was again laid before the Commissioners, but they do not wish to require this now. I, certainly agree with the Commissioners; nothing was said about security when the Manager was appointed, and to require it now would be tantamount to reducing his pay. When the post, however, again becomes vacant, I will see that the next incumbent does give security.

4. I cannot say that the Municipal Commissioners have become less willing to grant people permission to thatch houses or that fires have been less during the year

DISPOSED OF
8 NOV 81
BY G.O. N.

year under report.

5. It is to be observed what a marked difference there is in the incidence of taxation by taking this year's census instead of that of 1871. The population has increased by 57 per cent. In some places the town is extending beyond the Municipal limits, and it will doubtless be advisable soon to extend the limits also.

Excluding the License Tax collections, the receipts amounted to Rs 28,856 against Rs 29,850 estimated and Rs 26,652 collected in the previous year. ~~[illegible]~~ ~~with the previous year~~ The receipts from the various heads of taxation are for the most part slightly in excess of the estimate & of the actuals of the previous year, while ~~but~~ ~~there~~ under endowments there is ~~taxes shew increases over the previous year. This is satisfactory as indicating progress in trade and general prosperity.~~ ~~and. There is a marked decrease under Endowments~~ as compared with the Budget Estimate a marked decrease which is ~~due~~ attributed partly to ~~the~~ a falling off in the subscriptions to the Hospital and partly to the fact that ~~no portion~~ ~~of~~ the funded capital of the dispensary ~~having~~ was not ~~been~~ drawn on for current expenditure as originally proposed. The receipts from ~~the~~ Private scavenging ~~service~~ show a slight improvement.

1879/80 Rs 366
1880/81 Rs 446.

The collection ~~on account~~ of ~~the usual~~ taxes ~~were~~ was satisfactory except ~~those~~ in the case of the ~~from~~ "Tax on Arts" under which there was ~~[illegible]~~ an uncollected balance of Rs 537 besides a sum of Rs 262 written off as irrecoverable. Information should have been furnished as to ~~of~~ the extent to which coercive measures were resorted to. ~~in the realization of the taxes.~~

The expenditure, excluding License Tax, aggregated Rs 28,562 against an estimate of Rs 31,480 and an actual of Rs 26,446 ~~[illegible]~~ in the previous year and was distributed among the various grants in the following proportions

Grant I	Public Works	24·6
" II	Education	3·6
" III	Sanitation	38·8
" IV	Miscellaneous	20·1
" V	Supervision	12·9

The expenditure on new Works was limited to the partial excavation of a tank at a cost of Rs 200. The repair of roads absorbed Rs 5296

2123/39 14c

and it is reported that notwithstanding the large expenditure incurred under this head during the last two years there are still several ~~other~~ roads ~~that require~~ requiring to be put in order. ~~and that work on some of these will be undertaken in the current year.~~

In regard to Education, municipal action was confined to the payment of pure Results Grants to 3~~4~~ schools and of Salary Grants to a similar number ~~4~~. The attendance at the results grant schools ~~former~~ shows a felt ~~large falling~~ off from

101 to 57, while that at the ~~latter~~ Salary grant schools remained almost ~~stationary~~ the same as in the previous year. Nothing is stated as to the progress of Education in these schools, and the report of the Educational Officer has not been submitted. ~~The progress of Education in these schools is not reported on.~~ The attention of the Commissioners will be specially directed to the importance of improving the education of the town elementary ~~schools in the municipality~~. There ~~is~~ are evidently a large number of unaided ~~private~~ schools ~~in the town~~ which ~~may~~ might be brought under systematic municipal control

control. Statement V shows 28 such schools with an attendance of 505 boys and 130 girls.

The Hospital and dispensary continued to work satisfactorily. The numbers treated fell slightly, from ~~there having been~~ 281 ~~241~~ in and 5712 ~~5,673~~ out patients in the previous year to ~~against~~ 241 ~~281~~ and 5673 ~~5712~~ respectively ~~in the previous year~~. There were 28 cases in which the services of the midwife were ~~sought~~ ~~for~~ required. Nothing whatever was realized from the sale of medicines, which would thus appear to have been supplied gratuitously not only to the poor but also to those who could well afford to pay for them and who can have no claim such individual service ~~[illegible]~~ at the expense of the ratepayers.

and it is reported that the services of a properly-trained midwife are not yet generally appreciated.

The results of Vaccination are said to be still far from satisfactory although there was a small increase in the number of operations. The cost per operation however (4 annas 7 pies) is high

There was a small increase from 690 to 741 in the number of vaccine operati

~~viz 4 annas 7 pies~~ and should be reduced.

The returns of vital statistics show 661 births and 398 deaths against 475 and 656 respectively in the previous year.

~~The~~ Conservancy ~~of the town~~ is reported to have been carefully attended to but the sanitary state of the town is not noticed in the Annual Report of the Civil Surgeon. The latter officer points out several defects in the hospital arrangements at present existing, which will doubtless engage the attention of the Commissioners.

The remaining ~~other~~ items do not call for remark ~~notice~~.

The Auditor recommends that security ~~should~~ be taken from the Manager, but as the Commissioners are unwilling ~~to devise~~ to ~~compel~~ require this in the case of the present incumbent ~~to~~. ~~furnish the security~~.

~~Under these circumstances~~ it seems desirable that arrangements should be made ~~for~~ so that the collections may not pass~~ing~~ through the Manager's hands ~~of the Manager~~. Direct payments ~~by parties~~ into the Treasury may be insisted on

on and as to disbursements ~~grant of cheques~~ ~~will obviate~~ cash transactions ~~in regard~~ may be obviated by the use of cheques. ~~to disbursements.~~

It is ~~noted~~ observed that the contribution for ~~the~~ the additional sanitary inspection was not paid during the year. ~~Under Grant IV~~ In Statement II there is an entry ~~in~~ of ~~Statement II~~ Rs 23-8-7 ~~are entered~~ as ~~having been~~ paid to the Dy. Collector in charge of the

This item should ~~have~~ appeared in the footnote to Statement II as an unpaid liability. ~~Balance footnote~~ Under assets in the same footnote the deposit balance should be included.

the treasury for ~~the~~ controlling Establishment. The entry requires explanation as it ~~seems to be different~~ is evidently distinct from the sum of Rs 31-4 entered under Grant V. ~~Even if different the charges should both appear under Grant V~~. The deposit balance should be included under assets in the foot note to Statement II.
