GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

10th December 1881, No. 2413.

Local Funds—Vaccination.

Read the following papers :—

From H. F. CLOGSTOUN, Esq., Officiating Accountant-General, to the Chief Secretary to Government, dated Fort St. George, 17th November 1881, No. 4518 [Current No. 3195].

Book Department.

I have the honor to bring to the notice of Government that debits are occasionally raised to the Civil Department in the Military Exchange Accounts on account of the value of stores supplied to the Inspector of Vaccination and Deputy Sanitary Commissioner, Madras, by the Principal Medical Storekeeper.

2. It has been the practice hitherto to adjust these charges to the debit of "Provincial—Medical," but I consider this procedure open to objection, as I learn from the Acting Inspector of Vaccination and Deputy Sanitary Commissioner that these articles are obtained by him for supply to Local Funds, Municipalities, and other persons, and that he recovers and credits to Government the value of such supplies as are actually made by him.

3. This department is not furnished with details showing what proportion is recoverable from each Local Fund and Municipality, &c., and is not in a position to watch whether the amounts debited in the Military Exchange Accounts as supplied to the Inspector of Vaccination and Deputy Sanitary Commissioner are eventually recovered.

4. In my letter to Government, No. 1448, dated 15th April 1881, I brought to notice that the Comptroller-General took objection to the method of crediting the Military Department with the value of Medical Stores supplied to Local Funds and Municipalities by debit to an advance head. The supply for the Vaccine Department is analogous, and, as the debits in the Military accounts have at once to be adjusted by this office, the cost is debited by transfer to "Provincial—Medical," which head subsequently receives credit as recoveries are effected.

5. Under the circumstances, I beg to suggest that the system of prepayment by Local Funds and Municipalities on account of Medical Stores required by them, recommended in my letter above quoted, and sanctioned by Government in their Order, No. 956, of 30th May last, Financial, may be adopted also with regard to vaccine supplies.

6. It appears to be the practice for Local Funds and Municipalities to submit indents for vaccine supplies to the Inspector of Vaccination and Deputy Sanitary Commissioner, who makes one general indent on the Principal Medical Storekeeper. The continuance of this procedure does not appear to be advisable, and I would suggest, as indents for Medical Stores are submitted direct by each Local Fund, a similar course be followed in regard to vaccine supplies. The indents should of course be countersigned by the Sanitary Commissioner. On this point I have asked the opinion of the Surgeon-General with the Government of Madras, and he has approved of the arrangement.

7. If the above proposal be approved by Government, the Military Department would discontinue debiting the Civil Department with the value of these supplies, but the amounts actually recovered would be credited in the Treasury accounts to the Military Department, as has been sanctioned in the case of other Medical Stores.

No. 1900.

Referred to the Sanitary Commissioner for remarks.

25th November 1881.

(Signed) E. S. LAFFAN,
Acting Assistant Secretary.

From Deputy Surgeon-General M. C. FURNELL, M.D., F.R.C.S., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated 30th November 1881, No. 3172 [Current No. 3349].

I have the honor, with reference to the endorsement, No. 1900, dated 25th November 1881, on letter, No. 4518, dated 17th November, from the Accountant-General, to state that I quite agree to the proposal of that officer as contained in paragraph 6 of his letter. I would recommend the adoption of the course proposed for the supply of vaccine requirements for Local Fund Boards and Municipalities.

2. The Local Boards should, however, indent for a larger supply than actually required by them to comply with requisitions that may be made independent of their own requirements.

ORDER THEREON, 10th December 1881, No. 2413.

The adoption of the course proposed by the Accountant-General is sanctioned.

(True Extract.)

R. DAVIDSON,
Chief Secretary.

To the Military Department,
" the Accountant-General.
" the Surgeon-General with the Government of Madras,
" the Sanitary Commissioner.

Sir

Returned

I have the honor, with reference to the
Endorsement No 1900 dated 25th November 1881 on
letter No 4518 dated 17th November from the Account-
ant General, to state that I quite agree to the pro-
posal of that officer as contained in para 6 of his
letter. I would recommend the adoption of the course
proposed for the supply of Vaccine requirements for
Local Fund Boards and Municipalities.

The Local Boards should, however, indent for
a larger supply than actually required by them to
comply with requisitions that may be made —
independent of their own requirements.
